Description of Nature, Purpose and Beneficiaries of Project:

This project will install security fencing in priority areas along the Capitol Corridor route where trespassing poses the greatest risk to service and local communities. Trespassing has serious safety and operational impacts, and the fencing is expected to reduce collisions with trespassers, enhancing safety for both the communities and the railroad.

[X] Categorical Exemption. State type and section number: Class 1: Existing Facilities, Subsection C
Statutory Exemptions. State code number:

Reasons why project is exempt:

This project qualifies for a Class 1(c) Categorical Exemption under CEQA because it involves the installation of security fencing along existing railroad rights-of-way. Class 1 covers the operation, repair, maintenance, and minor alteration of existing public facilities involving negligible or no expansion of use. The fencing enhances safety along the railroad without changing its operational function, footprint, or capacity. Since the project does not expand or intensify the railroad's use but rather provides a safety enhancement to existing facilities, it is consistent with the intent and scope of the Class 1 exemption.
