### Project Description

The project would install a prefabricated single-stall restroom at Precita Park and would include new water, sewer and electrical connections that would require 2-foot-deep trenches to install onsite at the park. Additional project improvements include a drinking fountain, a new irrigation and landscape improvements immediately adjacent and around the restroom. Adjacent pedestrian pathways would also need to be regraded and paved to meet ADA requirements. Pathway grading depths will be up to approximately 9 inches.

### Determination

The City and County of San Francisco decided to carry out or approve the project on July 7, 2025 when the San Francisco Planning Department issued the Planning Approval Letter. The project was officially approved on August 7, 2025 when no appeal of the Class 3 Exemption was filed during the 30-day appeal period. A copy

of the documents may be examined at the Planning Department, 49 South Van Ness Avenue, Suite 1400, San Francisco, CA, 94103 in file no. 2025-004835ENV
