

**CEQA EXEMPTION / NEPA CATEGORICAL EXCLUSION
DETERMINATION FORM FOR MIDDLE-MILE BROADBAND
NETWORK PROJECTS (REV. 4/2025)**

Project Information

Project Name (if applicable): Middle-Mile Broadband Network Hub Shelters No. 10 & 103

DIST-CO-RTE: 02-LAS-395

PM/PM: 49.5/49.9 & R109.6/R110.4

EA: 02-4J621

Federal-Aid Project Number: N/A

Project Description

The California Department of Transportation (Caltrans), in coordination with the California Department of Technology, proposes to construct two middle-mile broadband network hub shelters to provide transmission and amplification of broadband signals. Network hub shelters no. 10 and 103 are located on State Route (SR) 395 in Lassen County. Network hub shelter no. 10 would be constructed between post mile (PM) 49.5 and PM 49.9 and network hub shelter no. 103 would be constructed between PM R109.6 and PM R110.4 (continued on page 4).

Caltrans CEQA Determination (Check one)

- Not Applicable** – Caltrans is not the CEQA Lead Agency
- Not Applicable** – Caltrans has prepared an IS or EIR under CEQA

Based on an examination of this proposal and supporting information, the project is:

- Exempt by Statute.** (PRC 21080.51)
- Categorically Exempt. Class** Enter class. (PRC 21084; 14 CCR 15300 et seq.)
 - No exceptions apply that would bar the use of a categorical exemption (PRC 21084 and 14 CCR 15300.2). See the [SER Chapter 34](#) for exceptions.
- Covered by the Common Sense Exemption.** This project does not fall within an exempt class, but it can be seen with certainty that there is no possibility that the activity may have a significant effect on the environment (14 CCR 15061[b][3].)

DETERMINATION FORM FOR MIDDLE-MILE BROADBAND
NETWORK PROJECTS (REV. 4/2025)**

Caltrans NEPA Determination

Caltrans has determined this project meets the conditions set forth below and therefore is categorically excluded from the requirements to prepare an EA or EIS under NEPA, provided the following conditions are met:

- The action is required in order to implement a project that is part of the California Middle-Mile Broadband Network;
- The Federal Action consists of: Approval of a non-highway use of the right-of-way/grant of a right-of-way use agreement or utility installations along or across a transportation facility;
- The action does not, either individually or cumulatively, have any significant environmental impacts as described in 23 CFR 771.117(a);
- The action does not involve unusual circumstances as described in 23 CFR 771.117(b):
 - Significant environmental impacts;
 - Substantial controversy on environmental grounds;
 - Significant impact on properties protected by Section 4(f)¹ requirements or Section 106 of the National Historic Preservation Act; or
 - Inconsistencies with any Federal, State, or local law, requirement or administrative determination relating to the environmental aspects of the action.
- The action can be authorized under a Section 404 Nationwide Permit or Regional General Permit 23 issued for the California Middle-Mile Broadband Network. Sufficient information to issue a Wetlands Only Practicable Alternative Finding must be included in the CE documentation;
- The action would not significantly encroach on the base floodplain and no impacts to the natural and beneficial floodplain values are anticipated; and
- The action would not impact the features or attributes of a designated scenic river that make it eligible for inclusion in the National System of Wild and Scenic Rivers published by the U.S. Department of Interior/U.S. Department of Agriculture;
- The action does not require any U.S. Coast Guard construction permits;
- The use of this CE certifies that the project has been evaluated and is designed to prevent unauthorized releases of hazardous materials. Caltrans would maintain compliance with the Department of Toxic Substances Control (DTSC) Soil Management Agreement for Aerially Deposited Lead-Contaminated Soils effective July 1, 2016, and that there are no known Cortese sites within the project footprint based on a record search;
- The action does not require formal Section 7 Consultation for effects to federally listed or proposed species or critical habitat (likely to adversely affect determination for any species or critical habitat), or can be covered under an

¹ Middle-Mile Broadband Network Projects are not considered transportation projects and therefore exempt from the requirements of 23 CFR 774

**CEQA EXEMPTION / NEPA CATEGORICAL EXCLUSION

NETWORK PROJECTS (REV. 4/2025)**

existing Programmatic Biological Opinion or the Programmatic Biological Opinion/Programmatic Letter of Concurrence for Middle-Mile Broadband Network activities; and

- The action is consistent with the State's Coastal Zone Management Plan, if applicable.

The proposed project(s) are in compliance with Title VI of the Civil Rights Act of 1964.

23 USC 326: Caltrans has been assigned, and hereby certifies that it has carried out the responsibility to make this determination pursuant to 23 USC 326 and the Memorandum of Understanding dated April 18, 2022, executed between FHWA and Caltrans. Caltrans has determined that the project is a Categorical Exclusion under:

- 23 CFR 771.117(c): activity (c)(2)²**
- 23 CFR 771.117(d): activity (d)(Enter activity number)**
- Activity Enter activity number listed in Appendix A of the MOU between FHWA and Caltrans**

DETERMINATION FORM FOR MIDDLE-MILE BROADBAND
NETWORK PROJECTS (REV. 4/2025)**

Continuation Sheet:

Purpose:

This Middle-Mile Broadband Network project would install the broadband infrastructure along the State Highway System (SHS) necessary to connect to a third-party operated Last Mile Broadband Network which would bring internet connectivity to homes, businesses, and community institutions.

Need:

In July 2021, California Governor Gavin Newsom signed into law Senate Bill (SB) 156 to create an open-access middle-mile network to bring high-speed broadband service to all Californians.

The lack of available middle-mile broadband infrastructure has been a major issue in connecting California's communities. The statewide open-access middle-mile network included in SB 156 is a foundational investment to ensure every Californian has access to broadband internet service that meets the connectivity needs of today, and well into the future. This project intends to support providing critical statewide broadband infrastructure to enhance access to and increase the affordability of high-speed internet for all Californians.

Scope of Work

Work includes the following at each hub network location:

- Placement of temporary traffic control devices and signage.
- Removal of minor vegetation.
- Construction of one (1) approximately 13.75-foot-wide-by 21.5-foot-long concrete network hub shelter foundation
- Construction of one (1) approximately 12-foot-wide by 20-foot-long network hub shelter building.
- Installation of 30-inch-wide by 48-inch-long by 36-inch-deep pull vaults
- Installation 48-inch-wide by 48-inch-long by 48-inch-deep splice vaults.
- Installation of two-inch diameter high-density polyethylene conduit.
- Installation of conductor cables and fiber optic cables.
- Installation of one (1) approximately 6-foot-wide by 18-foot-long underground 1,000-gallon propane tank.
- Construction of one (1) approximately 5-foot-wide by 11-foot-long concrete pad for generator and installation of one (1) 80-kilowatt generator at network hub shelter no.10 and one (1) 60-kilowatt generator at network hub shelter no. 103.
- Installation of one (1) chain link fence approximately 8-foot-tall by 50-feet-wide by 50-feet-long at network hub shelter no. 10 and installation of one (1) chain link fence approximately 8-foot-tall by 32-feet-wide by 61-feet-long at network hub shelter no. 103.
- Installation of one (1) 8-foot-tall by 12-foot-wide chain link gate.

**CEQA EXEMPTION / NEPA CATEGORICAL EXCLUSION
DETERMINATION FORM FOR MIDDLE-MILE BROADBAND
NETWORK PROJECTS (REV. 4/2025)**

- Construction of one (1) paved driveway approximately 11-foot-wide by 28-foot-long at network hub shelter no. 10 and construction of (1) paved driveway approximately 21-foot-wide by 100-foot-long at network hub shelter no.103.
- Installation of one (1) service equipment enclosure for electrical service.
- Trenching for new electrical service approximately 12-inch-wide by 40-inch-deep. Approximately 200 linear feet for electrical trench and 1,800 linear feet for fiber optic trench at network hub shelter no. 10 and approximately 500 linear feet for electrical trench and 3,400 linear feet for fiber optic trench at network hub shelter no. 103.
- Installation of permanent security lighting.
- Installation of conduit and fiber optic cable from network hub shelters no. 10 and 103 to splice vaults located at two (2) existing mainline fiber tie-ins.
- Placement of gravel mulch or concrete for vegetation control.
- Application of temporary and permanent erosion control.

Right of Way/Staging

All work would occur within the existing Caltrans right of way. Staging and storage would occur at or adjacent to the proposed network hub shelter locations within the Caltrans right of way.

Disposal/Borrow

No material disposal or borrow sites are needed. Excess excavated material would be reused onsite for network hub shelter construction.

Consultation/Coordination

Consultation was conducted with numerous Native American Tribes. No issues have been currently identified.

Permits/Approvals

No environmental permits or approvals would be required.
