Re: Amendments to SCH Number 2025090078

To Whom It May Concern,

This memorandum is to the State Clearinghouse to request that SCH number 2025090078 be removed from publication so that there can be a reassessment of the scope of work. We are considering refiling under a different category of exemption, with the California Department of Fish and Wildlife (CDFW) Director's concurrence, to utilize Statutory Exemption for Restoration Projects (SERP). This may involve including specific language in the Notice of Exemption.

Project Title: Wildfire Resilience Project – Wildwood Canyon SPP
Location: Wildwood Canyon Park Property
County: San Bernardino

Description of the Nature and Purpose of the Project:

The Project would involve the implementation of manual, mechanical, and prescribed burning (pile and broadcast burning) vegetation management treatments to reintroduce beneficial fire to the landscape and strategically reduce fuels, with the goals of moderating future wildfire severity on approximately 161 acres of the 840-acre Park and restoring native, fire-adapted plant communities. Proposed treatments include prescribed fire, prescribed fire with manual or mechanical site preparation, infrastructure protection via manual removal of vegetation, and manual treatment with a track chipper and/or pile burning with a prescribed fire.

If you have any questions or wish to discuss this matter, please contact me at 951-436-4526 or Jacqueline.Borboa@parks.ca.gov.

Sincerely,

Jacqueline Borboa
District Environmental Coordinator
Inland Empire District
