☐ No Effect Determination (From CDFW)

Project Description

The San Francisco Public Utilities Commission is proposing the Cherry Valley Dam Spillway Short-Term Improvement Project. The project would rehabilitate a segment of the existing unlined spillway discharge channel that receives Cherry Valley Dam spillway flows and directs the water toward Cherry Creek, in a generally north-south orientation. Debris from landslides on steep side slopes along the discharge channel has obstructed the channel and caused the spillway flows to be diverted east toward the Cherry Power Tunnel Adit entrance and public dispersed camping areas. The project would restore the alignment of the discharge channel to its original north-south orientation. Cherry Valley Dam and Lake are west of Lake Eleanor and Hetch Hetchy Reservoir in Tuolumne County, California, approximately 12 miles directly north of California State Route 120 or 23 miles north via Cherry Lake Road.

Determinations

The City and County of San Francisco decided to carry out or approve the project administratively on January 6, 2026, on which date the SFPUC project manager also adopted the Mitigated Negative Declaration, CEQA findings, and the Mitigation Monitoring and Reporting Program. Since there were no appeals of the Preliminary Mitigated Negative Declaration, there is no appeal of the Final Mitigated Negative Declaration. A copy of the document(s) may be examined at Planning Department, 49 South Van Ness Avenue, Suite 1400, San Francisco, CA, 94103 in Case Number 2022-000353ENV.

1. A Mitigated Negative Declaration has been prepared pursuant to the provisions of CEQA. It is available to the public and may be examined at the Planning Department at the above address.
2. A determination has been made that the project in its approved form will not have a significant effect on the environment.
3. Mitigation measures were made a condition of project approval for the project.
4. A mitigation and monitoring reporting program was adopted for this project.
5. A statement of overriding considerations was not adopted for this project.
6. Findings were made pursuant to the provisions of CEQA.
