Summary Form for Electronic Document Submittal

Form F

Lead agencies may include 15 hardcopies of this document when submitting electronic copies of Environmental Impact Reports, Negative Declarations, Mitigated Negative Declarations, or Notices of Preparation to the State Clearinghouse (SCH). The SCH also accepts other summaries, such as EIR Executive Summaries prepared pursuant to CEQA Guidelines Section 15123. Please include one copy of the Notice of Completion Form (NOC) with your submission and attach the summary to each electronic copy of the document.

Project Title: Maintenance Facilities

Lead Agency: Caltrans

Contact Name: Breeanna Kalson

Email: breeanna.kalson@dot.ca.gov Phone Number: 707-672-3593

Project Location: East of Blue Lake and Orleans *City* Humboldt County *County*

Project Description (Proposed actions, location, and/or consequences).

The California Department of Transportation (Caltrans) proposes to replace transportation facilities at two sites in Humboldt County: State Route 299 (SR-299) at PM R7.4 and State Route 96 (SR-96) at PM R38.9. At the first location, the Orleans Maintenance Station in the community of Orleans, Caltrans proposes to replace the existing crew/equipment building replace perimeter fencing, replace the septic leach feild, add fire suppression infrastructure, and install electrical vehicle chargers. At the second location, the Buckhorn truck scale site near the city of Blue Lake, Caltrans proposes to replace the Highway Patrol scale office/shelter, replace a storm water drainage inlet, and replace the weigh scale and scale pad. The project is needed because both the Orleans MS and Buckhorn CVEF are important transportation facilities in rural areas of Humboldt County and both facilities have outdated or poor condition elements.
The project locations were identified on the Cortese List as sites with historic leaking underground storage tanks. Caltrans determined that an Initial Study should be prepared to adequately satisfy the requirements of the California Environmental Quality Act (CEQA) for Cortese List sites.

Identify the project's significant or potentially significant effects and briefly describe any proposed mitigation measures that would reduce or avoid that effect.

No potentially significant impacts were identified. No mitigation measures were included.

If applicable, describe any of the project's areas of controversy known to the Lead Agency, including issues raised by agencies and the public.

No known areas of controversy have been identified.

Provide a list of the responsible or trustee agencies for the project.

California Transportation Commission
