Project Title: Enterprise Bridge Seismic Retrofit - Anchor Bolt Repair

Project Applicant: Department of Water Resources

Project Location - Specific:

**Bridge No. 12C0199 South Fork Feather River - 758 Lumpkin Rd, Oroville, CA 95966**

Project Location - City: Oroville Project Location - County: Butte

Description of Nature, Purpose and Beneficiaries of Project:

The Enterprise bridge constructed in 1965 consists of three spans totaling approximately 1,150' long. The bridge deck is constructed of cast-in-place concrete with two supporting steel trusses spanning from pier-to-pier, or pier-to-abutment. The truss depth is variable from approximately 36'-0" at the piers to 24'-0" at both the ends and at the middle span. The trusses sit on fixed bearings at the center piers and rocker bearings at the ends. At abutments 1 and 4, all anchor bolts at all bearing points are sheared off, 8 total bolts. These anchor bolts are critical for ensuring the structural stability of the bridge

Name of Public Agency Approving Project: Department of Water Resources

Name of Person or Agency Carrying Out Project: Ahilan Selladurai

Exempt Status: **(check one):**

- Ministerial (Sec. 21080(b)(1); 15268);
- Declared Emergency (Sec. 21080(b)(3); 15269(a));
- Emergency Project (Sec. 21080(b)(4); 15269(b)(c));
- Categorical Exemption. State type and section number: Class 1, Existing Facilities, Section NO. 15301(b)
- Statutory Exemptions. State code number: \_\_\_\_\_

Reasons why project is exempt:

The State Water Project provides significant and important services to many Californians. This project is exempt because it involves routine maintenance activities. This project will not result in impacts to special status species or habitat. The Categorical Exemption Class 1 will be used for CEQA compliance as this activity will be implemented without environmental impacts.
