Project Description: (please use a separate page if necessary)

The City of Jackson City Council is considering adoption of a Remedial Action Plan (RAP). The RAP was developed to evaluate potential remedial alternatives for soil impacted by arsenic and other metals at the city owned Oro de Amador property. The site is approximately 160 acres, a large portion of which was historically used for storing mine tailings from the former Kennedy Mine and for retaining waste from the processing of mine tailings at an onsite cyanide plant.

Note: The State Clearinghouse will assign identification numbers for all new projects. If a SCH number already exists for a project (e.g. Notice of Preparation or previous draft document) please fill in.

Reviewing Agencies Checklist

Lead Agencies may recommend State Clearinghouse distribution by marking agencies below with and "X".
If you have already sent your document to the agency please denote that with an "S".
