

Summary Form for Electronic Document Submittal

Form F

Lead agencies may include 15 hardcopies of this document when submitting electronic copies of Environmental Impact Reports, Negative Declarations, Mitigated Negative Declarations, or Notices of Preparation to the State Clearinghouse (SCH). The SCH also accepts other summaries, such as EIR Executive Summaries prepared pursuant to CEQA Guidelines Section 15123. Please include one copy of the Notice of Completion Form (NOC) with your submission and attach the summary to each electronic copy of the document.

SCH #: _____

Project Title: Anthony Chabot Sewer Line Improvements Project

Lead Agency: East Bay Regional Park District

Contact Name: Edward Willis, Planner

Email: ewillis@ebparks.org Phone Number: 510-544-2621

Project Location: Castro Valley Alameda County
City *County*

Project Description (Proposed actions, location, and/or consequences).

An existing sanitary sewer system serving Anthony Chabot Campground and park facilities is at risk of failure. The existing sewer line crosses San Leandro Creek at the headwaters of Lake Chabot. The project includes installation of a new sewer line that will be located away from San Leandro Creek and Lake Chabot, connect to the Redwood Canyon Golf Course (RCGC) sanitary line and eventually connect with the Castro Valley Sanitary District (CVSan) sewer system. All below ground portions of the existing sewer line would be abandoned in place while above ground portions would be cut and removed. The project includes the installation of a new sewer pipe (8-inch gravity-fed line and a 6-inch force main), construction of two new pump stations with communication towers, abandonment of an existing pipe, and maintenance and repairs of an existing water line.

Identify the project's significant or potentially significant effects and briefly describe any proposed mitigation measures that would reduce or avoid that effect.

Mitigation Measure (MM) BIO-1a: Floristic Surveys for Special-Status Plant Species. MM BIO-1b: Avoid and Minimize Impacts to Special Status Plant Species. MM BIO-2a: Pre-construction Nesting Bird Surveys. MM BIO-2b: Avoidance and Minimization Measures for Special-Status and Nesting Bird Species. MM BIO-3a: Worker Environmental Awareness Training. MM BIO-3b: Seasonal Limitations for special status amphibian and reptile species. MM BIO-3c: Preconstruction Surveys for Special-Status Amphibians and Reptile Species. MM BIO-3d: Avoidance and Minimization Measures for Special-Status Amphibian and Reptile Species. MM BIO-4a: Bat Habitat Assessment. MM BIO-4b: Preconstruction Surveys for Special-Status Bat Species. MM BIO-4c: Avoidance and Minimization Measures for Bats. MM BIO-5a: Preconstruction Surveys for San Francisco Dusky-footed Woodrat. MM BIO-5b: Avoidance and Minimization Measures for San Francisco Dusky-footed Woodrat. MM BIO-6a: Preconstruction Surveys for Crotch's Bumble Bee. MM BIO-6b: Avoidance Minimization Measures for Crotch's Bumble Bee. MM BIO-7: Preconstruction Surveys for Monarch Butterfly. MM BIO-8: Avoidance and Minimization of Riparian Habitat and SNCs. MM BIO-9: Implement the Permit Conditions of the Aquatic Resource Agencies. MM CUL-1a: Stop Work Order. MM CUL-1b: Project Design Changes. MM GEO-1: Stop-work provision. MM HAZ-1: LCMs reported at the RCGC pump station building should not be disturbed. MM HAZ-2: Laboratory Analysis of Suspect Asbestos Materials. MM TCR-1a: Tribal Cultural Awareness Training. MM TCR-1b: Retain Tribal Cultural Monitor. MM TRC-1c: Implement state and local regulations if human remains are discovered.

If applicable, describe any of the project's areas of controversy known to the Lead Agency, including issues raised by agencies and the public.

There are no known CEQA areas of controversy.

Provide a list of the responsible or trustee agencies for the project.

RWQCB, CDFW.
