Description of Nature, Purpose, and beneficiaries of project: California Water Service (CWS) is proposing to drill a well at a property located on the east side of 7<sup>th</sup> Avenue, south of Huntington Lane (APN: 035-380-059-000). The proposed well is critical to the water supply of the Oroville water system and is needed to mitigate the increasing unreliability of the water supply as drought conditions affect surface water availability. After the well is drilled, site improvements will be constructed including installation of electrical service and equipment, vertical turbine well pump and controls, a pump building, and water treatment.
