Project Title: Santa Clara High School Pool Lighting Project

Project Applicant: Santa Clara Unified School District

Project Location - Specific:

Pool area at Santa Clara High School, 3000 Benton Street, Santa Clara, CA 95051

Project Location - City: Santa Clara Project Location - County: Santa Clara

Description of Nature, Purpose and Beneficiaries of Project:

The District is proposing to install lights at the school's existing pool. The project also includes renovation of the pool area including replastering of pool and replacement of tiles, replacement of pool deck, Americans with Disabilities Act (ADA) entry with stairs and lift added to pool, replacement of underwater lighting, timing systems, PA speakers, replacement of diving boards and starting blocks, replacement of scoreboard, replacement of fencing and gates, replacement and new lighting, replacement of bleachers with addition of new shade structure overhead, addition of new outdoor showers, and ADA upgrades as required by the Division of the State Architect.

Name of Public Agency Approving Project: Santa Clara Unified School District

Name of Person or Agency Carrying Out Project: Santa Clara Unified School District

Exempt Status: (check one):

- Ministerial (Sec. 21080(b)(1); 15268);
- Declared Emergency (Sec. 21080(b)(3); 15269(a));
- Emergency Project (Sec. 21080(b)(4); 15269(b)(c));
- Categorical Exemption. State type and section number: 15302 Replacement or Reconstruction and 15303 New Construction
- Statutory Exemptions. State code number: _____

Reasons why project is exempt:

The proposed project would renovate and add new lighting to an existing high school pool site. The project involves negligible or no expansion of use as the project renovations and lighting aren't intended to increase rentals or add night events, but to improve safety and allow current evening activities to finish without being cut short due to darkness. The school anticipates that the same users (students and rental groups) that are currently accommodated will use the pool following the installation of the lighting. There is no associated increase in classrooms or student capacity at the site. Therefore, the improvements are considered non-capacity increasing, would replace existing facilities and would consist of only minor new construction.
