Summary Form for Electronic Document Submittal

Form F

Lead agencies may include 15 hardcopies of this document when submitting electronic copies of Environmental Impact Reports, Negative Declarations, Mitigated Negative Declarations, or Notices of Preparation to the State Clearinghouse (SCH). The SCH also accepts other summaries, such as EIR Executive Summaries prepared pursuant to CEQA Guidelines Section 15123. Please include one copy of the Notice of Completion Form (NOC) with your submission and attach the summary to each electronic copy of the document.

Project Title: 2 Phase Warehouse Distribution Project (SPR24-00028)

Lead Agency: City of Hesperia

Contact Name: Leilani Henry

Email: lhenry@hesperiaca.gov Phone Number: (760) 947-1231

Project Location: Hesperia (*City*) San Bernardino (*County*)

Project Description (Proposed actions, location, and/or consequences).

The project proposes a two-phase warehouse facility located in the City of Hesperia. The proposed project site consists of approximately 8.67 acres. The project would be constructed within two phases. Phase 1 of the development would occur on the eastern half of the parcel while Phase 2 would occur on the western half. Phase 1 involves the renovation of a 5,000 square foot office and warehouse building and the development of a 30,000 square foot warehouse, a 14,550 cubic foot retention basin, a solar array, and a 50,526 square foot storage yard. Phase 2 would be developed with a 2,207 square foot office building, a 30,744 square foot warehouse, a solar array, and a 59,697 square foot storage yard. Landscaping would total 53,174 square feet, including 21,412 square feet in Phase 1 and 31,762 square feet in Phase 2. A total of 81 parking spaces would be provided, including 42 spaces in Phase 1 and 39 spaces in Phase 2.

Identify the project's significant or potentially significant effects and briefly describe any proposed mitigation measures that would reduce or avoid that effect.

Air Quality Mitigation Measure No. 1. The Applicant shall prepare and submit to the MDAQMD, prior to commencing earth-moving activity, a dust control plan that describes all applicable dust control measures that will be implemented at the project. Biological Resources Mitigation Measure No. 1. Regardless of the time of year, a pre-construction clearance survey for nesting birds should be conducted no more than three (3) days prior to the start of any vegetation removal or ground disturbing activities to ensure that no nesting birds will be disturbed during construction. Biological Resources Mitigation Measure No.2. Prior to the start of Project activities, focused burrowing owl surveys shall be conducted by a qualified biologist according to the Staff Report on Burrowing Owl Mitigation (CDFG 2012 or most recent version). Cultural Resources Mitigation Measure No. 1. In the event that cultural resources are discovered during project activities, all work in the immediate vicinity of the find (within a 60-foot buffer) shall cease and a qualified archaeologist meeting Secretary of Interior standards shall be hired to assess the find. Work on the other portions of the project outside of the buffered area may continue during this assessment period. Additionally, the Yuhaaviatam of San Manuel Nation Cultural Resources Department (YSMN) shall be contacted, as detailed within TCR Mitigation No. 1, regarding any pre-contact and/or historic-era finds and be provided information after the archaeologist makes his/her initial assessment of the nature of the find, so as to provide Tribal input with regards to significance and treatment.

If applicable, describe any of the project's areas of controversy known to the Lead Agency, including issues raised by agencies and the public.

None at this time.

Provide a list of the responsible or trustee agencies for the project.
