Present Land Use/Zoning/General Plan Designation:

Primary Open Space, Secondary Open Space, Public/Quasi Public Facilities

Project Description: (please use a separate page if necessary)

The City proposes to conduct erosion repair and bank stabilization at two bridge crossings over Big Chico Creek, Rose Avenue and Warner Street, and a third erosion repair site near the intersection of Manzanita and Vallombrosa in the City of Chico. Heavy flows from 2023 winter storms have caused scouring along the banks from the abutments at Rose Avenue and Warner Street Bridges. At the Manzanita and Vallombrosa erosion repair site, the west bank of the creek has significant erosion at the base, creating a "cave" that is exposed during normal flows. Rock slope protection (RSP) will be placed along the areas of scour at all three locations to prevent further damage and reinforce the banks and structures to better withstand future storm events.

Note: The State Clearinghouse will assign identification numbers for all new projects. If a SCH number already exists for a project (e.g. Notice of Preparation or previous draft document) please fill in.

Reviewing Agencies Checklist

Lead Agencies may recommend State Clearinghouse distribution by marking agencies below with and "X".
If you have already sent your document to the agency please denote that with an "S".
