Project Title: State Abandonment of Orphan Wells Project – Montalvo West

Project Applicant: Department of Conservation, Geologic Energy Management Division

Project Location: Montalvo West Oil Field, approximately 930 N Victoria Ave., Oxnard, Ventura County.

Project Description: The proposed project consists of the plug and abandonment (P&A) of 6 existing orphan wells in Ventura County as part of CalGEM's State Abandonment Program. The proposed work involves well abandonment and decommissioning tanks and other production-related facilities attendant to the wells. For well abandonment, each well will be cleaned out and then plugged with cement and inert mud to surface. After abandonment, the well head will be removed, and any remaining well casings and surface conductors will be cut to just above the bay floor. Once the well bay is clean, it will have suitable fill placed and compacted. The well bay will be encapsulated with impermeable concrete to seal the bay area. These wells are situated within an established oil field setting on private lands.

CalGEM has approved a task order for its contractor to perform the proposed work on the wells listed below. Notices of Intention will be issued to the contractor for administrative purposes only and do not constitute a discretionary approval.

0411100744	34.21237946, -119.22524261
0411100742	34.21237946, -119.22541046
0411100745	34.21238327, -119.22536469
0411100741	34.21238327, -119.22542572

Exempt Status: As the Lead Agency, CalGEM has determined that the proposed project is exempt from full environmental review requirements of the California Environmental Quality Act (CEQA), pursuant to the specified exemptions marked in the section below.

CalGEM further finds that the proposed project would not result in a significant adverse impact to the environment, or that any of the exceptions to the application of the exemptions apply (14 CCR § 15300.2).

Exemption Type		Statute (PRC)	Regulation (14 CCR)	
<input type="checkbox"/>	Statutory Exemption:			
	<input type="checkbox"/> Ongoing Project (<i>pre-CEQA approval on April 5, 1973</i>)	21169	15261 (b)

<input type="checkbox"/>	General Exemption ("common sense")		15061 (b)(3)	
<input type="checkbox"/>	Not a "Project" subject to CEQA		15378 (b)(2)	
<p>CEQA Exceptions to the Exemptions (14 CCR § 15300.2): where project is located (e.g., sensitive environment); Cumulative Impact; Significant Effect due to Unusual Circumstances; Scenic Highways; Hazardous Waste Sites; Historical Resources.</p>				

Reasons Why Project is Exempt: The basis for CalGEM's determination that the project is exempt from the requirements of CEQA is provided in the brief explanation below.

Class 1, Existing Facilities (14 CCR §§ 15301, 1684.1): Class 1 exemption applies as CalGEM's regulations state: "Class 1 consists of the operation, repair, maintenance, or minor alteration of existing public or private structures, facilities, mechanical equipment, or topographical features involving negligible or no expansion of use beyond that existing previously. The Class includes, but is not limited to: remedial, maintenance, conversion, and abandonment work on oil, gas, injection, and geothermal wells...". These abandonments could be considered a minor alteration to the existing facilities because the existing wells will be permanently sealed. After abandonment, the wells
