

Summary Form for Electronic Document Submittal

Form F

Lead agencies may include 15 hardcopies of this document when submitting electronic copies of Environmental Impact Reports, Negative Declarations, Mitigated Negative Declarations, or Notices of Preparation to the State Clearinghouse (SCH). The SCH also accepts other summaries, such as EIR Executive Summaries prepared pursuant to CEQA Guidelines Section 15123. Please include one copy of the Notice of Completion Form (NOC) with your submission and attach the summary to each electronic copy of the document.

Project Title: Williams Road Station PFAS Treatment Facility Project

Lead Agency: City of San Jose - Planning, Building and Code Enforcement Department

Contact Name: Bethelhem Telahun

Email: bethelhem.telahun@sanjoseca.gov Phone Number: 408-535-5624

Project Location: City of San Jose; Santa Clara County

City

County

Project Description (Proposed actions, location, and/or consequences).

Conditional Use permit to develop a new water treatment facility within the existing Williams Groundwater Station site. The proposed treatment facility would have a design capacity of 20,000 gallons per minute and would use ion exchange resin to treat water from the existing groundwater wells located on-site. There would be no change in water use or capacity. The proposed facility would consist of steel treatment vessels under a metal canopy, two water tanks, an electrical and feed pump station building, stormwater bioretention basin and associated infrastructure, a process drain pump station, an emergency diesel standby generator, underground piping to connect the wells and treatment system, and perimeter security fencing and driveway modifications.

Identify the project's significant or potentially significant effects and briefly describe any proposed mitigation measures that would reduce or avoid that effect.

Impact AIR-1: Construction emissions. MM AIR-1.1: Tier 4 Engine Requirements and dust control measures.
 Impact BIO-1 thru 4: Impacts to nesting raptors or other birds, roosting bats, crotch bumble bees, and monarch butterflies from construction activities. MM BIO-1 thru 4: avoidance of sensitive seasons, preconstruction surveys, buffer zones
 Impact CUL-1: Impacts to unrecorded archaeological resources MM CUL-1: Cultural Sensitivity Training
 Impact HAZ-1: Construction activities could expose public and/or the environment to hazardous materials from soil contamination associated with lead-containing paint. MM HAZ-1: Implement SMP, conduct Phase II, obtain regulatory oversight from the Santa Clara County Department of Environmental Health, the Regional Water Quality Control Board or Department of Toxic Substances Control
 Impact NOI-1: Construction noise. MM NOI-1: Construction Noise Monitoring Plan

If applicable, describe any of the project's areas of controversy known to the Lead Agency, including issues raised by agencies and the public.

There are no known areas of controversy for the proposed Project.

Provide a list of the responsible or trustee agencies for the project.

State Water Resources Control Board
