

Summary Form for Electronic Document Submittal

Form F

Lead agencies may include 15 hardcopies of this document when submitting electronic copies of Environmental Impact Reports, Negative Declarations, Mitigated Negative Declarations, or Notices of Preparation to the State Clearinghouse (SCH). The SCH also accepts other summaries, such as EIR Executive Summaries prepared pursuant to CEQA Guidelines Section 15123. Please include one copy of the Notice of Completion Form (NOC) with your submission and attach the summary to each electronic copy of the document.

Project Title: Auto Lube Facility (CUP25-00001)

Lead Agency: City of Hesperia

Contact Name: Edgar Gonzalez

Email: egonzalez@hesperiaca.gov Phone Number: (760) 947-1330

Project Location: Hesperia San Bernardino
City *County*

Project Description (Proposed actions, location, and/or consequences).

The proposed project would require the approval of a Conditional Use Permit (CUP25-00001) to construct a 1,515 square foot drive-thru oil change building with three service bays on a 1.01 acre lot within the Neighborhood Commercial (NC) zone of the Main Street and Freeway Corridor Specific Plan located on the south side of Main Street, approximately 575 feet west of Ninth Avenue. The Project is subject to a Conditional Use Permit by the City of Hesperia (CUP25-00001).

Identify the project's significant or potentially significant effects and briefly describe any proposed mitigation measures that would reduce or avoid that effect.

Air Quality Mitigation Measure No. 1. The Applicant shall prepare and submit to the MDAQMD, prior to commencing earth-moving activity, a dust control plan that describes all applicable dust control measures that will be implemented at the project. Air Quality Mitigation Measure No. 2. The Applicant shall ensure that signage, compliant with Attachment, is erected at each project site entrance not later than the commencement of construction. Biological Resources Mitigation Measure No. 1. Pre-construction surveys for burrowing owls, desert tortoise, and nestir protected under the Migratory Bird Treaty Act and Section 3503 of the California Fish and Wildlife Code may be conducted prior to the commencement of future ground disturbance. Appropriate survey methods and timing shall be established, to ensure that chances of detecting the target species are maximized. In the event that target species, such as the desert tortoise, are encountered, authorization from the USFWS and CDFW must be obtained. If nesting birds are detected, avoidance measures shall be implemented to ensure that nests are not disturbed until young have fledged. Pre-construction surveys shall encompass all areas within the potential footprint of disturbance for the project, as well as a reasonable buffer around these areas. Cultural Resources Mitigation Measure No. 1. In the event that cultural resources are discovered during project activities, all work in the immediate vicinity of the discovery (within a 60-foot buffer) shall cease and a qualified archaeologist meeting Secretary of Interior standards shall be contacted to assess the find. Work on the other portions of the project outside of the buffered area may continue during the assessment period. Additionally, the Yuhaaviatam of San Manuel Nation Cultural Resources Department (YSMCRD) shall be contacted, as detailed within TCR-1, regarding any pre-contact finds and be provided information after the archaeologist makes his/her initial assessment of the nature of the find, so as to provide Tribal input with regard to significance and treatment.

If applicable, describe any of the project's areas of controversy known to the Lead Agency, including issues raised by agencies and the public.

None at this time.

Provide a list of the responsible or trustee agencies for the project.
