Project Title: 24-ST-MWSS-Tidewater MNDI (wells 37-23, 38-21, 44-22 of 24 well package)

Project Applicant: Berry Petroleum Company, LLC (B3930)

Project Location: Kern County, Midway-Sunset Oil Field; NW ¼ Section 2, T 31S, R 22E, MD B&M; 35.261703, -119.584657

Project Description: Berry Petroleum Company, LLC proposes to sidetrack 24 existing oil wells in the heavily developed Midway-Sunset oil field to continue resource development. The project will result in a modification of existing wells, consistent with CCR 1684.1. Because the project will be a minor alteration of existing wells, there will be a negligible effect on the environment, consistent with CCR 1684.2. There will be no expansion of the previously approved use of the wells. Upon completion of the proposed work, the wells will be returned to service and produced into the existing facility infrastructure.

The proposed project consists of the California Department of Conservation, Geologic Energy Management Division (CalGEM) approving 24 permit(s) for Berry Petroleum Company, LLC to sidetrack the well(s) listed below, in the Midway-Sunset Oil Field.

API #	Well Name
0403046868	"Unspecified" 37-23
0403063775	"Unspecified" 38-21
0403046789	"Unspecified" 44-22

Exempt Status: As the Lead Agency, CalGEM has determined that the proposed project is exempt from full environmental review requirements of the California Environmental Quality Act (CEQA), pursuant to the specified exemptions marked in the section below. CalGEM further finds that the proposed project would not result in a significant adverse impact to the environment, or that any of the exceptions to the application of the exemptions apply (14 CCR § 15300.2).

Exemption Type		Statute (PRC)	Regulation (14 CCR)	
<input type="checkbox"/>	Statutory Exemption:			
<input type="checkbox"/>	Ongoing Project (<i>pre-CEQA approval on April 5, 1973</i>)	21169	15261 (b)

<input type="checkbox"/>	Not a "Project" subject to CEQA		15378 (b)(2)	
<p>CEQA Exceptions to the Exemptions (14 CCR § 15300.2): where project is located (e.g., sensitive environment); Cumulative Impact; Significant Effect due to Unusual Circumstances; Scenic Highways; Hazardous Waste Sites; Historical Resources.</p>				

Reasons Why Project is Exempt: The basis for CalGEM's determination that the project is exempt from the requirements of CEQA is provided in the brief explanation below.

Class 1, Existing Facilities (14 CCR §§ 15301, 1684.1):

Class 1 consists of the "operation, repair, maintenance, or minor alteration of existing public or private structures, facilities, mechanical equipment, or topographical features involving negligible or no expansion of use beyond that existing previously." This includes "remedial, maintenance, conversion, and abandonment work on oil, gas, injection, and geothermal wells involving the alteration of well casing, such as perforating and casing repair, removal, or replacement; installation or removal of downhole production or injection equipment, cement plugs, bridge plugs, and packers set to isolate production or injection intervals." (14 CCR § 1684.1.) The proposed project would make minor alterations to the well(s), resulting in negligible expansion of use beyond that existing previously. The proposed project and related permit approval is consistent with the laws
