Subject: Filing of Notice of Determination in compliance with Section 21108 or 21152 of the Public Resources Code.

RES-BCT and Regional Water Reclamation Facility Solar Development Project
Project Title

<u>SCH #2025090815</u>	<u>Danny Friend, Director of Operations</u>	<u>(760) 329-6448</u>
State Clearinghouse Number	Lead Agency Contact Person	Area Code/Telephone/Extension

Project Location:

The Mission Springs Water District (MSWD or District) service area is located in southern California within the northwestern portion of the Coachella Valley. The project will occur within several parcels owned by the District along Little Morongo Road, at and just north of the Nancy Wright Regional Water Reclamation Facility (RWRF). The project is generally located at 19011 Little Morongo Road, Desert Hot Springs, CA 92240, and surrounds the existing photovoltaic system owned by the District. The project is located within the USGS Topo 7.5-minute map for Desert Hot Springs, CA, and is located in Section 14, Township 3 South and Range 4 East. The approximate GPS coordinates of the project area are 33.911291°, -116.528833°.

Project Description:

As part of the District's continued development of the Nancy Wright Regional Wastewater Reclamation Facility [Nancy Wright RWRF], the District has determined that its operations would be best served with expanded solar generation to the north of the Nancy Wright RWRF site. Thus, the District will serve as the CEQA lead agency for the proposed project, which would involve installation of ground mounted solar to the north and west of the existing solar plant located at the northwest intersection of 19th Avenue and Little Morongo Road. The first photovoltaic system would be installed in support of the existing RES-BCT site (north of the existing photovoltaic system along Little Morongo Road) and would be sized at 3,585 kilowatts (kW) (the system's Direct Current [DC] system rating). The second photovoltaic system would be installed in support of the Nancy Wright RWRF site (west of the existing photovoltaic system along 19th Avenue), and would be sized at 392.04 kW (the system's DC system rating). Each of the proposed solar facilities will require installation of associated transmission lines and electrical appurtenances. Construction of this project is anticipated to begin in Quarter 4 of 2025, and conclude in (approximately) the second quarter of 2026. The photovoltaic systems at the Nancy Wright RWRF and RES-BCT would generate a combined 3.97 megawatt of electricity per day.

This is to advise that the Mission Springs Water District has approved the above described project on

NOTICE OF DETERMINATION

Page 2 of 2

1. The project [☐ will ☒ will not] have a significant effect on the environment.
2. ☐ An Environmental Impact Report was prepared for this project pursuant to the provisions of CEQA.
☒ A Mitigated Negative Declaration was prepared for this project pursuant to the provisions of CEQA.
3. Mitigation measures [☒ were ☐ were not] made a condition of the approval of the project and a Mitigation Monitoring and Reporting Plan was adopted.
4. A Statement of Overriding Considerations [☐ was ☒ was not] adopted for this project.
5. Findings [☐ were ☒ were not] made pursuant to the provisions of CEQA.

This is to certify that the Mitigated Negative Declaration/Initial Study and record of project approval is available to the general public at:

Mission Springs Water District located at 66575 Second Street, Desert Hot Springs, CA 92240 and online at mswd.org/solarceqa
