Project Title: PWCP 24-019 HSIP Cycle 11 Enhanced Visibility at Stop Controlled Intersections

Project Location - General: City of Lancaster, County of Los Angeles, State of California

Project Location - Specific: Various Locations in Lancaster; Lancaster, CA; See attached vicinity map & location list

Project Description:

The proposed project involves enhancing the visibility of stop signs, pavement markings, and advance warning beacons at 223 City-maintained, stop-controlled, non-signalized intersections. The intent is to improve intersection visibility in order to reduce the frequency of collisions, particularly at locations where limited sight distance or inadequate visual cues may contribute to crashes. All work will be completed within the existing developed and disturbed areas in existing right-of-way. Specific project locations are shown on the attached vicinity map and location list.
