Attention: Mr. Jason Holt

Subject: **Update Phase I Environmental Site Assessment: *Fontana Walnut 393 Project,* 34 Contiguous Parcels, *29*± Acres on Knox Avenue Between South Highland Avenue and Walnut Street, APN's 0228-051-01, -14, -15, -16, -17, -19, -20, -21; 0228-052-01 & -25 through -27; 0228-061-02 through -14 &-16 through -18 and -20 through -25; and 0228-311-05, Fontana, San Bernardino County, California 92336**

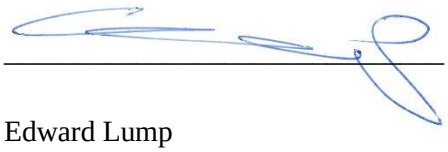

Dear Mr. Holt:

Petra Geosciences, Inc. (Petra) presents this update Phase I Environmental Site Assessment for the above-referenced site. This updated assessment has been conducted in accordance with our Amendment Request No. 2, dated September 20, 2024, and in conformance with the scope and limitations of the standards set forth in the American Society for Testing and Materials (ASTM) Practice E 1527-21, the EPA's All Appropriate Inquiry (AAI) regulations 40 CFR Part 312, and (to a lesser extent) ASTM Practice E1527-13.

This opportunity to be of service to you is sincerely appreciated. Please do not hesitate to call this office if you have questions pertaining to this report.

Respectfully submitted,

PETRA GEOSCIENCES, INC.

Edward Lump
Associate Geologist

Siamak Jafroudi, PhD
Senior Principal Engineer

Fontana, San Bernardino County, California 92336

INTRODUCTION

The information presented in this updated report includes the results of our recent site reconnaissance, a review of pertinent literature, and recent federal, state, and local government agency records. Our field reconnaissance, data gathering and compilation was performed by Mr. Edward Lump, Associate Geologist, and oversight by Dr. Siamak Jafroudi President and Principal Engineer.

SITE DESCRIPTION AND GENERAL INFORMATION

1. The subject property is mostly vacant land located on Knox Avenue, between S. Highland Avenue on the north and Walnut Avenue on the south in the City of Fontana San Bernardino County, California. The site is bounded by vacant and residential land to the north with S. Highland Avenue beyond; residential tract development to the east; Walnut Street to the south; and residential tract development to the west. A vacant mobile classroom trailer is located in the northern portion of the subject site west of Knox Avenue. Concrete rubble and a thin rectangular concrete slab were observed north of the mobile trailer. Seven square and rectangular concrete slabs were observed east – southeast of the asphalt-paved south end of Knox Avenue. No obvious markers were observed delineating the individual lot/parcel boundaries. A site location map is included as Figure 1.

2. The subject site is comprised of 34 contiguous parcels of approximately 29-acres with Assessor Parcel Numbers (APNs) 0228-051-01, -14, -15, -16, -17, -19, -20, -21; 0228-052-01, and -25 through -27; 0228-061-2 through -14, -16 through -18, and -20 through -25; and 0228-311-05. A plan showing recent surface conditions of the subject site is included as Figure 2.

3. At the time of our recent field reconnaissance, the site was predominantly vacant land with the exception of a vacant mobile classroom trailer and occupied residence located in the northern portion of the subject site. Additionally, at least five concrete slabs were observed in the northern portion of the site. The site slopes gently to the south with existing elevations on the order of 1,480 feet above mean sea level (msl) to 1,440 feet above msl (USGS, 2012). A drop in surface elevation along most of the width of the subject property exists in the southern third of the site. This topographic difference appeared to have been created by grading. A decrease in surface vegetation is also noted.

   Vehicular access to the subject site is from the north via Knox Avenue. Vacant offsite land exists at the southeast corner of Knox Avenue and S. Highland Avenue. Vacant land at the southwest corner of Knox Avenue south of S. Highland Avenue is a part of the subject property. One single family residence on the west side of Knox Avenue (6622 Knox Ave.) is a part of the subject property; however, two homes on the east side of Knox Avenue are not a part of the subject property. Brick wall fragments were observed in an irregular-shaped hole onsite near the southwest corner of the residence on the west side of Knox Avenue. An earthen berm was observed on the west side of Knox Avenue south of the residence, and where the asphalt pavement ends. Vegetation management (i.e., discing) appeared to have been completed recently. Healthy trees and large shrubs were no longer observed in proximity to

multiple concrete slabs in the northern portion of the subject property. Concrete slabs consisted of both on-grade and raised-floor. Minor flooring cover remnants were observed. A headwall with two partially buried storm drain inlet pipes were observed at the north end of a small asphalt pad located south of the pavement end of Knox Avenue. White plastic surface markers with reflector tops were noted along the southeast edge of improved Knox Avenue extending south, which appeared to end near the inlet pipes and headwall. Thin dry weeds were noted covering small mounds scattered throughout the subject site, which contained oversize boulders, concrete fragments, rock and concrete wall fragments, and/or tree stumps. A stockpile of dumped concrete and asphalt was also noted north of the fenced mobile classroom trailer in the north portion of the subject property. A dirt road continues off the southeastern paved portion of Knox Avenue to the east toward offsite residences. A vehicle and debris piles, apparently associated with one of the offsite residences along the east site boundary, appears to encroach onto the subject property. A chain link fence is along the southern boundary with Walnut Street. The fence has been locally damaged since our last site visit in June 2024. What appears to be an east-west orientated cut slope, less than 4 feet in height, exists along the north edge of Parcel 31 (APN 0228-061-25). Thin dry vegetation was observed along this berm.

4. The newly added parcel to the subject property contains a single-family residence at 6622 Knox Avenue (APN 0228-051-20). The one-story house appears to consist of wood-frame and concrete slab on grade construction and attached garage. The exterior is stucco, and roofing consists of asphalt shingles. A covered patio was noted on the rear of the house. Two wooden storage sheds were observed at the rear fence. A plastic storage shed was noted off the north side of the patio. A small structure of unknown use is located in the southeast corner of the fenced lot. Minimal landscape vegetation was observed in the front yard. Virtually no landscape vegetation was noted in the side or rear yards except for a few potted plants, small trees, and flowering bushes outside the south fence. Multiple vehicles were noted in the front driveway area during our June 2004 site visit; however, no vehicles were noted during our recent site walk. What appeared to be non-hazardous debris was noted in the north side yard. A fire hydrant exists at or near the southeast corner of the lot. It is likely that fill soils were placed to elevate the residence no more than five feet above the surrounding adjacent grades. It is our understanding that the residence was built sometime in 1984. A pre-demolition asbestos survey on the house is recommended; however, because the Gomez home was constructed after 1971 when lead-based paint was banned, a Lead survey is not recommended.

   Two currently vacant parcels, identified as APNs 0228-051-14-0000 and -15-0000, were previously added to the northeast portion of the proposed development. Historically, a former house (1966 to 1994) and two small sheds (1977 to 1994) occupied APN 0228-051-15-0000, which is the parcel north of the Gomez residence.

5. Very minor windblown trash was observed on the subject property. Debris along the eastern site boundary was limited to a localized pile of non-hazardous trash/debris likely associated with the offsite neighbor. Minor trash was observed inside the fence along Walnut Avenue. Dumped household trash and debris previously noted along the block wall marking the west subject site boundary with a residential tract is no longer present, except for minor debris in the southwest corner of the property. A recent dumped pile of landscape waste and carpet was observed on Knox Avenue near the mobile school classroom. Due to the public nuisance lien recorded by the City of Fontana in 2002, attention was given to observe surface property conditions in the vicinity of the former residence at 6691 Knox Ave. (APN 0228-061-21-0000). No vehicles or auto parts were noted in the area. Although not readily detectable due to recent weed abatement disturbing surficial soils, no petroleum products or unusual surface staining was observed.

6. No water wells were observed on site during our reconnaissance.

7. A storm drain inlet grate was observed in the southwestern corner of the subject property. A partially buried headwall and two exposed storm drain pipes were observed at the north end of an asphalt pad in the north central portion of the subject site.

8. Overhead power lines and pole mounted transformers were observed along the eastern site boundary during our site reconnaissance. Pole mounted transformers appeared to be in good condition with no ground surface staining. What appeared to be a telephone/cable riser was observed near the southernmost pole with a transformer. Wooden poles with overhead lines were also observed along the northeastern portion of the subject property. Wooden power poles with transformers were also observed offsite along the improved east edge of Knox Avenue.

9. Information obtained during this assessment indicated that the subject property appeared to have been mostly undeveloped land with native vegetation from at least 1938 to the present. One or two buildings were noted in an aerial photograph within the northeastern portion of the subject site from at least 1949. The number increased to four by 1953. Two runways associated with Gilfillan Airport were observed directly west of the subject property also in 1953. The surrounding land was either undeveloped, residential or (to a lesser extent) agricultural. Five (or possibly 6) buildings were observed in the northeast corner of the subject site in 1959. One residence was also noted onsite in 1959, on the west side of Knox Avenue near the north central property boundary. The north runway of the adjacent airport was marked an "X" and "CLOSED" in 1959. In 1966, there appeared to be three buildings in the northeast area of the subject site, and one along Knox Avenue. In 1985, the south portion of the subject property was cleared of vegetation and contained what appeared to be stockpiled material (soils or vegetation). The area may have also been mass graded. The onsite residence on Knox Avenue may have had a swimming pool in 1985. Also in 1985, both runways west of the subject site were labeled with an "X" (i.e., closed). In 1990, the swimming pool was readily noticeable, and the stockpile on the south portion of the subject property was no longer visible.

   Sometime between 1994 and 2002, the airport west of the subject site, was replaced by a residential housing tract. By 2002 or 2005, the swimming pool appeared to be backfilled. In 2002, only one building was observed in the northwest corner of the subject site and one building onsite along Knox Avenue. By 2009, buildings were removed from the subject property and only concrete slabs were visible. From 2012 through 2023, no significant changes were observed within the subject property limits.

10. A Superfund site exists in the industrial area of Rialto northeast of the subject property. The site, identified as "Rockets, Fireworks, and Flares" included soil and groundwater contamination. Groundwater contamination has spread to the south and east as shown in Figure E within this text. The site contains three operable units. Based upon known groundwater conditions, the plume does not underly the subject property nor does it encroach into the immediate vicinity of the subject property. It is not anticipated that the known plume poses an impact to groundwater beneath the subject property at this time.

11. No sites were identified in our search of various government agency database records, which appear to have impacted the soil or groundwater beneath the subject site.

12. There was no evidence of drums, above ground tanks, underground tanks, sumps, pits, pools, or lagoons identified within the subject property boundary during our site assessment.

RECOGNIZED ENVIRONMENTAL CONDITIONS

Recognized environmental conditions are defined by the American Society of Testing and Materials (ASTM) as any hazardous substance or petroleum product under conditions that indicate an existing, past, or material threat of release into the structures, ground, groundwater, or surface water at the subject site. If the presences of recognized environmental conditions are identified on a subject site, it may warrant additional research, site assessment, and/or action.

- No REC's have been identified within or affecting the subject property.

Controlled recognized environmental conditions (CREC'S) are defined by the American Society of Testing and Materials (ASTM) Practice E 1527-21 as a recognized environmental condition resulting from the past *release* of *hazardous substances* or *petroleum products* that has been addressed to the satisfaction of the applicable regulatory authority (i.e., as evidenced by the issuance of a no further action letter or equivalent, or meeting risk-based criteria established by regulatory authority), with *hazardous substances* or *petroleum products* allowed to remain in place subject to the implementation of required controls. For example, if a leaking underground storage tank has been cleaned up to a commercial use standard but does not meet unrestricted residential cleanup criteria; this would be considered a controlled recognized environmental condition. The "control" is represented by the (inferred) restriction that the property remains commercial.

- No CREC's have been identified within or affecting the subject property.

Historical recognized environmental conditions (HREC'S) are defined by the American Society of Testing and Materials (ASTM) Practice E 1527-21 as a past release of any *hazardous substances or petroleum products* that has occurred in connection with the *property* and has been addressed to the satisfaction of the applicable regulatory authority or meeting unrestricted use criteria established by a regulatory agency, without subjecting the *property* to any required controls (i.e., *property* use restrictions, *activity and use limitations, institutional controls* or *engineering controls*).

- No HREC's have been identified within or affecting the subject property.

We have performed a Phase I Environmental Site Assessment in general conformance with the scope and limitations of ASTM Practice E 1527-21 for the subject property, APNs 0228-051-01, -16, -17, -19, -20, -21; 0228-052-01, and -25 through -27; 0228-061-2 through -14, -16 through -18, and -20 through -25; and 0228-311-05, located on Knox Avenue, between Walnut Street and S. Highland Avenue, in the City of Fontana, San Bernardino County, California. Any exceptions to, or deletions from, this practice are

described in the section titled data gaps of this report. This assessment has revealed no evidence of recognized environmental conditions in connection with the subject property at this time.

SITE CONSIDERATIONS

The items presented below are not considered recognized environmental conditions in accordance with ASTM E 1527-21. Although these items may warrant consideration in conjunction with any planned development activities, they are not recognized environmental conditions. The information regarding possible actions relative to these items has been provided as guidance.

1. A pre-demolition asbestos survey is recommended on the Gomez residence at 6622 Knox Avenue.

2. With re-development of any previously developed property that is currently vacant land, a certain amount of unknown subsurface conditions may be anticipated. Any discolored soils, noxious odors, buried conduits, and/or other buried objects/debris encountered during clearing and grubbing, or future grading and development should be left in place until an experienced environmental professional (such as Petra) has had the opportunity to evaluate the conditions and provide recommendations if needed.

3. It is recommended that all debris and trash observed on the subject site be removed and disposed of in accordance with current local, state, and federal disposal regulations.

4. Onsite sewage disposal systems may be present in proximity to the multiple concrete slabs observed in the northeastern portion of the subject property, the former house at the northwest corner of Knox Avenue and S. Highland Avenue, and in the former residence area in the southeast portion of the subject property. An effort should be made to uncover these systems during demolition. Buried utilities should be followed to locate septic tanks, seepage pits, and/or leach line fields. These septic systems should be properly abandoned in accordance with current San Bernardino County guidelines.

INTRODUCTION

The information presented in this updated report includes the results of our recent field reconnaissance, a review of various federal, state, and local government agency records, and a review of historic aerial photographs and topographic maps for the site and vicinity. This report includes a summary of our findings, our opinion as to the current environmental condition of the site, and recommendations for additional work, if needed.

Purpose

This assessment was conducted to determine if any recognized environmental conditions exist on the subject site. Recognized environmental conditions are defined by the American Society for Testing and Materials (ASTM) as any hazardous substance or petroleum product under conditions that indicate an existing, past, or material threat of release into the structures, ground, groundwater, or surface water at the subject site.

This assessment is also intended to satisfy the requirement for conducting all appropriate inquiries into the previous ownership and uses of a property for the purposes of meeting the all appropriate inquiries provisions necessary to qualify for certain landowner liability protections under the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA).

We have performed this assessment in general conformance with the scope and limitations of the standards set forth in the ASTM Practice E 1527-21, the EPA's All Appropriate Inquiry (AAI) regulations 40 CFR Part 312.

Involved Parties

This report was prepared by Petra Geosciences, Inc. (Petra), at the request of Fontana Investment 2023 LLC and Diversified Pacific Communities , for their exclusive use. Use of this report or reliance thereon by other parties or projects is not authorized. The report may not be suitable for other parties or other purposes.

SCOPE OF ASSESSMENT

The scope of this assessment included the following:

1. Performing a site reconnaissance to identify the current conditions and land use of the subject site and adjoining properties, during which visual evidence of prior uses of the subject site and adjoining properties were noted. The site reconnaissance included an observation of the site surface and the site perimeter. Representative photographs of our site walk is provided in Appendix A.

2. Researching historical land use of the subject site and vicinity by reviewing available historical aerial photographs, United States Geologic Survey (USGS) topographic maps, fire insurance maps, city directories, and other reasonably ascertainable maps and data (Appendix C).

3. Review a Preliminary Title Search document for one of the add-on parcels at 6622 Knox Avenue, Fontana (APN 0228-051-20) by Ticor Title, dated September 3, 2024, provided by the client (Appendix E).

4. Conducting a search for Environmental Liens and Activities and Use Limitations (AULs) back to 1980 for one of the property parcels (Appendix C).

5. Performing a cursory review of local and regional geological conditions as they pertain solely to commenting of recognized environmental conditions for the site.

6. Obtaining and reviewing a search of pertinent federal, state, and local regulatory agency databases concerning environmental conditions on and in the vicinity of the site (Appendix C). As specified in the ASTM and AAI standards, the following databases were searched using, at a minimum, the recommended search radius:

   - Federal National Priority List (NPL) site list,
   - Federal Delisted NPL site list,
   - Federal Comprehensive Environmental Response, Compensation, and Liability Information System (CERCLIS) site list,
   - Federal CERCLIS- No Further Remedial Action Planned (CERC-NFRAP) site list,
   - Federal Resource Conservation and Recovery Act Information (RCRA) Corrective Action Report (CORRACTS) facilities list,
   - Federal RCRA non-CORRACTS Treat, Store and Dispose (RCRA-TSD) facilities list,
   - Federal RCRA generators list,
   - Federal institutional control/engineering control registries,
   - Federal Emergency Response Notification System (ERNS) list,
   - State and tribal lists of hazardous waste sites identified for investigation or remediation including: State- and tribal-equivalent NPL, State, and tribal-equivalent CERCLIS lists,
   - State and tribal landfill and/or solid waste disposal site lists,
   - State and tribal leaking storage tank lists,
   - State and tribal registered storage tank lists,
   - State and tribal institutional control/engineering control registries,
   - State and tribal voluntary cleanup sites, and
   - State and tribal Brownfield sites.

In the interest of thoroughness, numerous non-ASTM and non-AAI required databases were also searched (Appendix B). These databases are listed and discussed in the database search included within this report.

7. Contacting and interviewing knowledgeable persons, such as property owners, managers, and representatives of local government agencies regarding historical site use and current site conditions, if possible.

8. Evaluating the presence of recognized environmental conditions at the subject site through visual observation and research of reasonably ascertainable records. Recognized environmental conditions may include the presence of hazardous materials, petroleum products, underground storage tanks, above ground storage tanks, drums, chemical containers, polychlorinated biphenyls (PCB's), liquid or solid wastes, oil wells, and areas indicative of potential contamination including stained soils and/or pavement, stressed vegetation, drains, sumps, pits, ponds, lagoons, odors, and septic systems.

9. Preparing this report presenting the results of our assessment.

10. Non-Scope Items. In addition to those items discussed above, several items outside the scope of ASTM Standard E 1527-21 and AAI will be addressed in this assessment. The non-scope items include:

    a. Cursory visual examination of the site for the potential presence of asbestos containing materials. Please note this is not a survey for these materials.

    b. Cursory visual examination of the site for the potential presence of lead-based paint. Please note this is not a survey for these materials.

Unless listed above, this assessment does not include any testing or sampling of materials (such as an assessment for the potential presence of methane or radon, asbestos or lead-based paints, or the sampling and testing of soil, soil vapor, air, surface water, or groundwater). This assessment does not include evaluating the site for the presence of wetlands, regulatory compliance, or other items beyond the scope of ASTM E 1527-21 or 40 CFR Part 312, nor is it an assessment for vapor intrusion as defined by ASTM E 2600-15.

SITE OVERVIEW

According to the California Department of Conservation, Geologic Energy Management Division (CalGEM) Online Mapping System (2024), the site is located within Township 01 North, Range 06 West, Section 36, San Bernardino Base and Meridian. Site elevations range across the mostly level site from approximately1,480 feet above mean sea level (msl) to 1,440 feet above msl (USGS, 2012). A site location map is included as Figure 1.

The subject site is comprised of 34 contiguous parcels of approximately 30-acres with Assessor Parcel Numbers (APNs) 0228-051-01, -14, -15, -16, -17, -19, -20, -21; 0228-052-01, and -25 through -27; 0228-061-2 through -14, -16 through -18, and -20 through -25; and 0228-311-05. The subject property is a generally rectangular-shaped vacant site with one occupied residence located at 6622 Knox Avenue, between S. Highland Avenue and Walnut Street in the City of Fontana San Bernardino County, California (see Figure A below). The site is bounded by residential and vacant land to the north with the 210 Freeway beyond; residential tract homes to the east with Almeria Avenue beyond; Walnut Street to the south with residential tract development beyond; and residential tract development to the west. No obvious markers were observed delineating the individual site parcel boundaries. An aerial photograph showing the configuration of the subject property is attached as Figure 2.

PREVIOUS LAND USE

Information obtained during this assessment indicated that the subject property appeared to have been mostly undeveloped land with native vegetation from at least 1938 to the present. One or two buildings were noted in an aerial photograph within the northeastern portion of the subject site from at least 1949. The number increased to four by 1953. Two runways associated with Gilfillan Airport were observed directly west of the subject property also in 1953. The surrounding land was either undeveloped, residential or (to a lesser extent) agricultural. Five (or possibly 6) buildings were observed in the northeast corner of the subject site in 1959. One residence was also noted onsite in 1959, on the west side of Knox Avenue near the north central property boundary. The north runway of the adjacent airport was marked an "X" and "CLOSED" in 1959. In 1966, there appeared to be three buildings in the northeast area of the subject site, and one along Knox Avenue. It is our understanding that the Gomez residence, located on the west side of Knox Avenue, was constructed in 1984. In 1985, the south portion of the subject property was cleared of vegetation and contained what appeared to be stockpiled material (soils or vegetation). The area may have also been mass graded. The former onsite residence on Knox Avenue, south of the Gomez residence, may have had a swimming pool in 1985. Also in 1985, both runways west of the subject site were labeled with an "X" (i.e., closed). In 1990, the swimming pool was readily noticeable, and the stockpile on the south portion of the subject property was no longer visible.

Sometime between 1994 and 2002, the airport west of the subject site was replaced by a residential housing tract. By 2002 or 2005, the onsite swimming pool appeared to be backfilled. In 2002, only one building was observed in the northwest corner of the subject site and two buildings onsite along Knox Avenue. By 2009, buildings were removed from the subject property, except the Gomez residence, and only concrete slabs were visible. From 2012 through 2024, no significant changes were observed within the subject property

limits except vegetation management. Historical information reviewed during this assessment includes aerial photographs (dating back to 1930), USGS topographical maps (dating back to 1896), and interviews. EDR reports that there is no Sanborn™ Map coverage for the site vicinity.

PREVIOUS REPORTS

A Phase I ESA report by Soils Southwest, Inc. (dated August 29, 2005), a Phase I ESA report, and Phase I Addendum report for the subject site by The Planning Center (both dated July 1, 2008) was provided to Petra for review during this assessment. This report is summarized below. Also reviewed was the DTSC's "No Further Action" concurrence on a majority of the site, which consists of the subject property (DTSC, 2008). Petra also reviewed potential environmental concerns associated with facilities in proximity to the subject property via electronic reports, maps, and/or databases (Appendix B). Information from our review is incorporated into this report.

- *Soils Southwest, Inc., 2005, Report of Phase I Environmental Site Assessment (ESA), Proposed 122-Lot Single Family Tract 17365, Highland Ave. at Knox Ave. Terminus, Fontana, California, dated August 29.*

  Executive Summary

  A Phase I Environmental Site Assessment was performed in accordance with American Society of Testing and Materials (ASTM) E-1527-00, Standards and Practices for Environmental Site Assessment. The findings of this investigation are based upon review of historical land use activities, governmental agency records, visual site inspections, and client/site interviews. Environmental Data Resources, Inc. (EDR) conducted a search of available records. The report meets the governmental records search requirements of ASTM Standards and Practices for Environmental Site Assessment, E-1297-00. Search distances are per ASTM standards.

  The location of the site is stated as South Highland and Knox, in the City of Fontana, County of San Bernardino, State of California. The site is located on approximately 26.95 acres of land. The current status of the property is undeveloped with four single family dwellings located on Knox.

  In the investigation and during the physical inspection of the Site, it was found that (i) no obvious major environmental concern(s) appear(s) to exist, (ii) medium environmental concern(s) appear(s) to exist, (iii) no minor environmental concern(s) appear(s) to exist, (iv) the potential for contamination of the subject property by on or off-site sources appears low, (v) no underground or aboveground tank(s) exist according to historical records: (Septic tanks were not assessed), (vi) PCB sampling is not recommended, (vii) presence of asbestos is not visually recognized, not test samples were taken for asbestos, (viii) no hazardous or potentially hazardous materials are stored on-site.

  No site(s) of concern are adjacent to the property. Based on the conclusions presented in this report, it is the opinion of Soils Southwest, Inc. that "additional investigation is warranted." The consultant recommended additional testing around the four single family dwellings (on Knox) and along the boundary fence at Almeria. *(Petra: Environmental sampling and analysis of near-surface soil samples is addressed in the Phase I Addendum below.)*

- *The Planning Center, 2008, Phase I Addendum for: Proposed Middle School No. 8.75, Between S. Highland Anue and Walnut Avenue, West of Almeria Avenue, Fontana, California, dated July 1.*

Executive Summary

This document presents a Phase I Addendum Report for the Proposed Middle School No. 8.75 (site) located between S. Highland Avenue and Walnut Avenue, west of Almeria Avenue, in the City of Fontana, San Bernardino County, California. This Phase I Addendum Report was prepared by The Planning Center on behalf of Fontana Unified School District (District) pursuant to the California Education Code which requires that all new school sites obtain a "No Further Action" (NFA) determination from the California Environmental Protection Agency Department of Toxic Substances Control (DTSC) prior to proceeding with acquisition and/or construction of a school.

Sampling was conducted using the DTSC's Interim Guidance for Evaluating School Sites with Potential Soil Contamination as a result of Lead from Lead-Based Paint, Organochlorine Pesticides from Termiticides, and Polychlorinated Biphenyls from Electrical Transformers (June 2006). The soil sampling was conducted on January 22, 2008. A lead-based paint and OCP investigation in soil was conducted for the southern portion of the subject site to address possible usage of lead-based paint and termiticides for 10 former structures (6 former houses, 3 former garages and 1 former shed). This report summarizes the lead and organochlorine testing results and is an addendum to the 2008 Phase 1 report for the following parcels: APN 051-17, -18, 052-26, 061-22, -02,-03, -25.

The northern parcels that have not been tested for lead and OCPs will be tested following land acquisition. Testing will be conducted following acquisition at the following parcels: 6622 Knox Avenue located on APN 051-20 for lead and pesticides at two structures; 6631 Knox Ave located on APN 52-04 for lead and pesticides at one structure, 6661 Knox Ave located on APN 052-02 for lead and pesticides at two structures. The four pole mounted transformers located on APN 052-24, APN 052-05, and APN 311-12 will be tested for PCBs following acquisition of the parcels. (*Petra: The residence at 6622 Knox Avenue was constructed in 1984. Asbestos was mostly banned in 1989, and Lead-based paint was banned in 1978. In addition, DDT was banned in 1971 and other OCPs were banned in the 1980's. The only building remaining is the Gomez parcel at 6622 Knox Avenue, and the subject property near S. Highland Avenue was disturbed during construction during fill placement. Soil disturbance has occurred around former buildings pads as a result of usual weed management operations. Furthermore, detected OCP concentrations found in near surface soil around other buildings within the property were reported at least 100 times below the DTSC residential Screening Level [SL]. We do not concur that sampling and soil analysis for lead and OCPs is required at all former and existing buildings in the northern portion of the property. A pre-demolition asbestos survey should be considered on the Gomez residence at 6622 Knox Avenue).*

The approximately 40-acre subject site consists of vacant land located between S. Highland Avenue and Walnut Avenue, west of Almeria Avenue in Fontana, California. In general, the surrounding area is primarily residential with residential dwellings located to the east and west and residential dwellings and vacant land located to the north and south.

Soil sampling to assess potential lead-based paint and organochlorine pesticide impacts from termiticide applications to soil at the site was conducted on the site in accordance with the guidelines provided by the DTSC in the in the PEA Guidance Manual (DTSC 1999) and the Interim Guidance for Evaluating School Sites with Potential Soil Contamination as a result of Lead from

Lead-Based Paint, Organochlorine Pesticides from Termiticides, and Polychlorinated Biphenyls from Electrical Transformers (DTSC 2006).

The sampling program and results are summarized below:

- A total of 112 soil samples plus 12 duplicates were collected to assess potential impacts from lead and termiticides from the six former houses, three garages, and one shed.

- A total of 56 soil samples (plus six duplicates) were collected on January 22, 2008 at a depth of surface to 0.5 feet below ground surface [bgs] to characterize surface soil. In addition, a total of 56 soil samples (plus six duplicates) were collected on January 22, 2008 at a depth of 2.5 to 3.0 feet bgs to characterize subsurface soil. Samples were collected from areas near the former buildings with the highest likelihood of lead and pesticide accumulations.

- Soil samples were composited in the laboratory and analyzed for organochlorine pesticides by U.S. Environmental Protection Agency (EPA) Method 8081A to evaluate the possible impact to soil from termiticides.

- Twenty-five composite soil samples (sixteen from the surface and nine from 2.5 to 3.0 feet bgs) and two composite duplicates were analyzed for organochlorine pesticides.

- Fifty-seven discrete soil samples and seven duplicates were analyzed for lead.

- Surface soil samples were analyzed discretely for lead by a laboratory using EPA Method 6010B to evaluate the possible impact to soil from lead-based paint in building materials.

- One discrete surface soil sample was analyzed for polychlorinated biphenyls by EPA Method 8082 to evaluate the possible impact to soil from a pole-mounted transformer on the eastern margin of the site.

- 4,4-DDE and 4,4'-DDT were detected above the laboratory reporting limit on site.

- One or both organochlorine pesticides were detected in eight out of twenty-five composite samples on site. The highest concentration of 4, 4'-DDE was 6.1 micrograms per kilogram [µg/kg] (0.0061 mg/kg) detected in composite sample B-67, B-68, B-69@0.5. The highest concentration of 4, 4'-DDT was 8.4 µg/kg (0.0084 mg/kg) detected in composite sample B-27, B-28, B-29, B-30@0.5.

- Comparison of the highest detected concentrations of the potential chemicals of concern (COCs) two pesticides) to California Human Health Screening Levels (CHHSLs) indicates the analytes do not pose a significant risk to human health. (*Petra: CHHSLs are no longer used as screening levels).*

  Petra compared the two highest reported concentrations of 4,4'-DDE and 4,4'-DDT with DTSC's [2022] Screening Levels [SLs] for Residential Use at 2.0 milligrams per kilogram [mg/kg] for DDE and 1.9 mg/kg for DDT. The detected concentrations are at least 100 times below the SLs.

- Lead was detected in fifty-four out of fifty-five samples above laboratory reporting limits. For the fifty-four discrete surface soil samples with detections, lead concentrations ranged from 1.1 milligrams per kilogram [mg/kg] to 160 mg/kg. All surface soil samples analyzed were below DTSC's lead screening value of 255 mg/kg for school sites. (*Petra: DTSC's non-cancer end point for Lead is currently 80 mg/kg. USEPA's current Regional Screening for Lead in residential soil is 200 mg/kg.)*

- Polychlorinated biphenyls were not detected in the soil sample collected beneath the pole-mounted transformer on the southeastern margin of the site.

  Lead based paint and organochlorine pesticide testing of soil was conducted in the southern parcels of the proposed school site following DTSC's guidance for evaluating lead-based paint and organochlorine pesticides at the proposed school site.

  Lead and organochlorine pesticide concentrations in soils on site were detected below levels of concern. Per education code Section 17213.1, Section 3, and the results of the Phase I Addendum, The Planning Center concludes that further investigation of the following parcels is not necessary: APN 051-17, -18, 052-26, 061-22, -02,-03, -25. *(Petra: a copy of the sample location map is provided below in Figure B.)*

  Petra: we evaluated current US EPA residential land use Regional Screening Levels (RSLs) (May 2024) and DTSC residential land use Screening Levels (SLs) (May 2022) for organochlorine pesticides (OCPs) and Lead in soil. Reported levels of detectable OCPs are at least 100 times below the DTSC SLs. 63 of the 64 soil samples previously collected and analyzed from a depth of 0.5 foot below the ground surface do not exceed DTSC's SL for Lead residue. One sample analyzed for Lead was collected from the former garage slab in the southeastern corner of the subject property. Reported test results of 160 mg/kg from this sample exceeds the SL of 80 mg/kg but not the RSL of 200 mg/kg for residential land use. The remaining reported concentrations of Lead residues in near surface soils do not exceed the SL and RSL for residential land use.

  Based upon our recent site walk, the house and garage slabs previously sampled in the southeastern portion of the subject property are no longer present. Furthermore, the southern portion of the subject property appears to have been mass graded, disturbing and diluting surficial soils by normal grading operations. While information specific to the mass grading is not available, it appears that this portion of the subject property was "cut" to existing surface elevations. Therefore, near surface soils previously sampled and analyzed have been disturbed and likely removed from their previous location.

➢ *DTSC, 2008, Approval of Phase I Environmental Site Assessment Addendum, Fontana Unified School District, Proposed Middle School No. 8.75, Cross Streets are South Highland Avenue and Walnut Avenue, West of Almeria Avenue, Fontana, San Bernardino County, dated October 24.*

The Department of Toxic Substances Control (DTSC) reviewed the "Phase I Site Assessment Report and Phase I Addendum" (Phase I and Addendum) (The Planning Center, July 2008), received on August 11, 2008. DTSC received additional information on September 5, 2008, September 15, 2008 and October 20, 2008, in response to DTSC's e-mail requests dated September 5 and September 12, 2008.

According to the Phase I Addendum, the 40-acre site is currently vacant with the exception of three existing residential dwellings. For the purpose of the Phase I, the site was divided into Areas A, B and C. Area A and C includes 33.5 acres and Area B includes 5.6 acres (see Figure C). Based on the findings of the Phase I Environmental Assessment conducted for the site, the only recognized environmental conditions at the site are asbestos containing material (ACM), lead from lead-based paint, organochlorine pesticides (OCPs) from termiticide application and Polychlorinated Biphenyls (PCBs) from electrical transformers for Areas A, B and C. The Phase I Addendum presents the findings of the soil investigation for lead, OCPs, and PCBs in Area A. The Phase I Addendum includes the results from lead, PCBs and OCP concentrations do not present a health risk to future users of the school and recommends no further action for Area A.

Although information regarding ACM was not provided in the Phase I or Phase I Addendum, the Fontana School District (District) is responsible for complying with federal, state, and local requirements for mitigation, management, or removal of ACM.

Based on the information provided and a site visit conducted by DTSC on September 5, 2008, neither a release of hazardous material nor the presence of a naturally occurring hazardous material, which would pose a threat to public health or the environment under unrestricted land use, was indicated for Areas A and C. DTSC concurs with the conclusion that further environmental investigation of the site is not required in Areas A and C and hereby approves the Phase I Addendum. However, Area B requires further investigation to determine impacts to the site from historical uses of the site. *(Petra: DTSC's comments are based upon a higher standard of caution for school sites not necessarily applicable to residential development. Given the laboratory test results reported in the Planning Center's 2008 report, which were associated typically with older buildings than in the north, it is Petra's opinion that additional sampling and analysis is not warranted.)*

The District requested partial site approval for Area A (33.5 acres). California Education Code section 17213.2(f) requires the following conditions be met before such approval is granted:

1. The portions of the site (which are to be approved) have been fully characterized.
2. DTSC determines that the construction (on the approved portion of the site) will not interfere with any response of hazardous materials, or presence of any naturally occurring hazardous materials.
3. The site conditions will not pose a significant threat and safety of workers involved with construction.

DTSC has determined the conditions specified above have been met and hereby grants partial site approval for Area A of the site as depicted in the enclosed Figure 4 (see Figure C).

Pursuant to Education Code section 17213.2, subdivision (e), if a previously unidentified release or threatened release of a hazardous material or the presence of a naturally occurring hazardous material is discovered anytime during construction at the site, the District shall cease all construction activities at the site and notify DTSC. Additional assessment, investigation or cleanup may be required.

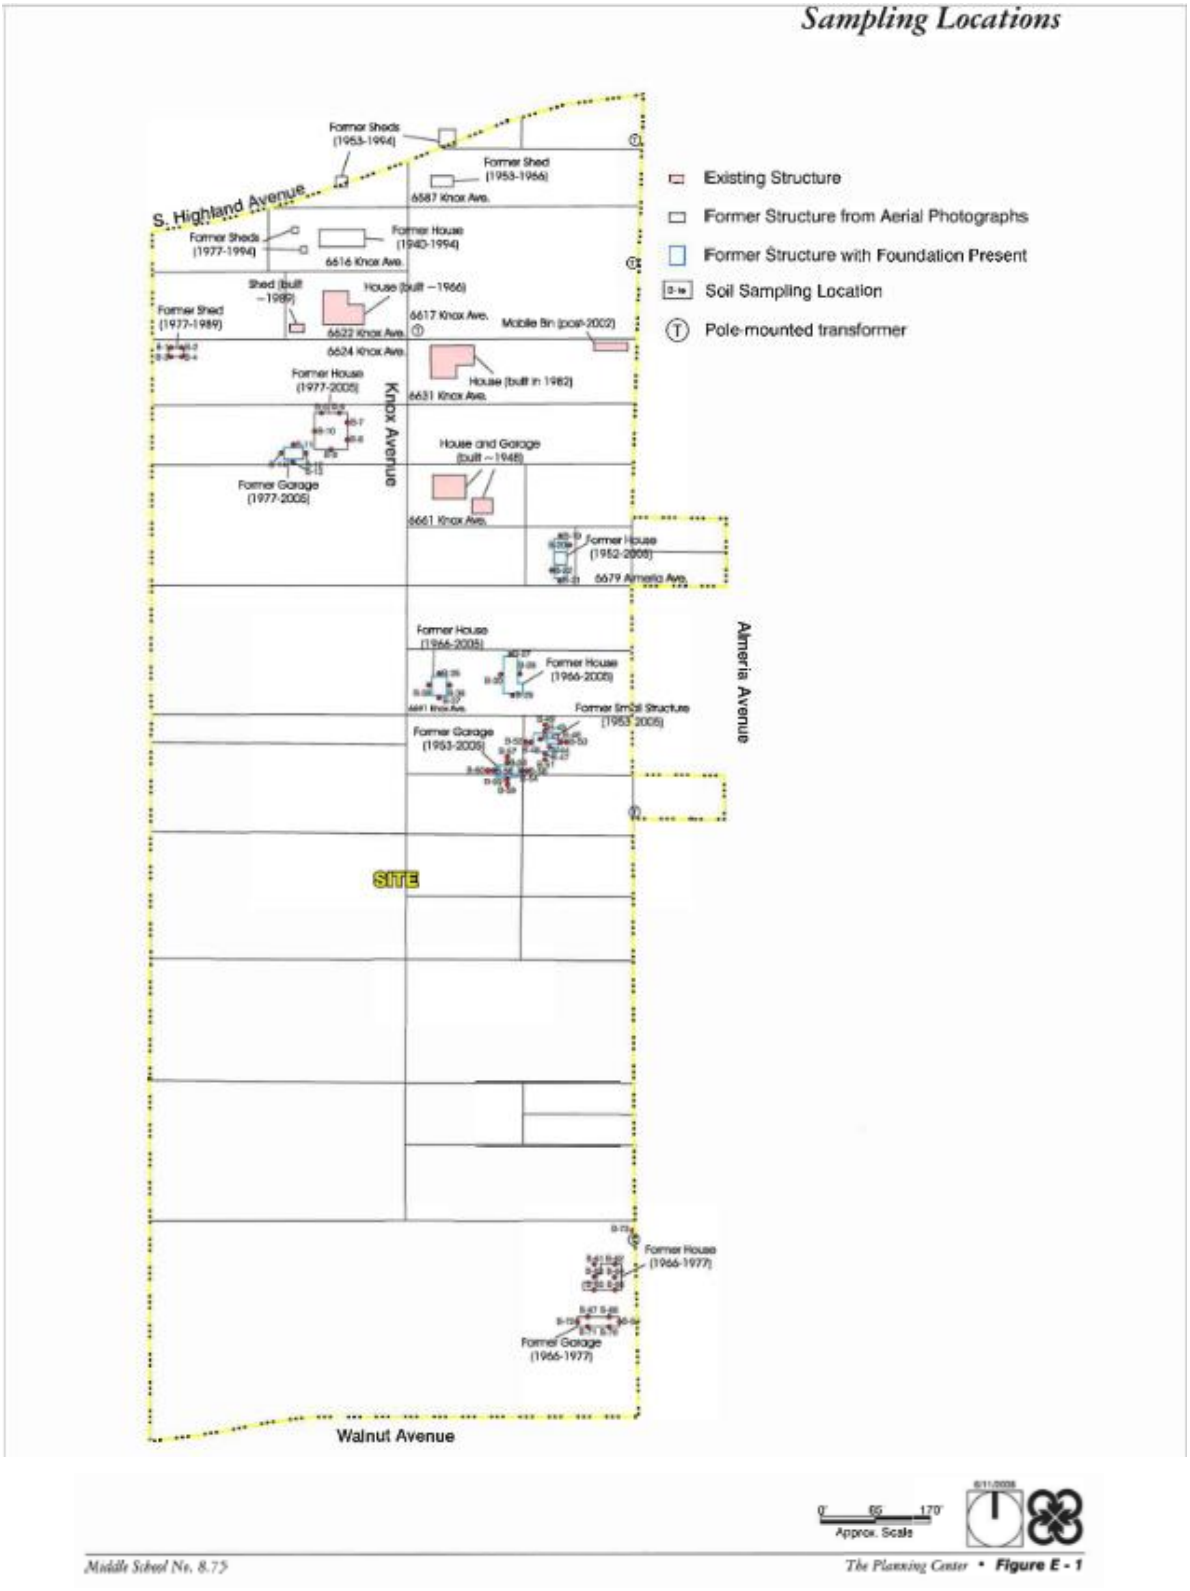

Figure A: Sample Location Map (The Planning Center, 2008)

- *Petra Geosciences, Inc., 2023, Phase I Environmental Site Assessment: District Property 1, 32 Contiguous Parcels, 28.7 Acres on Knox Avenue South of South Highland Avenue, APN's 0228-051-01, -16, -17, -19, -21; 0228-052-01 & -25 through -27; 0228-061-02 through -14 & -16 through -18 & -20 through -25; and 0228-311-05, Fontana, San Bernardino County, California 92336, dated August 18.*

Site Description and General Information

1. The subject property is mostly vacant land located on Knox Avenue, between S. Highland Avenue on the north and Walnut Avenue on the south in the City of Fontana San Bernardino County, California. The site is bounded by vacant and residential land to the north with S. Highland Avenue beyond; residential tract development to the east; Walnut Street to the south; and residential tract development to the west. A vacant mobile classroom trailer is located in the northern portion of the subject site west of Knox Avenue. Concrete rubble and a thin rectangular concrete slab were observed north of the mobile trailer. Seven square and rectangular concrete slabs were observed east – southeast of the asphalt-paved south end of Knox Avenue. No obvious markers were observed delineating the individual lot/parcel boundaries.

2. The subject site is comprised of 34 contiguous parcels of approximately 29-acres with Assessor Parcel Numbers (APNs) 0228-051-01,-14, -15, -16, -17, -19, -21; 0228-052-01, and -25 through -27; 0228-061-2 through -14, -16 through -18, and -20 through -25; and 0228-311-05.

3. At the time of our field reconnaissance, the site was vacant land with the exception of a vacant mobile classroom trailer located in the northern portion of the subject site. The site slopes gently to the south with existing elevations on the order of 1,480 feet above mean sea level (msl) to 1,440 feet above msl (USGS, 2012). A drop in surface elevation along the entire width of the subject property exists in the southern third of the site. This topographic difference appeared to have been created by grading. A decrease in surface vegetation is also noted.

4. Vehicular access to the subject site is from the north via Knox Avenue. Five offsite vacant parcels and three occupied residences exist along the north end of Knox Avenue south of S. Highland Avenue. An earthen berm was observed where the asphalt pavement ends. Vegetation management (i.e., discing) appears to have been recently completed over most of the subject property. Established weeds were noted locally along the east and west subject property boundaries. Trees, large shrubs, and tall weeds were observed in proximity to multiple concrete slabs in the northern portion of the subject property. Slabs consisted of both on-grade and raised-floor. Minor flooring cover remnants were observed. A headwall with two partially buried storm drain inlet pipes were observed at the north end of a small asphalt pad located south of the pavement end of Knox Avenue. White plastic surface markers with reflector tops were noted along the southeast edge of improved Knox Avenue extending south, which appeared to end near the inlet pipes and headwall. Thick weeds were noted covering mounds scattered throughout the subject site. These mounds appeared to contain oversize boulders, concrete fragments, rock and concrete wall fragments, and/or tree stumps. A stockpile of dumped concrete and asphalt was noted north of the fenced mobile classroom trailer in the north portion of the subject property. A dirt road continues off the southern paved portion of Knox Avenue to the east toward offsite residences. A vehicle and debris piles, apparently associated with one of the offsite tract residences, may encroach slightly onto the subject property beyond the northeastern subject property boundary. A chain link fence is along the southern boundary with Walnut Street. An east-west orientated earthen berm exists along the

north edge of Parcel 31 (APN 0228-061-25). Overgrown vegetation was observed along this berm.

5. Windblown trash and debris were commonly observed in the northwestern portion of the subject property, exposed by recent vegetation management. Occasional rubber tires were observed throughout the subject property. Except for occasional landscape waste, debris along the eastern site boundary was minor. Dumped household trash and debris was common along the block wall marking the west subject site boundary. The largest concentration of trash and debris was observed in the southwest portion of the subject property. Trash and debris consisted on paper, cardboard, plastic containers, minor glass bottles, aluminum cans, concrete and brick fragments, empty food containers, carpet, and minor empty 5-gallon buckets. Due to the public nuisance lien recorded by the City of Fontana in 2002 (discussed in Item 6 below), attention was made to observe surface property conditions in the vicinity of the former residence at 6691 Knox Ave. (APN 0228-061-21-0000). No vehicles or auto parts were noted. Although not readily detectable due to weed cover, no petroleum products or unusual surface staining was observed.

6. In review of the EDR Environmental Lien and AUL Search 1980 on one of the subject property parcels (EDR, 2023f), environmental liens and "Other Activity and Use Limitations" (AULs) were not found. Under miscellaneous documents, one *Notice of Lien Contaminated Property* recorded on January 3, 2002 was found. The Notice of Lien Claim was filed by the City of Fontana regarding the property at 6691 Knox Avenue, Fontana, California (APN 0228-061-21-0000).

   The nuisance that was abated was: "substandard property maintenance conditions including dead or dying vegetation, shrubs, trees or lawn, accumulations of junk, trash, debris, used secondhand materials, hazardous materials, inoperative and junk vehicles, auto parts, property maintained in a manner hazardous to public safety, health or welfare, adjoining properties, property owners or property value." A copy of the lien is provided in Appendix E.

   Petra contacted the City of Fontana on June 12, 2023 to make an inquiry into the status of the lien. A records request was made the same day. A response was made to Petra via e-mail on June 21, 2023 indicating the City no longer has the file; however, their records do show that it has been closed. A copy of the letter is provided in Appendix E.

7. No water wells were observed on site during our reconnaissance.

8. A storm drain inlet grate was observed in the southwestern corner of the subject property. A partially buried headwall and two exposed storm drain pipes were observed at the north end of an asphalt pad in the north central portion of the subject site.

9. Overhead power lines and pole mounted transformers were observed along the eastern site boundary during our site reconnaissance. Pole mounted transformers appeared to be in good condition with no ground surface staining. What appeared to be a telephone/cable riser was observed near the southernmost pole with a transformer. Wooden poles with overhead lines were also observed along the northeastern portion of the subject property. Wooden power poles with transformers were also observed offsite along the improved east edge of Knox Avenue.

10. Information obtained during this assessment indicated that the subject property appeared to have been mostly undeveloped land with native vegetation from at least 1938 to the present. One or two buildings were noted in an aerial photograph within the northeastern portion of the subject site from at least 1949. The number increased to four by 1953. Two runways associated with Gilfillan Airport were observed directly west of the subject property also in 1953. The surrounding land was either undeveloped, residential or (to a lesser extent) agricultural. Five (or possibly 6) buildings were observed in the northeast corner of the subject site in 1959. One residence was also noted onsite in 1959, on the west side of Knox Avenue near the north central property boundary. The north runway of the adjacent airport was marked an "X" and "CLOSED" in 1959. In 1966, there appeared to be three buildings in the northeast area of the subject site, and one along Knox Avenue. In 1985, the south portion of the subject property was cleared of vegetation and contained what appeared to be stockpiled material (soils or vegetation). The area may have also been mass graded. The onsite residence on Knox Avenue may have had a swimming pool in 1985. Also in 1985, both runways west of the subject site were labeled with an "X" (i.e., closed). In 1990, the swimming pool was readily noticeable, and the stockpile on the south portion of the subject property was no longer visible.

    Sometime between 1994 and 2002, the airport west of the subject site, was replaced by a residential housing tract. By 2002 or 2005, the swimming pool appeared to be backfilled. In 2002, only one building was observed in the northwest corner of the subject site and one building onsite along Knox Avenue. By 2009, buildings were removed from the subject property and only concrete slabs were visible. From 2012 through 2023, no significant changes were observed within the subject property limits.

11. No sites were identified in our search of various government agency database records, which appear to have impacted the soil or groundwater beneath the subject site.

12. There was no evidence of drums, above ground tanks, underground tanks, sumps, pits, pools, or lagoons identified within the subject property boundary during our site assessment.

Recognized Environmental Conditions

Recognized environmental conditions are defined by the American Society of Testing and Materials (ASTM) as any hazardous substance or petroleum product under conditions that indicate an existing, past, or material threat of release into the structures, ground, groundwater, or surface water at the subject site. If the presences of recognized environmental conditions are identified on a subject site, it may warrant additional research, site assessment, and/or action.

- No REC's have been identified within or affecting the subject property.

Controlled recognized environmental conditions (CREC'S) are defined by the American Society of Testing and Materials (ASTM) Practice E 1527-21 as a recognized environmental condition resulting from the past *release* of *hazardous substances* or *petroleum products* that has been addressed to the satisfaction of the applicable regulatory authority (i.e., as evidenced by the issuance of a no further action letter or equivalent, or meeting risk-based criteria established by regulatory authority), with *hazardous substances* or *petroleum products* allowed to remain in place subject to the implementation of required controls. For example, if a leaking underground storage tank has been cleaned up to a commercial use standard but does not meet unrestricted residential cleanup criteria; this would be considered a controlled recognized environmental condition. The "control" is represented by the (inferred) restriction that the property remains commercial.

- No CREC's have been identified within or affecting the subject property.

Historical recognized environmental conditions (HREC'S) are defined by the American Society of Testing and Materials (ASTM) Practice E 1527-21 as a past release of any *hazardous substances or petroleum products* that has occurred in connection with the *property* and has been addressed to the satisfaction of the applicable regulatory authority or meeting unrestricted use criteria established by a regulatory agency, without subjecting the *property* to any required controls (i.e., *property* use restrictions, *activity and use limitations, institutional controls* or *engineering controls*).

- No HREC's have been identified within or affecting the subject property.

We have performed a Phase I Environmental Site Assessment in general conformance with the scope and limitations of ASTM Practice E 1527-21 for the subject property, APNs 0228-051-01, -16, -17, -19, -21; 0228-052-01, and -25 through -27; 0228-061-2 through -25; and 0228-311-05, located on Knox Avenue, between Walnut Street and S. Highland Avenue, in the City of Fontana, San Bernardino County, California. Any exceptions to, or deletions from, this practice are described in the section titled data gaps of this report. This assessment has revealed no evidence of recognized environmental conditions in connection with the subject property at this time.

Site Considerations

The items presented below are not considered recognized environmental conditions in accordance with ASTM E 1527-21. Although these items may warrant consideration in conjunction with any planned development activities, they are not recognized environmental conditions. The information regarding possible actions relative to these items has been provided as guidance.

1. With re-development of any previously developed property that is currently vacant land, a certain amount of unknown subsurface conditions may be anticipated. Any discolored soils, noxious odors, buried conduits, and/or other buried objects/debris encountered during clearing and grubbing, or future grading and development should be left in place until an experienced environmental professional (such as Petra) has had the opportunity to evaluate the conditions and provide recommendations if needed.

2. It is recommended that all debris and trash observed on the subject site be removed and disposed of in accordance with current local, state, and federal disposal regulations.

3. .Onsite sewage disposal systems may be present in proximity to the multiple concrete slabs observed in the northern portion of the subject property, and in the former residence area in the southeast portion of the subject property. An effort should be made to uncover these systems during demolition. Buried utilities should be followed to locate septic tanks, seepage pits, and/or leach line fields. These septic systems should be properly abandoned in accordance with current San Bernardino County guidelines.

ENVIRONMENTAL SETTING

The following section provides a cursory overview of the regional and local geologic setting and includes information pertaining to groundwater conditions in the vicinity of the subject site. Geotechnical hazard information (faults, landslides, etc.) is not part of this assessment. This section does not constitute a geotechnical evaluation of the subject property and should not be taken as such.

Geology

Geologically, the site lies within the northern portion of the Peninsular Ranges Geomorphic Province (CGS, 2002). The Peninsular Range Province extends from the tip of Baja California north to the Transverse Ranges Geomorphic Province and is characterized by northwest trending mountain ranges separated by subparallel fault zones. The San Bernardino Mountains, located north of the site, provides the boundary between the Peninsula Range Province and the Transverse Ranges Province. In general, the province is underlain primarily of plutonic rock of the Southern California Batholith. The Peninsular Range Geomorphic Province is generally characterized by alluviated basins and elevated erosion surfaces.

More specifically, published geologic maps of the area indicate that the site and surrounding alluvial areas are underlain by Holocene-age Young alluvial-fan deposits – Unit 5 (Morton, D.M. and Matti, J.C., 2001). These soils are described as unconsolidated to moderately consolidated coarse-grained sand to bouldery alluvial fan deposits having slightly to moderately dissected surfaces. Unit 5 is the youngest of five units.

Surface Water

No indication of surface water was observed on the property or in close proximity at the time of our site reconnaissance.

The subject property is situated within Flood Insurance Rate Map (FIRMette) 06071C7915H. The subject property and vicinity are mapped within Zone X, defined as an area defined as areas of 0.2 percent annual chance flood; areas of 1 percent annual chance flood with average depths of less than 1 foot or within drainage areas less than 1 square mile; and areas protected by levees from 1 percent annual chance flood. Figure B below depicts the Flood Insurance Rate Map (FIRM) for the subject site and vicinity. The FIRMette map (Map Revised August 28, 2008) is provided in Appendix B.

Groundwater

The site is located within the Upper Santa Ana Valley-Chino (8-002.01) Groundwater Basin. No public groundwater wells are mapped within the subject site on the CDWR water data library (CDWR, 2024). Based on our review, the closest mapped well to the subject property (Local Well ID: Chino 1200219) is reported as a residential well approximately 1.6 miles to the southeast. Between April 1993 and September 2022, depth to groundwater reportedly ranged from approximately 640 feet below the ground surface (bgs) to approximately 710 feet bgs, respectively. In general, groundwater depth varies within the area and though flow direction specifically beneath the subject property is unknown, it is reasonable to estimate flow to follow regional topography to the south/southeast.

RESULTS OF ASSESSMENT

The results of our site reconnaissance and assessment of adjacent sites, agency database review, and historical land use study are presented in the following sections.

Site Observation

Petra conducted a reconnaissance of the subject site on November 18, 2024. Site photographs are included in Appendix A. Our site observations are summarized below.

1. The subject property is mostly vacant land located on Knox Avenue, between S. Highland Avenue on the north and Walnut Avenue on the south in the City of Fontana San Bernardino County, California. The site is bounded by vacant and residential land to the north with S. Highland Avenue beyond; residential tract development to the east; Walnut Street to the south; and residential tract development to the west. A vacant mobile classroom trailer is located in the northern portion of the subject site west of Knox Avenue. Concrete rubble and a thin rectangular concrete slab were observed north of the mobile trailer. Seven square and rectangular concrete slabs were observed east – southeast of the asphalt-paved south end of Knox Avenue. No obvious markers were observed delineating the individual lot/parcel boundaries. A site location map is included as Figure 1.

2. At the time of our recent field reconnaissance, the site was predominantly vacant land with the exception of a vacant mobile classroom trailer and occupied residence located in the northern portion of the subject site. Additionally, at least five concrete slabs were observed in the northern portion of the site. The site slopes gently to the south with existing elevations on the order of 1,480 feet above mean sea level (msl) to 1,440 feet above msl (USGS, 2012). A drop in surface elevation along most of the width of the subject property exists in the southern third of the site. This topographic difference appeared to have been created by grading. A decrease in surface vegetation is also noted.

3. Vehicular access to the subject site is from the north via Knox Avenue. Vacant offsite land exists at the southeast corner of Knox Avenue and S. Highland Avenue. Vacant land at the southwest corner of Knox Avenue south of S. Highland Avenue is a part of the subject property. One single family residence on the west side of Knox Avenue (6622 Knox Ave.) is a part of the subject property; however, two homes on the east side of Knox Avenue are not a part of the subject property. Brick wall fragments were observed in an irregular-shaped hole onsite near the southwest corner of the residence on the west side of Knox Avenue. An earthen berm was observed on the west side of Knox Avenue south of the residence, and where the asphalt pavement ends. Vegetation management (i.e., discing) appeared to have been completed recently. Healthy trees and large shrubs were no longer observed in proximity to multiple concrete slabs in the northern portion of the subject property. Concrete slabs consisted of both on-grade and raised-floor. Minor flooring cover remnants were observed. A headwall with two partially buried storm drain inlet pipes were observed at the north end of a small asphalt pad located south of the pavement end of Knox Avenue.

   White plastic surface markers with reflector tops were noted along the southeast edge of improved Knox Avenue extending south, which appeared to end near the inlet pipes and headwall. Thin dry weeds were noted covering small mounds scattered throughout the subject site, which contained oversize boulders, concrete fragments, rock and concrete wall fragments, and/or tree stumps. A

stockpile of dumped concrete and asphalt was also noted north of the fenced mobile classroom trailer in the north portion of the subject property. A dirt road continues off the southeastern paved portion of Knox Avenue to the east toward offsite residences. A vehicle and debris piles, apparently associated with one of the offsite residences along the east site boundary, appears to encroach onto the subject property. A chain link fence is along the southern boundary with Walnut Street. The fence has been locally damaged since our last site visit in June 2024. What appears to be an east-west orientated cut slope, less than 4 feet in height, exists along the north edge of Parcel 31 (APN 0228-061-25). Thin dry vegetation was observed along this berm.

4. The newly added parcel to the subject property contains a single-family residence at 6622 Knox Avenue (APN 0228-051-20). The one-story house appears to consist of wood-frame and concrete slab on grade construction and attached garage. The exterior is stucco, and roofing consists of asphalt shingles. A covered patio was noted on the rear of the house. Two wooden storage sheds were observed at the rear fence. A plastic storage shed was noted off the north side of the patio. A small structure of unknown use is located in the southeast corner of the fenced lot. Minimal landscape vegetation was observed in the front yard. Virtually no landscape vegetation was noted in the side or rear yards except for a few potted plants, small trees, and flowering bushes outside the south fence. Multiple vehicles were noted in the front driveway area during our June 2004 site visit; however, no vehicles were noted during our recent site walk. What appeared to be non-hazardous debris was noted in the north side yard. A fire hydrant exists at or near the southeast corner of the lot. It is likely that fill soils were placed to elevate the residence no more than five feet above the surrounding adjacent grades. It is our understanding that the residence was built sometime in 1984. A pre-demolition asbestos survey on the house is recommended; however, because the Gomez home was constructed after 1971 when lead-based paint was banned, a Lead survey is not recommended.

5. Very minor windblown trash was observed on the subject property. Debris along the eastern site boundary was limited to a localized pile of non-hazardous trash/debris likely associated with the offsite neighbor. Minor trash was observed inside the fence along Walnut Avenue. Dumped household trash and debris previously noted along the block wall marking the west subject site boundary with a residential tract is no longer present, except for minor debris in the southwest corner of the property. A recent dumped pile of landscape waste and carpet was observed on Knox Avenue near the mobile school classroom. Due to the public nuisance lien recorded by the City of Fontana in 2002, attention was given to observe surface property conditions in the vicinity of the former residence at 6691 Knox Ave. (APN 0228-061-21-0000). No vehicles or auto parts were noted in the area. Although not readily detectable due to recent weed abatement disturbing surficial soils, no petroleum products or unusual surface staining was observed.

6. No water wells were observed on site during our reconnaissance.

7. A storm drain inlet grate was observed in the southwestern corner of the subject property. A partially buried headwall and two exposed storm drain pipes were observed at the north end of an asphalt pad in the north central portion of the subject site.

8. Overhead power lines and pole mounted transformers were observed along the eastern site boundary during our site reconnaissance. Pole mounted transformers appeared to be in good condition with no ground surface staining. What appeared to be a telephone/cable riser was observed near the southernmost pole with a transformer. Wooden poles with overhead lines were also observed along the northeastern portion of the subject property. Wooden power poles with transformers were also observed offsite along the improved east edge of Knox Avenue.

9. There was no evidence of drums, above ground tanks, underground tanks, sumps, pits, pools, or lagoons identified within the subject property boundary during our site assessment.

Adjacent Site and Vicinity Observations

The property is situated in an area of mostly residential with scattered undeveloped and commercial/industrial land use. Our observations are noted below:

West — To the west of the property is residential tract development.

East — To the east of the site is residential tract development.

South — To the south of property is Walnut Street, with residential tract development beyond.

North — To the north of the site is S. Highland Avenue, with undeveloped and residential development and the 210 Freeway beyond.

Government Agency Database Research

A search of federal, state, and local government listings was performed by Environmental Data Resources, Inc. (EDR) for the purposes of this report. The search radius used for all government databases meets or exceeds the standard search distance adopted by ASTM and AAI.

Results of Agency Records Search

A data search of the various government agency records listed in Appendix C revealed four listings for the subject site. The EDR report shows 10 additional sites within the requested search radii. No orphan sites (sites with inadequate address information to be mapped by EDR) were identified during the agency database search. Refer to the EDR Radius Map Report in Appendix C for the search radii completed for this assessment.

The linear distance and groundwater gradient guidelines provided in ASTM E2600-15 (Tier 1 Areas of Concern) are used as a reasonable screening tool for groundwater and vapor migration to identify a recognized environmental condition (REC) associated with the subject site (ASTM, 2015; Buonicore, 2014). For contaminated sources (such as a dry cleaner with a PCE release or a gas station with a leaking underground storage tank releasing BTEX) located up-gradient of the Target Property (TP), the focus would be on those contaminated sites within the AOC distance of 1,760 feet. The AOC search distance in the cross-gradient quadrant is reduced from 1,760 feet to 365 feet and the AOC for contaminated sites down-gradient from the TP is reduced from 1,760 feet to 100 feet. A brief description of the sites listed in the EDR report, which are of potential concern due to the nature of the listing or their proximity to the site (within the AOC), is provided below.

Sites A1 & A2: Target Property: Proposed Middle School No. 8.75, Between S. Highland and Walnut Ave., Fontana, CA 92336: These listings are mapped at the same location within southern portion of the Target Property. The site is listed on the DTSC's Envirostor (Envirostor) and Schools (SCH) and CA EPA's Environmental Reporting System (CERS) databases. The Envirostor database listing, reported under the Southern California Schools and Brownfields Outreach Division Branch, refers to a school investigation on a 40-acre site. Past use of the property is reported as "residential." Potential chemicals of concern (COC) are listed as "Chlordane, DDT, and Lead." The potential media affected is reported as "soil." On October 20, 2008, comments reported that, "The Phase I and addendum is now approved." Also, "For the purposes of the Phase 1, the site was divided into Areas A, B, and C. A Phase I Addendum is required for Area B" *(Petra: Area B is located at the southeast and southwest corners of S. Highland Avenue and Knox Avenue, which the southwest corner of the intersection has been added to the subject property. "Partial Site Approval" was granted for Areas A and C on October 20, 2008).*

Under the SCH database, identical information is provided. The status of this case is listed as "no further action" as of October 20, 2008. No additional pertinent information is provided.

The CERS database listing describes the site as a "proposed middle school" and "school investigation." No additional pertinent information is provided.

PETRA: The three parcels added to the subject property are in Area A, located west of Knox Avenue and south of S. Highland Avenue. We evaluated reported concentrations of Lead and OCPs residues reported by The Planning Center (2008) in Areas B and C (see Figure A) with current US EPA residential land use Regional Screening Levels (RSLs) (May 2024) and DTSC residential land use Screening Levels (SLs) (May 2022). Reported levels of detectable OCPs are at least 100 times below the DTSC SLs. 63 of the 64 soil samples previously collected and analyzed from around building slabs do not exceed DTSC's SL for Lead residue. One sample analyzed for Lead was collected from the former garage slab in the southeastern corner of the subject property. Reported test results of 160 mg/kg from this sample exceeds the SL of 80 mg/kg but not the RSL of 200 mg/kg for residential land use. The remaining reported concentrations of Lead residues in near surface soils do not exceed the SL and RSL for residential land use.

A pre-demolition Lead Survey was previously recommended for the Gomez residence (6622 Knox Avenue) and the currently vacant parcels, APNs 0228-051-14 and -15, which are located directly south of S. Highland Avenue (The Planning Center, 2008). The two parcels have been vacant since 1994 and have undergone multiple episodes of weed abatement, which has more than likely mixed and homogenized any anthropogenic soil residues to low or very low concentrations that are below residential screening levels. The Gomez residence was constructed in 1984, well after the lead-based paint ban in 1971. As such, no further action is recommended at this time.

Sites B7 and B8: Highland Avenue Auxiliary Field, (5 miles W of) San Bernardino, CA: These listings are mapped between ¼ and ½ -mile west-northwest of and at a lower elevation than the subject site. These listings are reported at one location by EDR. The facility is reported on DTSC's Envirostor and the US Army Corp of Engineers (USACE) Formerly Used Defense Sites (FUDS) databases.

Under Envirostor, the status is reported as "inactive – need evaluation" and a status date of July 1, 2005. The site type is reported as "military evaluation." An "Inventory Project Report" was completed on July 29, 1999. No additional pertinent information is provided.

The FUDS database reported this site "5 miles west of San Bernardino" within the "USACE Los Angeles District." The status is reported as "properties without projects." Ownership is reported as "local, County, private." The following is a description of the airfield. No additional information is provided.

The Highland Ave. Auxiliary Field was part of the Cal-Aero Academy (Plancor 406), a Defense Plant Corporation pilot training school. The Defense Plant Corporation acquired the 143.07-acre site by Complaint of Condemnation and Order for Immediate Possession dated October 1,1943. The airfield consisted of two graded and paved landing strips and one staging house with privy. The airfield was quitclaimed to the County of San Bernardino on August 15, 1947.

Petra reviewed an unclassified annual report to Congress titled, Management Action Plan report by USACE (dated 2021), pertaining to this facility. No Installation Restoration Program (IRP) projects have been reported. No Military Munitions Response Program (MMRP) projects have been reported. No Restoration Advisory Board (RAB) program has been reported.

Based upon the status of this former airfield, which has been replaced by a residential tract, this facility does not appear to represent a recognized environmental condition (REC) with regards to the subject property at this time.

All remaining listings in the EDR report do not currently appear to represent a recognized environmental condition with regards to the subject site, due to the nature of the listings (school site assessments), with the oversight agency having granted no further action, the site being outside the AOC from the subject site, their distance from the subject site and/or depth to groundwater contamination.

Per- and Polyfluoroalkyl Substances

For purposes of Proposition 65, the California Office of Environmental Health Hazard Assessment (OEHHA) added perfluorooctanoic acid (PFOA) to the list of chemicals known to the State of California to cause cancer, effective February 25, 2022. On September 6, 2022, the US EPA issued a notice of proposed rulemaking to designate emerging chemicals of concern perfluorooctanoic acid (PFOA) and perfluorooctanesulfonic acid (PFOS) as hazardous substances under the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA or Superfund); however, the US EPA rescinded their rulemaking shortly after. In April 2024, USEPA designated PFOA and PFOS as hazardous substances un CERCLA. Current opinion suggests that due to their widespread use, PFAS residues are ubiquitous in nature. It is more than likely that as research and technology advances more PFAS compounds will be added.

Per- and polyfluoroalkyl substances (PFAS), which include PHOA and PFOS, is a large family of emerging contaminants with over 2,000 fluorinated chemicals. PFAS is a group of man-made chemicals that are resistant to heat, water, grease and oil. PFAS is used in many products and industrial processes including carpets, clothing, cookware, firefighting foams, food packaging, microelectronics, and water- and stain-resistant fabrics. PFAS, found in water, air, and soil are persistent in the environment and the human body.

We reviewed the PFAS Enforcement and Compliance History Information (ECHO) database listings within the agency database search radius (Appendix C). Overall, the EDR agency records search reviews 12 different federal databases associated with PFAS. PFAS ECHO is a USEPA dataset from various sources that show which industries may be handling PFAS. No facilities were listed on any of the multiple PFAS databases within a one-mile radius of the subject property. Based upon the absence of readily available agency documentation, suggesting and/or indicating facilities in proximity to the subject property handled or released PFAS into the environment, we do not anticipate PFAS is affect the subject property at this time.

Orphan Sites

Orphan sites are those that the database search was not able to locate due to lack of complete address information. No orphan sites are listed in the EDR report.

Local Agencies

Petra reviewed information held by the agencies listed below during the course of this assessment.

San Bernardino County Fire Department

The San Bernardino County Fire Department Hazardous Materials Division maintains records related to hazardous materials business and management plans, hazardous waste generation and onsite treatment, aboveground petroleum storage, underground storage tanks, and California Accidental Release Program facilities in San Bernardino County. Records held by this agency were accessed by EDR during the government database search. No listings for the subject site were reported by EDR.

On August 2, 2024, Petra contacted the San Bernardino County Fire Department (SBCFD) regarding records of the controlled burn permits for the two former residences. The Fire Marshall's Office indicated records would be with the SBCFD's Office of Community Safety. Petra was asked to submit a written request for HazMat records to SBCFD. A written request was submitted on August 19, 2024. On August 20, 2024, Petra was notified by SBCFD that Fontana is not under the jurisdiction of SBCFD. The City of Fontana Fire Department (CFFD) was called the same day. Petra was told to send an e-mail request for an incident Report pertaining to the house training fires to SBCFD, which we understand keeps training records. A request was sent by Petra the same day. On August 21, 2024, Ms. Cassandra Weber, Office Assistant III with SBCFD, responded that a records review should be submitted to the SBCFD HazMat Division. Petra indicated that the HazMat Division is where our request for information started. Ms. Weber responded back on August 28, 2024 that she will try and find the correct person at SBCFD to respond to my inquiry. As of the date of this report, no additional communication with SBCFD has been received.

California Regional Water Quality Control Board

The California Regional Water Quality Control Board-Santa Ana Region 8 (RWQCB) maintains records of leaking underground storage tank sites and groundwater cleanups for sites in the Santa Ana Region. Records held by the RWQCB were accessed by EDR during the government database search. No listings for the subject site were reported by EDR.

GeoTracker

The GeoTracker website maintains a record of environmental data for regulated facilities in California. No database listings for the subject site were reported on GeoTracker. The memorandum documenting this inquiry is included in Appendix B.

- GeoTracker PFAS Map

Petra reviewed the interactive map of sites where water wells, mostly reported prior to treatment, have analytical test data for the suite identified as per- and polyfluoroalkyl substances (PFAS), which include PHOA and PFOS. No wells were mapped on the subject property or in close proximity to the subject property. The closest available information is from a cluster of two water wells mapped approximately 2.3 miles east of the subject site (Rialto Airport), which may not closely represent groundwater characteristics underlying the subject property. In both wells, results for 12 different PFAS, including PFOA and PFOS, were reported as less than 1.7 nanograms per liter (ng/L), or non-detect, in November 2019. More recent data is not provided.

We compared the laboratory detection limit with May 2024 US EPA Regional Screening Levels (RSLs) for tap water list PFOA at 0.0000027 micrograms per liter (µg/L) and PFOS at 0.002 µg/L. The Maximum Contaminant Level (MCL) for both PFOA and PHAS is reported as 0.004 µg/L or 4 ng/L (USEPA, 2024). Based upon this comparison, the laboratory detection limit for PFOA and PFOS in groundwater are well below the RSLs for tap water. Given the absence of data from wells within a one-third of a mile radius from the subject property, we do not anticipate PFAs in groundwater to affect the subject property at this time. The memorandum documenting this inquiry is included in Appendix B.

California Department of Conservation, Geologic Energy Management Division (CalGEM)

According to the California Department of Conservation, Geologic Energy Management Division (CalGEM), there are no active or abandoned oil, or gas wells located on the subject site. Further, there were no indications of any such wells found during our reconnaissance of the subject site. The closest well to the subject property (Laurabel No. 1) is approximately 4,380 feet not the northwest. This well is reported as a dry hole that was plugged in 1963. A copy of this map is included in Appendix B.

California Department of Conservation

The California Department of Conservation, Division of Mine Reclamation's "Mines Online" interactive map was queried regarding mines in proximity to the subject property. The map depicted no mines within the subject property or within a one mile of the subject property. The memorandum documenting this inquiry is included in Appendix B.

Department of Toxic Substances Control

The online database EnviroStor (DTSC, 2024), which provides records on LUSTs, SLICs, Priority cleanup sites and states sites, is maintained by the Department of Toxic Substances Control (DTSC). No database listings for the subject site were reported on EnviroStor. The memorandum documenting this inquiry is included in Appendix B.

Petra reviewed readily available information on Envirostor for the proposed middle school number 8.75 mapped in the southern portion of the subject property (Site Code 404813). The electronic document available consisted of two versions of the Phase I ESA Addendum approval, with and without the School Facilities Planning Division (SFPD) 4.14 Form. The approval letter, dated October 24, 2008, references a Phase I Site Assessment Report and Phase I Addendum by The Planning Center (both dated July1, 2008);

however, a copy of the ESA addendum is not available on the Envirostor database. The addendum report was, however, attached to the Phase I Site Assessment Report. A brief summary of the letter is provided above in the *Previous Reports* section. The site approval map is shown below in Figure B.

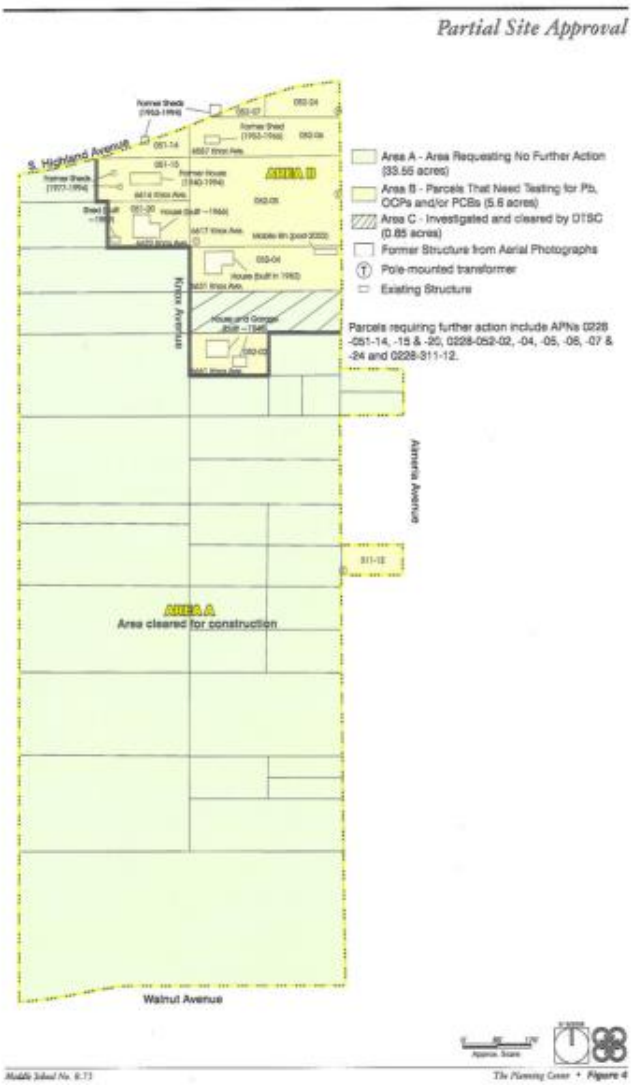

Figure B – Partial Site Approval Map (DTSC, 2008)

As a result of DTSC's approval of the Phase I ESA Addendum, DTSC has determined the conditions specified (in the letter) have been met and hereby grants partial site approval for Area A of the site as depicted (see Figure B). (*Petra: Area A appears to include most of the subject property, except for the three recently added parcels, APNs 0228-051 -14, -15, and -20 located near the southwest corner of S. Highland Avenue and Knox Avenue. The three add-on parcels are a part of Area B. APNs 0228-051-14 and -15, have been vacant since 1994 and have undergone multiple episodes of weed abatement, which has more than likely mixed and homogenized any anthropogenic soil residues to low or very low levels that are below residential screening levels. As such, no further action is recommended on the two vacant parcels at the southwest corner of S. Highland Avenue and Knox Avenue.)*

Department of Toxic Substances Control – Land Use Covenants

Petra reviewed the DTSC's Permitting Land Use Covenants Web App for land use covenants (LUCs) affecting the subject property. None were found for the subject property. The memorandum documenting this inquiry is included in Appendix B.

National Pipeline Mapping System

Petra reviewed the National Pipeline Mapping System (NPMS, 2024) public viewer website for gas transmission pipelines and hazardous liquid trunklines on or close to the subject property. Due to security purposes, close-up map views are not available. According to the information reviewed, no pipelines are located in proximity to the subject property. A copy of this map is included in Appendix B.

City of Fontana

Petra contacted the City of Fontana on June 12, 2023 to make an inquiry into the status of the lien (Petra, 2023). The Notice of Lien Claim was filed by the City of Fontana regarding the property at 6691 Knox Avenue, Fontana, California (APN 0228-061-21-0000). Pursuant to authority granted by the City of Fontana Municipal Code, the Director of Community Development on or about October 18, 2001 caused a public nuisance on the real property described to be abated. The nuisance that was abated was: "substandard property maintenance conditions including dead or dying vegetation, shrubs, trees or lawn, accumulations of junk, trash, debris, used secondhand materials, hazardous materials, inoperative and junk vehicles, auto parts, property maintained in a manner hazardous to public safety, health or welfare, adjoining properties, property owners or property value."

A records request was made on June 12, 2023. A response was made to Petra via e-mail on June 21, 2023 indicating the city no longer has the file; however, their records do show that the case has been closed.

Vapor Migration

Standards presented in ASTM E1527-21 consider the assessment of vapor migration similar to that of groundwater contamination. As a result, Petra reviewed documentation regarding surrounding sites near the subject property with known soil and groundwater contamination to preliminarily evaluate potential areas of concern for vapor migration/encroachment onto the subject property. An area of concern typically includes active or abandoned gas stations and dry cleaners, industrial facilities, and hazardous waste disposal and landfill facilities with known or suspected soil and/or groundwater contamination.

For vapor encroachment to represent a potential for vapor intrusion to structures within the subject property, vapors must have a pathway to create an indoor air quality condition (i.e., Recognized Environmental Condition). As a result, vapor encroachment from an offsite release onto the subject property does not immediately equate to vapor intrusion into existing or proposed structures within the subject property, and cannot be ascertained without additional field work.

In the absence of specific criteria within ASTM Standard E1527-21, Petra considered the linear distance and groundwater gradient guidelines provided in ASTM E2600-15 (Tier 1 Areas of Concern) as a

reasonable screening tool for vapor migration to identify a recognized environmental condition (REC) associated with the subject site (ASTM, 2015; Buonicore, 2014). No surrounding sites have been identified during this assessment which would represent a concern in regard to vapor encroachment on to the subject site at this time.

Evaluation of Records Search Results

In summary, no sites were identified in our search of various government agency database records, which may have impacted the soils or water beneath the subject site at this time.

Results of Aerial Photo Analysis

Although aerial photographs can often be a valuable source of information in the assessment of historical land usage, it should be understood that information extrapolated from photographic images is strictly interpretation and not necessarily fact. For this reason, it may not be appropriate to draw conclusions regarding previous site activities based solely upon aerial photograph analysis.

In order to provide a complete assessment of historical land usage on and in the vicinity of the subject site, aerial photographs with coverage of the subject site and vicinity were obtained from EDR and viewed by a representative of this firm. Photographs from the years 1938, 1949, 1953, 1959, 1966, 1975, 1985, 1990, 2005, 2009, 2012, 2016, and 2020 were provided by EDR. Also, aerial photographs (i.e., Google Earth®) from 2020 through 2024 have been reviewed for this assessment and noted no significant changes to the subject property. A summary of the information obtained during the aerial photograph review follows. Copies of the aerial photographs obtained from EDR are included in Appendix C.

1938 and 1949 Photographs

In the 1938 photograph, the subject site and vicinity appears as vacant and undeveloped land. The eastern, southern, and northwestern portions of the subject property appear with less vegetation and what appears to be remnants of surface water flow. Dense areas and clusters of native vegetation are visible in the central portion of the subject property. Dirt road activity is noted near the southwest, northeast, and south property boundaries; however, dirt road activity onsite is not readily discernable. What appears to be cultivated land (grape?) is noted approximately 250 to 350 feet to the southwest. One rectangular building is noted approximately 500 feet to the south. A major road (Highland Avenue?) trending east to west is visible approximately 200 feet to the north.

In the 1949 photograph, what appears to be the current alignment of Knox Avenue extends south through the subject property. Two small buildings are located within the northeastern portion of the subject site. A

dirt road trends east-west through the southern portion of the subject property. Directly west of the subject property are two runways associated with Gilfillan Airfield. No airfield buildings are within 500 feet of the subject property. Increased residential activity is observed to the north. Vegetation clearing and dirt roads are common to the east and south, some of which may be related to cultivated land.

1953, 1959, 1966, and 1975 Photographs

Little change to the subject property is noted in the 1953 photograph. Dirt roads related to the three small buildings onsite trend offsite to the east toward residential roads and partially developed tract homes. A dirt oval-shaped road extends from the south airfield runway onto the west third of the subject property.

The 1959 photograph depicts increased activity and dirt roads in proximity to the two small buildings, which now consist of five to six buildings. Three buildings and three small sheds are noted on the west side of Knox Avenue in the northwestern portion of the subject property. Three buildings are likely houses. Another building is observed at or near the north edge of the subject site along Knox Avenue. S. Highland Avenue is not present along the north site boundary. Two rectangular buildings are visible on airfield property near the north runway, adjacent to the west subject site boundary. A ”X” and “Closed” is written across the north airfield runway. What appears to be native vegetation mantles most of the subject property.

In the 1966 black and white aerial photograph, only three buildings are present in the northeastern corner of the subject property, and two or three remain onsite on the west side Knox Avenue. A dirt road extends south from Highland Avenue through the center of the property. Two dirt roads extend east from this road to the offsite housing tract to the east. Most of the subject property remains undeveloped.

The infrared 1975 photograph provides limited coverage of the subject site (i.e., western edge blacked out) and marginable clarity. Only two or three buildings are visible in the northeast corner of the site, and one remains onsite along Knox Avenue, which appears to be the lot south of the existing Gomez parcel. The dirt road through the center of the site (Knox Avenue) remains visible without perpendicular roads. Some sort of surface disturbance is noted near the southeast corner of the subject property. Uniform vegetation covers most of the subject site.

1985 and 1990 Photographs

In the 1985 aerial photograph minimal changes are noted within the subject site, except for vegetation clearing and what appears to be a relatively large (soil or vegetation) stockpile is observed in the southern portion of the subject site. One onsite residence on the west side of Knox Avenue contains a rear yard pool. One or two small structures are noted in the northeastern corner of the subject property west of Knox

Avenue A dirt road or clearing extends from the south airfield runway onto the subject property. The offsite south runway has an "X" written near the east end, indicating closed. Walnut Street appears to exist only west of the subject site.

Surface disturbance and stockpiled materials are not visible in the southern portion of the subject property on the 1990 photograph. What appear to be fence lines are noted across 3 parcels in the northwest portion of the subject property. Two residential structures are visible onsite west of Knox Avenue and a small building may be on or near the northerly edge of the site. Additional small buildings and vehicle activity are noted in proximity to the buildings in the northeasterly portion of the site.

2005, 2009, and 2012 Photographs

2005 and 2009 color aerial photographs depict most of the subject property mantled with uniform vegetation, except the south portion. In the 2005 photograph, S. Highland Avenue has been constructed along the northwestern property boundary. In 2009, Walnut Street extends east across the southern property limits. Uniform surface vegetation covers the subject property. Three of the buildings or concrete slabs in the northeast corner of the subject property are visible. One of the onsite building along the west side of Knox Avenue appears to have been removed, but the concrete slab and driveway remain; however, the Gomez parcel remains visible. . No readily detectable changes are noted to the subject property in the 2012 photograph, except vegetation in the south portion and northwest corner appear to have been removed of cut. . It appears that only concrete slabs remain from the buildings previously noted onsite, except the Gomez parcel.

2016 and 2020 Photographs

No readily detectable changes are noted within the subject property in the 2016 color aerial photograph. Vegetation management is locally visible across the subject property. Six concrete slabs are noted in the northeastern portion of the subject property. No significant changes to the subject property are noted in the 2020 photograph, except the mobile classroom trailer is visible in the northern portion of the subject property. The subject site is predominantly bounded by residential development.

Google Earth Imagery 2020 to 2024

Petra also reviewed historic aerial photographs on Goggle Earth™ from April 2020 through March 2024. These photographs depicted similar site conditions to the property to that described above. Eight concrete slabs, two piles of concrete rubble, a mobile classroom trailer, and an occupied residence currently exist within the subject property. Similar conditions within the subject site and surrounding areas were observed in March 2024 (the last photograph available in Google Earth at this time).

Historical USGS Topographic Maps

Petra reviewed the historical USGS topographic maps of the site and vicinity provided by EDR which included Target Quad's: dated 1896, 1898, 1901, 1936, 1941, 1942, 1943, 1953/1954, 1954, 1966/1967, 1973, 1975, 1980, 1988,1996, 2012, 2015, 2018, and 2021. No buildings are shown for the subject property parcels on any of the Historical Topographic Maps dated 1896 through 1942. An unlabeled road was depicted near or along the northern property boundary from at least 1896 to 1901. In the 1936 map, this northern road was no longer visible; however, Highland (Ave.) was depicted further north, and a dirt road was noted along the south boundary of the subject site. The 1942 map shown an increase in paved and unpaved roads and residences in the site vicinity, but no development on the subject property was noted. No coverage of the subject site was available in the 1943 map. The 1953/1954 map depicted a north-south dirt road trending through the subject site and extending north to Highland Avenue. Two small structures were shown in the northwestern and northeastern portion of the subject site. One small building was noted in the north corner of the property west of Knox Avenue. Residential tract homes to the east were present. A dirt road extends from the tract along the east site boundary onto the subject property in the southern portion of the subject site. Gilfillan Airport was depicted directly west of the subject property. Two small buildings were shown on the subject property in 1966. No coverage of the subject site was shown on the 1973 map.

One small building was present on the subject property in the 1975 map. One "recent" building was noted on the west side of Knox Avenue in the northwestern portion of the site in the 1980 map. By 1988, two recent buildings were shown onsite, on the west side of Knox Avenue. Sometime between the 1996 map and the 2012 map, residential tract homes replaced Gilfillan Airport to the west. During this period, Highland Avenue was replaced by the 210 Freeway and S. Highland Avenue was present along the north site boundary; however, Walnut Avenue was not present across the properties' south boundary. No buildings were depicted on the subject property or near the northern site boundary. According to the 2015 map, Walnut Avenue was constructed to its present alignment. No significant change to the subject property was noted in the 2015, 2018, and 2021 maps. These maps generally support observations made from the aerial photographs reviewed. Copies of the maps reviewed are provided in Appendix C.

Environmental Lien and Activity and Use Limitations Search 1980

Environmental Liens and Activity and Use Limitations (AULs) indicate restrictions on a property, which may represent a recognized environmental condition for the property. One of the add-on parcels regarding the subject property is identified by San Bernardino County Assessor Parcel Number (APN) 0228-051-20-

0000, which was used for this search. Previously, Petra reviewed title reports on the remainder of the property (Petra, 2023). No Liens or AULS were reported.

As authorized by the client, an Environmental Liens and AUL Search dating back to 1980 was conducted by EDR as part of this assessment using the above APN regarding the occupied residence at 6622 Knox Avenue, Fontana. The EDR Environmental Lien and AUL Search 1980 Report provides results from a search of available current land title records for environmental cleanup liens and other activity and use limitations, such as engineering controls and institutional controls.

A network of professional, trained researchers, following established procedures, uses client supplied address information to:

- search for parcel information and/or legal description;
- search for ownership information filed between 1980 and present;
- research official land title documents recorded at jurisdictional agencies such as recorders' offices, registries of deeds, county clerks' offices, etc.;
- search for environmental encumbering instrument(s) filed between 1980 and present;
- provide a copy of any environmental encumbrance(s); and
- provide a copy of the current deed when available.

Public records of San Bernardino County, California were searched from January 1, 1980 to October 7, 2024. No other deeds vesting title in the subject property were found or recorded during the period searched. Research sources included the San Bernardino County Recorder's Office, the San Bernardino County Assessor's Office, the California Environmental Protection Agency, and the United States Environmental Protection Agency. Judicial records were not searched. Based upon available information evaluated by the title search professional, the jurisdiction does not require a search of judicial records in order to identify environmental liens.

The results from this search indicated that there were no recorded Environmental Liens or AULs listed for the APN, which is a part of the subject property. Furthermore, Petra found no other Environmental Liens or AULs for other parcels within the subject site in our previous assessment (Petra, 2023). A complete Environmental Liens and AUL Search 1980 report for APN 0228-051-20-000 is provided in Appendix C. Please refer to our previous Phase I ESA's for the remainder of the property (Petra 2023; 2024). A summary is provided in the table below.

Historical Chain of Title From 1980

Assessor Parcel Number	Grantee	Grantor	Recorded Date
0228-051-20	DANIEL GOMEZ, A MARRIED MAN	DANIEL GOMEZ, A SINGLE MAN	8-29-2016
	DANIEL GOMEZ, A MARRIED MAN	KARLEE VALDEZ, SPOUSE OF GRANTEE	8-29-2016
	DANIEL GOMEZ, A MARRIED MAN	JESUS HERNANDEZ, A SINGLE MAN	2-24-2014
	JOSUE HERNANDEZ, A SINGLE MAN	JESUS GOMEZ	7-30-2012
	JESUS GOMEZ	ANGELITA MAGDELANO, SPOUSE OF GRANTEE	5-11-2005
	ESUS GOMEZ AND ANGELITA MAGDELANO, H&W	MICHAEL BARKER AND COURTNEY LYNN BARKER, H & W	8-20-2002
	MICHAEL BARKER AND COURTNEY LYNN BARKER, H & W	COURTNEY LYNN BARKER	8-20-2002
	COURTNEY LYNN BARKER	WILLIAM L. VESSELS, KAREN VESSELS, JAROLD VESSELS	4-11-2000
	WILLIAM L. VESSELS, KAREN VESSELS, JAROLD VESSELS	MULBERRY EXCHANGE CORPORATION	12-05-1990
	MULBERRY EXCHANGE CORPORATION	WILLIAM V. EVANS AND CAROLYN ANN EVANS AND CARLTON	12-05-1990
	WILLIAM V. EVANS AND CAROLYN ANN EVANS AND CARLTON	SECRETARY OF HOUSING AND URBAN DEVELOPMENT	9-21-1988
	SECRETARY OF HOUSING AND URBAN DEVELOPMENT	CALIFORNIA HOUSING FINANCE AGENCY	6-16-1988
	CALIFORNIA HOUSING FINANCE AGENCY	GUILD ADMINISTRATION CORP., AS TRUSTEE	1-31-1988
	JOSE K. RODRIGUEZ AND DIANA G. RODRIQUEZ	CALIFORNIA HOUSING FINANCE AGENCY	11-01-1985
	CALIFORNIA HOUSING FINANCE AGENCY	STATEWIDE CITY MORTGAGE CORPORATION	1-03-1985

Note: Research conducted between January 1, 1980 and October 3, 2024.

Preliminary Title Search

A Preliminary Report by TICOR Title Company (dated September 3, 2024) was provided by the client. The property was identified as 6622 Knox Ave., Fontana, CA 92336-1302. The estate or interest in the Land hereinafter described or referred to covered by this report is: "A Fee." The Title to said estate or interest at the date hereof is vested in: *"Daniel Gomez, a married man as his sole and separate property."*

An easement(s) for the purpose(s) shown below and rights incidental thereto, as granted in a document was granted to San Francisco Savings Union, A Corporation for the purpose of right of way to dig ditches and lay and construct pipelines for distribution of water. The recorded date was September 17, 1897.

Easement(s) for the purpose(s) shown below and rights incidental thereto, as granted in a document was granted to for the purpose of "pipe lines." Th recorded date was December 15, 1949. The Title Search report is provided in Appendix E.

Fire Insurance Maps

Fire Insurance Maps provide information on structure locations and operations, which were present at the time of the survey. These maps were completed for most major cities and metropolitan areas, dating from 1867, and provide information into past usage of buildings and how commercial and industrial zoning has changed over time. Sanborn™ Fire Insurance maps were requested for this study. EDR reports that fire insurance maps covering the target property were not found. The memorandum documenting this inquiry is included in Appendix C.

City Directory

City Directories provide information for a specific address at a specific time. A search of city directories from 1922 to 2020 was conducted by EDR for this assessment. The search was conducted for the target streets (Knox Avenue and S. Highland Avenue) and adjoining streets (Aerostar Court, Almera Avenue, and Northstar Ave.). One listing for the subject property was reported at 6691 Knox Avenue. According to Google Earth, this address matched the buildings in the northeast portion of the site, east of Knox Avenue. The listing in 2003 was for George Foster. A second listing for the subject property, mapped by Google Earth at the south end of the asphalt on Knox Avenue is Martha Barber at 6723 Knox Avenue in 1965. Mostly residential listings were reported for adjoining properties.

No other surrounding listings, which would indicate a potential concern for the subject site based on the name of the listing, was included in the EDR city directory image report. A copy of this search is presented in Appendix C.

EDR Property Tax Map Report

EDR's Property Tax Map (dated February 2004) for the Assessor's Map Book 0228 Page 5, San Bernardino County, was provided. A copy of the EDR report is provided in Appendix C.

Building Permits

Building Permit data provides information to identify current and/or former operations and structures/features which may represent a recognized environmental condition for the subject site. A search of City of Fontana Department of Building and Safety building permits was conducted by EDR from 1987

to 2024 for this assessment. San Bernardino County Land Use, Building and Safety building permits were also search from 1970 to 2024. No permits for the target property were found.

Permit Number 0000775, dated January 23, 1985, was found for 6760 Almeria Street, located offsite to the east. The permit was for site work to disconnect, pump, and fill existing septic tank(s) and seepage pits(s) and connect dwelling to public sewer.

A permit (No. PMT07-00595), dated January 31, 2007, was found for a controlled burn of house by San Bernardino County Fire Department at 6636 Knox Avenue (Petra, 2024). This address corresponds to a former onsite residence on the west side of Knox Avenue.

There were no other permits found for the target property and no permits found for the adjoining property, which would indicate a potential recognized environmental condition (REC). A copy of this search is presented in Appendix C.

Interview

Petra provided an Owner Questionnaire to Mr. Jason Holt with Diversified Pacific Communities on December 5, 2024. The Questionnaire was forwarded to Mr. Daniel Gomez owner of the occupied property at 6622 Knox Avenue regarding his knowledge of the subject site. A summary of the response to questions is provided below. The questionnaire was returned on February 4, 2025.

1. According to Mr. Gomez, he does have a good knowledge regarding the uses and physical characteristics of the property.

2. Mr. Gomez stated that, to the best of his knowledge, the property has always been a family residence.

3. Mr. Gomez indicated that, to the best of his knowledge, there are no hazardous substances present on the site. Mr. Gomez responded that there are no petroleum products on the site.

4. Mr. Gomez noted that he is not aware of hazardous substances, petroleum products, asbestos, lead-based paint, underground storage tanks, aboveground storage tanks, oil wells, sumps, waste water treatment, biosolids, landfill, industrial land use, or a structure fire on the property.

5. Mr. Gomez indicated he is not aware of any current or previous uses of the property or nearby properties that would suggest the presence of items state in Question 4.

6. Mr. Gomez noted that to the best of his knowledge there no utility corridors on the property.

7. Mr. Gomez noted that there are no underground irrigation systems, water wells, clarifiers, or disposal wells on the property.

8. Mr. Gomez noted that the owner and family are current occupants of the property.

9. Mr. Gomez stated that he does have a good knowledge regarding any existing documents relating to the property. He noted, however, that there are no environmental or geotechnical studies on the property.

10. According to Mr. Gomez, based on his knowledge and experience related to the property, there are no notices or other correspondence from any government agency relating to past or current violations of environmental laws.

11. According to Mr. Gomez, there is no notice or other correspondence from any governmental agency relating to environmental liens encumbering the property.

12. According to Mr. Gomez, there are no pending, threatened, or past litigation or administrative proceedings relevant to hazardous substances or petroleum products in, on, or from the property.

13. According to Mr. Gomez, there are no notices from any governmental entity regarding any possible violations of environmental laws, or possible liability relating to hazardous substances or petroleum products.

A copy of the complete Owner Questionnaire is provided in Appendix D.

Client Knowledge

Petra previously provided a Client Questionnaire to Mr. Nolan Leggio, Director of Forward Planning with Diversified Pacific Communities (Petra, 2023). At that time, the Questionnaire was completed by Mr. Jason Holt, Project Manager with Diversified Pacific Communities regarding his knowledge of the subject site. Based upon our knowledge of the subject property, site conditions have not significantly changed from an environmental viewpoint since our previous Phase I ESA, dated August 18, 2023. It is our opinion, therefore, that information regarding client or user knowledge of the subject property has not significantly changed and remain applicable to the subject property.

Data Failures and Data Gaps

In the event that data gaps are identified, the Environmental Professional (EP) will endeavor to comment on the significance of those data gaps. However, the EP cannot, and does not warrant or guarantee that no significant events, releases, or conditions arose, during periods such as data gaps.

Petra reviewed several sources for historical information regarding the subject site. These sources included a government agency database search, a city directory search, a review of historical aerial photographs and historical USGS topographic maps, and interviews. Some gaps between the aerial photographs (1938 to

1949 and 1990 to 2005), USGS topographic maps exceeded a 10-year time interval, and fire insurance maps covering the target property were not found.

A recent User – Client Questionnaire was not completed. As noted above, a User – Client Questionnaire was completed for our previously Phase I ESA on the subject property (dated August 18, 2023). Based upon our knowledge of the property, the information provided in the 2023 Phase I ESA Client- User Questionnaire remains applicable to the subject property, and does not represent a data gap.

Data gaps exist in the historic information reviewed. These gaps are due to the limited records and resources available, which are reasonably ascertainable and practically reviewable in the local area. However, it is our opinion that if additional historical information were to become available, it is not likely to significantly change the conclusions or recommendations of this assessment.

DISCUSSION OF POTENTIAL ENVIRONMENTAL CONCERNS

The following discussions of potential environmental concerns are presented to inform the client as to the existence, or lack thereof, of recognized environmental conditions present on the subject site.

Regulatory Actions

Based upon a thorough search of available federal, state, and local records, no known current regulatory action is pending with respect to the subject parcels.

Adjacent and Nearby Properties

A Superfund site exists in the industrial area of Rialto northeast of the subject property. The site, identified as “Rockets, Fireworks, and Flares” included soil and groundwater contamination. Groundwater contamination has spread to the south and east as shown in Figure C below. The site contains three operable units. Based upon known groundwater conditions, the plume does not underly the subject property nor does it encroach into the immediate vicinity of the subject property. It is not anticipated that the known plume poses an impact to groundwater beneath the subject property at this time.

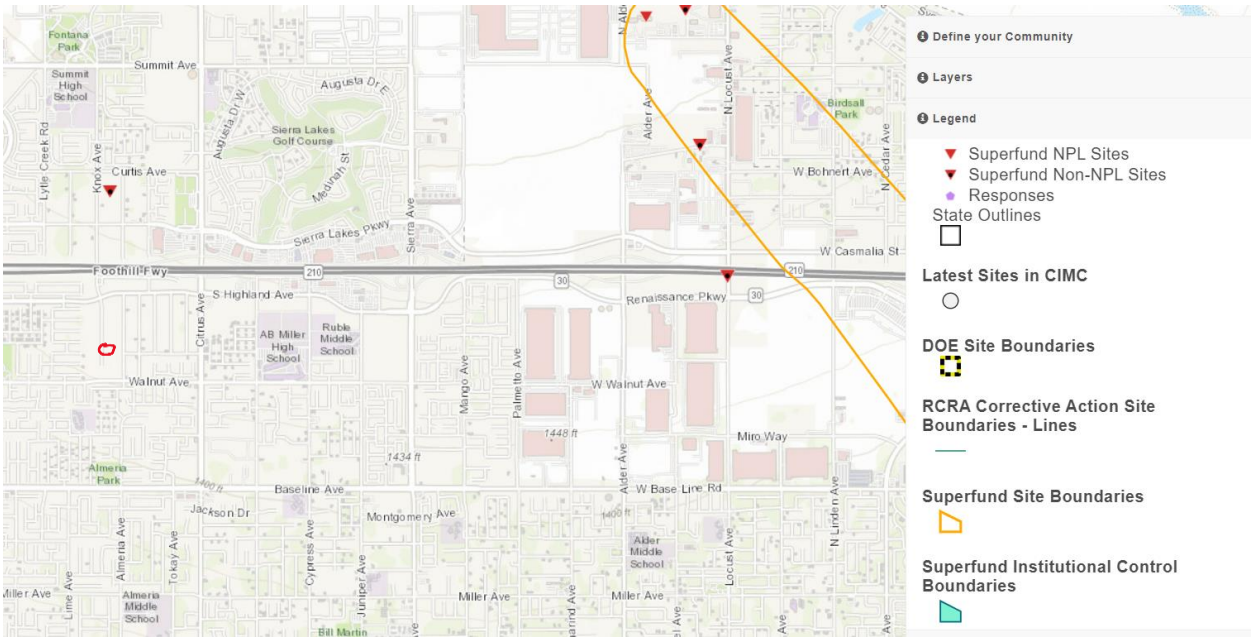

Figure C – Groundwater Plume Map (USEA, 2023b)

No information has been obtained during this assessment which would indicate the presence of recognized environmental conditions adjacent to the subject site that are considered likely to pose a significant impact to soils or groundwater beneath the subject site at this time.

Polychlorinated Biphenyls (PCB's)

Polychlorinated biphenyls (PCB's) are historically linked to electrical equipment, such as capacitors and transformers, due to their physical and chemical characteristics. PCB's, persistent in the environment, are known to accumulate in organisms and the food chain.

Any electrical equipment (i.e., transformers, capacitors, and fluorescent light fittings) containing dielectric insulating fluids or coolants, manufactured prior to 1976, should be considered to potentially contain PCB's. PCB's may also be found in older lubricating oils, cutting oils, hydraulic fluids, paints, sealants, and flame retardants (UNEP, 2002).

Pole-mounted transformers were observed along the eastern property boundary with the adjacent residences. The transformer appeared to be in good shape and no surface staining at the base of the pole was observed. The 2008 Phase I Addendum report for the subject property (The Planning Center, 2008) included one soil sample from the base of a pole-mounted transformer analyzed for PCBs. No detectable concentrations were reported. Although buildings were locally present in the northern portion of the subject

property, no information has been obtained during this assessment which would indicate existing or past presence of Polychlorinated Biphenyls (PCB's) at the site. A PCB survey, however, was not conducted at the subject property as part of this assessment.

Underground Storage Tanks

No information has been obtained during this assessment, which would indicate fuel underground storage tanks (UST's) to be located on the subject site currently nor are UST's reported to have been located on site in the past. Further, no surface indications of UST's were observed on the subject site during the site reconnaissance.

Above Ground Storage Tanks

No information has been obtained during this assessment, which would indicate above ground fuel storage tanks (AST's) are located on the subject site currently, nor are ASTs reported to have been located on the site in the past.

Stormwater/Wastewater Discharge

At this time, stormwater discharge from the site appears to be limited to surface water runoff. It is anticipated that precipitation falling on the site would infiltrate site soils. Water which does not infiltrate site soils would be expected to flow off of the site following the surface topography. A partially buried headwall and exposed storm drain pipe was observed in the north central portion of the subject property. What appears to be a relatively recent storm drain inlet grate was observed in the southwestern corner of the subject property. No wastewater discharge from the subject site was observed.

Pesticide and Herbicide Residue

Based on available information obtained during this assessment, there were no readily detectable signs the site was used for agricultural purposes from at least 1938 to the present day. Therefore, pesticide and herbicide residues do not appear to represent a recognized environmental condition with regards to the subject site.

A sampling and analyses program was conducted to evaluate the potential presence of lead in shallow soils due to lead-based paint in building materials, and the potential presence of organochlorine pesticides in soil due to termiticide application at 10 former structures (6 former houses, 3 former garages and 1 former shed) within the study area on APN 051-17, -18, 052-26, 061-22, -02,-03, -25 (The Planning Center, 2008).

Organochlorine pesticides (OCPs) 4,4-DDE and 4,4'-DDT were detected in eight out of twenty-five composite samples on site. The highest concentration of 4, 4'-DDE was 6.1 micrograms per kilogram (µg/kg). The highest concentration of 4, 4'-DDT was 8.4 µg/kg. Comparison of the highest detected concentrations of the potential chemicals of concern (PCOC) DDT and DDE to California Human Health Screening Levels (CHHSLs) indicates the analytes do not pose a significant risk to human health. The DTSC concurred with the recommendation (2008).

CHHSLs are no longer considered accurate for use as screening levels by DTSC or USEPA. As such, Petra compared the test results reported above in the Phase I ESA Addendum by The Planning Center (2008) to the generic US EPA Regional Screening Levels (RSLs) for residential land use (dated May 2024) and DTSC's Screening Levels (SLs). The residential RSL for DDE is listed as 2.0 milligrams per kilogram (mg/kg) (or 2000 µg/kg) and 1.9 mg/kg (or 1900 µg/kg) for DDT. DTSC's SLs are the same. Based upon this comparison, detected concentrations of DDE and DDT reported above are well below the USEPA RSLs and DTSC SLs and not considered a recognized environmental condition associated with the subject property.

Asbestos-Containing Materials

No potential asbestos-containing materials (ACMs) were observed on the site during our recent site reconnaissance and no information was found which indicated the use, storage, or disposal of asbestos-containing materials on the site. Buildings historically located within the subject site have been removed with only concrete slabs and a few piles of concrete rubble remains. Highly weathered floor coverings were observed in a few locations. It appears roofing materials from the mobile classroom trailer has been partially removed with some fragments scattered near the trailer; however, our recent site walk noted that the roofing materials had been removed. The weathered flooring may be a source of ACM. An ACM survey, however, was not conducted at the subject property as part of this assessment. An asbestos survey of the existing dwelling at 6622 Knox Avenue is recommended.

Lead-Based Paints

No potential lead-based paint (LBP) materials were observed on the site during our recent site reconnaissance and no information was found which indicated the use, storage, or disposal of lead-based paint materials on the site. A LBP survey, however, was not conducted at the subject property as part of this assessment. Buildings historically located within the subject site have been removed and weathered paint readily detected only on elevated slabs in the northeast portion of the subject site.

A lead-based paint and OCP investigation in soil was conducted for the southern portion of the subject site to address possible usage of lead-based paint and termiticides for 10 former structures (6 former houses, 3 former garages and 1 former shed) on APN 051-17, -18, 052-26, 061-22, -02,-03, -25 (The Planning Group, 2008). Lead was detected in 54 out of 55 samples above laboratory reporting limits. For the 54 discrete surface soil samples with detections, lead concentrations ranged from 1.1 mg/kg to160 mg/kg. In addition, review of the individual Lead test results indicated 53 of the 55 reported results range from non-detect (less than 1 mg/kg) to 58 mg/kg. All surface soil samples analyzed were below DTSC's lead screening value of 255 mg/kg for school sites.

Petra compared the test results reported above in the Phase I ESA Addendum by The Planning Center (2008) to the generic US EPA RSLs for residential land use (dated May 2024). The residential soil screening level for Lead is listed as 200 mg/kg. Based upon this comparison, detected concentrations of Lead reported above are below the RSLs and not considered a recognized environmental condition associated with the subject property.

Petra also reviewed the DTSC recommended screening levels (SLs) for residential soil, HHRA Note 3 (revised May 2022). A carcinogenic endpoint for Lead is not provided; however, a non-carcinogenic endpoint of 80 mg/kg is listed. Since all structures previously on the subject property have been demolished except for multiple concrete slabs and the occupied residence at 6622 Knox Avenue, multiple yearly vegetation management operations would have likely disturbed and mixed any remnants of Lead-based paint fragments, lowering concentrations of Lead residues. Based upon this comparison, detected concentrations of Lead reported above are predominantly below the DTSC-SLs and not considered a recognized environmental condition associated with the subject property.

Landfills

The EDR report does not list any known landfills within the search radius conducted for this assessment. Therefore, landfills do not appear to represent a recognized environmental condition with regards to the subject site.

Water Supplies

No water wells were observed on the subject site. There were no signs observed by Petra during our recent site reconnaissance indicating water is currently supplied to the subject property.

The owner provided previous environmental reports on the subject property, including a Phase I ESA by Soils Southwest, Inc. (dated August 29, 2005) and Phase I ESA and Phase I Addendum by The Planning

Center (both dated July 1, 2008), which are reviewed above in the *Previous Reports* section. There was no identification of water wells within the subject property.

Waste Generation and Storage

Generally, waste generation and storage were not observed onsite during our site reconnaissance. It is recommended that all trash and debris be removed and disposed of in accordance with current regulations.

CONCLUSIONS

Recognized Environmental Conditions

Recognized environmental conditions are defined by the American Society of Testing and Materials (ASTM) as any hazardous substance or petroleum product under conditions that indicate an existing, past, or material threat of release into the structures, ground, groundwater, or surface water at the subject site. If the presences of recognized environmental conditions are identified on a subject site, it may warrant additional research, site assessment, and/or action.

- No REC's have been identified within or affecting the subject property.

Controlled recognized environmental conditions (CREC'S) are defined by the American Society of Testing and Materials (ASTM) Practice E 1527-21 as a recognized environmental condition resulting from the past *release* of *hazardous substances* or *petroleum products* that has been addressed to the satisfaction of the applicable regulatory authority (i.e., as evidenced by the issuance of a no further action letter or equivalent, or meeting risk-based criteria established by regulatory authority), with *hazardous substances* or *petroleum products* allowed to remain in place subject to the implementation of required controls. For example, if a leaking underground storage tank has been cleaned up to a commercial use standard but does not meet unrestricted residential cleanup criteria; this would be considered a controlled recognized environmental condition. The "control" is represented by the (inferred) restriction that the property remains commercial.

- No CREC's have been identified within or affecting the subject property.

Historical recognized environmental conditions (HREC'S) are defined by the American Society of Testing and Materials (ASTM) Practice E 1527-21 as a past release of any *hazardous substances or petroleum products* that has occurred in connection with the *property* and has been addressed to the satisfaction of the applicable regulatory authority or meeting unrestricted use criteria established by a regulatory agency,

without subjecting the *property* to any required controls (i.e., *property* use restrictions, *activity and use limitations, institutional controls* or *engineering controls*).

- No HREC's have been identified within or affecting the subject property.

We have performed a Phase I Environmental Site Assessment in general conformance with the scope and limitations of ASTM Practice E 1527-21 for the subject property, APNs 0228-051-01, -16, -17, -19, -21; 0228-052-01, and -25 through -27; 0228-061-2 through -14, -16 through -18, and -20 through -25; and 0228-311-05, located on Knox Avenue, between Walnut Street and S. Highland Avenue, in the City of Fontana, San Bernardino County, California. Any exceptions to, or deletions from, this practice are described in the section titled data gaps of this report. This assessment has revealed no evidence of recognized environmental conditions in connection with the subject property at this time.

SITE CONSIDERATIONS

The items presented below are not considered recognized environmental conditions in accordance with ASTM E 1527-21. Although these items may warrant consideration in conjunction with any planned development activities, they are not recognized environmental conditions. The information regarding possible actions relative to these items has been provided as guidance.

1. A pre-demolition asbestos survey is recommended on the Gomez residence at 6622 Knox Avenue.

2. With re-development of any previously developed property that is currently vacant land, a certain amount of unknown subsurface conditions may be anticipated. Any discolored soils, noxious odors, buried conduits, and/or other buried objects/debris encountered during clearing and grubbing, or future grading and development should be left in place until an experienced environmental professional (such as Petra) has had the opportunity to evaluate the conditions and provide recommendations, if needed.

3. It is recommended that all debris and trash observed on the subject site be removed and disposed of in accordance with current local, state, and federal disposal regulations.

4. Onsite sewage disposal systems may be present in proximity to the multiple concrete slabs observed in the northeastern portion of the subject property, the former house at the northwest corner of Knox Avenue and S. Highland Avenue, and in the former residence area in the southeast portion of the subject property. An effort should be made to uncover these systems during demolition. Buried utilities should be followed to locate septic tanks, seepage pits, and/or leach line fields. These septic systems should be properly abandoned in accordance with current San Bernardino County guidelines.

LIMITATIONS

This assessment is based upon the project as described and the environmental data obtained from the field reconnaissance and research performed as outlined in this report. This report has not been prepared for use by parties or projects other than those named or described in this report, additional studies may be required. Since our assessment is based upon a review of available data and visual assessment of the site, without any invasive study, the conclusions presented herein are professional opinions. These opinions have been derived in accordance with current standards of practice, and no warranty is expressed or implied.

This firm's evaluation of previous reports and/or subconsultant reports focuses on the completeness of the information presented in the document, in accordance with applicable rules and regulations, and does not include the establishment of data sufficiency or accuracy.

QUALIFICATIONS

Resumes for the staff who contributed to this report are presented in Appendix E.

"We the undersigned declare that, to the best of our professional knowledge and belief, we meet the definition of Environmental Professional as defined in § 312.10 of 40 CFR 312. We have the specific qualification based on education, training, and experience to assess a property of the nature, history, and setting of the subject site. We have developed and performed the all appropriate inquiries in general conformance with the standards and practices set forth in 40 CFR Part 312."

APPENDIX A

SITE PHOTOGRAPHS

Photo #1 – East view of the rear yard and property conditions of the residence at 6622 Knox Avenue.

Photo #2 – SE view across the north-central portion of the subject site. Note former building slabs.

Photo # 3 – South view along the eastern portion of the site. Note neighbor's debris encroaching onsite.

Photo #4 – Pile of concrete and brick near former house in the NW portion of the site.

Photo # 5 – Abandoned mobile trailer school building in northwesterly portion of the property.

Photo #6 – NW view of surface conditions visible along the south edge of residence at 6622 Knox Ave.

Photo # 7 – West view of landscape and carpet waste dumped on Knox Ave.

Photo #8 – West view of site conditions along the southeast property boundary with Walnut Ave.

Photo # 9 – North view along the SE property boundary taken from SE portion of the site.

Photo #10 – NE view of neighbor's debris encroaching onto the east edge of the site. See Photo #3.

Photo # 11 – South view of building slabs in the northeast portion of the subject property.

Photo #12 – West view of surface conditions in the SW corner of the site. Note storm drain inlet.

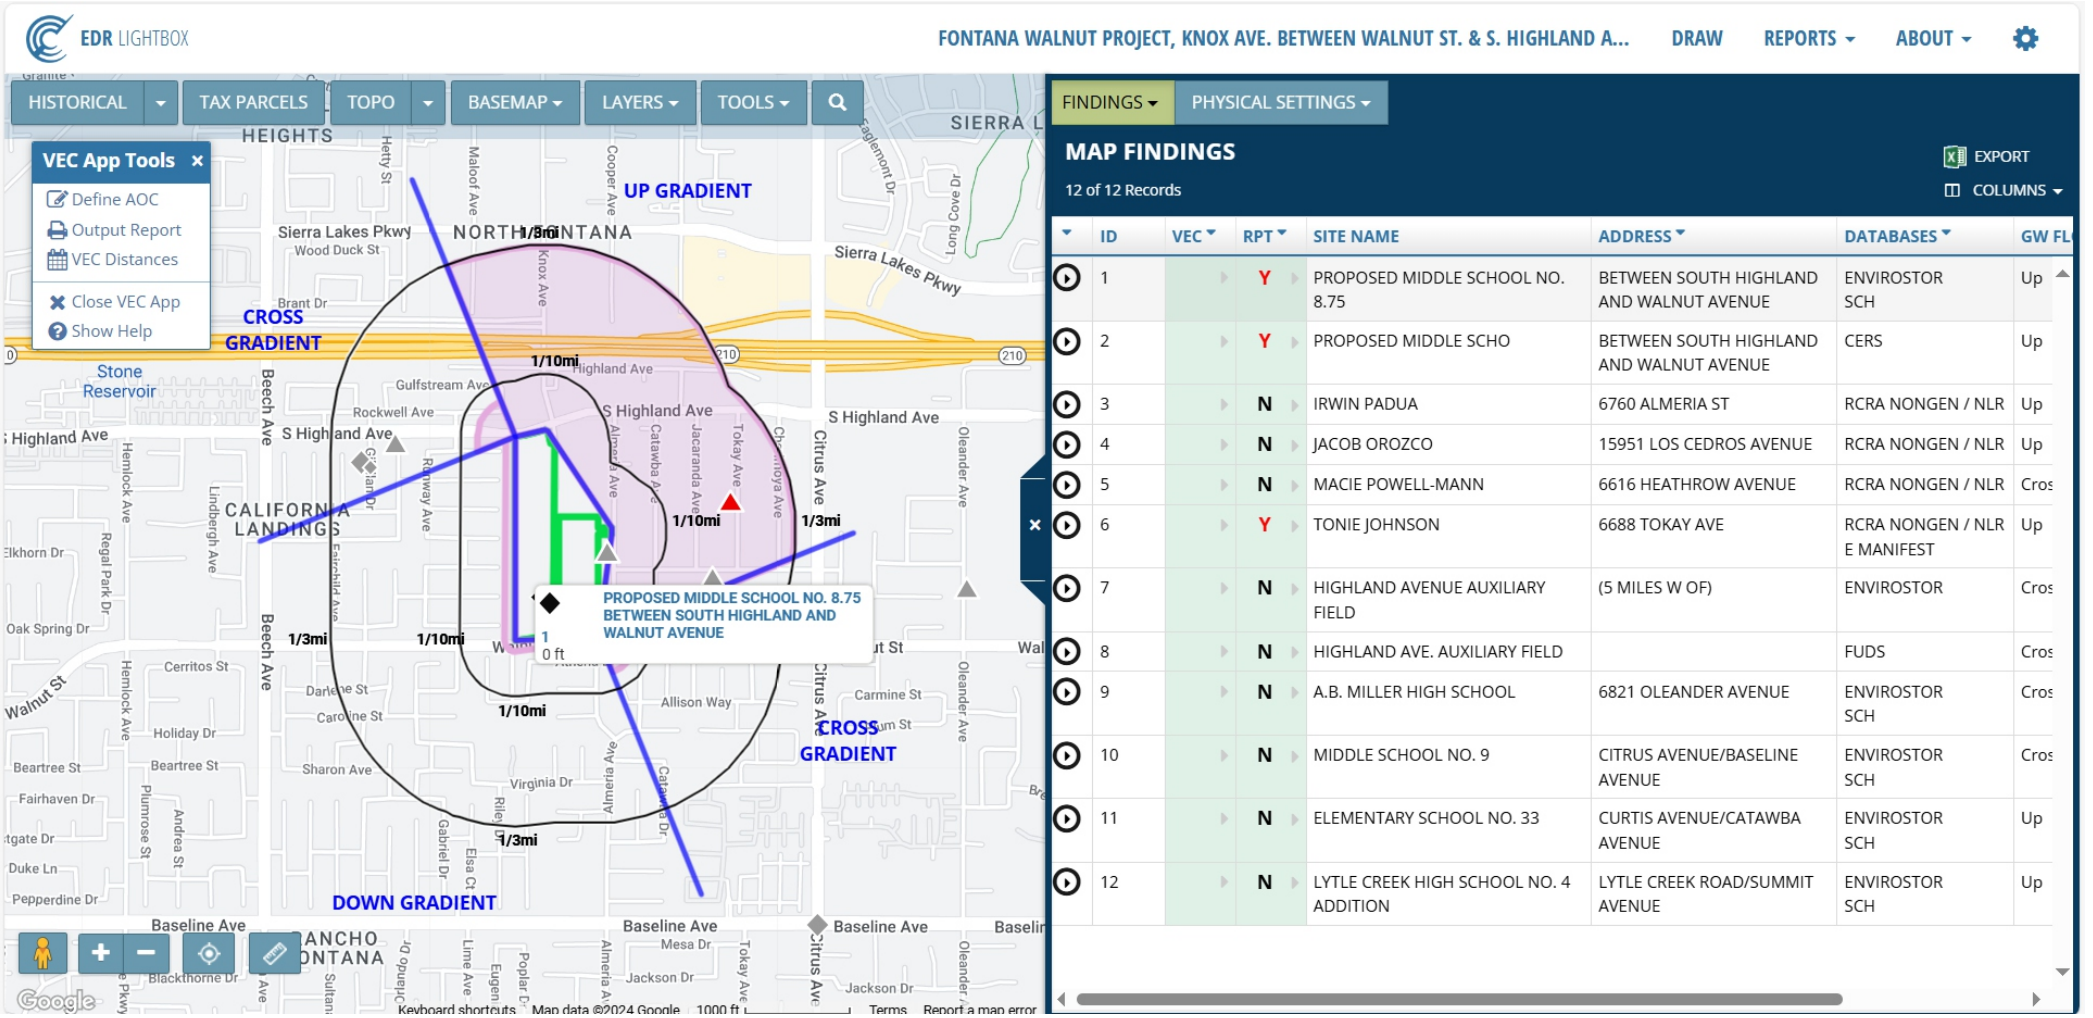

Photo #13 – NE view of the subject property from the SW corner of the subject site.

Photo #14 – South view of the central portion of the subject property.

SPECIAL FLOOD HAZARD AREAS
- Without Base Flood Elevation (BFE) *Zone A, V, A99*
- With BFE or Depth *Zone AE, AO, AH, VE, AR*
- Regulatory Floodway

OTHER AREAS OF FLOOD HAZARD
- 0.2% Annual Chance Flood Hazard, Areas of 1% annual chance flood with average depth less than one foot or with drainage areas of less than one square mile *Zone X*
- Future Conditions 1% Annual Chance Flood Hazard *Zone X*
- Area with Reduced Flood Risk due to Levee. See Notes. *Zone X*
- Area with Flood Risk due to Levee *Zone D*

OTHER AREAS
- NO SCREEN Area of Minimal Flood Hazard *Zone X*
- Effective LOMRs
- Area of Undetermined Flood Hazard *Zone D*

GENERAL STRUCTURES
- Channel, Culvert, or Storm Sewer
- Levee, Dike, or Floodwall

OTHER FEATURES
- 20.2 / 17.5 Cross Sections with 1% Annual Chance / Water Surface Elevation
- Coastal Transect
- Base Flood Elevation Line (BFE)
- Limit of Study
- Jurisdiction Boundary
- Coastal Transect Baseline
- Profile Baseline
- Hydrographic Feature

MAP PANELS
- Digital Data Available
- No Digital Data Available
- Unmapped

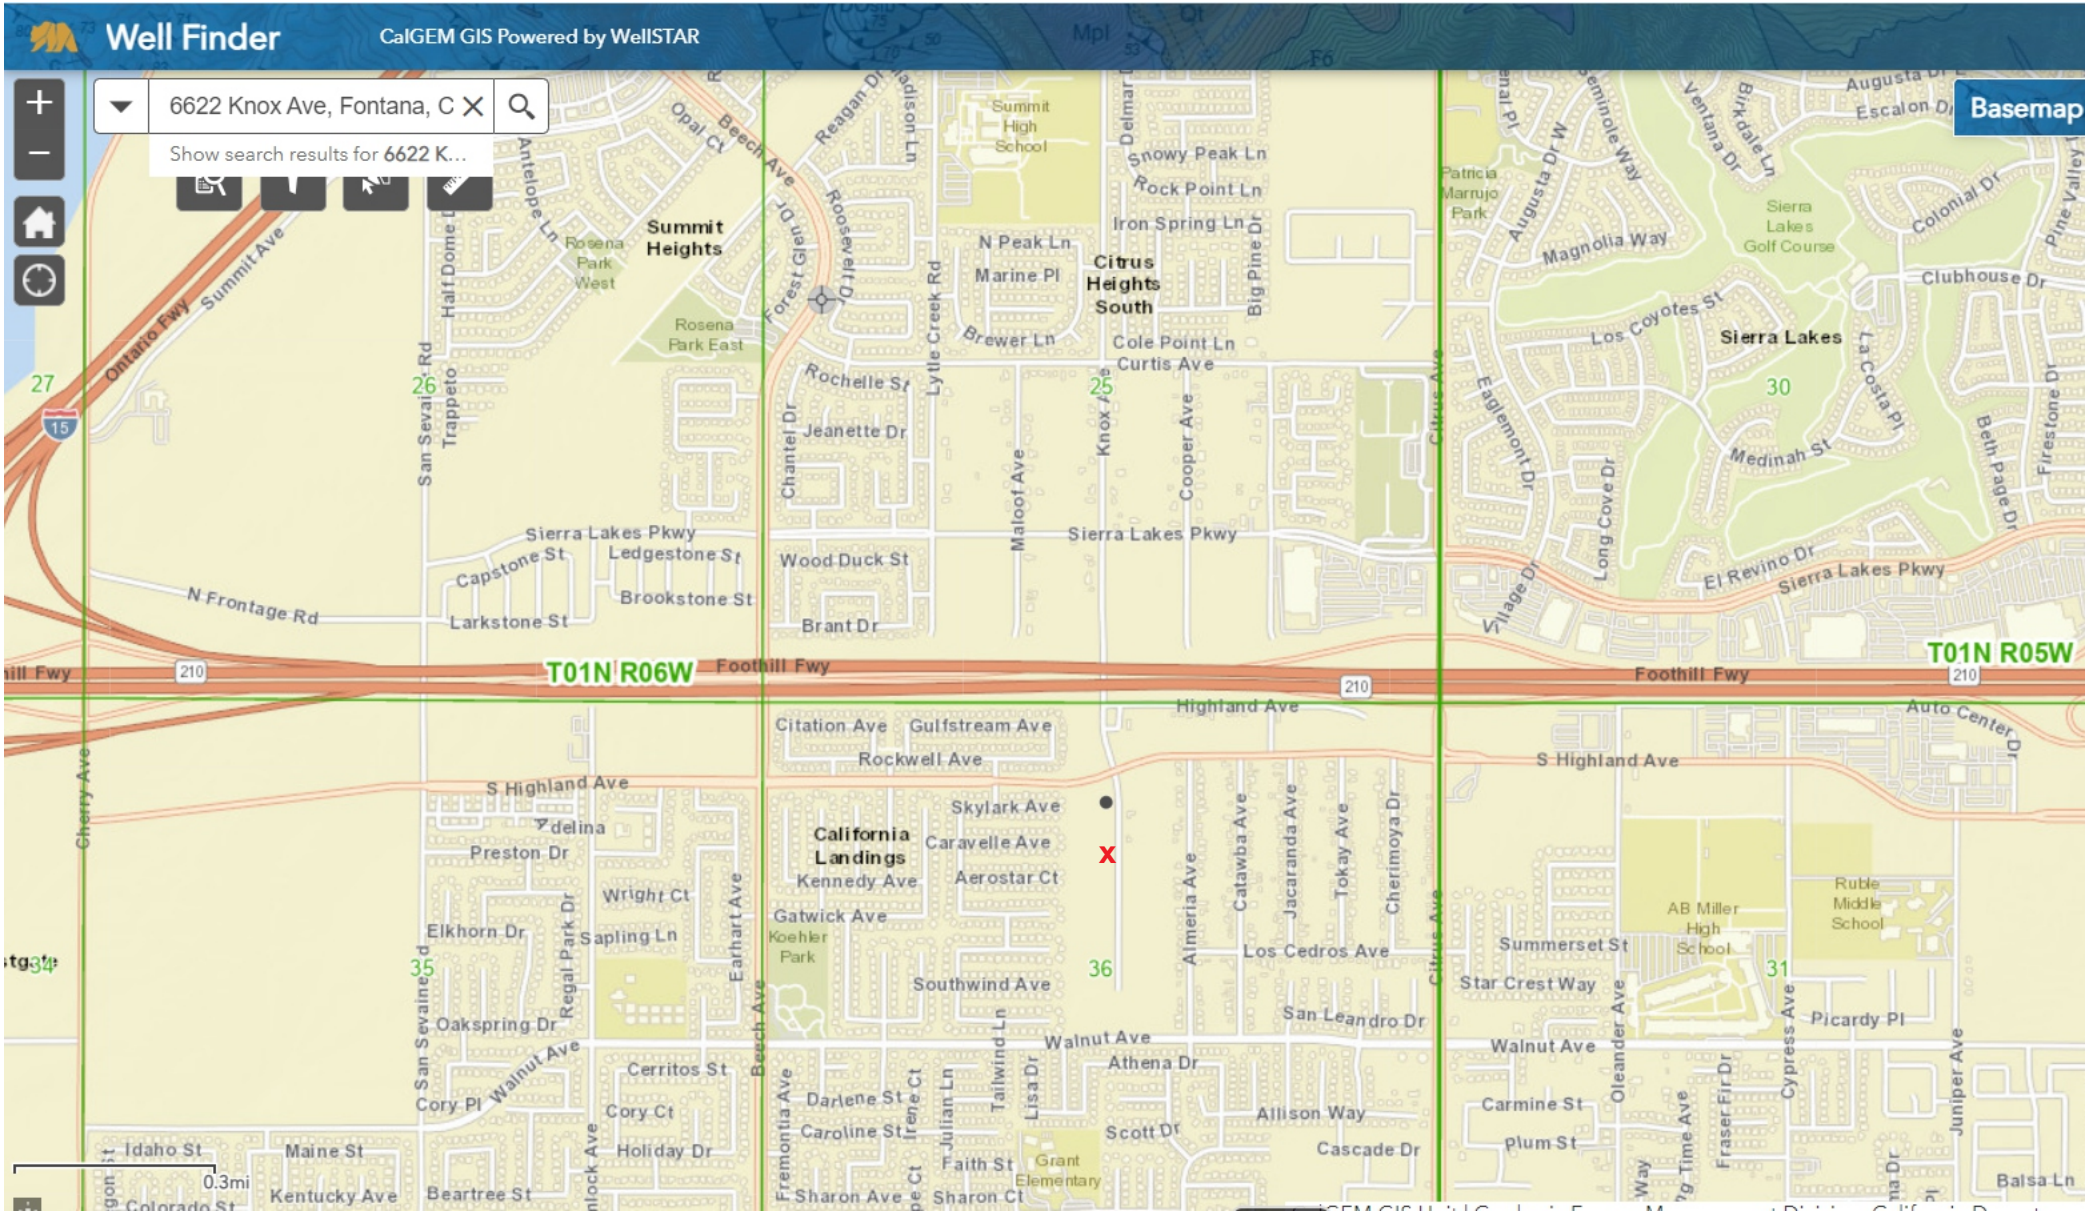

N

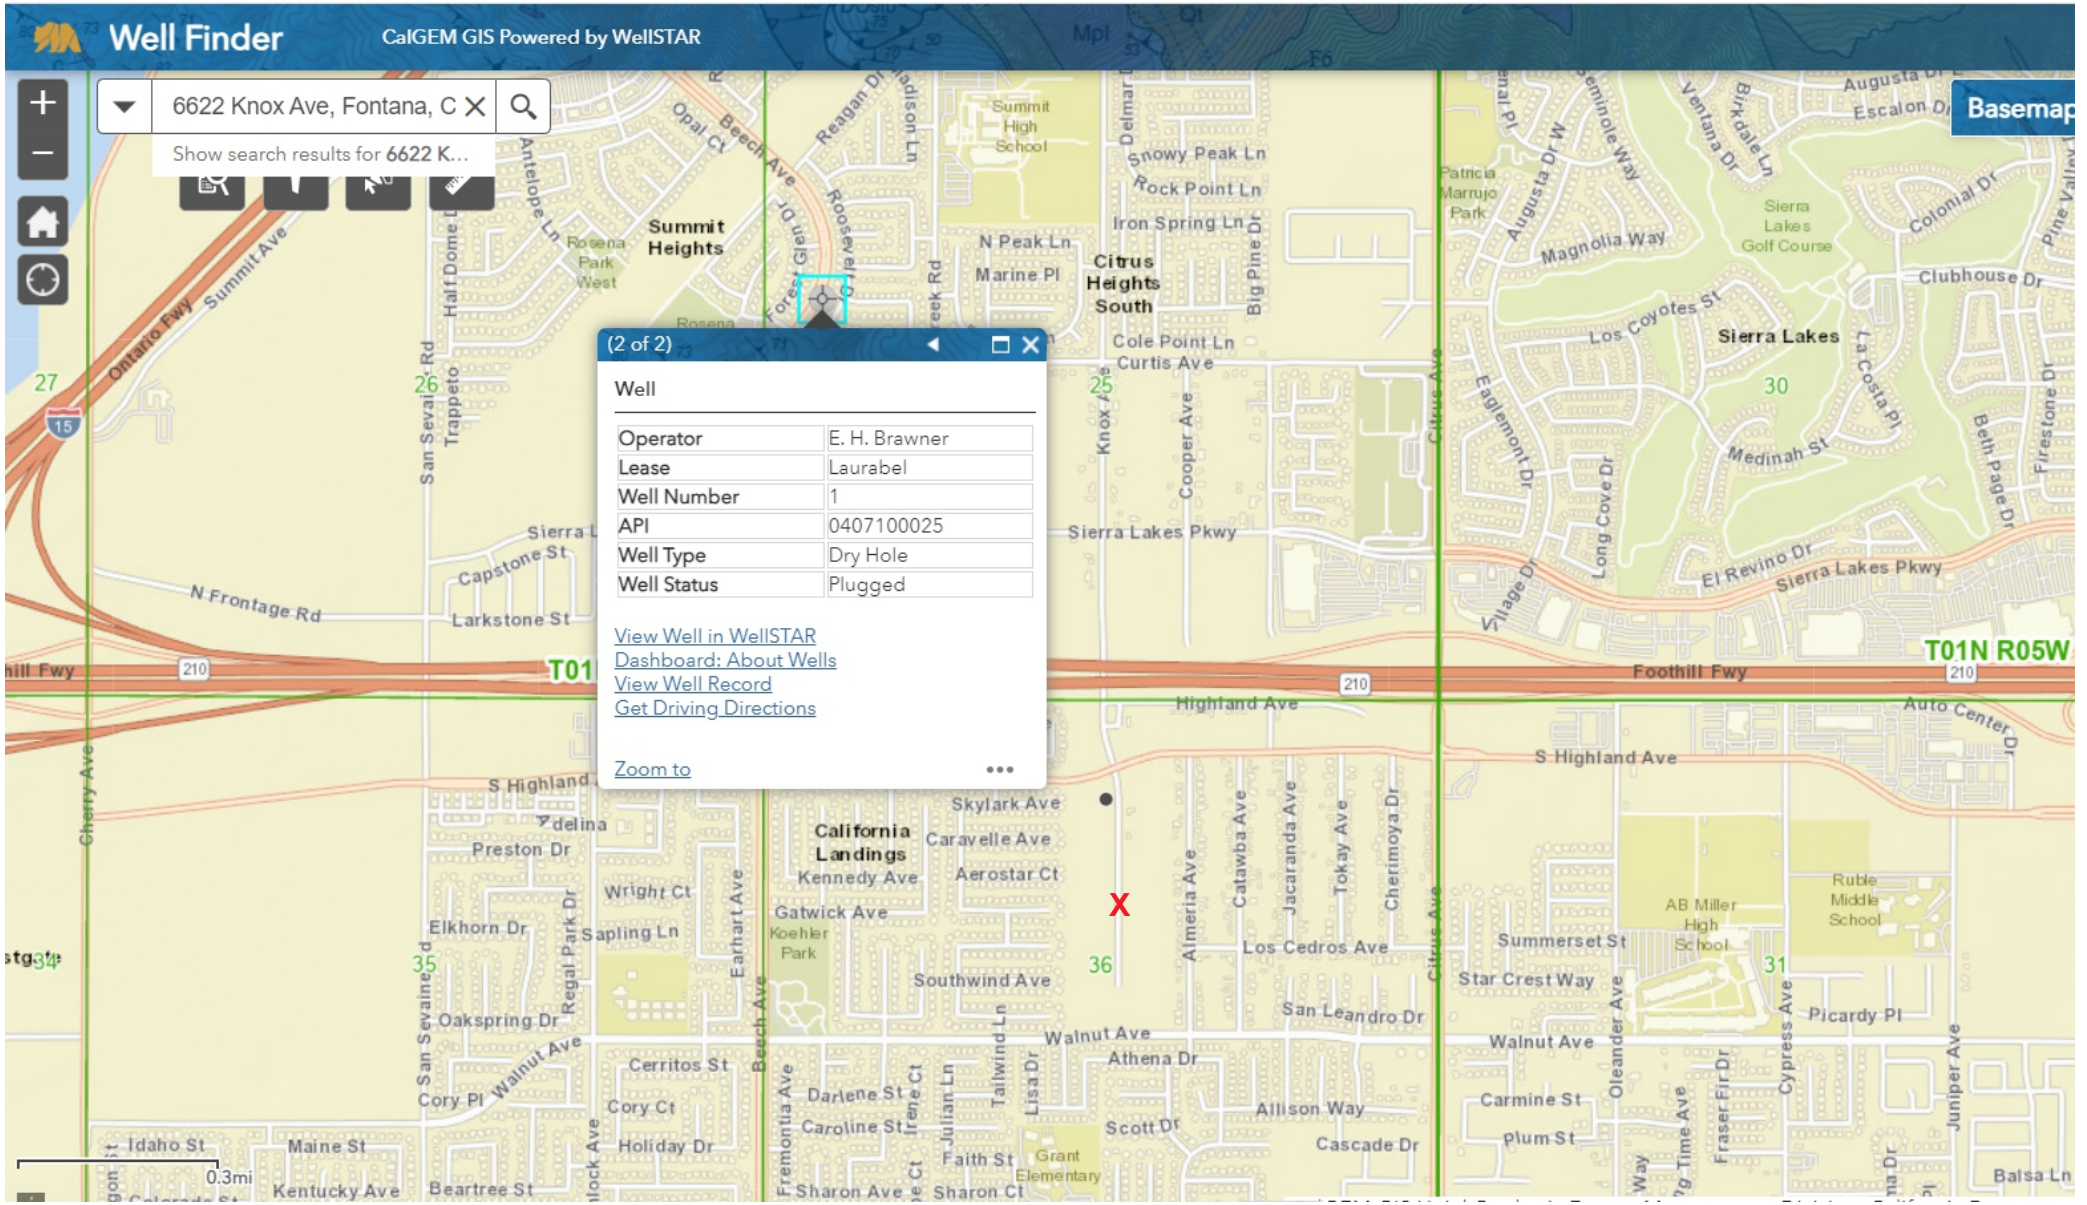

The pin displayed on the map is an approximate point selected by the user and does not represent an authoritative property location.

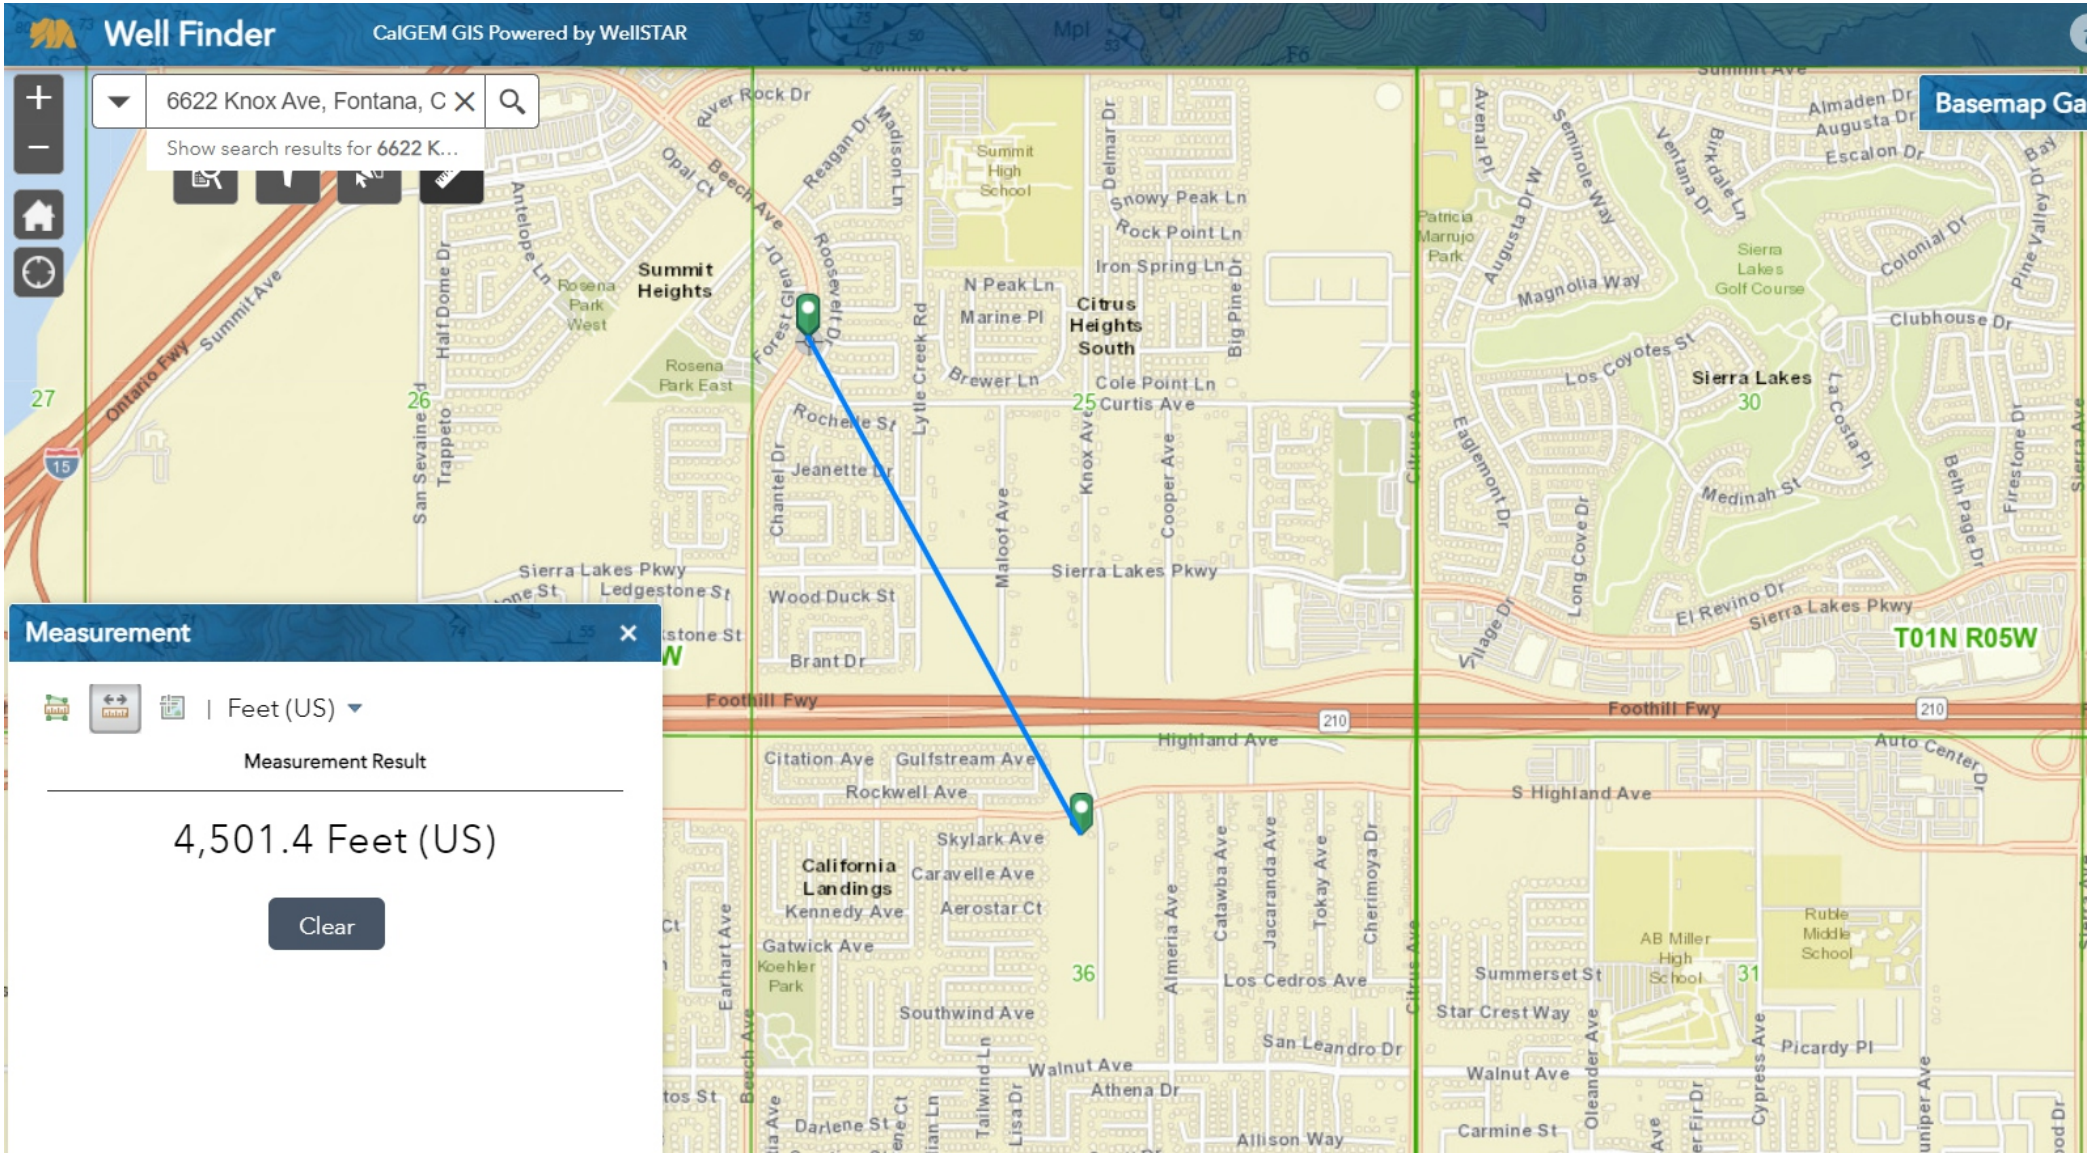

This map complies with FEMA's standards for the use of digital flood maps if it is not void as described below. The basemap shown complies with FEMA's basemap accuracy standards

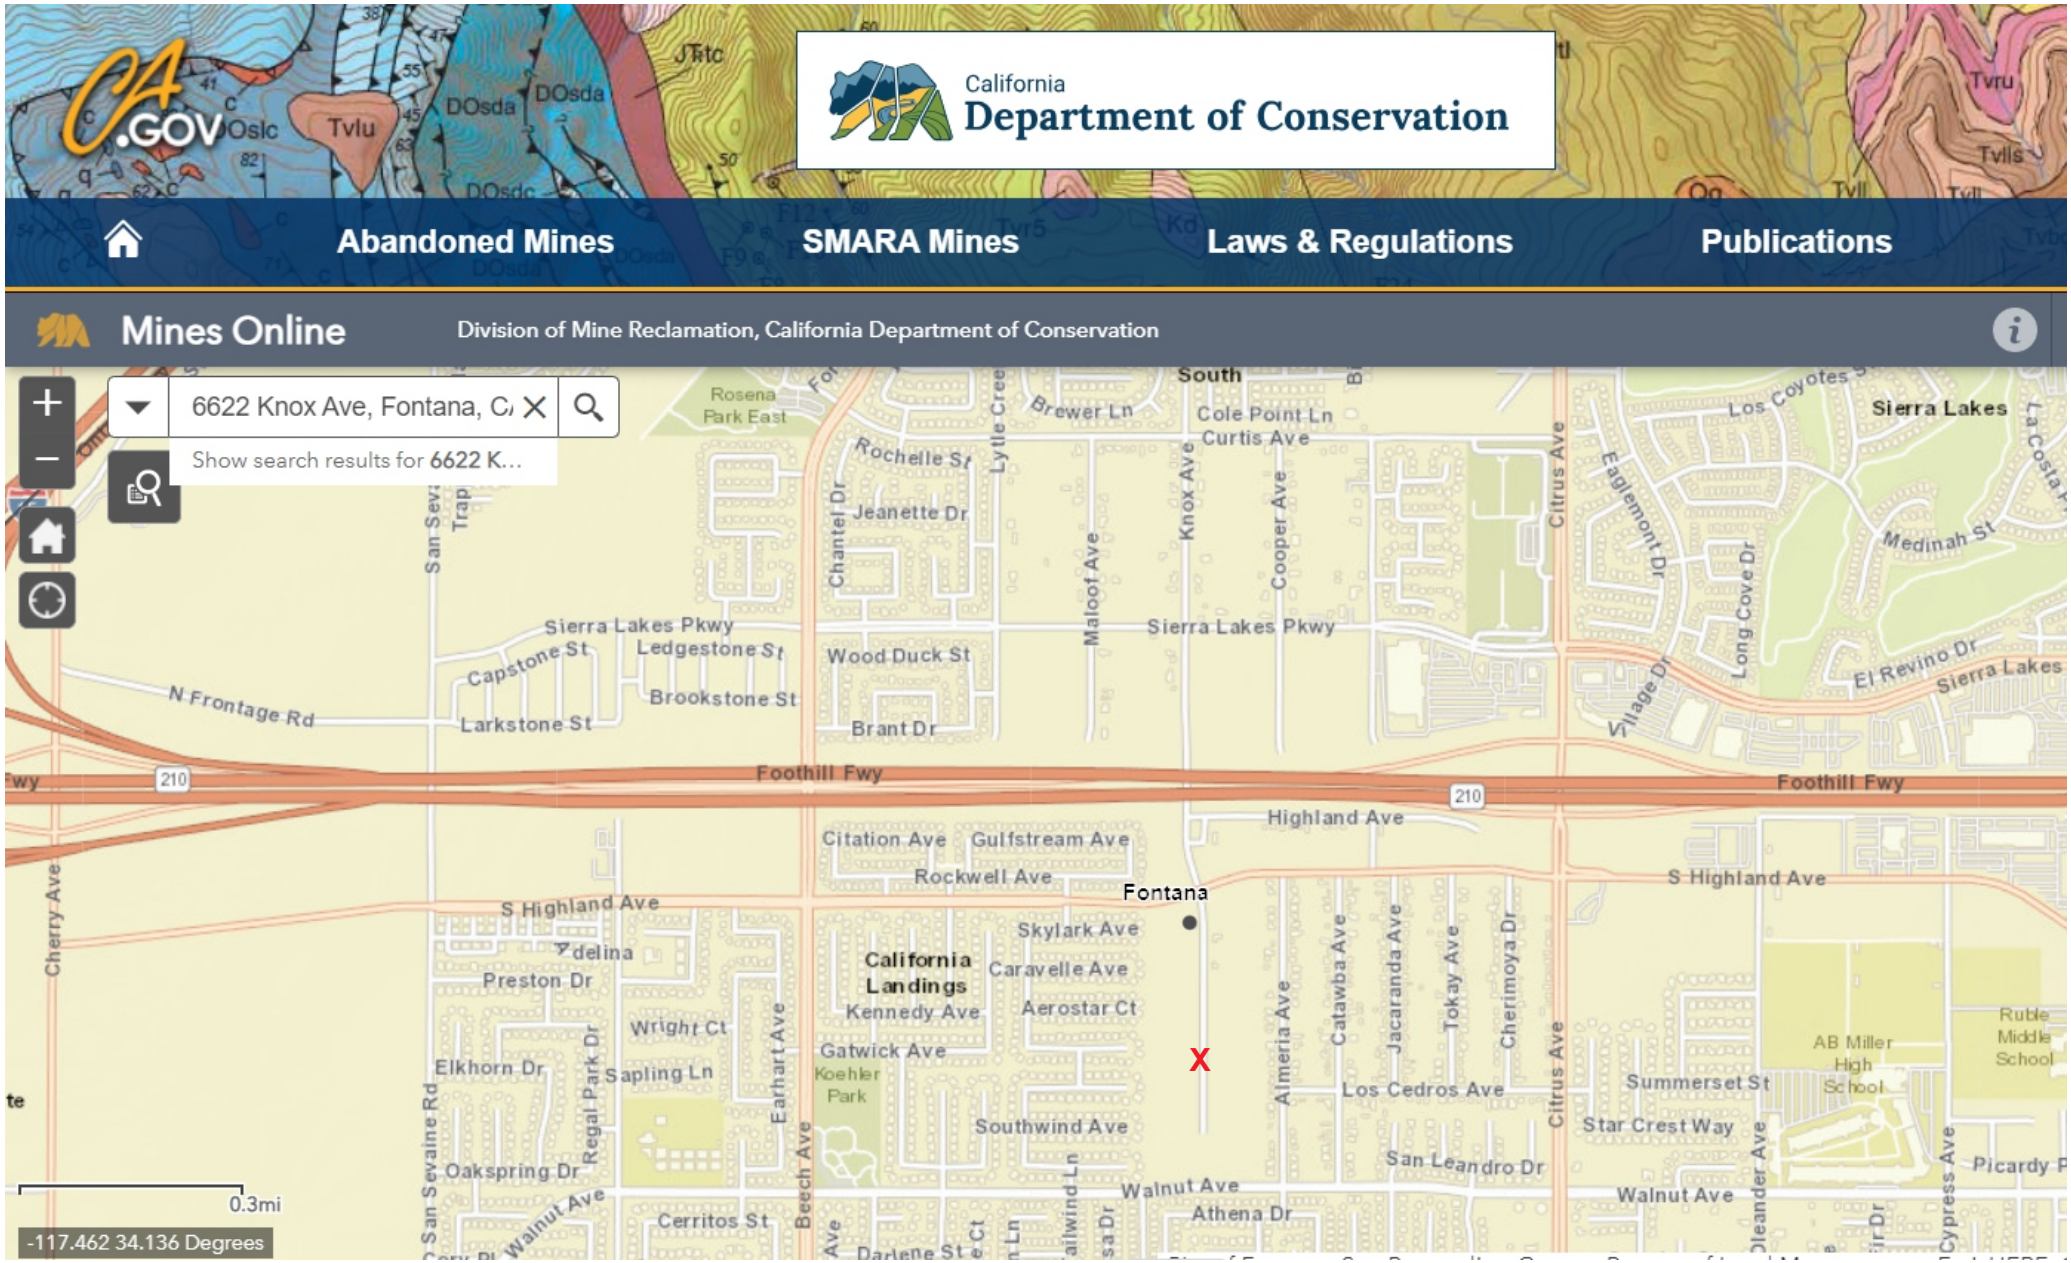

The flood hazard information is derived directly from the authoritative NFHL web services provided by FEMA. This map was exported on 10/4/2024 at 1:36 PM and does not reflect changes or amendments subsequent to this date and time. The NFHL and effective information may change or become superseded by new data over time.

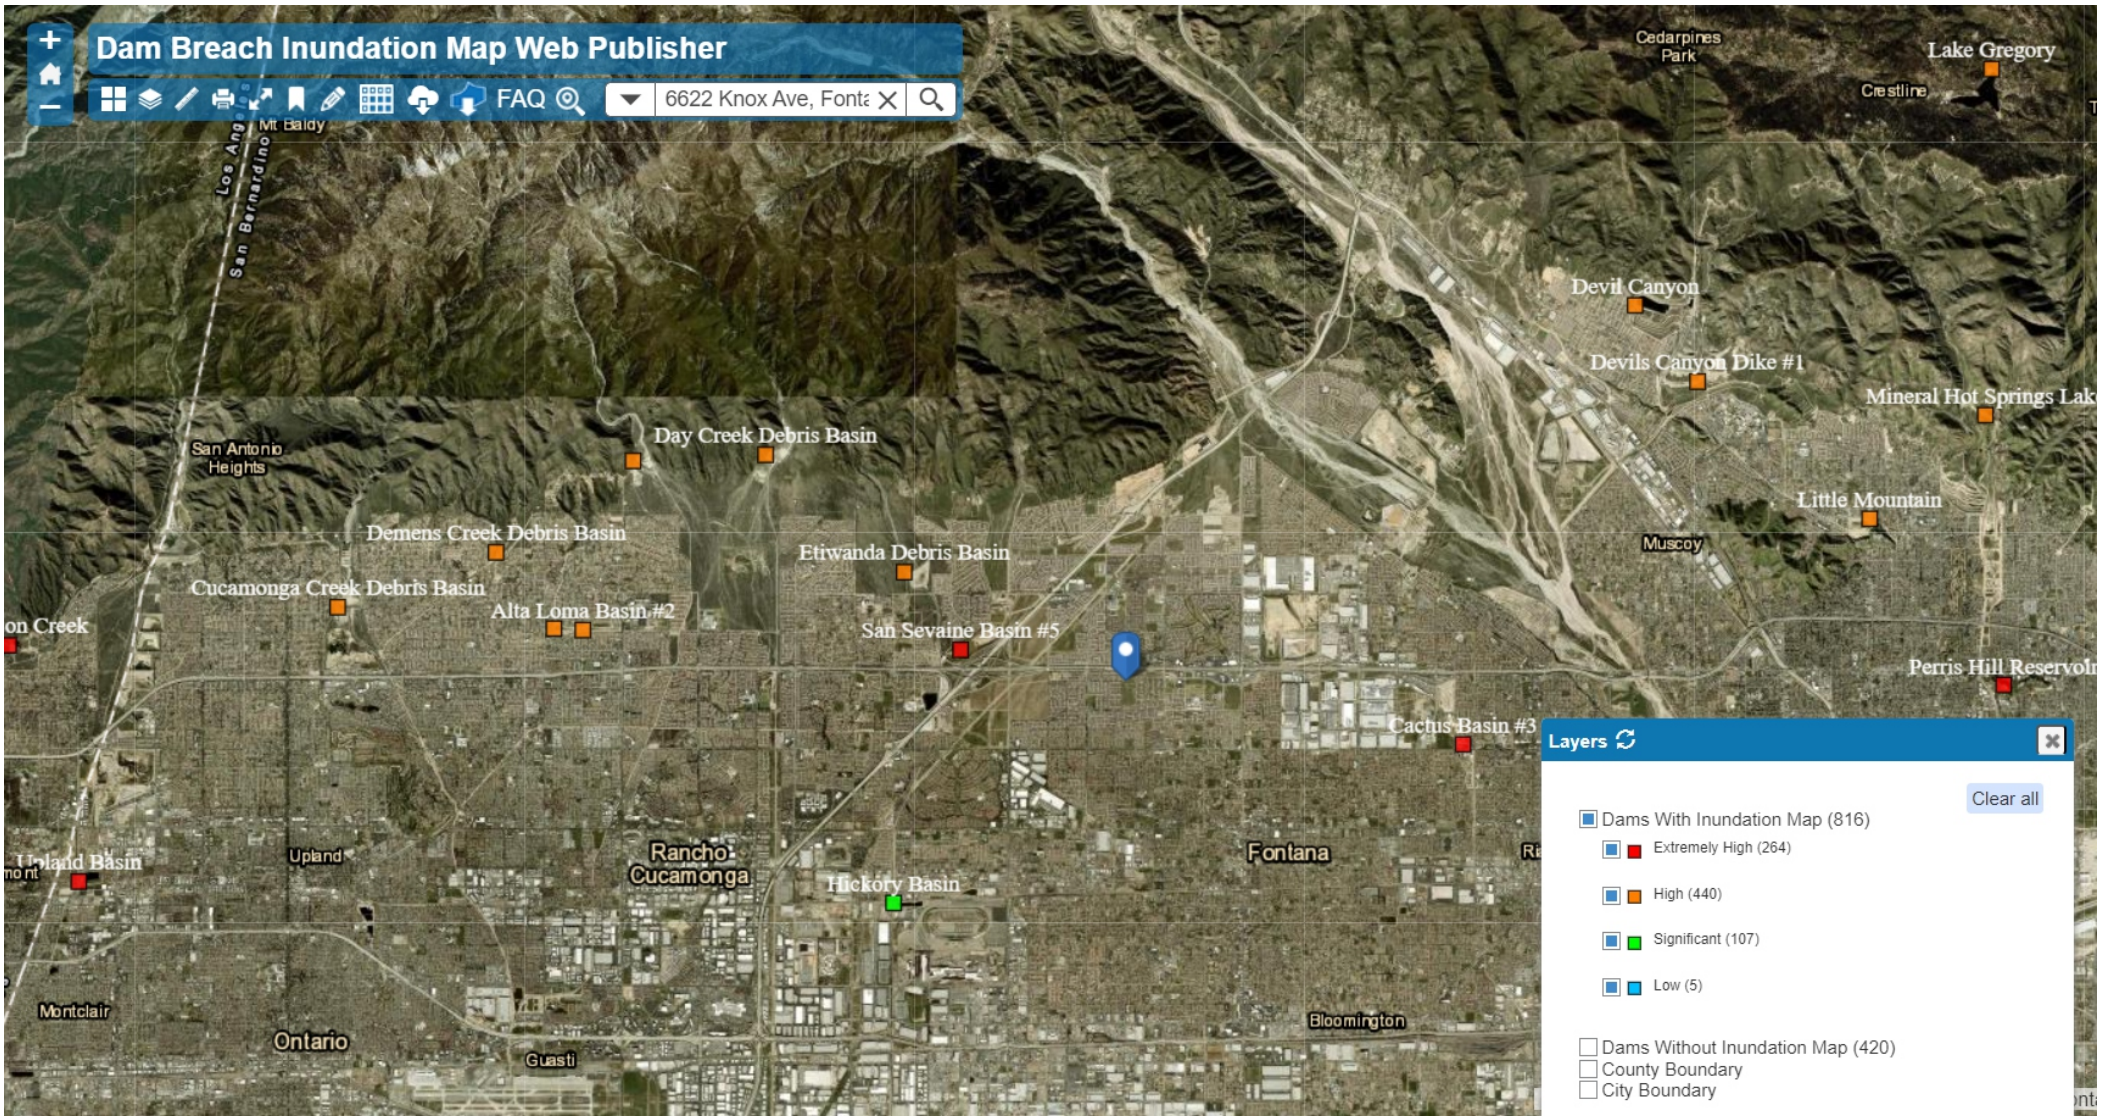

This map image is void if the one or more of the following map elements do not appear: basemap imagery, flood zone labels, legend, scale bar, map creation date, community identifiers, FIRM panel number, and FIRM effective date. Map images for unmapped and unmodernized areas cannot be used for regulatory purposes.

Site History

The Site is primarily vacant land with three single-family residential dwellings located west of Almeria Avenue. The Site had not been used for agricultural purposes.

As part of the Phase I requirements, DTSC conducted a site visit and reviewed the Phase I and Phase I Addendum submitted. Since there was no agricultural use of the site, DTSC review the data submitted for LBP and OCPs and issued an no further action approval letter on 10/20/2008.

Fontana, California 92335

APPROVAL OF PHASE I ENVIRONMENTAL SITE ASSESSMENT ADDENDUM, FONTANA UNIFIED SCHOOL DISTRICT, PROPOSED MIDDLE SCHOOL NO. 8.75, CROSS STREETS ARE SOUTH HIGHLAND AVENUE AND WALNUT AVENUE, WEST OF ALALMERIA AVENUE, FONTANA, SAN BERNANRDINO
(SITE CODE 404813)

Dear Ms. Pure:

The Department of Toxic Substances Control (DTSC) reviewed the "Phase I Site Assessment Report and Phase I Addendum" (Phase I and Addendum) (The Planning Center, July 2008), received on August 11, 2008. DTSC received additional information on September 5, 2008, September 15, 2008 and October 20, 2008, in response to DTSC's e-mail requests dated September 5th and September 12, 2008.

According to the Phase I Addendum, the 40-acre site is currently vacant with the exception of three existing residential dwellings. For the purpose of the Phase I, the site was divided into Areas A, B and C. Area A and C includes 33.5 acres and Area B includes 5.6 acres (see Figure 4). Based on the findings of the Phase I Environmental Assessment conducted for the site, the only recognized environmental conditions at the site are asbestos containing material (ACM), lead from lead-based paint, organochlorine pesticides (OCPs) from termiticide application and Polychlorinated Biphenyls (PCBs) from electrical transformers for Areas A, B and C. The Phase I Addendum presents the findings of the soil investigation for lead, OCPs, and PCBs in Area A. The Phase I Addendum concludes the results from lead, PCBs and OCP concentrations do not present a health risk to future users of the school and recommends no further action for Area A.

Printed on Recycled Paper

Although information regarding ACM was not provided in the Phase I or Phase I Addendum, the Fontana School District (District) is responsible for complying with federal, state, and local requirements for mitigation, management, or removal of ACM.

Based on the information provided and a site visit conducted by DTSC on September 5, 2008, neither a release of hazardous material nor the presence of a naturally occurring hazardous material, which would pose a threat to public health or the environment under unrestricted land use, was indicated for Areas A and C. DTSC concurs with the conclusion that further environmental investigation of the site is not required in Areas A and C and hereby approves the Phase I Addendum. However, Area B requires further investigation to determine impacts to the site from historical uses of the site.

The District requested partial site approval for Area A (33.5 acres). California Education Code section 17213.2(f) requires the following conditions be met before such approval is granted:

(1) The portions of the site (which are to be approved) have been fully characterized
(2) DTSC determines that the construction (on the approved portion of the site) will not interfere with any response of hazardous materials, or presence of any naturally occurring hazardous materials.
(3) The site conditions will not pose a significant threat and safety of workers involved with construction.

DTSC has determined the conditions specified above have been met and hereby grants partial site approval for Area A of the site as depicted in the enclosed Figure 4.

Pursuant to Education Code section 17213.2, subdivision (e), if a previously unidentified release or threatened release of a hazardous material or the presence of a naturally occurring hazardous material is discovered anytime during construction at the site, the District shall cease all construction activities at the site and notify DTSC. Additional assessment, investigation or cleanup may be required.

DTSC review of the Phase I exceeded the current fee (Ed. Code §17213.1, subd. (a)(2)) of $1,500 due to the following issues:

- Comprehensive review of Data Validation
- Processed Request for Partial Site Approval

As a result, DTSC will forward an invoice to the District for the amount in excess of the $1,500 review fee.

If you have any questions regarding the project, please contact Ms. Martina Diaz, at (818)717-6613.

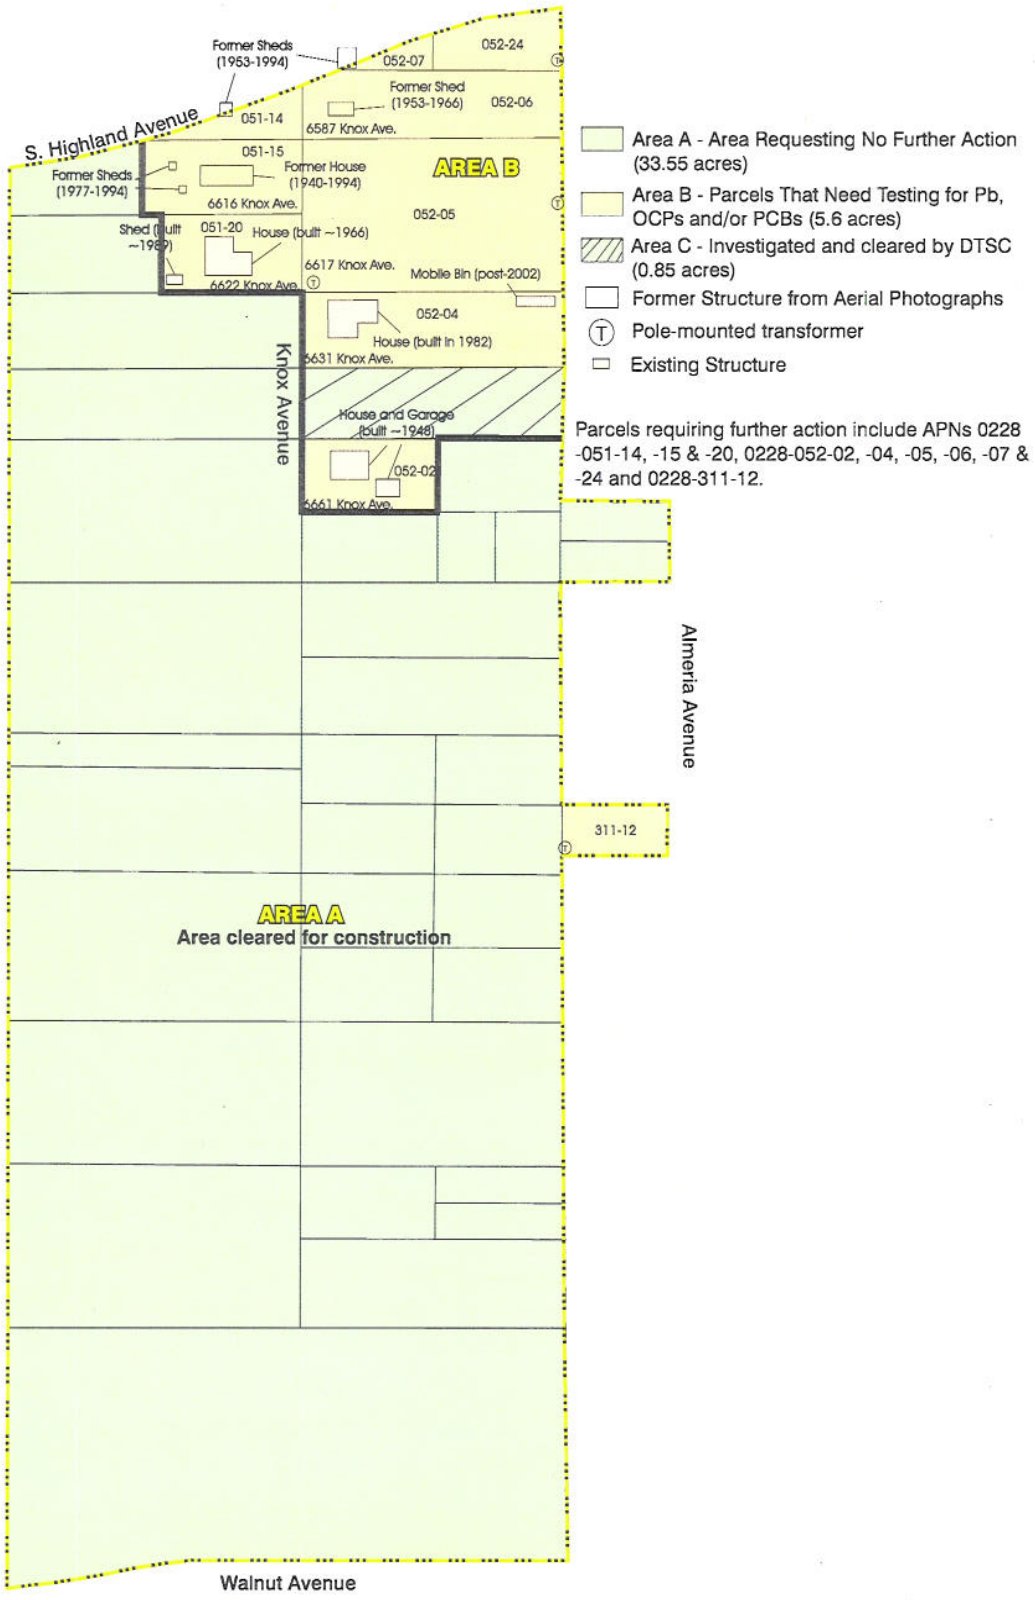

Sincerely,

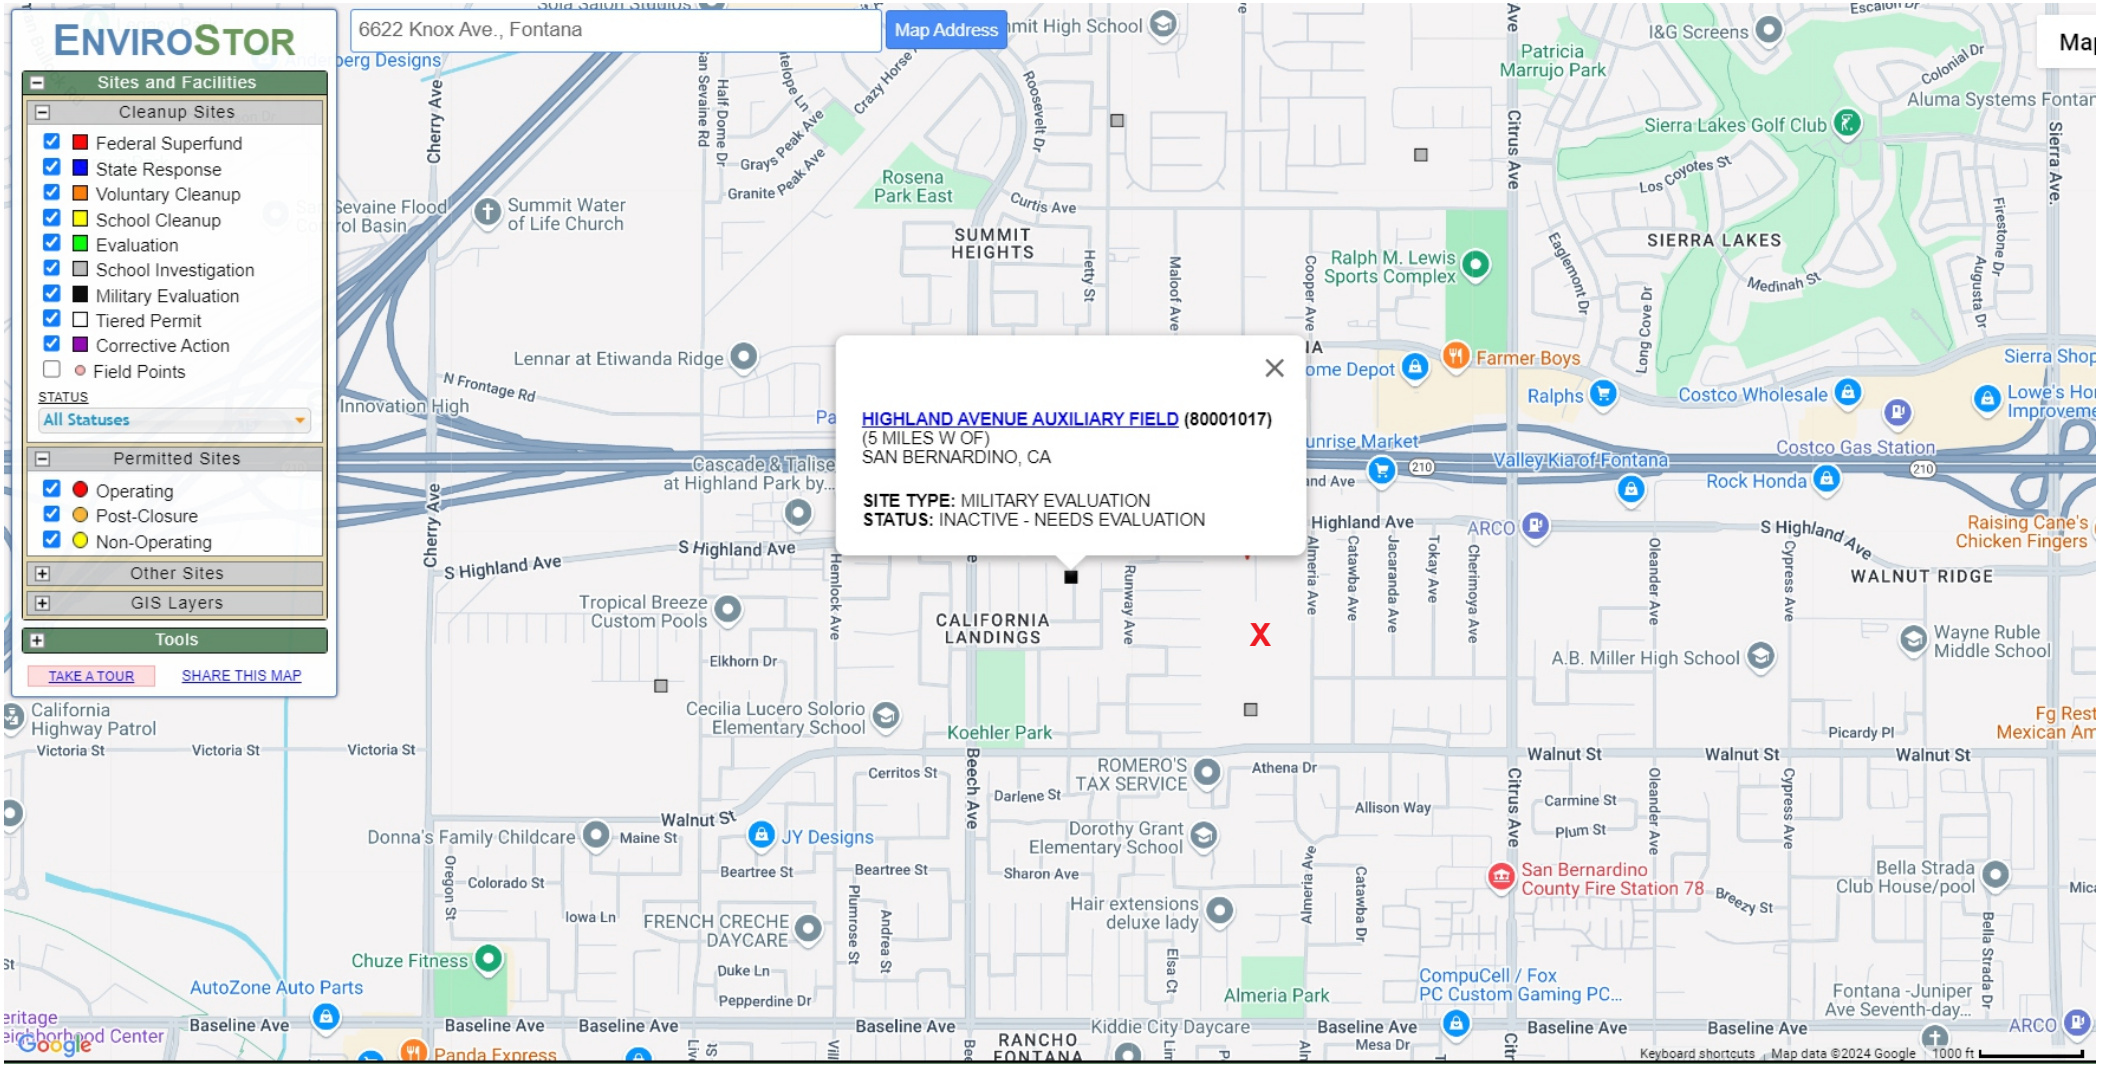

Javier Hinojosa, Chief
Schools Unit - Chatsworth
Brownfields and Environmental Restoration Program

DATE DETERMINED: 29 July 1999

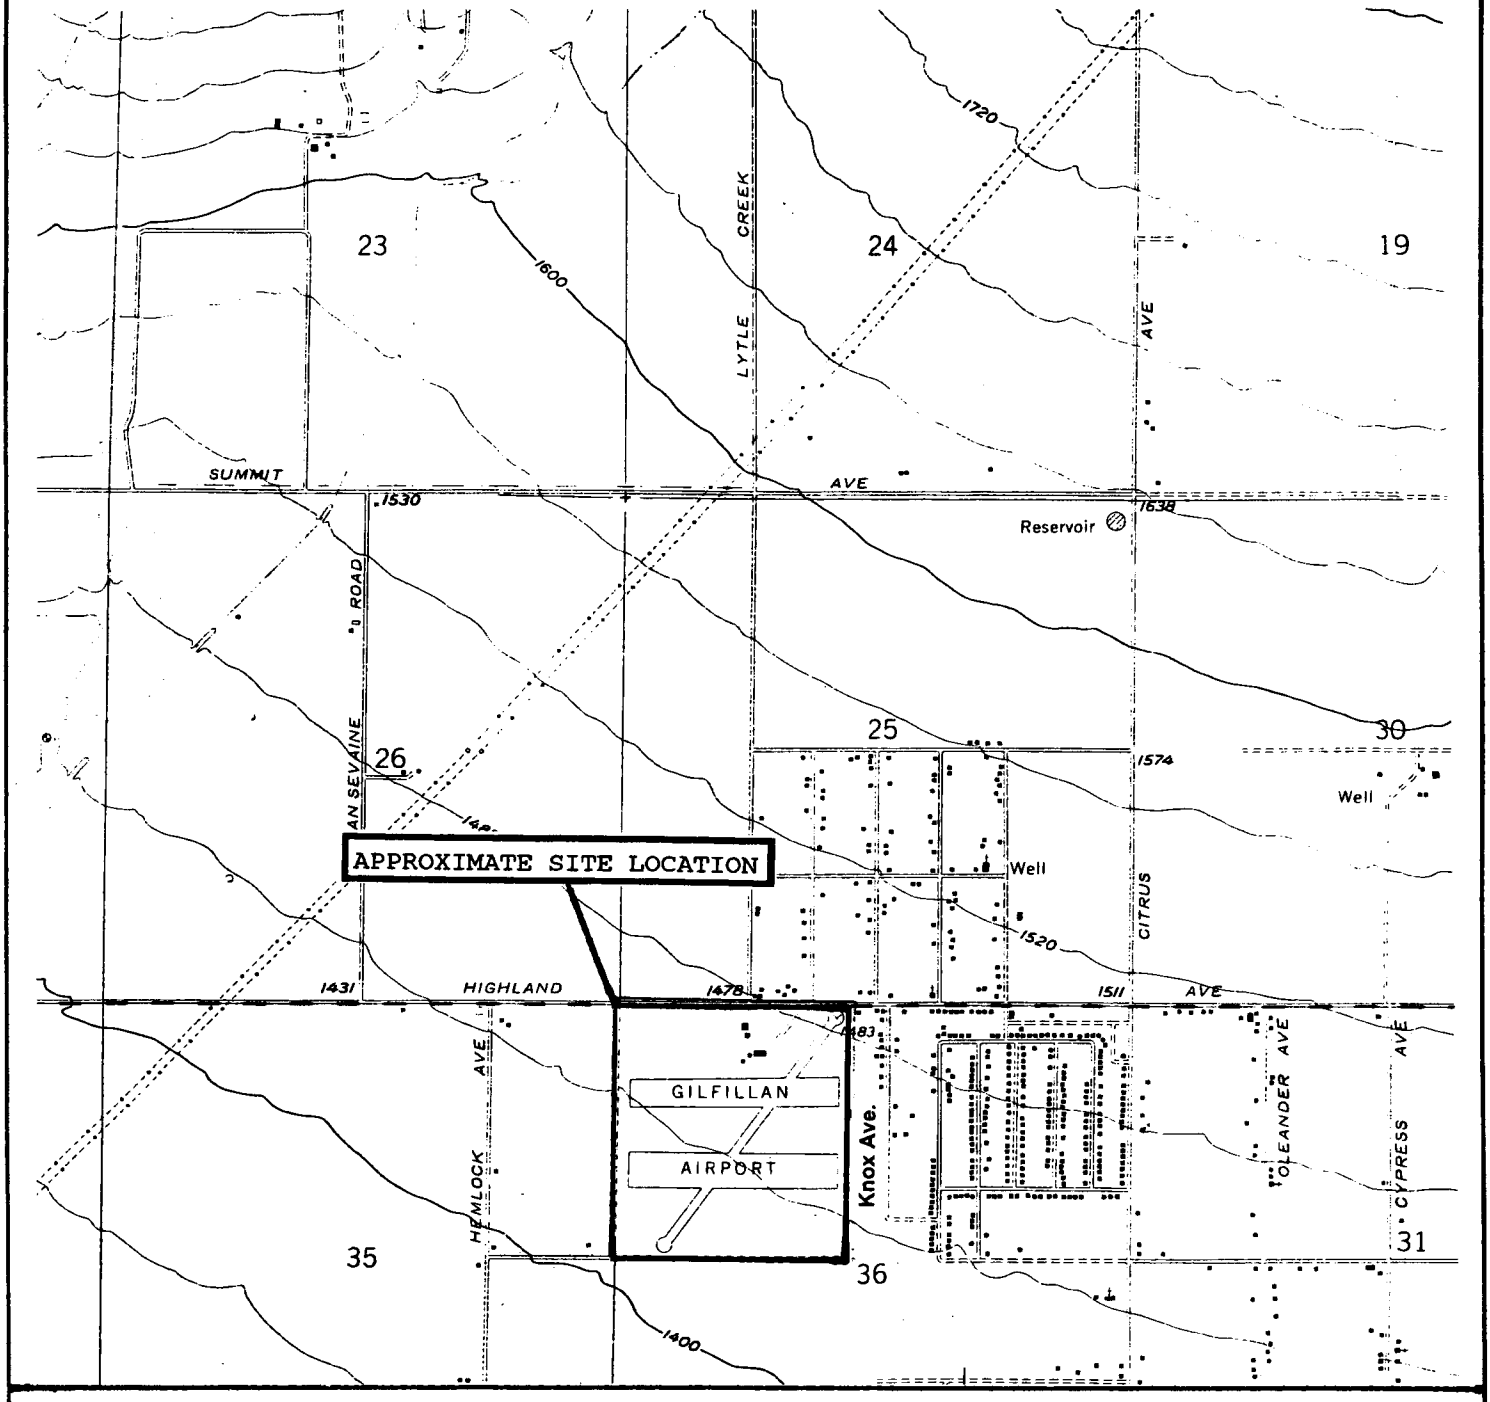

DISTRICT POC: Jeffery B. Armentrout, Project Manager, (213) 452-3720.

REMARKS AND COMMENTS: The Highland Ave. Auxiliary Field was part of the Cal-Aero Academy (Plancor 406), a Defense Plant Corporation pilot training school. The Defense Plant Corporation acquired the 143.07 acre site by Complaint of Condemnation and Order for Immediate Possession dated October 1, 1943. The

airfield consisted of two graded and paved landing strips and one staging house with privy. The airfield was quitclaimed to the County of San Bernardino on August 15, 1947.

Legend

- ★ **Selected Facility**
- ■ **EPA Facility of Interest**
- ■ **State/Tribe Facility of Interest**

The facility locations displayed come from the FRS Spatial Coordinates tables. They are the best representative locations for the displayed facilities based on the accuracy of the collection method and quality assurance checks performed against each location. The North American Datum of 1983 is used to display all coordinates.

Environmental Justice

This section shows indexes from EJScreen, EPA's screening tool for environmental justice (EJ) concerns. EPA uses these indexes to identify geographic areas that may warrant further consideration or analysis for potential EJ concerns. Use of these indexes does not designate an area as an "EJ community" or "EJ facility." EJScreen provides screening level indicators, not a determination of the existence or absence of EJ concerns. For more information, see the EJScreen home page.

EXECUTIVE SUMMARY

A search of available environmental records was conducted by Environmental Data Resources, Inc (EDR). The report was designed to assist parties seeking to meet the search requirements of EPA's Standards and Practices for All Appropriate Inquiries (40 CFR Part 312), the ASTM Standard Practice for Environmental Site Assessments (E1527 - 21), the ASTM Standard Practice for Environmental Site Assessments for Forestland or Rural Property (E2247 - 16), the ASTM Standard Practice for Limited Environmental Due Diligence: Transaction Screen Process (E1528 - 22) or custom requirements developed for the evaluation of environmental risk associated with a parcel of real estate.

EXECUTIVE SUMMARY

TARGET PROPERTY SEARCH RESULTS

The target property was not listed in any of the databases searched by EDR.

DATABASES WITH NO MAPPED SITES

No mapped sites were found in EDR's search of available ("reasonably ascertainable ") government records either on the target property or within the search radius around the target property for the following databases:

STANDARD ENVIRONMENTAL RECORDS

Lists of Federal NPL (Superfund) sites

NPL ---- National Priority List
Proposed NPL ---- Proposed National Priority List Sites
NPL LIENS ---- Federal Superfund Liens

Lists of Federal Delisted NPL sites

Delisted NPL ---- National Priority List Deletions

Lists of Federal sites subject to CERCLA removals and CERCLA orders

FEDERAL FACILITY ---- Federal Facility Site Information listing
SEMS ---- Superfund Enterprise Management System

Lists of Federal CERCLA sites with NFRAP

SEMS-ARCHIVE ---- Superfund Enterprise Management System Archive

Lists of Federal RCRA facilities undergoing Corrective Action

CORRACTS ---- Corrective Action Report

Lists of Federal RCRA TSD facilities

RCRA-TSDF ---- RCRA - Treatment, Storage and Disposal

Lists of Federal RCRA generators

RCRA-LQG ---- RCRA - Large Quantity Generators
RCRA-SQG ---- RCRA - Small Quantity Generators
RCRA-VSQG ---- RCRA - Very Small Quantity Generators (Formerly Conditionally Exempt Small Quantity Generators)

Federal institutional controls / engineering controls registries

LUCIS ---- Land Use Control Information System

US ENG CONTROLS ..... Engineering Controls Sites List
US INST CONTROLS ..... Institutional Controls Sites List

Federal ERNS list

ERNS ..... Emergency Response Notification System

Lists of state- and tribal (Superfund) equivalent sites

RESPONSE ..... State Response Sites

Lists of state and tribal landfills and solid waste disposal facilities

SWF/LF ..... Solid Waste Information System

Lists of state and tribal leaking storage tanks

LUST ..... Geotracker's Leaking Underground Fuel Tank Report
INDIAN LUST ..... Leaking Underground Storage Tanks on Indian Land
CPS-SLIC ..... Statewide SLIC Cases

Lists of state and tribal registered storage tanks

FEMA UST ..... Underground Storage Tank Listing
UST ..... Active UST Facilities
AST ..... Aboveground Petroleum Storage Tank Facilities
INDIAN UST ..... Underground Storage Tanks on Indian Land

Lists of state and tribal voluntary cleanup sites

INDIAN VCP ..... Voluntary Cleanup Priority Listing
VCP ..... Voluntary Cleanup Program Properties

Lists of state and tribal brownfield sites

BROWNFIELDS ..... Considered Brownfieds Sites Listing

ADDITIONAL ENVIRONMENTAL RECORDS

Local Brownfield lists

US BROWNFIELDS ..... A Listing of Brownfields Sites

Local Lists of Landfill / Solid Waste Disposal Sites

WMUDS/SWAT ..... Waste Management Unit Database
SWRCY ..... Recycler Database
HAULERS ..... Registered Waste Tire Haulers Listing
INDIAN ODI ..... Report on the Status of Open Dumps on Indian Lands
ODI ..... Open Dump Inventory
DEBRIS REGION 9 ..... Torres Martinez Reservation Illegal Dump Site Locations
IHS OPEN DUMPS ..... Open Dumps on Indian Land

Local Lists of Hazardous waste / Contaminated Sites

US HIST CDL ..... Delisted National Clandestine Laboratory Register

HIST Cal-Sites	Historical Calsites Database
CDL	Clandestine Drug Labs
CERS HAZ WASTE	California Environmental Reporting System Hazardous Waste
Toxic Pits	Toxic Pits Cleanup Act Sites
US CDL	National Clandestine Laboratory Register

Local Lists of Registered Storage Tanks

SWEEPS UST	SWEEPS UST Listing
HIST UST	Hazardous Substance Storage Container Database
CA FID UST	Facility Inventory Database
CERS TANKS	California Environmental Reporting System (CERS) Tanks

Local Land Records

LIENS	Environmental Liens Listing
LIENS 2	CERCLA Lien Information
DEED	Deed Restriction Listing

Records of Emergency Release Reports

HMIRS	Hazardous Materials Information Reporting System
CHMIRS	California Hazardous Material Incident Report System
LDS	Land Disposal Sites Listing
MCS	Military Cleanup Sites Listing
SPILLS 90	SPILLS 90 data from FirstSearch

Other Ascertainable Records

DOD	Department of Defense Sites
SCRD DRYCLEANERS	State Coalition for Remediation of Drycleaners Listing
US FIN ASSUR	Financial Assurance Information
EPA WATCH LIST	EPA WATCH LIST
2020 COR ACTION	2020 Corrective Action Program List
TSCA	Toxic Substances Control Act
TRIS	Toxic Chemical Release Inventory System
SSTS	Section 7 Tracking Systems
ROD	Records Of Decision
RMP	Risk Management Plans
RAATS	RCRA Administrative Action Tracking System
PRP	Potentially Responsible Parties
PADS	PCB Activity Database System
ICIS	Integrated Compliance Information System
FTTS	FIFRA/ TSCA Tracking System - FIFRA (Federal Insecticide, Fungicide, & Rodenticide Act)/TSCA (Toxic Substances Control Act)
MLTS	Material Licensing Tracking System
COAL ASH DOE	Steam-Electric Plant Operation Data
COAL ASH EPA	Coal Combustion Residues Surface Impoundments List
PCB TRANSFORMER	PCB Transformer Registration Database
RADINFO	Radiation Information Database
HIST FTTS	FIFRA/TSCA Tracking System Administrative Case Listing

HWT	Registered Hazardous Waste Transporter Database
HWTS	Hazardous Waste Tracking System
HAZNET	Facility and Manifest Data
MINES	Mines Site Location Listing
MWMP	Medical Waste Management Program Listing
NPDES	NPDES Permits Listing
San Bern. Co. Permit	Hazardous Material Permits
PEST LIC	Pesticide Regulation Licenses Listing
PROC	Certified Processors Database
Notify 65	Proposition 65 Records
HAZMAT	Hazardous Material Facilities
UIC	UIC Listing
UIC GEO	UIC GEO (GEOTRACKER)
WASTEWATER PITS	Oil Wastewater Pits Listing
WDS	Waste Discharge System

EXECUTIVE SUMMARY

WIP ---------- Well Investigation Program Case List
MILITARY PRIV SITES ---------- MILITARY PRIV SITES (GEOTRACKER)
PROJECT ---------- PROJECT (GEOTRACKER)
WDR ---------- Waste Discharge Requirements Listing
CIWQS ---------- California Integrated Water Quality System
NON-CASE INFO ---------- NON-CASE INFO (GEOTRACKER)
OTHER OIL GAS ---------- OTHER OIL & GAS (GEOTRACKER)
PROD WATER PONDS ---------- PROD WATER PONDS (GEOTRACKER)
SAMPLING POINT ---------- SAMPLING POINT (GEOTRACKER)
WELL STIM PROJ ---------- Well Stimulation Project (GEOTRACKER)

EDR HIGH RISK HISTORICAL RECORDS

EDR Exclusive Records

EDR MGP ---------- EDR Proprietary Manufactured Gas Plants
EDR Hist Auto ---------- EDR Exclusive Historical Auto Stations
EDR Hist Cleaner ---------- EDR Exclusive Historical Cleaners

EDR RECOVERED GOVERNMENT ARCHIVES

Exclusive Recovered Govt. Archives

RGA LF ---------- Recovered Government Archive Solid Waste Facilities List
RGA LUST ---------- Recovered Government Archive Leaking Underground Storage Tank

SURROUNDING SITES: SEARCH RESULTS

Surrounding sites were identified in the following databases.

Elevations have been determined from the USGS Digital Elevation Model and should be evaluated on a relative (not an absolute) basis. Relative elevation information between sites of close proximity should be field verified. Sites with an elevation equal to or higher than the target property have been differentiated below from sites with an elevation lower than the target property.
Page numbers and map identification numbers refer to the EDR Radius Map report where detailed data on individual sites can be reviewed.

Sites listed in ***bold italics*** are in multiple databases.

Unmappable (orphan) sites are not considered in the foregoing analysis.

STANDARD ENVIRONMENTAL RECORDS

Lists of state- and tribal hazardous waste facilities

ENVIROSTOR: The Department of Toxic Substances Control's (DTSC's) Site Mitigation and Brownfields Reuse Program's (SMBRP's) EnviroStor database identifes sites that have known contamination or sites for which there may be reasons to investigate further. The database includes the following site types: Federal Superfund sites (National Priorities List (NPL)); State Response, including Military Facilities and State Superfund; Voluntary Cleanup; and School sites. EnviroStor provides similar information to the information that was available in CalSites, and provides additional site information, including, but not limited to, identification of formerly-contaminated properties that have been released for reuse, properties where

environmental deed restrictions have been recorded to prevent inappropriate land uses, and risk characterization information that is used to assess potential impacts to public health and the environment at contaminated sites.

A review of the ENVIROSTOR list, as provided by EDR, and dated 04/22/2024 has revealed that there are 6 ENVIROSTOR sites within approximately 1 mile of the target property.

Equal/Higher Elevation	Address	Direction / Distance	Map ID	Page
A.B. MILLER HIGH SCH Facility Id: 36010026 Status: No Action Required	***6821 OLEANDER AVENUE***	***E 1/2 - 1 (0.651 mi.)***	***9***	***26***
ELEMENTARY SCHOOL NO Facility Id: 36650020 Status: No Action Required	***CURTIS AVENUE/CATAWB***	***NNE 1/2 - 1 (0.780 mi.)***	***11***	***31***

MIDDLE SCHOOL NO. 9 Facility Id: 36010068 Status: No Further Action	***CITRUS AVENUE/BASELI***	***SE 1/2 - 1 (0.653 mi.)***	***10***	***28***

ADDITIONAL ENVIRONMENTAL RECORDS

Local Lists of Hazardous waste / Contaminated Sites

SCH: This category contains proposed and existing school sites that are being evaluated by DTSC for possible hazardous materials contamination. In some cases, these properties may be listed in the CalSites category. depending on the level of threat to public health and safety or the. environment they pose.

A review of the SCH list, as provided by EDR, and dated 04/22/2024 has revealed that there is 1 SCH site within approximately 0.25 miles of the target property.

Lower Elevation	Address	Direction / Distance	Map ID	Page
PROPOSED MIDDLE SCHO Facility Id: 60000957 Status: No Further Action	***BETWEEN SOUTH HIGHLA***	***0 - 1/8 (0.000 mi.)***	***A1***	***9***

Other Ascertainable Records

RCRA NonGen / NLR: RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Non-Generators do not presently generate hazardous waste.

A review of the RCRA NonGen / NLR list, as provided by EDR, and dated 06/03/2024 has revealed that there are 4 RCRA NonGen / NLR sites within approximately 0.25 miles of the target property.

Equal/Higher Elevation	Address	Direction / Distance	Map ID	Page
IRWIN PADUA EPA ID:: CAC003146021	6760 ALMERIA ST	ESE 0 - 1/8 (0.016 mi.)	3	12
JACOB OROZCO EPA ID:: CAC003252389	15951 LOS CEDROS AVE	ESE 1/8 - 1/4 (0.200 mi.)	4	14
MACIE POWELL-MANN EPA ID:: CAC003279971	6616 HEATHROW AVENUE	WNW 1/8 - 1/4 (0.217 mi.)	5	16
TONIE JOHNSON EPA ID:: CAC003082665	***6688 TOKAY AVE***	***E 1/8 - 1/4 (0.222 mi.)***	***6***	***19***

FUDS: The Listing includes locations of Formerly Used Defense Sites Properties where the US Army Corps Of Engineers is actively working or will take necessary cleanup actions.

A review of the FUDS list, as provided by EDR, and dated 05/13/2024 has revealed that there is 1 FUDS site within approximately 1 mile of the target property.

Lower Elevation	Address	Direction / Distance	Map ID	Page
HIGHLAND AVE. AUXILI		WNW 1/4 - 1/2 (0.267 mi.)	B8	25

E MANIFEST: EPA established a national system for tracking hazardous waste shipments electronically. This system, known as ?e-Manifest,? will modernize the nation?s cradle-to-grave hazardous waste tracking process while saving valuable time, resources, and dollars for industry and states.

A review of the E MANIFEST list, as provided by EDR, and dated 07/24/2023 has revealed that there is 1 E MANIFEST site within approximately 0.25 miles of the target property.

Equal/Higher Elevation	Address	Direction / Distance	Map ID	Page
TONIE JOHNSON	***6688 TOKAY AVE***	***E 1/8 - 1/4 (0.222 mi.)***	***6***	***19***

CERS: The CalEPA Regulated Site Portal database combines data about environmentally regulated sites and facilities in California into a single database. It combines data from a variety of state and federal databases, and provides an overview of regulated activities across the spectrum of environmental programs for any given location in California. These activities include hazardous materials and waste, state and federal cleanups, impacted ground and surface waters, and toxic materials

A review of the CERS list, as provided by EDR, and dated 07/10/2024 has revealed that there is 1 CERS

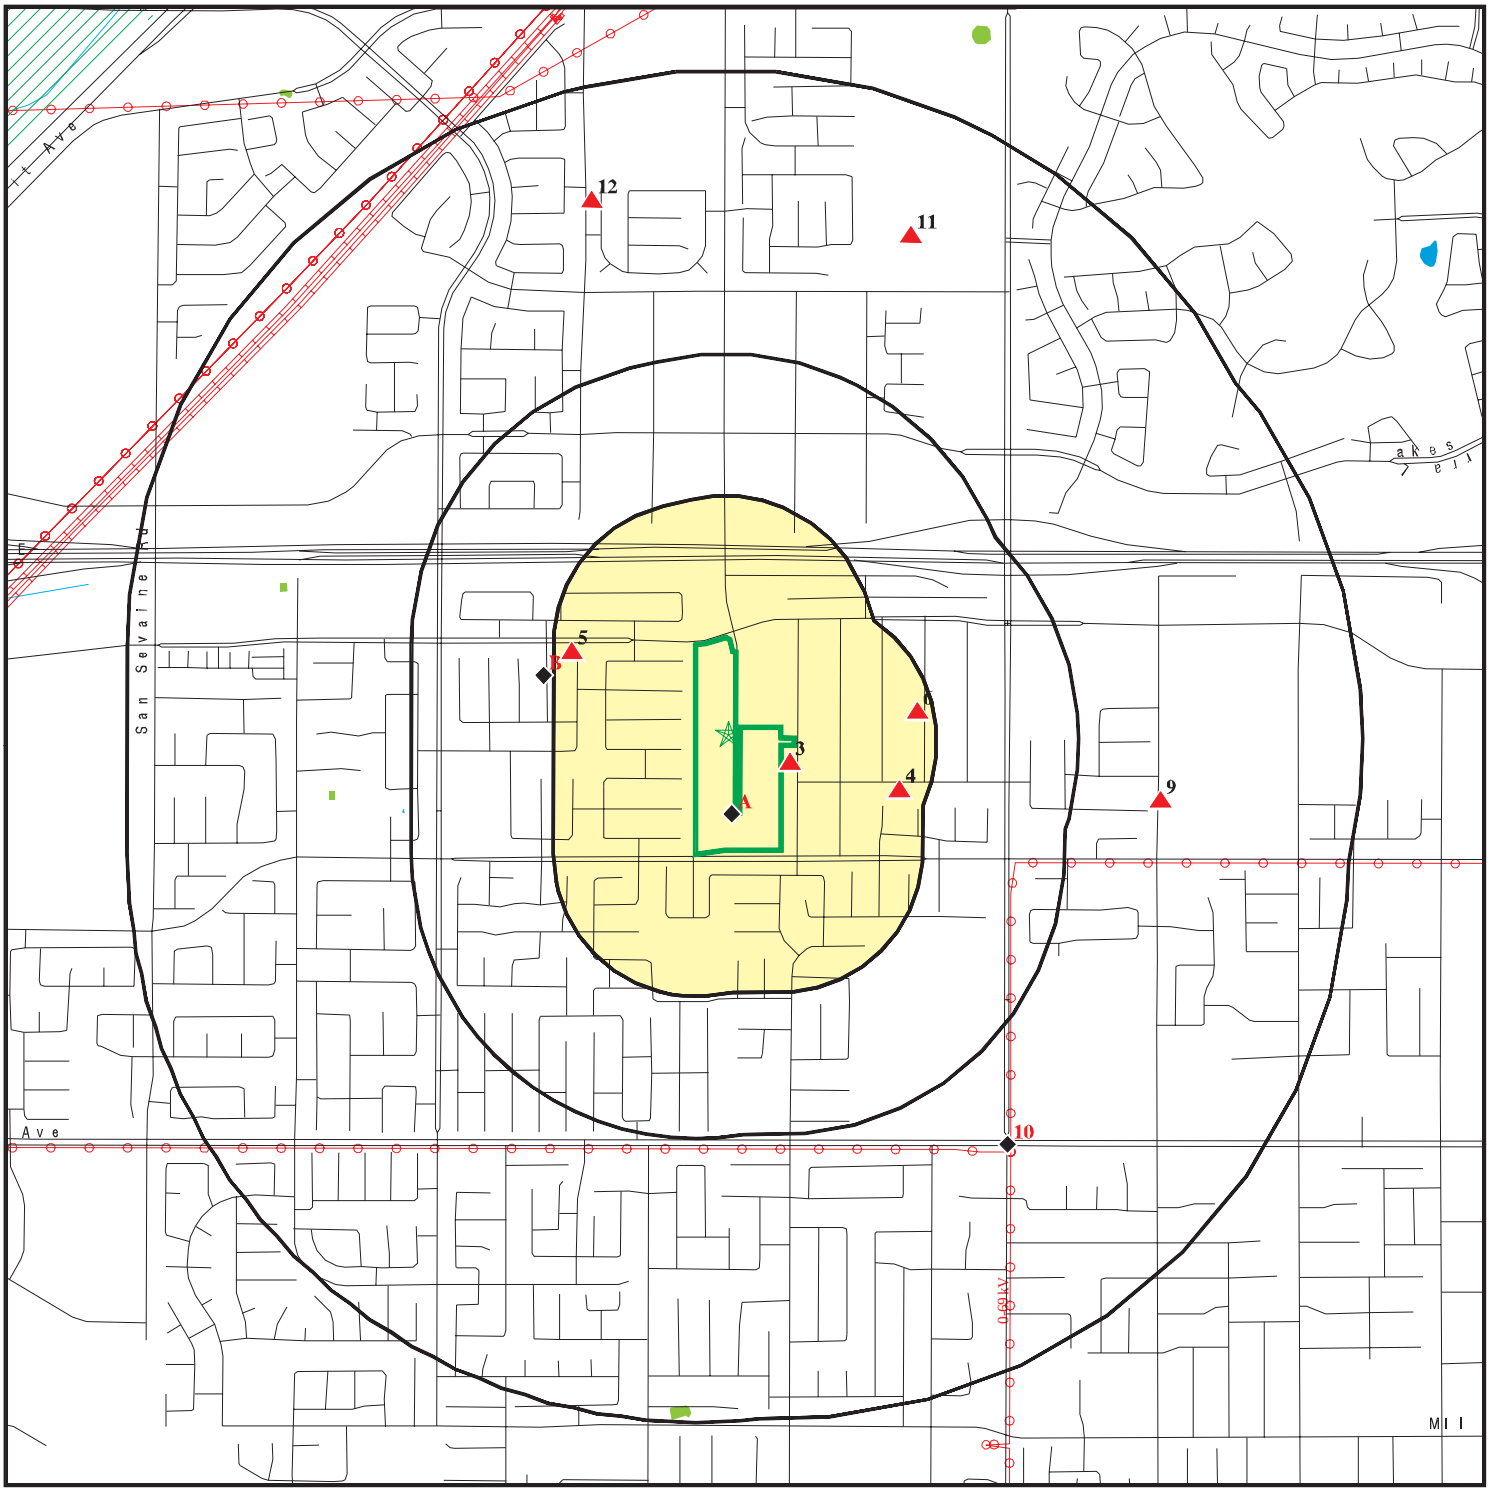

site within approximately 0.001 miles of the target property.

Lower Elevation	Address	Direction / Distance	Map ID	Page
PROPOSED MIDDLE SCHO	BETWEEN SOUTH HIGHLA	0 - 1/8 (0.000 mi.)	A2	11

EXECUTIVE SUMMARY

There were no unmapped sites in this report.

Feature Description: The Highland Ave. Auxiliary Field was part of the Cal-Aero Academy (Plancor 406), a Defense Plant Corporation pilot training school. The Defense Plant Corporation acquired the 143.07 acre site by Complaint of Condemnation and Order for Immediate Possession dated October 1, 1943. The airfield consisted of two graded and paved landing strips and one staging house with privy. The airfield was quitclaimed to the County of San Bernardino on August 15, 1947.

GOVERNMENT RECORDS SEARCHED / DATA CURRENCY TRACKING

To maintain currency of the following federal and state databases, EDR contacts the appropriate governmental agency on a monthly or quarterly basis, as required.

Number of Days to Update: Provides confirmation that EDR is reporting records that have been updated within 90 days from the date the government agency made the information available to the public.

STANDARD ENVIRONMENTAL RECORDS

Lists of Federal NPL (Superfund) sites

NPL: National Priority List

National Priorities List (Superfund). The NPL is a subset of CERCLIS and identifies over 1,200 sites for priority cleanup under the Superfund Program. NPL sites may encompass relatively large areas. As such, EDR provides polygon coverage for over 1,000 NPL site boundaries produced by EPA's Environmental Photographic Interpretation Center (EPIC) and regional EPA offices.

Proposed NPL: Proposed National Priority List Sites

A site that has been proposed for listing on the National Priorities List through the issuance of a proposed rule in the Federal Register. EPA then accepts public comments on the site, responds to the comments, and places on the NPL those sites that continue to meet the requirements for listing.

Date of Government Version: 08/27/2024

NPL LIENS: Federal Superfund Liens

Federal Superfund Liens. Under the authority granted the USEPA by CERCLA of 1980, the USEPA has the authority to file liens against real property in order to recover remedial action expenditures or when the property owner received notification of potential liability. USEPA compiles a listing of filed notices of Superfund Liens.

Lists of Federal Delisted NPL sites

Delisted NPL: National Priority List Deletions

The National Oil and Hazardous Substances Pollution Contingency Plan (NCP) establishes the criteria that the EPA uses to delete sites from the NPL. In accordance with 40 CFR 300.425.(e), sites may be deleted from the NPL where no further response is appropriate.

SEMS: Superfund Enterprise Management System

SEMS (Superfund Enterprise Management System) tracks hazardous waste sites, potentially hazardous waste sites, and remedial activities performed in support of EPA's Superfund Program across the United States. The list was formerly know as CERCLIS, renamed to SEMS by the EPA in 2015. The list contains data on potentially hazardous waste sites that have been reported to the USEPA by states, municipalities, private companies and private persons, pursuant to Section 103 of the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA). This dataset also contains sites which are either proposed to or on the National Priorities List (NPL) and the sites which are in the screening and assessment phase for possible inclusion on the NPL.

Data Release Frequency: Quarterly

Lists of Federal CERCLA sites with NFRAP

SEMS-ARCHIVE: Superfund Enterprise Management System Archive

SEMS-ARCHIVE (Superfund Enterprise Management System Archive) tracks sites that have no further interest under the Federal Superfund Program based on available information. The list was formerly known as the CERCLIS-NFRAP, renamed to SEMS ARCHIVE by the EPA in 2015. EPA may perform a minimal level of assessment work at a site while it is archived if site conditions change and/or new information becomes available. Archived sites have been removed and archived from the inventory of SEMS sites. Archived status indicates that, to the best of EPA's knowledge, assessment at a site has been completed and that EPA has determined no further steps will be taken to list the site on the National Priorities List (NPL), unless information indicates this decision was not appropriate or other considerations require a recommendation for listing at a later time. The decision does not necessarily mean that there is no hazard associated with a given site; it only means that. based upon available information, the location is not judged to be potential NPL site.

Lists of Federal RCRA TSD facilities

RCRA-TSDF: RCRA - Treatment, Storage and Disposal

RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Transporters are individuals or entities that move hazardous waste from the generator offsite to a facility that can recycle, treat, store, or dispose of the waste. TSDFs treat, store, or dispose of the waste.

Lists of Federal RCRA generators

RCRA-LQG: RCRA - Large Quantity Generators

RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Large quantity generators (LQGs) generate over 1,000 kilograms (kg) of hazardous waste, or over 1 kg of acutely hazardous waste per month.

RCRA-VSQG: RCRA - Very Small Quantity Generators (Formerly Conditionally Exempt Small Quantity Generators)

RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Very small quantity generators (VSQGs) generate less than 100 kg of hazardous waste, or less than 1 kg of acutely hazardous waste per month.

Lists of state- and tribal hazardous waste facilities

ENVIROSTOR: EnviroStor Database

The Department of Toxic Substances Control's (DTSC's) Site Mitigation and Brownfields Reuse Program's (SMBRP's) EnviroStor database identifes sites that have known contamination or sites for which there may be reasons to investigate further. The database includes the following site types: Federal Superfund sites (National Priorities List (NPL)); State Response, including Military Facilities and State Superfund; Voluntary Cleanup; and School sites. EnviroStor provides similar information to the information that was available in CalSites, and provides additional site information, including, but not limited to, identification of formerly-contaminated properties that have been released for reuse, properties where environmental deed restrictions have been recorded to prevent inappropriate land uses, and risk characterization information that is used to assess potential impacts to public health and the environment at contaminated sites.

ADDITIONAL ENVIRONMENTAL RECORDS

Local Brownfield lists

US BROWNFIELDS: A Listing of Brownfields Sites

Brownfields are real property, the expansion, redevelopment, or reuse of which may be complicated by the presence or potential presence of a hazardous substance, pollutant, or contaminant. Cleaning up and reinvesting in these properties takes development pressures off of undeveloped, open land, and both improves and protects the environment. Assessment, Cleanup and Redevelopment Exchange System (ACRES) stores information reported by EPA Brownfields grant recipients on brownfields properties assessed or cleaned up with grant funding as well as information on Targeted Brownfields Assessments performed by EPA Regions. A listing of ACRES Brownfield sites is obtained from Cleanups in My Community. Cleanups in My Community provides information on Brownfields properties for which information is reported back to EPA, as well as areas served by Brownfields grant programs.

US CDL: Clandestine Drug Labs

A listing of clandestine drug lab locations. The U.S. Department of Justice ("the Department") provides this web site as a public service. It contains addresses of some locations where law enforcement agencies reported they found chemicals or other items that indicated the presence of either clandestine drug laboratories or dumpsites. In most cases, the source of the entries is not the Department, and the Department has not verified the entry and does not guarantee its accuracy. Members of the public must verify the accuracy of all entries by, for example, contacting local law enforcement and local health departments.

Date of Government Version: 05/20/2024

DEED: Deed Restriction Listing

Site Mitigation and Brownfields Reuse Program Facility Sites with Deed Restrictions & Hazardous Waste Management Program Facility Sites with Deed / Land Use Restriction. The DTSC Site Mitigation and Brownfields Reuse Program (SMBRP) list includes sites cleaned up under the program's oversight and generally does not include current or former hazardous waste facilities that required a hazardous waste facility permit. The list represents deed restrictions that are active. Some sites have multiple deed restrictions. The DTSC Hazardous Waste Management Program (HWMP) has developed a list of current or former hazardous waste facilities that have a recorded land use restriction at the local county recorder's office. The land use restrictions on this list were required by the DTSC HWMP as a result of the presence of hazardous substances that remain on site after the facility (or part of the facility) has been closed or cleaned up. The types of land use restriction include deed notice, deed restriction, or a land use restriction that binds current and future owners.

EPA WATCH LIST: EPA Watch List

EPA maintains a "Watch List" to facilitate dialogue between EPA, state and local environmental agencies on enforcement matters relating to facilities with alleged violations identified as either significant or high priority. Being on the Watch List does not mean that the facility has actually violated the law only that an investigation by EPA or a state or local environmental agency has led those organizations to allege that an unproven violation has in fact occurred. Being on the Watch List does not represent a higher level of concern regarding the alleged violations that were detected, but instead indicates cases requiring additional dialogue between EPA, state and local agencies - primarily because of the length of time the alleged violation has gone unaddressed or unresolved.

2020 COR ACTION: 2020 Corrective Action Program List

The EPA has set ambitious goals for the RCRA Corrective Action program by creating the 2020 Corrective Action Universe. This RCRA cleanup baseline includes facilities expected to need corrective action. The 2020 universe contains a wide variety of sites. Some properties are heavily contaminated while others were contaminated but have since been cleaned up. Still others have not been fully investigated yet, and may require little or no remediation. Inclusion in the 2020 Universe does not necessarily imply failure on the part of a facility to meet its RCRA obligations.

RMP: Risk Management Plans

When Congress passed the Clean Air Act Amendments of 1990, it required EPA to publish regulations and guidance for chemical accident prevention at facilities using extremely hazardous substances. The Risk Management Program Rule (RMP Rule) was written to implement Section 112(r) of these amendments. The rule, which built upon existing industry codes and standards, requires companies of all sizes that use certain flammable and toxic substances to develop a Risk Management Program, which includes a(n): Hazard assessment that details the potential effects of an accidental release, an accident history of the last five years, and an evaluation of worst-case and alternative accidental releases; Prevention program that includes safety precautions and maintenance, monitoring, and employee training measures; and Emergency response program that spells out emergency health care, employee training measures and procedures for informing the public and response agencies (e.g the fire department) should an accident occur.

RAATS: RCRA Administrative Action Tracking System

RCRA Administration Action Tracking System. RAATS contains records based on enforcement actions issued under RCRA pertaining to major violators and includes administrative and civil actions brought by the EPA. For administration actions after September 30, 1995, data entry in the RAATS database was discontinued. EPA will retain a copy of the database for historical records. It was necessary to terminate RAATS because a decrease in agency resources made it impossible to continue to update the information contained in the database.

HIST FTTS: FIFRA/TSCA Tracking System Administrative Case Listing

A complete administrative case listing from the FIFRA/TSCA Tracking System (FTTS) for all ten EPA regions. The information was obtained from the National Compliance Database (NCDB). NCDB supports the implementation of FIFRA (Federal Insecticide, Fungicide, and Rodenticide Act) and TSCA (Toxic Substances Control Act). Some EPA regions are now closing out records. Because of that, and the fact that some EPA regions are not providing EPA Headquarters with updated records, it was decided to create a HIST FTTS database. It included records that may not be included in the newer FTTS database updates. This database is no longer updated.

Date of Government Version: 10/19/2006

UMTRA: Uranium Mill Tailings Sites

Uranium ore was mined by private companies for federal government use in national defense programs. When the mills shut down, large piles of the sand-like material (mill tailings) remain after uranium has been extracted from the ore. Levels of human exposure to radioactive materials from the piles are low; however, in some cases tailings were used as construction materials before the potential health hazards of the tailings were recognized.

US AIRS (AFS): Aerometric Information Retrieval System Facility Subsystem (AFS)

The database is a sub-system of Aerometric Information Retrieval System (AIRS). AFS contains compliance data on air pollution point sources regulated by the U.S. EPA and/or state and local air regulatory agencies. This information comes from source reports by various stationary sources of air pollution, such as electric power plants, steel mills, factories, and universities, and provides information about the air pollutants they produce. Action, air program, air program pollutant, and general level plant data. It is used to track emissions and compliance data from industrial plants.

GOVERNMENT RECORDS SEARCHED / DATA CURRENCY TRACKING

ABANDONED MINES: Abandoned Mines

An inventory of land and water impacted by past mining (primarily coal mining) is maintained by OSMRE to provide information needed to implement the Surface Mining Control and Reclamation Act of 1977 (SMCRA). The inventory contains information on the location, type, and extent of AML impacts, as well as, information on the cost associated with the reclamation of those problems. The inventory is based upon field surveys by State, Tribal, and OSMRE program officials. It is dynamic to the extent that it is modified as new problems are identified and existing problems are reclaimed.

PFAS RCRA MANIFEST: PFAS Transfers Identified In the RCRA Database Listing

To work around the lack of PFAS waste codes in the RCRA database, EPA developed the PFAS Transfers dataset by mining e-Manifest records containing at least one of these common PFAS keywords: PFAS, PFOA, PFOS, PERFL, AFFF, GENX, GEN-X (plus the VT waste codes). These keywords were searched for in the following text fields: Manifest handling instructions (MANIFEST_HANDLING_INSTR), Non-hazardous waste description (NON_HAZ_WASTE_DESCRIPTION), DOT printed information (DOT_PRINTED_INFORMATION), Waste line handling instructions (WASTE_LINE_HANDLING_INSTR), Waste residue comments (WASTE_RESIDUE_COMMENTS).

PFAS NPDES: Clean Water Act Discharge Monitoring Information

Any discharger of pollutants to waters of the United States from a point source must have a National Pollutant Discharge Elimination System (NPDES) permit. The process for obtaining limits involves the regulated entity (permittee) disclosing releases in a NPDES permit application and the permitting authority (typically the state but sometimes EPA) deciding whether to require monitoring or monitoring with limits. Caveats and Limitations: Less than half of states have required PFAS monitoring for at least one of their permittees and fewer states have established PFAS effluent limits for permittees. New rulemakings have been initiated that may increase the number of facilities monitoring for PFAS in the future.

PFAS ECHO FIRE TRAIN: Facilities in Industries that May Be Handling PFAS Listing

A list of fire training sites was added to the Industry Sectors dataset using a keyword search on the permitted facilitys name to identify sites where fire-fighting foam may have been used in training exercises. Additionally, you may view an example spreadsheet of the subset of fire training facility data, as well as the keywords used in selecting or deselecting a facility for the subset. as well as the keywords used in selecting or deselecting a facility for the subset. These keywords were tested to maximize accuracy in selecting facilities that may use fire-fighting foam in training exercises, however, due to the lack of a required reporting field in the data systems for designating fire training sites, this methodology may not identify all fire training sites or may potentially misidentify them.

PFAS PT 139 AIRPORT: All Certified Part 139 Airports PFAS Information Listing

Since July 1, 2006, all certified part 139 airports are required to have fire-fighting foam onsite that meet military specifications (MIL-F-24385) (14 CFR 139.317). To date, these military specification fire-fighting foams are fluorinated and have been historically used for training and extinguishing. The 2018 FAA Reauthorization Act has a provision stating that no later than October 2021, FAA shall not require the use of fluorinated AFFF. This provision does not prohibit the use of fluorinated AFFF at Part 139 civilian airports; it only prohibits FAA from mandating its use. The Federal Aviation Administration?s document AC 150/5210-6D - Aircraft Fire Extinguishing Agents provides guidance on Aircraft Fire Extinguishing Agents, which includes Aqueous Film Forming Foam (AFFF).

AQUEOUS FOAM NRC: Aqueous Foam Related Incidents Listing

The National Response Center (NRC) serves as an emergency call center that fields initial reports for pollution and railroad incidents and forwards that information to appropriate federal/state agencies for response. The spreadsheets posted to the NRC website contain initial incident data that has not been validated or investigated by a federal/state response agency. Response center calls from 1990 to the most recent complete calendar year where there was indication of Aqueous Film Forming Foam (AFFF) usage are included in this dataset. NRC calls may reference AFFF usage in the ?Material Involved? or ?Incident Description? fields.

UST FINDER: UST Finder Database
EPA developed UST Finder, a web map application containing a comprehensive, state-sourced national map of underground storage tank (UST) and leaking UST (LUST) data. It provides the attributes and locations of active and closed USTs, UST facilities, and LUST sites from states and from Tribal lands and US territories . UST Finder contains information about proximity of UST facilities and LUST sites to: surface and groundwater public drinking water protection areas; estimated number of private domestic wells and number of people living nearby; and flooding and wildfires.

CHROME PLATING: Chrome Plating Facilities Listing

This listing represents chrome plating facilities the California State Water Resources Control Board staff identified as possibly being a source of Per- and polyfluoroalkyl substance (PFAS) contamination. Sites and locations were identified by staff with the Division of Water Quality in the California State Water Board. Data was collected from the CA Air Resources Board 2013 and 2018 - Cr VI emission survey, CA Emission Inventory, CA HAZ Waste discharge database and by reviewing storm water permits. Former chrome plating sites are also included that are open site investigation or remediation cases with the Regional Water Quality Control Boards and the Department of Toxic Substances Control.

Data Release Frequency: Varies

HAZNET: Facility and Manifest Data

Facility and Manifest Data. The data is extracted from the copies of hazardous waste manifests received each year by the DTSC. The annual volume of manifests is typically 700,000 - 1,000,000 annually, representing approximately 350,000 - 500,000 shipments. Data are from the manifests submitted without correction, and therefore many contain some invalid values for data elements such as generator ID, TSD ID, waste category, and disposal method. This database begins with calendar year 1993.

WASTEWATER PITS: Oil Wastewater Pits Listing
Water officials discovered that oil producers have been dumping chemical-laden wastewater into hundreds of unlined pits that are operating without proper permits. Inspections completed by the Central Valley Regional Water Quality Control Board revealed the existence of previously unidentified waste sites. The water boards review found that more than one-third of the region's active disposal pits are operating without permission.

WDR: Waste Discharge Requirements Listing
In general, the Waste Discharge Requirements (WDRs) Program (sometimes also referred to as the "Non Chapter 15 (Non 15) Program") regulates point discharges that are exempt pursuant to Subsection 20090 of Title 27 and not subject to the Federal Water Pollution Control Act. Exemptions from Title 27 may be granted for nine categories of discharges (e.g., sewage, wastewater, etc.) that meet, and continue to meet, the preconditions listed for each specific exemption. The scope of the WDRs Program also includes the discharge of wastes classified as inert, pursuant to section 20230 of Title 27.

EDR HIGH RISK HISTORICAL RECORDS

EDR Exclusive Records

EDR MGP: EDR Proprietary Manufactured Gas Plants
The EDR Proprietary Manufactured Gas Plant Database includes records of coal gas plants (manufactured gas plants) compiled by EDR's researchers. Manufactured gas sites were used in the United States from the 1800's to 1950's to produce a gas that could be distributed and used as fuel. These plants used whale oil, rosin, coal, or a mixture of coal, oil, and water that also produced a significant amount of waste. Many of the byproducts of the gas production, such as coal tar (oily waste containing volatile and non-volatile chemicals), sludges, oils and other compounds are potentially hazardous to human health and the environment. The byproduct from this process was frequently disposed of directly at the plant site and can remain or spread slowly, serving as a continuous source of soil and groundwater contamination.

EDR Hist Auto: EDR Exclusive Historical Auto Stations
EDR has searched selected national collections of business directories and has collected listings of potential gas station/filling station/service station sites that were available to EDR researchers. EDR's review was limited to those categories of sources that might, in EDR's opinion, include gas station/filling station/service station establishments. The categories reviewed included, but were not limited to gas, gas station, gasoline station, filling station, auto, automobile repair, auto service station, service station, etc. This database falls within a category of information EDR classifies as "High Risk Historical Records", or HRHR. EDR's HRHR effort presents unique and sometimes proprietary data about past sites and operations that typically create environmental concerns, but may not show up in current government records searches.

OTHER DATABASE(S)

Depending on the geographic area covered by this report, the data provided in these specialty databases may or may not be complete. For example, the existence of wetlands information data in a specific report does not mean that all wetlands in the area covered by the report are included. Moreover, the absence of any reported wetlands information does not necessarily mean that wetlands do not exist in the area covered by the report.

CT MANIFEST: Hazardous Waste Manifest Data
Facility and manifest data. Manifest is a document that lists and tracks hazardous waste from the generator through transporters to a tsd facility.

Sensitive Receptors: There are individuals deemed sensitive receptors due to their fragile immune systems and special sensitivity to environmental discharges. These sensitive receptors typically include the elderly, the sick, and children. While the location of all sensitive receptors cannot be determined, EDR indicates those buildings and facilities - schools, daycares, hospitals, medical centers, and nursing homes - where individuals who are sensitive receptors are likely to be located.

AHA Hospitals:

Version Date:	2021

EDR's GeoCheck Physical Setting Source Addendum is provided to assist the environmental professional in forming an opinion about the impact of potential contaminant migration.

Assessment of the impact of contaminant migration generally has two principle investigative components:

1. Groundwater flow direction, and
2. Groundwater flow velocity.

Groundwater flow direction may be impacted by surface topography, hydrology, hydrogeology, characteristics of the soil, and nearby wells. Groundwater flow velocity is generally impacted by the nature of the geologic strata.

GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

GROUNDWATER FLOW DIRECTION INFORMATION

Groundwater flow direction for a particular site is best determined by a qualified environmental professional using site-specific well data. If such data is not reasonably ascertainable, it may be necessary to rely on other sources of information, such as surface topographic information, hydrologic information, hydrogeologic data collected on nearby properties, and regional groundwater flow information (from deep aquifers).

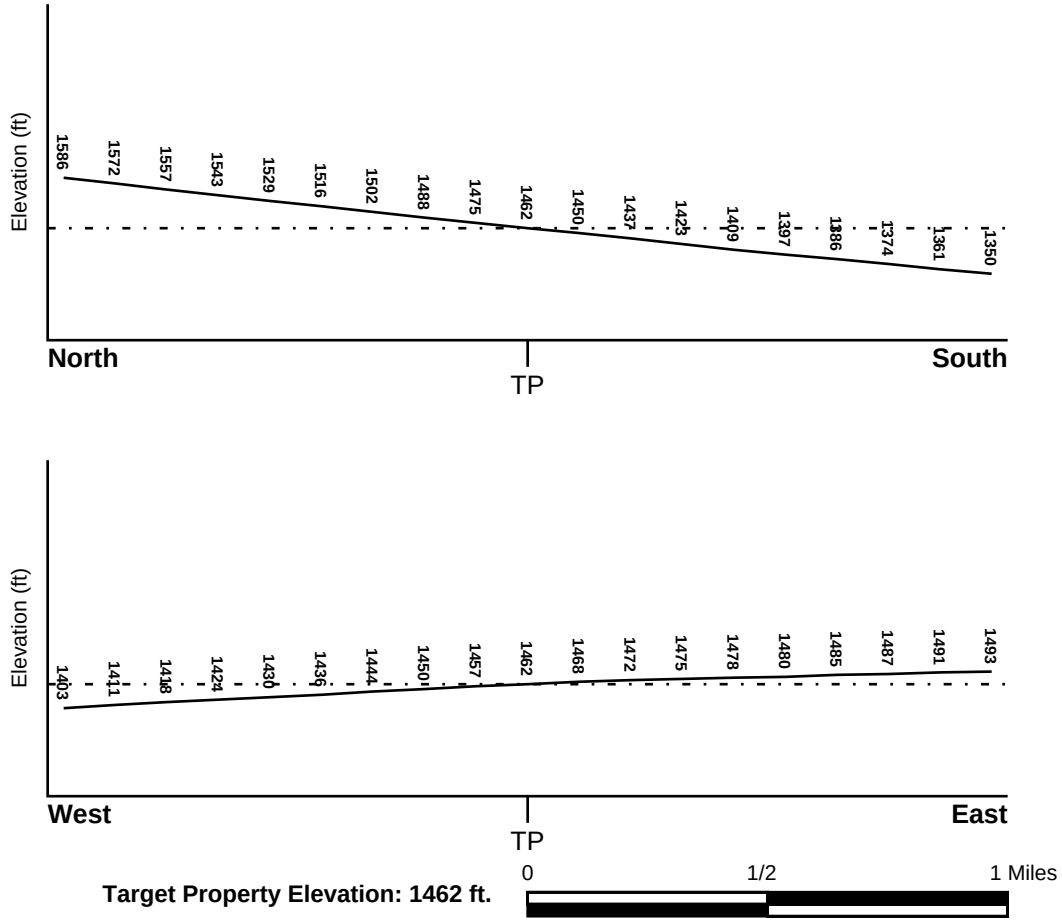

TOPOGRAPHIC INFORMATION

Surface topography may be indicative of the direction of surficial groundwater flow. This information can be used to assist the environmental professional in forming an opinion about the impact of nearby contaminated properties or, should contamination exist on the target property, what downgradient sites might be impacted.

TARGET PROPERTY TOPOGRAPHY

General Topographic Gradient: General SSW

SURROUNDING TOPOGRAPHY: ELEVATION PROFILES

Target Property Elevation: 1462 ft.

Source: Topography has been determined from the USGS 7.5' Digital Elevation Model and should be evaluated on a relative (not an absolute) basis. Relative elevation information between sites of close proximity should be field verified.

GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

HYDROLOGIC INFORMATION

Surface water can act as a hydrologic barrier to groundwater flow. Such hydrologic information can be used to assist the environmental professional in forming an opinion about the impact of nearby contaminated properties or, should contamination exist on the target property, what downgradient sites might be impacted.

Refer to the Physical Setting Source Map following this summary for hydrologic information (major waterways and bodies of water).

HYDROGEOLOGIC INFORMATION

Hydrogeologic information obtained by installation of wells on a specific site can often be an indicator of groundwater flow direction in the immediate area. Such hydrogeologic information can be used to assist the environmental professional in forming an opinion about the impact of nearby contaminated properties or, should contamination exist on the target property, what downgradient sites might be impacted.

Site-Specific Hydrogeological Data*:

Search Radius:	1.25 miles
Status:	Not found

AQUIFLOW®

Search Radius: 1.000 Mile.

EDR has developed the AQUIFLOW Information System to provide data on the general direction of groundwater flow at specific points. EDR has reviewed reports submitted by environmental professionals to regulatory authorities at select sites and has extracted the date of the report, groundwater flow direction as determined hydrogeologically, and the depth to water table.

All of the information and opinions presented are those of the cited EPA report(s), which were completed under a Comprehensive Environmental Response Compensation and Liability Information System (CERCLIS) investigation.

GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

GROUNDWATER FLOW VELOCITY INFORMATION

Groundwater flow velocity information for a particular site is best determined by a qualified environmental professional using site specific geologic and soil strata data. If such data are not reasonably ascertainable, it may be necessary to rely on other sources of information, including geologic age identification, rock stratigraphic unit and soil characteristics data collected on nearby properties and regional soil information. In general, contaminant plumes move more quickly through sandy-gravelly types of soils than silty-clayey types of soils.

GEOLOGIC INFORMATION IN GENERAL AREA OF TARGET PROPERTY

Geologic information can be used by the environmental professional in forming an opinion about the relative speed at which contaminant migration may be occurring.

GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

DOMINANT SOIL COMPOSITION IN GENERAL AREA OF TARGET PROPERTY

The U.S. Department of Agriculture's (USDA) Soil Conservation Service (SCS) leads the National Cooperative Soil Survey (NCSS) and is responsible for collecting, storing, maintaining and distributing soil survey information for privately owned lands in the United States. A soil map in a soil survey is a representation of soil patterns in a landscape. The following information is based on Soil Conservation Service SSURGO data.

Soil Map ID: 1

Soil Component Name: TUJUNGA

Soil Surface Texture: gravelly loamy sand

Hydrologic Group: Class A - High infiltration rates. Soils are deep, well drained to excessively drained sands and gravels.

Soil Drainage Class: Somewhat excessively drained

Hydric Status: Not hydric

Corrosion Potential - Uncoated Steel: Moderate

Depth to Bedrock Min: > 0 inches

Depth to Watertable Min: > 0 inches

Soil Layer Information							
	Boundary			Classification		Saturated hydraulic conductivity micro m/sec	Soil Reaction (pH)
Layer	Upper	Lower	Soil Texture Class	AASHTO Group	Unified Soil		
1	0 inches	35 inches	gravelly loamy sand	Granular materials (35 pct. or less passing No. 200), Stone Fragments, Gravel and Sand.	COARSE-GRAINED SOILS, Sands, Clean Sands, Poorly graded sand. COARSE-GRAINED SOILS, Sands, Sands with fines, Silty Sand.	Max: 141 Min: 42	Max: 7.3 Min: 6.1
2	35 inches	59 inches	gravelly sand	Granular materials (35 pct. or less passing No. 200), Stone Fragments, Gravel and Sand.	COARSE-GRAINED SOILS, Sands, Clean Sands, Poorly graded sand. COARSE-GRAINED SOILS, Sands, Sands with fines, Silty Sand.	Max: 141 Min: 42	Max: 7.3 Min: 6.1

GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

Soil Map ID: 2

Soil Component Name: SOBOBA

Soil Surface Texture: gravelly loamy sand

Hydrologic Group: Class A - High infiltration rates. Soils are deep, well drained to excessively drained sands and gravels.

Soil Drainage Class: Excessively drained

Hydric Status: Not hydric

Corrosion Potential - Uncoated Steel: Moderate

Depth to Bedrock Min: > 0 inches

Depth to Watertable Min: > 0 inches

Soil Layer Information

	Boundary			Classification		Saturated hydraulic conductivity micro m/sec	Soil Reaction (pH)
Layer	Upper	Lower	Soil Texture Class	AASHTO Group	Unified Soil		
1	0 inches	11 inches	gravelly loamy sand	Granular materials (35 pct. or less passing No. 200), Stone Fragments, Gravel and Sand.	COARSE-GRAINED SOILS, Sands, Clean Sands, Poorly graded sand.	Max: 141 Min: 141	Max: 7.3 Min: 6.6
2	11 inches	35 inches	very gravelly loamy sand	Granular materials (35 pct. or less passing No. 200), Stone Fragments, Gravel and Sand.	COARSE-GRAINED SOILS, Sands, Clean Sands, Poorly graded sand.	Max: 141 Min: 141	Max: 7.3 Min: 6.6
3	35 inches	59 inches	very stony sand	Granular materials (35 pct. or less passing No. 200), Stone Fragments, Gravel and Sand.	COARSE-GRAINED SOILS, Sands, Clean Sands, Poorly graded sand.	Max: 141 Min: 141	Max: 7.3 Min: 6.6

GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

LOCAL / REGIONAL WATER AGENCY RECORDS

EDR Local/Regional Water Agency records provide water well information to assist the environmental professional in assessing sources that may impact ground water flow direction, and in forming an opinion about the impact of contaminant migration on nearby drinking water wells.

PHYSICAL SETTING SOURCE RECORDS SEARCHED

TOPOGRAPHIC INFORMATION

USGS 7.5' Digital Elevation Model (DEM)
Source: United States Geologic Survey
EDR acquired the USGS 7.5' Digital Elevation Model in 2002 and updated it in 2006. The 7.5 minute DEM corresponds to the USGS 1:24,000- and 1:25,000-scale topographic quadrangle maps. The DEM provides elevation data with consistent elevation units and projection.

Current USGS 7.5 Minute Topographic Map
Source: U.S. Geological Survey

HYDROLOGIC INFORMATION

Flood Zone Data: This data was obtained from the Federal Emergency Management Agency (FEMA). It depicts 100-year and 500-year flood zones as defined by FEMA. It includes the National Flood Hazard Layer (NFHL) which incorporates Flood Insurance Rate Map (FIRM) data and Q3 data from FEMA in areas not covered by NFHL.
Source: FEMA
Telephone: 877-336-2627
Date of Government Version: 2003, 2015

NWI: National Wetlands Inventory. This data, available in select counties across the country, was obtained by EDR in 2002, 2005, 2010 and 2015 from the U.S. Fish and Wildlife Service.

State Wetlands Data: Wetland Inventory
Source: Department of Fish and Wildlife
Telephone: 916-445-0411

HYDROGEOLOGIC INFORMATION

AQUIFLOW^{R} Information System
Source: EDR proprietary database of groundwater flow information
EDR has developed the AQUIFLOW Information System (AIS) to provide data on the general direction of groundwater flow at specific points. EDR has reviewed reports submitted to regulatory authorities at select sites and has extracted the date of the report, hydrogeologically determined groundwater flow direction and depth to water table information.

GEOLOGIC INFORMATION

Geologic Age and Rock Stratigraphic Unit
Source: P.G. Schruben, R.E. Arndt and W.J. Bawiec, Geology of the Conterminous U.S. at 1:2,500,000 Scale - A digital representation of the 1974 P.B. King and H.M. Beikman Map, USGS Digital Data Series DDS - 11 (1994).

STATSGO: State Soil Geographic Database
Source: Department of Agriculture, Natural Resources Conservation Service (NRCS)
The U.S. Department of Agriculture's (USDA) Natural Resources Conservation Service (NRCS) leads the national Conservation Soil Survey (NCSS) and is responsible for collecting, storing, maintaining and distributing soil survey information for privately owned lands in the United States. A soil map in a soil survey is a representation of soil patterns in a landscape. Soil maps for STATSGO are compiled by generalizing more detailed (SSURGO) soil survey maps.

SSURGO: Soil Survey Geographic Database
Source: Department of Agriculture, Natural Resources Conservation Service (NRCS)
Telephone: 800-672-5559
SSURGO is the most detailed level of mapping done by the Natural Resources Conservation Service, mapping scales generally range from 1:12,000 to 1:63,360. Field mapping methods using national standards are used to construct the soil maps in the Soil Survey Geographic (SSURGO) database. SSURGO digitizing duplicates the original soil survey maps. This level of mapping is designed for use by landowners, townships and county natural resource planning and management.

PHYSICAL SETTING SOURCE RECORDS SEARCHED

LOCAL / REGIONAL WATER AGENCY RECORDS

FEDERAL WATER WELLS

PWS: Public Water Systems
Source: EPA/Office of Drinking Water
Telephone: 202-564-3750
Public Water System data from the Federal Reporting Data System. A PWS is any water system which provides water to at least 25 people for at least 60 days annually. PWSs provide water from wells, rivers and other sources.

PWS ENF: Public Water Systems Violation and Enforcement Data
Source: EPA/Office of Drinking Water
Telephone: 202-564-3750
Violation and Enforcement data for Public Water Systems from the Safe Drinking Water Information System (SDWIS) after August 1995. Prior to August 1995, the data came from the Federal Reporting Data System (FRDS).

USGS Water Wells: USGS National Water Inventory System (NWIS)
This database contains descriptive information on sites where the USGS collects or has collected data on surface water and/or groundwater. The groundwater data includes information on wells, springs, and other sources of groundwater.

OTHER STATE DATABASE INFORMATION

Groundwater Ambient Monitoring & Assessment Program
State Water Resources Control Board
Telephone: 916-341-5577
The GAMA Program is Californias comprehensive groundwater quality monitoring program. GAMA collects data by testing the untreated, raw water in different types of wells for naturally-occurring and man-made chemicals. The GAMA data includes Domestic, Monitoring and Municipal well types from the following sources, Department of Water Resources, Department of Heath Services, EDF, Agricultural Lands, Lawrence Livermore National Laboratory, Department of Pesticide Regulation, United States Geological Survey, Groundwater Ambient Monitoring and Assessment Program and Local Groundwater Projects.

Water Well Database
Source: Department of Water Resources
Telephone: 916-651-9648

California Drinking Water Quality Database
Source: Department of Public Health
Telephone: 916-324-2319
The database includes all drinking water compliance and special studies monitoring for the state of California since 1984. It consists of over 3,200,000 individual analyses along with well and water system information.

Geothermal Wells Listing
Department of Conservation
Telephone: 916-445-9686
Geothermal well means a well constructed to extract or return water to the ground after it has been used for heating or cooling purposes. Geothermal wells in California (except for wells on federal leases which are administered by the Bureau of Land Management) are permitted, drilled, operated, and permanently sealed and closed (plugged and abandoned) under requirements and procedures administered by the Geothermal Section of the Department of Conservations Geologic Energy Management Division (CalGEM, formerly DOGGR).

California Oil and Gas Well Locations
Source: Dept of Conservation, Geologic Energy Management Division
Telephone: 916-323-1779
Oil and Gas well locations in the state.

PHYSICAL SETTING SOURCE RECORDS SEARCHED

California Earthquake Fault Lines
Source: California Division of Mines and Geology
The fault lines displayed on EDR's Topographic map are digitized quaternary fault lines prepared in 1975 by the United State Geological Survey. Additional information (also from 1975) regarding activity at specific fault lines comes from California's Preliminary Fault Activity Map prepared by the California Division of Mines and Geology.

RADON

State Database: CA Radon
Source: Department of Public Health
Telephone: 916-210-8558
Radon Database for California

Area Radon Information
Source: USGS
Telephone: 703-356-4020
The National Radon Database has been developed by the U.S. Environmental Protection Agency (USEPA) and is a compilation of the EPA/State Residential Radon Survey and the National Residential Radon Survey. The study covers the years 1986 - 1992. Where necessary data has been supplemented by information collected at private sources such as universities and research institutions.

EPA Radon Zones
Source: EPA
Telephone: 703-356-4020
Sections 307 & 309 of IRAA directed EPA to list and identify areas of U.S. with the potential for elevated indoor radon levels.

The Sanborn Library has been searched by EDR and maps covering the target property location as provided by Petra Geotechnical Inc were identified for the years listed below. The Sanborn Library is the largest, most complete collection of fire insurance maps. The collection includes maps from Sanborn, Bromley, Perris & Browne, Hopkins, Barlow, and others. Only Environmental Data Resources Inc. (EDR) is authorized to grant rights for commercial reproduction of maps by the Sanborn Library LLC, the copyright holder for the collection. Results can be authenticated by visiting www.edrnet.com/sanborn.

The Sanborn Library is continually enhanced with newly identified map archives. This report accesses all maps in the collection as of the day this report was generated.

Disclaimer - Copyright and Trademark Notice

This Report contains certain information obtained from a variety of public and other sources reasonably available to Environmental Data Resources, LLC. It cannot be concluded from this Report that coverage information for the target and surrounding properties does not exist from other sources. This Report is provided on an "AS IS", "AS AVAILABLE" basis. **NO WARRANTY EXPRESS OR IMPLIED IS MADE WHATSOEVER IN CONNECTION WITH THIS REPORT. ENVIRONMENTAL DATA RESOURCES, LLC AND ITS SUBSIDIARIES, AFFILIATES AND THIRD PARTY SUPPLIERS DISCLAIM ALL WARRANTIES, OF ANY KIND OR NATURE, EXPRESS OR IMPLIED, ARISING OUT OF OR RELATED TO THIS REPORT OR ANY OF THE DATA AND INFORMATION PROVIDED IN THIS REPORT, INCLUDING WITHOUT LIMITATION, ANY WARRANTIES REGARDING ACCURACY, QUALITY, CORRECTNESS, COMPLETENESS, COMPREHENSIVENESS, SUITABILITY, MERCHANTABILITY, FITNESS FOR A PARTICULAR PURPOSE, TITLE, NON-INFRINGEMENT, MISAPPROPRIATION, OR OTHERWISE. ALL RISK IS ASSUMED BY THE USER. IN NO EVENT SHALL ENVIRONMENTAL DATA RESOURCES, LLC OR ITS SUBSIDIARIES, AFFILIATES OR THIRD PARTY SUPPLIERS BE LIABLE TO ANYONE FOR ANY DIRECT, INCIDENTAL, INDIRECT, SPECIAL, CONSEQUENTIAL OR OTHER DAMAGES OF ANY TYPE OR KIND (INCLUDING BUT NOT LIMITED TO LOSS OF PROFITS, LOSS OF USE, OR LOSS OF DATA), ARISING OUT OF OR IN ANY WAY CONNECTED WITH THIS REPORT OR ANY OF THE DATA AND INFORMATION PROVIDED IN THIS REPORT.** Any analyses, estimates, ratings, environmental risk levels, or risk codes provided in this Report are provided for illustrative purposes only, and are not intended to provide, nor should they be interpreted as providing any facts regarding, or prediction or forecast of, any environmental risk for any property. Only an assessment performed by a qualified environmental professional can provide findings, opinions or conclusions regarding the environmental risk or conditions in, on or at any property.

EXECUTIVE SUMMARY

DESCRIPTION

Environmental Data Resources, Inc.'s (EDR) City Directory Abstract is a screening tool designed to assist environmental professionals in evaluating potential liability on a target property resulting from past activities. EDR's City Directory Abstract includes a search and abstract of available city directory data. For each address, the directory lists the name of the corresponding occupant at approximately five year intervals.

Business directories including city, cross reference and telephone directories were reviewed, if available, at approximately five year intervals for the years spanning 1922 through current. This report compiles information gathered in this review by geocoding the latitude and longitude of properties identified and gathering information about properties within 660 feet of the target property.

Summary information obtained is provided in the text of this report.

RECORD SOURCES

The EDR City Directory Report accesses a variety of business directory sources, including Haines, InfoUSA, Polk, Cole, Bresser, and Stewart. Listings marked as EDR Digital Archive access Cole and InfoUSA records. The various directory sources enhance and complement each other to provide a more thorough and accurate report.

EDR is licensed to reproduce certain City Directory works by the copyright holders of those works. The purchaser of this EDR City Directory Report may include it in report(s) delivered to a customer.

RESEARCH SUMMARY

The following research sources were consulted in the preparation of this report. An "X" indicates where information was identified in the source and provided in this report.

EDR Property Tax Map Report

Environmental Data Resources, Inc.'s EDR Property Tax Map Report is designed to assist environmental professionals in evaluating potential environmental conditions on a target property by understanding property boundaries and other characteristics. The report includes a search of available property tax maps, which include information on boundaries for the target property and neighboring properties, addresses, parcel identification numbers, as well as other data typically used in property location and identification.

Thank you for your business.

EDR BUILDING PERMIT REPORT

About This Report

The EDR Building Permit Report provides a practical and efficient method to search building department records for indications of environmental conditions. Generated via a search of municipal building permit records gathered from more than 1,600 cities nationwide, this report will assist you in meeting the search requirements of EPA's Standards and Practices for All Appropriate Inquiries (40 CFR Part 312), the ASTM Standard Practice for Environmental Site Assessments (E1527 - 21), or custom requirements developed for the evaluation of environmental risk associated with a parcel of real estate.

Building permit data can be used to identify current and/or former operations and structures/features of environmental concern. The data can provide information on a target property and adjoining properties such as the presence of underground storage tanks, pump islands, sumps, drywells, etc., as well as information regarding water, sewer, natural gas, electrical connection dates, and current/former septic tanks.

Methodology

EDR has developed the EDR Building Permit Report through our partnership with BuildFax, the nation's largest repository of building department records. BuildFax collects, updates, and manages building department records from local municipal governments. The database now includes 30 million permits, on more than 10 million properties across 1,600 cities in the United States.

The EDR Building Permit Report comprises local municipal building permit records, gathered directly from local jurisdictions, including both target property and adjoining properties. Years of coverage vary by municipality. Data reported includes (where available): date of permit, permit type, permit number, status, valuation, contractor company, contractor name, and description.

Incoming permit data is checked at seven stages in a regimented quality control process, from initial data source interview, to data preparation, through final auditing. To ensure the building department is accurate, each of the seven quality control stages contains, on average, 15 additional quality checks, resulting in a process of approximately 105 quality control "touch points."

For more information about the EDR Building Permit Report, please contact your EDR Account Executive at (800) 352-0050.

EDR® Environmental Data Resources Inc

BUILD FAX PROPERTY HISTORY

EXECUTIVE SUMMARY: SEARCH DOCUMENTATION

A search of building department records was conducted by Environmental Data Resources, Inc (EDR) on behalf of Petra Geotechnical Inc on Oct 03, 2024.

TARGET PROPERTY

Knox Ave. Between Walnut St. & S. Highland Ave.
Fontana, CA 92336

SEARCH METHODS

EDR searches available lists for both the Target Property and Surrounding Properties.

RESEARCH SUMMARY

Building permits identified: **YES**

The following research sources were consulted in the preparation of this report. An "X" indicates where information was identified in the source and provided in this report.

GLOSSARY

General Building Department concepts

- **ICC:** The International Code Council. The governing body for the building/development codes used by all jurisdictions who've adopted the ICC guidelines. MOST of the US has done this. Canada, Mexico, and other countries use ICC codes books and guides as well. There are a few states who have added guidelines to the ICC codes to better fit their needs. For example, California has added seismic retrofit requirements for most commercial structures.
- **Building Department (Permitting Authority, Building Codes, Inspections Department, Building and Inspections):** This is the department in a jurisdiction where an owner or contractor goes to obtain permits and inspections for building, tearing down, remodeling, adding to, re-roofing, moving or otherwise making changes to any structure, Residential or Commercial.
- **Jurisdiction:** This is the geographic area representing the properties over which a Permitting Authority has responsibility.
- **GC:** General Contractor. Usually the primary contractor hired for any Residential or Commercial construction work.
- **Sub:** Subordinate contracting companies or subcontractors. Usually a "trades" contractor working for the GC. These contractors generally have an area of expertise in which they are licensed like Plumbing, Electrical, Heating and Air systems, Gas Systems, Pools etc. (called "trades").
- **Journeymen:** Sub contractors who have their own personal licenses in one or more trades and work for different contracting companies, wherever they are needed or there is work.
- **HVAC (Mechanical, Heating & Air companies):** HVAC = Heating, Ventilation, and Air Conditioning.
- **ELEC (Electrical, TempPole, TPole, TPower, Temporary Power, Panel, AMP Change, Power Release):** Electrical permits can be pulled for many reasons. The most common reason is to increase the AMPs of power in an electrical power panel. This requires a permit in almost every jurisdiction. Other commons reason for Electrical permits is to insert a temporary power pole at a new construction site. Construction requires electricity, and in a new development, power has yet to be run to the lot. The temporary power pole is usually the very first permit pulled for new development. The power is released to the home owner when construction is complete and this sometimes takes the form of a Power Release permit or inspection.
- **"Pull" a permit:** To obtain and pay for a building permit.
- **CBO:** Chief Building Official
- **Planning Department:** The department in the development process where the building /structural plans are reviewed for their completeness and compliance with building codes
- **Zoning Department:** The department in the development process where the site plans are reviewed for their compliance with the regulations associated with the zoning district in which they are situated.
- **Zoning District:** A pre-determined geographic boundary within a jurisdiction where certain types of structures are permitted / prohibited. Examples are Residential structure, Commercial/Retail structures, Industrial/Manufacturing structures etc. Each zoning district has regulations associated with it like the sizes of the lots, the density of the structures on the lots, the number of parking spaces required for certain types of structures on the lots etc.
- **PIN (TMS, GIS ID, Parcel#):** Property Identification Number and Tax Map System number.
- **State Card (Business license):** A license card issued to a contractor to conduct business.
- **Building Inspector (Inspector):** The inspector is a building department employee that inspects building construction for compliance to codes.
- **C.O.:** Certificate of Occupancy. This is the end of the construction process and designates that the owners now have permission to occupy a structure after its building is complete. Sometimes also referred to as a Certificate of Compliance.

GLOSSARY

Permit Content Definitions

- Permit Number: The alphanumerical designation assigned to a permit for tracking within the building department system. Sometimes the permit number gives clues to its role, e.g. a "PL" prefix may designate a plumbing permit.
- Description: A field on the permit form that allows the building department to give a brief description of the work being done. More often than not, this is the most important field for EP's to find clues to the prior use (s) of the property.
- Permit Type: Generally a brief designation of the type of job being done. For example BLDG-RES, BLDG-COM, ELEC, MECH etc.

Sample Building Permit Data

Date: Nov 09, 2000
Permit Type: Bldg -
New Permit Number: 101000000405
Status: Valuation: $1,000,000.00
Contractor Company: OWNER-BUILDER
Contractor Name:

Description: New one store retail (SAV-ON) with drive-thru pharmacy. Certificate of Occupancy.

EDR Environmental Lien and AUL Search 1980

The EDR Environmental Lien and AUL Search 1980 Report provides results from a search of available land title records for environmental cleanup liens and other activity and use limitations (AULS), such as engineering controls and institutional controls.

A network of professional, trained researchers, following established procedures, uses client supplied address information to:

- search for parcel number and/or legal description
- search for ownership information filed between 1980 and present
- research official land title documents recorded at jurisdictional agencies such as recorders' offices, registries of deeds, county clerks' offices, etc
- search for publicly available environmental encumbering instrument(s) filed between 1980 and present
- provide a copy of any environmental encumbrance(s)
- provide a copy of the current deed when available

Thank you for your business.
Please contact EDR at 1-800-352-0050
with any questions or comments.

Environmental Data Resources, Inc. (EDR) Aerial Photo Decade Package is a screening tool designed to assist environmental professionals in evaluating potential liability on a target property resulting from past activities. EDR's professional researchers provide digitally reproduced historical aerial photographs, and when available, provide one photo per decade.

Ref No.:

Property: 6622 Knox Avenue, Fontana, CA 92336-1343

In response to the application for a policy of title insurance referenced herein, **Ticor Title Company of California** hereby reports that it is prepared to issue, or cause to be issued, as of the date hereof, a policy or policies of title insurance describing the land and the estate or interest therein hereinafter set forth, insuring against loss which may be sustained by reason of a defect, lien or encumbrance not shown or referred to as an exception herein or not excluded from coverage pursuant to the printed Schedules, Exclusions from Coverage, and Conditions of said policy forms.

With respect to any contemplated owner's policy, the printed Exceptions and Exclusions from the coverage and Limitations on Covered Risks of said policy or policies are set forth in Attachment One. The policy to be issued may contain an arbitration clause. When the Amount of Insurance is less than that set forth in the arbitration clause, all arbitrable matters shall be arbitrated at the option of either the Company or the Insured as the exclusive remedy of the parties. Limitations on Covered Risks applicable to the CLTA/ALTA Homeowner's Policy of Title Insurance, which establish a Deductible Amount and a Maximum Dollar Limit of Liability for certain coverages are also set forth in Attachment One. Copies of the policy forms should be read. They are available from the office which issued this report.

Please read the exceptions shown or referred to herein and the exceptions and exclusions set forth in Attachment One of this report carefully. The exceptions and exclusions are meant to provide you with notice of matters which are not covered under the terms of the title insurance policy and should be carefully considered.

It is important to note that this preliminary report is not a written representation as to the condition of title and may not list all liens, defects, and encumbrances affecting title to the land.

This report (and any supplements or amendments hereto) is issued solely for the purpose of facilitating the issuance of a policy of title insurance and no liability is assumed hereby. If it is desired that liability be assumed prior to the issuance of a policy of title insurance, a binder or commitment should be requested.

Countersigned By:

Authorized Officer or Agent
Kenji Kikuchi

Effective date: September 3, 2024 at 07:30 AM

The form of Policy or Policies of Title Insurance contemplated by this Report is:

ALTA Homeowner's Policy of Title Insurance 2021

1. The estate or interest in the Land hereinafter described or referred to covered by this Report is:

   A Fee

2. Title to said estate or interest at the date hereof is vested in:

   Daniel Gomez, a Married Man as His Sole and Separate Property

3. The Land referred to in this Report is described as follows:

   SEE EXHIBIT "A" ATTACHED HERETO AND MADE A PART HEREOF

EXHIBIT A

Legal Description

For APN/Parcel ID(s): 0228-051-20-0-000

THE LAND REFERRED TO HEREIN BELOW IS SITUATED IN THE CITY OF FONTANA, COUNTY OF SAN BERNARDINO, STATE OF CALIFORNIA AND IS DESCRIBED AS FOLLOWS:

THE EAST 150 FEET OF THE SOUTH ONE-HALF OF LOT 25, OF TRACT NO. 2066, IN THE CITY OF FONTANA, COUNTY OF SAN BERNARDINO, STATE OF CALIFORNIA, AS PER MAP RECORDED IN BOOK 30, PAGE(S) 10 OF MAPS, IN THE OFFICE OF THE COUNTY RECORDER OF SAID COUNTY.

EXCEPT ALL OIL, GAS, HYDROCARBONS AND MINERALS IN OR UNDER SAID LAND BELOW A DEPTH OF 500 FEET WITHOUT THE RIGHT OF ENTRY UPON THE SURFACE THEREOF, AS RESERVED BY EQUITABLE SAVINGS AND LOAN ASSOCIATION, IN THE DEED RECORDED MAY 29, 1970 IN BOOK 7451, PAGE(S) 808, OFFICIAL RECORDS.

EXCEPTIONS

At the date hereof, items to be considered and exceptions to coverage in addition to the printed exceptions and exclusions in said policy form would be as follows:

1. Property taxes, which are a lien not yet due and payable, including any assessments collected with taxes to be levied for the fiscal year 2024-2025.

2. Any liens or other assessments, bonds, or special district liens including without limitation, Community Facility Districts, that arise by reason of any local, City, Municipal or County Project or Special District.

3. The lien of supplemental or escaped assessments of property taxes, if any, made pursuant to the provisions of Chapter 3.5 (commencing with Section 75) or Part 2, Chapter 3, Articles 3 and 4, respectively, of the Revenue and Taxation Code of the State of California as a result of the transfer of title to the vestee named in Schedule A or as a result of changes in ownership or new construction occurring prior to Date of Policy.

4. Water rights, claims or title to water, whether or not disclosed by the public records.

5. Easement(s) for the purpose(s) shown below and rights incidental thereto as set forth in a document:

   Purpose: Pipe Lines
   Recording Date: December 15, 1949
   Recording No.: Book 2500, Page 599, of Official Records

6. The Land described herein is included within a project area of the Redevelopment Agency shown below, and that proceedings for the redevelopment of said project have been instituted under the Redevelopment Law (such redevelopment to proceed only after the adoption of the Redevelopment Plan) as disclosed by a document.

   Redevelopment Agency: Community Redevelopment Agency of Fontana
   Recording Date: December 28, 1982
   Recording No.: 1982-259093, of Official Records

7. A deed of trust to secure an indebtedness in the amount shown below,

   Amount: $3,990.00
   Dated: July 18, 2012
   Trustor/Grantor: Josue Hernandez, a single man
   Trustee: California Housing Finance Agency, a public instrumentality and a political subdivision of the State of California
   Beneficiary: California Housing Finance Agency, a public instrumentality and a political subdivision of the State of California
   Loan No: 1481200229
   Recording Date: July 30, 2012
   Recording No.: 2012-303273, of Official Records

   Said document contains provisions that may, among other things, limit the vested owner's rights when selling the Land, refinancing the Land or using the Land.

   Reference is hereby made to said document for full particulars.

   No reconveyance or release of this item appears of record. However, we have reason to believe that it may have been paid, and we will be requesting an examination of prior proceedings by the appropriate entity. If we are able to eliminate this item, we will advise you by way of a supplement to our report.

   Please be advised that it is not the responsibility of this Company to provide the necessary documentation to determine the viability of the trust deed and no assurance is given that we will be able to eliminate this item.

8. A deed of trust to secure an indebtedness in the amount shown below,

Amount:	$311,000.00
Dated:	March 22, 2021
Trustor/Grantor:	Daniel Gomez, a Married Man, as His Sole and Separate Property
Trustee:	Heather Lovier
Beneficiary:	Mortgage Electronic Registration Systems, Inc. (MERS), solely as nominee for Quicken Loans, LLC, a Limited Liability Company
Loan No.:	Not Set Out
Recording Date:	March 26, 2021
Recording No.:	2021-0140048, of Official Records

9. Any rights of the parties in possession of a portion of, or all of, said Land, which rights are not disclosed by the Public Records.

   The Company will require, for review, a full and complete copy of any unrecorded agreement, contract, license and/or lease, together with all supplements, assignments and amendments thereto, before issuing any policy of title insurance without excepting this item from coverage.

   The Company reserves the right to except additional items and/or make additional requirements after reviewing said documents.

END OF EXCEPTIONS

PLEASE REFER TO THE "INFORMATIONAL NOTES" AND "REQUIREMENTS" SECTIONS WHICH FOLLOW FOR INFORMATION NECESSARY TO COMPLETE THIS TRANSACTION.

REQUIREMENTS

1. In order to complete this report, the Company requires a Statement of Information to be completed by the following party(s),

   Party(s): All Parties

   The Company reserves the right to add additional items or make further requirements after review of the requested Statement of Information.

   NOTE: The Statement of Information is necessary to complete the search and examination of title under this order. Any title search includes matters that are indexed by name only, and having a completed Statement of Information assists the Company in the elimination of certain matters which appear to involve the parties but in fact affect another party with the same or similar name. Be assured that the Statement of Information is essential and will be kept strictly confidential to this file.

2. The Company will require an affidavit signed by the seller/mortgagor certifying that there are no matters that could give rise to any defects, liens, encumbrances, adverse claims or other matters that would attach to the Land between the effective date of the report and the recording of the instruments creating the estate to be insured.

END OF REQUIREMENTS

INFORMATIONAL NOTES

1. Note: Property taxes, including any personal property taxes and any assessments collected with taxes, are paid. For proration purposes the amounts were:

Tax Identification No.:	0228-051-20-0-000
Fiscal Year:	2023-2024
1st Installment:	$1,689.32
2nd installment:	$1,689.30
Exemption:	None Shown
Code Area:	010-041

2. Note: There are NO conveyances affecting said Land recorded within 24 months of the date of this report.

3. Note: The Company is not aware of any matters which would cause it to decline to attach CLTA Endorsement Form 116 indicating that there is located on said Land a Single Family Residence, known as 6622 Knox Avenue, City of Fontana, California, to an Extended Coverage Loan Policy.

4. Note: None of the items shown in this report will cause the Company to decline to attach ALTA Endorsement Form 9 to an ALTA Loan Policy, when issued.

5. NOTE: Please contact your Title Officer to obtain the current recording fees.

6. NOTE: The policy of title insurance will include an arbitration provision. The Company or the insured may demand arbitration. Arbitrable matters may include, but are not limited to, any controversy or claim between the Company and the insured arising out of or relating to this policy, any service of the Company in connection with its issuance or the breach of a policy provision or other obligation. Please ask your escrow or title officer for a sample copy of the policy to be issued if you wish to review the arbitration provisions and any other provisions pertaining to your Title Insurance coverage.

7. Notice: Please be aware that due to the conflict between federal and state laws concerning the cultivation, distribution, manufacture or sale of marijuana, the Company is not able to close or insure any transaction involving Land that is associated with these activities.

8. Pursuant to Government Code Section 27388.1, as amended and effective as of 1-1-2018, a Documentary Transfer Tax (DTT) Affidavit may be required to be completed and submitted with each document when DTT is being paid or when an exemption is being claimed from paying the tax. If a governmental agency is a party to the document, the form will not be required. DTT Affidavits may be available at a Tax Assessor-County Clerk-Recorder.

END OF INFORMATIONAL NOTES

FIDELITY NATIONAL FINANCIAL
PRIVACY NOTICE

Effective July 1, 2024

Fidelity National Financial, Inc. and its majority-owned subsidiary companies (collectively, "FNF," "our," or "we") respect and are committed to protecting your privacy. This Privacy Notice explains how we collect, use, and protect personal information, when and to whom we disclose such information, and the choices you have about the use and disclosure of that information.

A limited number of FNF subsidiaries have their own privacy notices. If a subsidiary has its own privacy notice, the privacy notice will be available on the subsidiary's website and this Privacy Notice does not apply.

Collection of Personal Information

FNF may collect the following categories of Personal Information:

- contact information (*e.g.*, name, address, phone number, email address);
- demographic information (*e.g.*, date of birth, gender, marital status);
- identity information (*e.g.* Social Security Number, driver's license, passport, or other government ID number);
- financial account information (*e.g.* loan or bank account information);
- biometric data (*e.g.* fingerprints, retina or iris scans, voiceprints, or other unique biological characteristics, and
- other personal information necessary to provide products or services to you.

We may collect Personal Information about you from:

- information we receive from you or your agent;
- information about your transactions with FNF, our affiliates, or others; and
- information we receive from consumer reporting agencies and/or governmental entities, either directly from these entities or through others.

Collection of Browsing Information

FNF automatically collects the following types of Browsing Information when you access an FNF website, online service, or application (each an "FNF Website") from your Internet browser, computer, and/or device:

- Internet Protocol (IP) address and operating system;
- browser version, language, and type;
- domain name system requests; and
- browsing history on the FNF Website, such as date and time of your visit to the FNF Website and visits to the pages within the FNF Website.

Like most websites, our servers automatically log each visitor to the FNF Website and may collect the Browsing Information described above. We use Browsing Information for system administration, troubleshooting, fraud investigation, and to improve our websites. Browsing Information generally does not reveal anything personal about you, though if you have created a user account for an FNF Website and are logged into that account, the FNF Website may be able to link certain browsing activity to your user account.

Other Online Specifics

Cookies. When you visit an FNF Website, a "cookie" may be sent to your computer. A cookie is a small piece of data that is sent to your Internet browser from a web server and stored on your computer's hard drive. Information gathered using cookies helps us improve your user experience. For example, a cookie can help the website load properly or can customize the display page based on your browser type and user preferences. You can choose whether or not to accept cookies by changing your Internet browser settings. Be aware that doing so may impair or limit some functionality of the FNF Website.

Web Beacons. We use web beacons to determine when and how many times a page has been viewed. This information is used to improve our websites.

Do Not Track. Currently our FNF Websites do not respond to "Do Not Track" features enabled through your browser.

Links to Other Sites. FNF Websites may contain links to unaffiliated third-party websites. FNF is not responsible for the privacy practices or content of those websites. We recommend that you read the privacy policy of every website you visit.

Use of Personal Information

FNF uses Personal Information for these main purposes:

- To provide products and services to you or in connection with a transaction involving you.
- To improve our products and services.
- To prevent and detect fraud;
- To maintain the security of our systems, tools, accounts, and applications;
- To verify and authenticate identities and credentials;
- To communicate with you about our, our affiliates', and others' products and services, jointly or independently.
- To provide reviews and testimonials about our services, with your consent.

When Information Is Disclosed

We may disclose your Personal Information and Browsing Information in the following circumstances:

- to enable us to detect or prevent criminal activity, fraud, material misrepresentation, or nondisclosure;
- to affiliated or nonaffiliated service providers who provide or perform services or functions on our behalf and who agree to use the information only to provide such services or functions;
- to affiliated or nonaffiliated third parties with whom we perform joint marketing, pursuant to an agreement with them to jointly market financial products or services to you;
- to law enforcement or authorities in connection with an investigation, or in response to a subpoena or court order; or
- in the good-faith belief that such disclosure is necessary to comply with legal process or applicable laws, or to protect the rights, property, or safety of FNF, its customers, or the public.

The law does not require your prior authorization and does not allow you to restrict the disclosures described above. Additionally, we may disclose your information to third parties for whom you have given us authorization or consent to make such disclosure. We do not otherwise share your Personal Information or Browsing Information with nonaffiliated third parties, except as required or permitted by law.

We reserve the right to transfer your Personal Information, Browsing Information, and any other information, in connection with the sale or other disposition of all or part of the FNF business and/or assets, or in the event of bankruptcy, reorganization, insolvency, receivership, or an assignment for the benefit of creditors. By submitting Personal Information and/or Browsing Information to FNF, you expressly agree and consent to the use and/or transfer of the foregoing information in connection with any of the above described proceedings.

Security of Your Information

We maintain physical, electronic, and procedural safeguards to protect your Personal Information.

Choices With Your Information

Whether you submit Personal Information or Browsing Information to FNF is entirely up to you. If you decide not to submit Personal Information or Browsing Information, FNF may not be able to provide certain services or products to you.

For California Residents: We will not share your Personal Information or Browsing Information with nonaffiliated third parties, except as permitted by California law. For additional information about your California privacy rights, please visit the "California Privacy" link on our website (https://fnf.com/pages/californiaprivacy.aspx) or call (888) 413-1748.

For Connecticut Residents: For additional information about your Connecticut consumer privacy rights, or to make a consumer privacy request, or to appeal a previous privacy request, please email privacy@fnf.com or call (888) 714-2710.

For Colorado Residents: For additional information about your Colorado consumer privacy rights, or to make a consumer privacy request, or appeal a previous privacy request, please email privacy@fnf.com or call (888) 714-2710.

For Nevada Residents: We are providing this notice pursuant to state law. You may be placed on our internal Do Not Call List by calling FNF Privacy at (888) 714-2710 or by contacting us via the information set forth at the end of this Privacy Notice. For further information concerning Nevada's telephone solicitation law, you may contact: Bureau of Consumer Protection, Office of the Nevada Attorney General, 555 E. Washington St., Suite 3900, Las Vegas, NV 89101; Phone number: (702) 486-3132; email: aginquiries@ag.state.nv.us.

For Oregon Residents: We will not share your Personal Information or Browsing Information with nonaffiliated third parties for marketing purposes, except after you have been informed by us of such sharing and had an opportunity to indicate that you do not want a disclosure made for marketing purposes. For additional information about your Oregon consumer privacy rights, or to make a consumer privacy request, or appeal a previous privacy request, please email privacy@fnf.com or call (888) 714-2710

We may disclose the categories of Personal Information and Browsing information listed above to the following categories of third parties:

- FNF affiliates and subsidiaries;
- Non-affiliated third parties, with your consent;
- Business in connection with the sale or other disposition of all or part of the FNF business and/or assets;
- Service providers;
- Law endorsement or authorities in connection with an investigation, or in response to a subpoena or court order.

For Texas Residents: For additional information about your Texas consumer privacy rights, or to make a consumer privacy request, or appeal a previous privacy request, please email privacy@fnf.com or call (888) 714-2710.

We may disclose the categories of Personal Information and Browsing information listed above to the following categories of third parties:

- FNF affiliates and subsidiaries;
- Non-affiliated third parties, with your consent;
- Business in connection with the sale or other disposition of all or part of the FNF business and/or assets;
- Service providers;
- Law endorsement or authorities in connection with an investigation, or in response to a subpoena or court order.

For Utah Residents: For additional information about your Utah consumer privacy rights, or to make a consumer privacy request, please call (888) 714-2710.

For Vermont Residents: We will not disclose information about your creditworthiness to our affiliates and will not disclose your personal information, financial information, credit report, or health information to nonaffiliated third parties to market to you, other than as permitted by Vermont law, unless you authorize us to make those disclosures.

For Virginia Residents: For additional information about your Virginia consumer privacy rights, or to make a consumer privacy request, or appeal a previous privacy request, please email privacy@fnf.com or call (888) 714-2710.

Information From Children

The FNF Websites are not intended or designed to attract persons under the age of eighteen (18). We do not collect Personal Information from any person that we know to be under the age of thirteen (13) without permission from a parent or guardian.

International Users

FNF's headquarters is located within the United States. If you reside outside the United States and choose to provide Personal Information or Browsing Information to us, please note that we may transfer that information outside of your country of residence. By providing FNF with your Personal Information and/or Browsing Information, you consent to our collection, transfer, and use of such information in accordance with this Privacy Notice.

FNF Website Services for Mortgage Loans

Certain FNF companies provide services to mortgage loan servicers, including hosting websites that collect customer information on behalf of mortgage loan servicers (the "Service Websites"). The Service Websites may contain links to both this Privacy Notice and the mortgage loan servicer or lender's privacy notice. The sections of this Privacy Notice titled When Information is Disclosed, Choices with Your Information, and Accessing and Correcting Information do not apply to the Service Websites. The mortgage loan servicer or lender's privacy notice governs use, disclosure, and access to your Personal Information. FNF does not share Personal Information collected through the Service Websites, except as required or authorized by contract with the mortgage loan servicer or lender, or as required by law or in the good-faith belief that such disclosure is necessary: to comply with a legal process or applicable law, to enforce this Privacy Notice, or to protect the rights, property, or safety of FNF or the public.

Your Consent To This Privacy Notice; Notice Changes

By submitting Personal Information and/or Browsing Information to FNF, you consent to the collection and use of the information in accordance with this Privacy Notice. We may change this Privacy Notice at any time. The Privacy Notice's effective date will show the last date changes were made. If you provide information to us following any change of the Privacy Notice, that signifies your assent to and acceptance of the changes to the Privacy Notice.

Accessing and Correcting Information; Contact Us

If you have questions or would like to correct your Personal Information, visit FNF's Privacy Inquiry Website or contact us by phone at (888) 714-2710, by email at privacy@fnf.com, or by mail to:

Fidelity National Financial, Inc.

Jacksonville, Florida 32204
Attn: Chief Privacy Officer

FIDELITY NATIONAL FINANCIAL
CALIFORNIA PRIVACY NOTICE

Fidelity National Financial, Inc. and its majority-owned subsidiary companies (collectively, "FNF," "our," or "we") respect and are committed to protecting your privacy. This California Privacy Notice explains how we collect, use, and disclose Personal Information, when and to whom we disclose such information, and the rights you, as a California resident ("Consumer"), have regarding your Personal Information ("California Privacy Rights"). "Personal Information" means information that identifies, relates to, describes, and is reasonably capable of being associated with, or could reasonably be linked, directly or indirectly, with a particular consumer or household. If FNF has collected, used, or disclosed your Personal Information in relation to a job application or employment, independent contractor, officer, owner, or director relationship with FNF, FNF's practices are discussed in our Notice at Collection for Prospective Employees, available at ***Prospective California Employees***.

Some subsidiaries maintain separate California Privacy Notices or privacy statements. If a subsidiary has a separate California Privacy Notice, it will be available on the subsidiary's website, and this California Privacy Notice does not apply.

Collection of categories of Personal Information:

In the preceding twelve (12) months FNF has collected, and will continue to collect, the following categories of Personal Information from you:

- Identifiers such as name, address, telephone number, IP address, email address, account name, social security number, driver's license number, state identification card, passport number, financial information, date of birth, or other similar identifiers;
- Characteristics of protected classifications under California or Federal law;
- Commercial information, including records of personal property, products or services purchased, or other purchasing or consuming histories;
- Internet or other electronic network activity information including, but not limited to browsing history on FNF websites, and information regarding a Consumer's interaction with an FNF website;
- Geolocation data;
- Unique biometric data used to authenticate a specific individual such as a fingerprint, retina, or iris image;
- Professional or employment information;
- Education Information.

This Personal Information is collected from the following sources:

- Information we receive from you on applications or other forms;
- Information about your transactions with FNF, our affiliates, or others;
- Information we receive from consumer reporting agencies and/or governmental entities, either directly from these entities, or from internet service providers, data analytics providers, and social networks;
- Information from the use of our websites and mobile applications;
- Information we receive directly from you related to doing business with us.

This Personal Information is collected for the following business purposes:

- To provide products and services to you or in connection with a transaction involving you;
- To perform a contract between FNF and the Consumer;
- To improve our products and services;

- To comply with legal obligations;
- To detect and protect against fraudulent or illegal activity;
- To communicate with you about FNF or our affiliates;
- To maintain an account with FNF or our affiliates;
- To maintain the security of our systems, tools, accounts, and applications;
- To verify and authenticate identities and credentials;
- To provide, support, personalize, and develop our websites, products, and services;
- To directly market our products to consumers;
- As described to you when collecting your Personal Information or as otherwise set forth in the California Consumer Privacy Act.

Disclosures of Personal Information for a business purpose:

In the preceding twelve (12) months FNF has disclosed, and will continue to disclose, the categories of Personal Information listed above for a business purpose. We may disclose Personal Information for a business purpose to the following categories of third parties:

- FNF affiliates and subsidiaries;
- Non-affiliated third parties, with your prior consent;
- Businesses in connection with the sale or other disposition of all or part of the FNF business and/or assets;
- Service Providers and non-affiliated third parties such as data analytics providers;
- Law enforcement or authorities in connection with an investigation, or in response to a subpoena or court order.

Sale of Personal Information:

In the preceding twelve (12) months, FNF has not sold or shared Personal Information. FNF does not sell or share Personal Information.

Retention Periods:

Due to the breadth and variety of data collected by FNF, it is not possible for us to provide you with a comprehensive list of timeframes during which we retain each category of Personal Information. FNF retains categories of information as reasonably necessary to satisfy the purpose for which we collect the information. This time period varies depending on the purpose for which we collected the information, the nature and frequency of our interactions and relationship with you, whether we have a legal basis to continue retaining the information, industry practices, the value and sensitivity of the information, and state and federal recordkeeping requirements.

Personal Information of minors:

FNF does not knowingly collect the Personal Information of minors. FNF does not sell or share the information of consumers under sixteen (16) years of age.

Sensitive Personal Information:

FNF does not use or disclose sensitive Personal Information for any purposes other than those specified in the California Consumer Privacy Act.

Right to know:

Consumers have a right to know about Personal Information collected, used, disclosed, shared, or sold, including the categories of such Personal Information, as well as the purpose for such collection, use, disclosure, sharing,

or selling, categories of third parties to whom Personal Information is disclosed, shared or sold, and the specific pieces of Personal Information collected about the consumer. Consumers have the right to request FNF disclose what Personal Information it collected, used, and disclosed in the past twelve (12) months.

Right to request deletion:

Consumers have a right to request the deletion of their Personal Information, subject to certain exceptions.

Right to Correct:

Consumers have the right to correct inaccurate Personal Information.

Right to non-discrimination:

Consumers have a right not to be discriminated against because of exercising their consumer privacy rights. We will not discriminate against Consumers for exercising any of their California Privacy Rights.

Privacy Requests:

To exercise any of your California Privacy Rights, or if acting as an authorized agent on behalf of another individual, please visit *California Privacy Request*, call us Toll Free at 888-413-1748, or write to the address at the end of this notice.

Upon making a California Privacy Request, FNF will verify the consumer's identity by requiring an account, loan, escrow number, or other identifying information from the consumer.

The above-rights are subject to any applicable rights and obligations including both Federal and California exemptions rendering FNF, or Personal Information collected by FNF, exempt from certain CCPA requirements.

A Consumer may use an Authorized Agent to submit any CCPA request. Authorized agents' requests will be processed like any other CCPA request, but FNF will also require the Consumer provide the agent written permission to make the request and verify his or her identity with FNF.

FNF website services for mortgage loans:

Certain FNF companies provide services to mortgage loan servicers, including hosting websites that collect customer information on behalf of mortgage loan servicers (the "Service Websites"). The Service Websites may contain links to both this Privacy Notice and the mortgage loan servicer or lender's privacy notice. The sections of this Privacy Notice describing the categories, sources, and uses of your Personal Information do not apply to the Service Websites. The mortgage loan servicer or lender's privacy notice governs use, disclosure, and access to your Information. FNF does not share Information collected through the Service Websites, except (1) as required or authorized by contract with the mortgage loan servicer or lender, or (2) as required by law or in the good-faith belief that such disclosure is necessary to comply with a legal process or applicable law, to enforce this Privacy Notice, or to protect the rights, property, or safety of FNF or the public.

California Privacy Notice - Effective Date:

This California Privacy Notice was last updated on July 1, 2024.

Contact for more information:

For questions or concerns about FNF's California Privacy Notice and privacy practices, or to exercise any of your California Privacy Rights, please visit ***California Privacy***, call Toll Free 888-413-1748, or contact us by mail at the below address.

Notice of Available Discounts

Pursuant to Section 2355.3 in Title 10 of the California Code of Regulations Fidelity National Financial, Inc. and its subsidiaries ("FNF") must deliver a notice of each discount available under our current rate filing along with the delivery of escrow instructions, a preliminary report or commitment. Please be aware that the provision of this notice does not constitute a waiver of the consumer's right to be charged the filed rate. As such, your transaction may not qualify for the below discounts.

You are encouraged to discuss the applicability of one or more of the below discounts with a Company representative. These discounts are generally described below; consult the rate manual for a full description of the terms, conditions and requirements for such discount. These discounts only apply to transactions involving services rendered by the FNF Family of Companies. This notice only applies to transactions involving property improved with a one-to-four family residential dwelling.

Not all discounts are offered by every FNF Company. The discount will only be applicable to the FNF Company as indicated by the named discount.

FNF Underwritten Title Companies
CTC - Chicago Title Company
CLTC - Commonwealth Land Title Company
FNTC - Fidelity National Title Company of California
FNTCCA - Fidelity National Title Company of California
TICOR - Ticor Title Company of California
LTC - Lawyer's Title Company
SLTC - ServiceLink Title Company

Underwritten by FNF Underwriters
CTIC - Chicago Title Insurance Company
CLTIC - Commonwealth Land Title Insurance Company
FNTIC - Fidelity National Title Insurance Company
CTIC - Chicago Title Insurance Company

Available Discounts

DISASTER LOANS (CTIC, CLTIC, FNTIC)
The charge for a Lender's Policy (Standard or Extended coverage) covering the financing or refinancing by an owner of record, within twenty-four (24) months of the date of a declaration of a disaster area by the government of the United States or the State of California on any land located in said area, which was partially or totally destroyed in the disaster, will be fifty percent (50%) of the appropriate title insurance rate.

CHURCHES OR CHARITABLE NON-PROFIT ORGANIZATIONS (CTIC, FNTIC)
On properties used as a church or for charitable purposes within the scope of the normal activities of such entities, provided said charge is normally the church's obligation the charge for an owner's policy shall be fifty percent (50%) to seventy percent (70%) of the appropriate title insurance rate, depending on the type of coverage selected. The charge for a lender's policy shall be forty percent (40%) to fifty percent (50%) of the appropriate title insurance rate, depending on the type of coverage selected.

MILITARY DISCOUNT RATE
Upon the Company being advised in writing and prior to the closing of the transaction that an active duty, honorably separated, or retired member of the United States Military or Military Reserves or National Guard is acquiring or selling an owner occupied one-to-four family property, the selling owner or acquiring buyer, as applicable, will be entitled to a discount equal to fifteen percent (15%) of the otherwise applicable rates such party would be charged for title insurance policies.

Minimum charge: Four Hundred Twenty-Five And No/100 Dollars ($425.00)

The Company may require appropriate proof of eligibility from the parties to the transaction verifying they are entitled to the discount as described. No other discounts or special rates, or combination of discounts or special rates, shall be applicable.

WIRE SAFE™ | Inquire before you wire!

WIRE FRAUD ALERT

This Notice is not intended to provide legal or professional advice.
If you have any questions, please consult with a lawyer.

All parties to a real estate transaction are targets for wire fraud and many have lost hundreds of thousands of dollars because they simply relied on the wire instructions received via email, without further verification. **If funds are to be wired in conjunction with this real estate transaction, we strongly recommend verbal verification of wire instructions through a known, trusted phone number prior to sending funds.**

In addition, the following non-exclusive self-protection strategies are recommended to minimize exposure to possible wire fraud.

- **NEVER RELY** on emails purporting to change wire instructions. Parties to a transaction rarely change wire instructions in the course of a transaction.
- **ALWAYS VERIFY** wire instructions, specifically the ABA routing number and account number, by calling the party who sent the instructions to you. DO NOT use the phone number provided in the email containing the instructions, use phone numbers you have called before or can otherwise verify. **Obtain the number of relevant parties to the transaction as soon as an escrow account is opened.** DO NOT send an email to verify as the email address may be incorrect or the email may be intercepted by the fraudster.
- **USE COMPLEX EMAIL PASSWORDS** that employ a combination of mixed case, numbers, and symbols. Make your passwords greater than eight (8) characters. Also, change your password often and do NOT reuse the same password for other online accounts.
- **USE MULTI-FACTOR AUTHENTICATION** for email accounts. Your email provider or IT staff may have specific instructions on how to implement this feature.

For more information on wire-fraud scams or to report an incident, please refer to the following links:

CALIFORNIA LAND TITLE ASSOCIATION
STANDARD COVERAGE POLICY - 1990 (11-09-18)

EXCLUSIONS FROM COVERAGE

The following matters are expressly excluded from the coverage of this policy and the Company will not pay loss or damage, costs, attorneys' fees or expenses which arise by reason of:

1. (a) Any law, ordinance or governmental regulation (including but not limited to building or zoning laws, ordinances, or regulations) restricting, regulating, prohibiting or relating (i) the occupancy, use, or enjoyment of the land; (ii) the character, dimensions or location of any improvement now or hereafter erected on the land; (iii) a separation in ownership or a change in the dimensions or area of the land or any parcel of which the land is or was a part; or (iv) environmental protection, or the effect of any violation of these laws, ordinances or governmental regulations, except to the extent that a notice of the enforcement thereof or a notice of a defect, lien, or encumbrance resulting from a violation or alleged violation affecting the land has been recorded in the public records at Date of Policy.

   (b) Any governmental police power not excluded by (a) above, except to the extent that a notice of the exercise thereof or notice of a defect, lien or encumbrance resulting from a violation or alleged violation affecting the land has been recorded in the public records at Date of Policy.
2. Rights of eminent domain unless notice of the exercise thereof has been recorded in the public records at Date of Policy, but not excluding from coverage any taking which has occurred prior to Date of Policy which would be binding on the rights of a purchaser for value without knowledge.
3. Defects, liens, encumbrances, adverse claims or other matters:
   (a) whether or not recorded in the public records at Date of Policy, but created, suffered, assumed or agreed to by the insured claimant;
   (b) not known to the Company, not recorded in the public records at Date of Policy, but known to the insured claimant and not disclosed in writing to the Company by the insured claimant prior to the date the insured claimant became an insured under this policy;
   (c) resulting in no loss or damage to the insured claimant;
   (d) attaching or created subsequent to Date of Policy; or
   (e) resulting in loss or damage which would not have been sustained if the insured claimant had paid value for the insured mortgage or for the estate or interest insured by this policy.
4. Unenforceability of the lien of the insured mortgage because of the inability or failure of the insured at Date of Policy, or the inability or failure of any subsequent owner of the indebtedness, to comply with the applicable doing business laws of the state in which the land is situated.
5. Invalidity or unenforceability of the lien of the insured mortgage, or claim thereof, which arises out of the transaction evidenced by the insured mortgage and is based upon usury or any consumer credit protection or truth in lending law.
6. Any claim, which arises out of the transaction vesting in the insured the estate or interest insured by this policy or the transaction creating the interest of the insured lender, by reason of the operation of federal bankruptcy, state insolvency or similar creditors' rights laws.

EXCEPTIONS FROM COVERAGE - SCHEDULE B, PART I

This policy does not insure against loss or damage (and the Company will not pay costs, attorneys' fees or expenses) which arise by reason of:

1. Taxes or assessments which are not shown as existing liens by the records of any taxing authority that levies taxes or assessments on real property or by the public records.

   Proceedings by a public agency which may result in taxes or assessments, or notices of such proceedings, whether or not shown by the records of such agency or by the public records.
2. Any facts, rights, interests, or claims which are not shown by the public records but which could be ascertained by an inspection of the land or which may be asserted by persons in possession thereof.
3. Easements, liens or encumbrances, or claims thereof, not shown by the public records.
4. Discrepancies, conflicts in boundary lines, shortage in area, encroachments, or any other facts which a correct survey would disclose, and which are not shown by the public records.
5. (a) Unpatented mining claims; (b) reservations or exceptions in patents or in Acts authorizing the issuance thereof; (c) water rights, claims or title to water, whether or not the matters excepted under (a), (b) or (c) are shown by the public records.
6. Any lien or right to a lien for services, labor or material unless such lien is shown by the public records at Date of Policy.

EXCEPTIONS FROM COVERAGE - SCHEDULE B, PART II

(*Variable exceptions such as taxes, easements, CC&R's, etc., are inserted here*)

CALIFORNIA LAND TITLE ASSOCIATION
STANDARD COVERAGE OWNER'S POLICY (02-04-22)
EXCLUSIONS FROM COVERAGE

The following matters are excluded from the coverage of this policy, and the Company will not pay loss or damage, costs, attorneys' fees, or expenses that arise by reason of:

1. a. any law, ordinance, permit, or governmental regulation (including those relating to building and zoning) that restricts, regulates, prohibits, or relates to:
   i. the occupancy, use, or enjoyment of the Land;
   ii. the character, dimensions, or location of any improvement on the Land;
   iii. the subdivision of land; or
   iv. environmental remediation or protection.
   b. any governmental forfeiture, police, regulatory, or national security power.
   c. the effect of a violation or enforcement of any matter excluded under Exclusion 1.a. or 1.b.

   Exclusion 1 does not modify or limit the coverage provided under Covered Risk 5 or 6.
2. Any power of eminent domain. Exclusion 2 does not modify or limit the coverage provided under Covered Risk 7.
3. Any defect, lien, encumbrance, adverse claim, or other matter:
   a. created, suffered, assumed, or agreed to by the Insured Claimant;
   b. not Known to the Company, not recorded in the Public Records at the Date of Policy, but Known to the Insured Claimant and not disclosed in writing to the Company by the Insured Claimant prior to the date the Insured Claimant became an Insured under this policy;
   c. resulting in no loss or damage to the Insured Claimant;
   d. attaching or created subsequent to the Date of Policy (Exclusion 3.d. does not modify or limit the coverage provided under Covered Risk 9 or 10); or
   e. resulting in loss or damage that would not have been sustained if consideration sufficient to qualify the Insured named in Schedule A as a bona fide purchaser had been given for the Title at the Date of Policy.
4. Any claim, by reason of the operation of federal bankruptcy, state insolvency, or similar creditors' rights law, that the transaction vesting the Title as shown in Schedule A is a:
   a. fraudulent conveyance or fraudulent transfer;
   b. voidable transfer under the Uniform Voidable Transactions Act; or
   c. preferential transfer:
      i. to the extent the instrument of transfer vesting the Title as shown in Schedule A is not a transfer made as a contemporaneous exchange for new value; or
      ii. for any other reason not stated in Covered Risk 9.b.
5. Any claim of a PACA-PSA Trust. Exclusion 5 does not modify or limit the coverage provided under Covered Risk 8.
6. Any lien on the Title for real estate taxes or assessments imposed or collected by a governmental authority that becomes due and payable after the Date of Policy.

   Exclusion 6 does not modify or limit the coverage provided under Covered Risk 2.b.
7 Any discrepancy in the quantity of the area, square footage, or acreage of the Land or of any improvement to the Land.

EXCEPTIONS FROM COVERAGE

Some historical land records contain Discriminatory Covenants that are illegal and unenforceable by law. This policy treats any Discriminatory Covenant in a document referenced in Schedule B as if each Discriminatory Covenant is redacted, repudiated, removed, and not republished or recirculated. Only the remaining provisions of the document are excepted from coverage.

This policy does not insure against loss or damage and the Company will not pay costs, attorneys' fees, or expenses resulting from the terms and conditions of any lease or easement identified in Schedule A, and the following matters:

PART I

1. (a) Taxes or assessments that are not shown as existing liens by the records of any taxing authority that levies taxes or assessments on real property or by the Public Records; (b) proceedings by a public agency that may result in taxes or assessments, or notices of such proceedings, whether or not shown by the records of such agency or by the Public Records.
2. Any facts, rights, interests, or claims that are not shown by the Public Records at Date of Policy but that could be (a) ascertained by an inspection of the Land, or (b) asserted by persons or parties in possession of the Land.
3. Easements, liens or encumbrances, or claims thereof, not shown by the Public Records at Date of Policy.
4. Any encroachment, encumbrance, violation, variation, easement, or adverse circumstance affecting the Title that would be disclosed by an accurate and complete land survey of the Land and not shown by the Public Records at Date of Policy.
5. (a) Unpatented mining claims; (b) reservations or exceptions in patents or in Acts authorizing the issuance thereof; (c) water rights, claims or title to water, whether or not the matters excepted under (a), (b), or (c) are shown by the Public Records.
6. Any lien or right to a lien for services, labor, material or equipment unless such lien is shown by the Public Records at Date of Policy.
7. Any claim to (a) ownership of or rights to minerals and similar substances, including but not limited to ores, metals, coal, lignite, oil, gas, uranium, clay, rock, sand, and gravel located in, on, or under the Land or produced from the Land, whether such ownership or rights arise by lease, grant, exception, conveyance, reservation, or otherwise; and (b) any rights, privileges, immunities, rights of way, and easements associated therewith or appurtenant thereto, whether or not the interests or rights excepted in (a) or (b) appear in the Public Records or are shown in Schedule B.

PART II

(*Variable exceptions such as taxes, easements, CC&R's, etc., are inserted here*)

CLTA/ALTA HOMEOWNER'S POLICY OF TITLE INSURANCE (7-01-21)
EXCLUSIONS FROM COVERAGE

The following matters are excluded from the coverage of this policy and We will not pay loss or damage, costs, attorneys' fees, or expenses that arise by reason of:

1. a. any law, ordinance, permit, or governmental regulation (including those relating to building and zoning) that restricts, regulates, prohibits, or relates to:
   i. the occupancy, use, or enjoyment of the Land;
   ii. the character, dimensions, or location of any improvement on the Land;
   iii. the subdivision of land; or
   iv. environmental remediation or protection.
   b. any governmental forfeiture, police, or regulatory, or national security power.
   c. the effect of a violation or enforcement of any matter excluded under Exclusion 1.a. or 1.b.

   Exclusion 1 does not modify or limit the coverage provided under Covered Risk 8.a., 14, 15, 16, 18, 19, 20, 23, or 27.
2. Any power to take the Land by condemnation. Exclusion 2 does not modify or limit the coverage provided under Covered Risk 17.
3. Any defect, lien, encumbrance, adverse claim, or other matter:
   a. created, suffered, assumed, or agreed to by You;
   b. not Known to Us, not recorded in the Public Records at the Date of Policy, but Known to You and not disclosed in writing to Us by You prior to the date You became an Insured under this policy;
   c. resulting in no loss or damage to You;
   d. attaching or created subsequent to the Date of Policy (Exclusion 3.d. does not modify or limit the coverage provided under Covered Risk 5, 8.f., 25, 26, 27, 28, or 32); or
   e. resulting in loss or damage that would not have been sustained if You paid consideration sufficient to qualify You as a bona fide purchaser of the Title at the Date of Policy.
4. Lack of a right:
   a. to any land outside the area specifically described and referred to in Item 3 of Schedule A; and
   b. in any street, road, avenue, alley, lane, right-of-way, body of water, or waterway that abut the Land.

   Exclusion 4 does not modify or limit the coverage provided under Covered Risk 11 or 21.
5. The failure of Your existing structures, or any portion of Your existing structures, to have been constructed before, on, or after the Date of Policy in accordance with applicable building codes. Exclusion 5 does not modify or limit the coverage provided under Covered Risk 14 or 15.
6. Any claim, by reason of the operation of federal bankruptcy, state insolvency, or similar creditors' rights law, that the transfer of the Title to You is a:
   a. fraudulent conveyance or fraudulent transfer;
   b. voidable transfer under the Uniform Voidable Transactions Act; or
   c. preferential transfer:
      i. to the extent the instrument of transfer vesting the Title as shown in Schedule A is not a transfer made as a contemporaneous exchange for new value; or
      ii. for any other reason not stated in Covered Risk 30.
7. Contamination, explosion, fire, flooding, vibration, fracturing, earthquake, or subsidence.
8. Negligence by a person or an entity exercising a right to extract or develop oil, gas, minerals, groundwater, or any other subsurface substance.
9. Any lien on Your Title for real estate taxes or assessments, imposed or collected by a governmental authority that becomes due and payable after the Date of Policy. Exclusion 9 does not modify or limit the coverage provided under Covered Risk 8.a or 27.
10. Any discrepancy in the quantity of the area, square footage, or acreage of the Land or of any improvement to the Land.

LIMITATIONS ON COVERED RISKS

Your insurance for the following Covered Risks is limited on the Owner's Coverage Statement as follows:

- For Covered Risk 16, 18, 19 and 21 Your Deductible Amount and Our Maximum Dollar Limit of Liability shown in Schedule A.

The deductible amounts and maximum dollar limits shown on Schedule A are as follows:

	Your Deductible Amount	Our Maximum Dollar Limit of Liability
Covered Risk 16:	1.00% of Policy Amount Shown in Schedule A or $2,500.00 (whichever is less)	$ 10,000.00
Covered Risk 18:	1.00% of Policy Amount Shown in Schedule A or $5,000.00 (whichever is less)	$ 25,000.00
Covered Risk 19:	1.00% of Policy Amount Shown in Schedule A or $5,000.00 (whichever is less)	$ 25,000.00
Covered Risk 21:	1.00% of Policy Amount Shown in Schedule A or $2,500.00 (whichever is less)	$ 5,000.00

CLTA/ALTA HOMEOWNER'S POLICY OF TITLE INSURANCE (12-02-13)
EXCLUSIONS

In addition to the Exceptions in Schedule B, You are not insured against loss, costs, attorneys' fees, and expenses resulting from:

1. Governmental police power, and the existence or violation of those portions of any law or government regulation concerning:
   a. building;
   b. zoning;
   c. land use;
   d. improvements on the Land;
   e. land division; and
   f. environmental protection.

   This Exclusion does not limit the coverage described in Covered Risk 8.a., 14, 15, 16, 18, 19, 20, 23 or 27.
2. The failure of Your existing structures, or any part of them, to be constructed in accordance with applicable building codes. This Exclusion does not limit the coverage described in Covered Risk 14 or 15.
3. The right to take the Land by condemning it. This Exclusion does not limit the coverage described in Covered Risk 17.
4. Risks:
   a. that are created, allowed, or agreed to by You, whether or not they are recorded in the Public Records;
   b. that are Known to You at the Policy Date, but not to Us, unless they are recorded in the Public Records at the Policy Date;
   c. that result in no loss to You; or
   d. that first occur after the Policy Date - this does not limit the coverage described in Covered Risk 7, 8.e., 25, 26, 27 or 28.
5. Failure to pay value for Your Title.
6. Lack of a right:
   a. to any land outside the area specifically described and referred to in paragraph 3 of Schedule A; and
   b. in streets, alleys, or waterways that touch the Land.

   This Exclusion does not limit the coverage described in Covered Risk 11 or 21.
7. The transfer of the Title to You is invalid as a preferential transfer or as a fraudulent transfer or conveyance under federal bankruptcy, state insolvency, or similar creditors' rights laws.
8. Contamination, explosion, fire, flooding, vibration, fracturing, earthquake or subsidence.
9. Negligence by a person or an Entity exercising a right to extract or develop minerals, water, or any other substances.

LIMITATIONS ON COVERED RISKS

Your insurance for the following Covered Risks is limited on the Owner's Coverage Statement as follows:

- For Covered Risk 16, 18, 19 and 21, Your Deductible Amount and Our Maximum Dollar Limit of Liability shown in Schedule A.

The deductible amounts and maximum dollar limits shown on Schedule A are as follows:

	Your Deductible Amount	Our Maximum Dollar Limit of Liability
Covered Risk 16:	1.00% of Policy Amount Shown in Schedule A or $2,500.00 (whichever is less)	$ 10,000.00
Covered Risk 18:	1.00% of Policy Amount Shown in Schedule A or $5,000.00 (whichever is less)	$ 25,000.00
Covered Risk 19:	1.00% of Policy Amount Shown in Schedule A or $5,000.00 (whichever is less)	$ 25,000.00
Covered Risk 21:	1.00% of Policy Amount Shown in Schedule A or $2,500.00 (whichever is less)	$ 5,000.00

ALTA OWNER'S POLICY (07-01-2021)

EXCLUSIONS FROM COVERAGE

The following matters are excluded from the coverage of this policy, and the Company will not pay loss or damage, costs, attorneys' fees, or expenses that arise by reason of:

1. a. any law, ordinance, permit, or governmental regulation (including those relating to building and zoning) that restricts, regulates, prohibits, or relates to:
   i. the occupancy, use, or enjoyment of the Land;
   ii. the character, dimensions, or location of any improvement on the Land;
   iii. the subdivision of land; or
   iv. environmental remediation or protection.
   b. any governmental forfeiture, police, regulatory, or national security power.
   c. the effect of a violation or enforcement of any matter excluded under Exclusion 1.a. or 1.b.

   Exclusion 1 does not modify or limit the coverage provided under Covered Risk 5 or 6.
2. Any power of eminent domain. Exclusion 2 does not modify or limit the coverage provided under Covered Risk 7.
3. Any defect, lien, encumbrance, adverse claim, or other matter:
   a. created, suffered, assumed, or agreed to by the Insured Claimant;
   b. not Known to the Company, not recorded in the Public Records at the Date of Policy, but Known to the Insured Claimant and not disclosed in writing to the Company by the Insured Claimant prior to the date the Insured Claimant became an Insured under this policy;
   c. resulting in no loss or damage to the Insured Claimant;
   d. attaching or created subsequent to the Date of Policy (Exclusion 3.d. does not modify or limit the coverage provided under Covered Risk 9 or 10); or
   e. resulting in loss or damage that would not have been sustained if consideration sufficient to qualify the Insured named in Schedule A as a bona fide purchaser had been given for the Title at the Date of Policy.
4. Any claim, by reason of the operation of federal bankruptcy, state insolvency, or similar creditors' rights law, that the transaction vesting the Title as shown in Schedule A is a:
   a. fraudulent conveyance or fraudulent transfer;
   b. voidable transfer under the Uniform Voidable Transactions Act; or
   c. preferential transfer:
      i. to the extent the instrument of transfer vesting the Title as shown in Schedule A is not a transfer made as a contemporaneous exchange for new value; or
      ii. for any other reason not stated in Covered Risk 9.b.
5. Any claim of a PACA-PSA Trust. Exclusion 5 does not modify or limit the coverage provided under Covered Risk 8.
6. Any lien on the Title for real estate taxes or assessments, imposed or collected by a governmental authority that becomes due and payable after the Date of Policy. Exclusion 6 does not modify or limit the coverage provided under Covered Risk 2.b.
7. Any discrepancy in the quantity of the area, square footage, or acreage of the Land or of any improvement to the Land.

EXCEPTIONS FROM COVERAGE

Some historical land records contain Discriminatory Covenants that are illegal and unenforceable by law. This policy treats any Discriminatory Covenant in a document referenced in Schedule B as if each Discriminatory Covenant is redacted, repudiated, removed, and not republished or recirculated. Only the remaining provisions of the document are excepted from coverage.

This policy does not insure against loss or damage and the Company will not pay costs, attorneys' fees, or expenses resulting from the terms and conditions of any lease or easement identified in Schedule A, and the following matters:

NOTE: The 2021 ALTA Owner's Policy may be issued to afford either Standard Coverage or Extended Coverage. In addition to variable exceptions such as taxes, easements, CC&R's, etc., the Exceptions from Coverage in a Standard Coverage policy will also include the Western Regional Standard Coverage Exceptions listed as 1 through 7 below:

1. (a) Taxes or assessments that are not shown as existing liens by the records of any taxing authority that levies taxes or assessments on real property or by the Public Records; (b) proceedings by a public agency that may result in taxes or assessments, or notices of such proceedings, whether or not shown by the records of such agency or by the Public Records.
2. Any facts, rights, interests, or claims that are not shown by the Public Records at Date of Policy but that could be (a) ascertained by an inspection of the Land or (b) asserted by persons or parties in possession of the Land.
3. Easements, liens or encumbrances, or claims thereof, not shown by the Public Records at Date of Policy.
4. Any encroachment, encumbrance, violation, variation, easement, or adverse circumstance affecting the Title that would be disclosed by an accurate and complete land survey of the Land and not shown by the Public Records at Date of Policy.
5. (a) Unpatented mining claims; (b) reservations or exceptions in patents or in Acts authorizing the issuance thereof; (c) water rights, claims or title to water, whether or not the matters excepted under (a), (b), or (c) are shown by the Public Records.
6. Any lien or right to a lien for services, labor, material or equipment unless such lien is shown by the Public Records at Date of Policy.
7. Any claim to (a) ownership of or rights to minerals and similar substances, including but not limited to ores, metals, coal, lignite, oil, gas, uranium, clay, rock, sand, and gravel located in, on, or under the Land or produced from the Land, whether such ownership or rights arise by lease, grant, exception, conveyance, reservation, or otherwise; and (b) any rights, privileges, immunities, rights of way, and easements associated therewith or appurtenant thereto, whether or not the interests or rights excepted in (a) or (b) appear in the Public Records or are shown in Schedule B.

2006 ALTA OWNER'S POLICY (06-17-06)

EXCLUSIONS FROM COVERAGE

The following matters are expressly excluded from the coverage of this policy, and the Company will not pay loss or damage, costs, attorneys' fees, or expenses that arise by reason of:

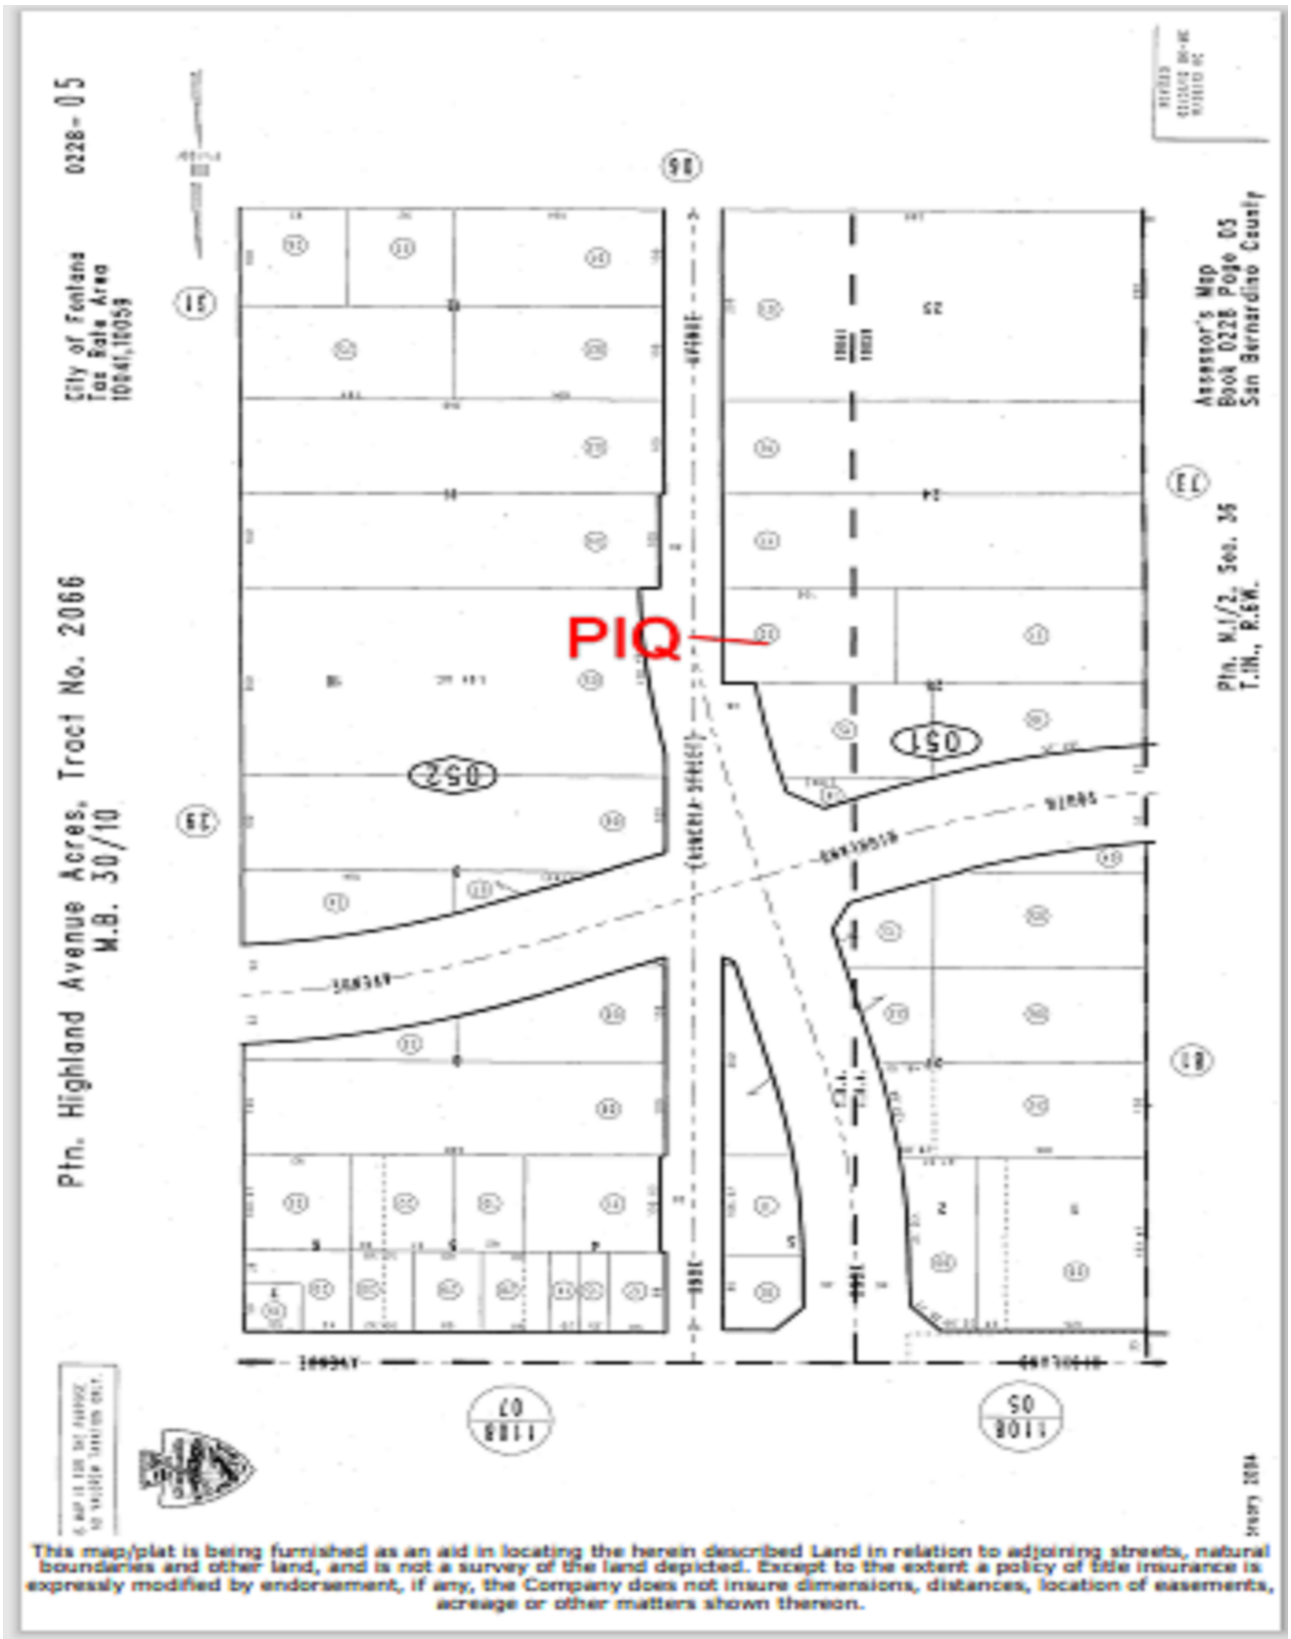

1. (a) Any law, ordinance, permit, or governmental regulation (including those relating to building and zoning) restricting, regulating, prohibiting, or relating to
   (i) the occupancy, use, or enjoyment of the Land;
   (ii) the character, dimensions, or location of any improvement erected on the Land;
   (iii) the subdivision of land; or
   (iv) environmental protection;
   or the effect of any violation of these laws, ordinances, or governmental regulations. This Exclusion 1(a) does not modify or limit the coverage provided under Covered Risk 5.
   (b) Any governmental police power. This Exclusion 1(b) does not modify or limit the coverage provided under Covered Risk 6.
2. Rights of eminent domain. This Exclusion does not modify or limit the coverage provided under Covered Risk 7 or 8.
3. Defects, liens, encumbrances, adverse claims, or other matters
   (a) created, suffered, assumed, or agreed to by the Insured Claimant;
   (b) not Known to the Company, not recorded in the Public Records at Date of Policy, but Known to the Insured Claimant and not disclosed in writing to the Company by the Insured Claimant prior to the date the Insured Claimant became an Insured under this policy;
   (c) resulting in no loss or damage to the Insured Claimant;
   (d) attaching or created subsequent to Date of Policy (however, this does not modify or limit the coverage provided under Covered Risk 9 and 10); or
   (e) resulting in loss or damage that would not have been sustained if the Insured Claimant had paid value for the Title.
4. Any claim, by reason of the operation of federal bankruptcy, state insolvency, or similar creditors' rights laws, that the transaction vesting the Title as shown in Schedule A, is
   (a) a fraudulent conveyance or fraudulent transfer; or
   (b) a preferential transfer for any reason not stated in Covered Risk 9 of this policy.
5. Any lien on the Title for real estate taxes or assessments imposed by governmental authority and created or attaching between Date of Policy and the date of recording of the deed or other instrument of transfer in the Public Records that vests Title as shown in Schedule A.

EXCEPTIONS FROM COVERAGE

This policy does not insure against loss or damage, and the Company will not pay costs, attorneys' fees, or expenses that arise by reason of:

NOTE: The 2006 ALTA Owner's Policy may be issued to afford either Standard Coverage or Extended Coverage. In addition to variable exceptions such as taxes, easements, CC&R's, etc., the Exceptions from Coverage in a Standard Coverage policy will also include the Western Regional Standard Coverage Exceptions listed below as 1 through 7 below:

1. (a) Taxes or assessments that are not shown as existing liens by the records of any taxing authority that levies taxes or assessments on real property or by the Public Records; (b) proceedings by a public agency that may result in taxes or assessments, or notices of such proceedings, whether or not shown by the records of such agency or by the Public Records.
2. Any facts, rights, interests, or claims that are not shown by the Public Records at Date of Policy but that could be (a) ascertained by an inspection of the Land, or (b) asserted by persons or parties in possession of the Land.
3. Easements, liens or encumbrances, or claims thereof, not shown by the Public Records at Date of Policy.
4. Any encroachment, encumbrance, violation, variation, easement, or adverse circumstance affecting the Title that would be disclosed by an accurate and complete land survey of the Land and not shown by the Public Records at Date of Policy.
5. (a) Unpatented mining claims; (b) reservations or exceptions in patents or in Acts authorizing the issuance thereof; (c) water rights, claims or title to water, whether or not the matters excepted under (a), (b), or (c) are shown by the Public Records.
6. Any lien or right to a lien for services, labor, material or equipment unless such lien is shown by the Public Records at Date of Policy.]
7. Any claim to (a) ownership of or rights to minerals and similar substances, including but not limited to ores, metals, coal, lignite, oil, gas, uranium, clay, rock, sand, and gravel located in, on, or under the Land or produced from the Land, whether such ownership or rights arise by lease, grant, exception, conveyance, reservation, or otherwise; and (b) any rights, privileges, immunities, rights of way, and easements associated therewith or appurtenant thereto, whether or not the interests or rights excepted in (a) or (b) appear in the Public Records or are shown in Schedule B.

APPENDIX F

RESUMES

ED LUMP

MR. ED LUMP
Associate Geologist

EDUCATION
B.Sc Geology, San Diego State University, San Diego, California

PROFESSIONAL SUMMARY
Mr. Lump has been in the field of Engineering Geology since 1984 and in the field of Environmental Assessment since 1990. Serving as a field technician, soils laboratory technician, and geologist he has gained field experience on numerous hillside and flatland residential and commercial developments throughout southern California. As an engineering geologist he supervised field personnel and conducted numerous geologic and geotechnical evaluations on residential, commercial and industrial developments in California, Arizona and Nevada. His projects have included landslide and fault evaluations, single and multi-tract residential properties, shopping centers/national chain retail developments, and forensic evaluations, as well as grading and construction oversight. Mr. Lump has also conducted and managed numerous Phase I Environmental Site Assessments and Phase II soil, groundwater and soil vapor assessments for vacant, agricultural, residential, commercial and industrial properties in California, Arizona and Nevada.

SELECTED PROJECT EXPERIENCE

Environmental Site Assessments
- Limited Phase II and Soil Vapor Survey, 2013, County of Riverside, future Eastvale fire station, Riverside County, CA
- Phase I ESA, 2013, Wakeland Housing Development, 10 apartment complex portfolio, San Diego County, CA
- Phase I ESA and Limited Phase II, 2013, William Lyon Homes, Upland Residential Development, San Bernardino County, CA
- Limited Phase II Assessment, 2013, KB Homes, Spring Mountain Ranch, Riverside County, CA
- Environmental demolition and grading oversight, 2011/2012, Standard Pacific Homes, Harmony Grove residential development, San Diego County, CA
- Groundwater Mounding Evaluation, 2008, Lowe's HIW, Lowe's of Pacoima, Los Angeles County, CA
- Phase I ESA, Pesticide Residue Survey, Remedial Earthwork Guidelines, and Final As-Built Assessment, 2003/2004, Lennar Homes, Bressi Ranch, San Diego County, CA

Geologic and Geotechnical Evaluations
- Lake Elsinore Marketplace, Diamond Development, Riverside County, CA
- Salton Sea Solar Plant, Chevron Solar, Inc., Imperial County, CA
- Lowe's of Sparks, Nevada, Lowe's HIW, Washoe County, NV
- Walmart Murrieta, Walmart, Inc., Riverside County, CA
- Santa Fe Hills/Paloma Residential Development, KB Homes, San Diego County, CA
- Carmel Mountain Ranch Residential Development, Presley of San Diego, San Diego County, CA
- Lowe's of Bullhead City, Arizona, Lowe's HIW, Mohave County, AZ

SIAMAK JAFROUDI

DR. SIAMAK JAFROUDI
President
Principal-in-Charge

EDUCATION
PhD, Geotechnical Engineering, 1983,
UC Davis
MS, Civil Engineering, 1978, UC Davis

REGISTRATIONS
Civil Engineering, California, PE 36641
Geotechnical Engineer, California, GE 2024
Environmental Assessor, REA 01655

PROFESSIONAL SUMMARY
Dr. Jafroudi has over 34 years of professional experience in geotechnical engineering. His area of specialization is “material characterization” in relation to slope stability evaluation, liquefaction analysis, pavement design, collapse potential, earth retaining structures and earthquake engineering. Dr. Jafroudi’s experience encompasses the design and supervision of a multitude of soil mechanics laboratory tests and drilling programs. With a broad range of project experience, he has served as a Principal Engineer on several key projects for such clients as school, university and college districts, public agencies; transportation agencies; residential and commercial developers, as well as private sector clients.

Acquiring a doctorate degree in Geotechnical Engineering as well as a Master of Science degree in Civil Engineering, Dr. Jafroudi maintains extensive working knowledge and experience with respect to these challenging fields. Dr. Jafroudi is a Registered Geotechnical Engineer (GE), a Registered Environmental Assessor (REA), and is registered in Civil Engineering (PE), all in the state of California. Additionally, he is an active member of the American Society of Civil Engineers, the Earthquake Engineering Research Institute and California Geotechnical Engineering Association.

SELECTED PROJECT EXPERIENCE

Environmental Site Assessments
- KB Homes, Hollywood Beverly Christian Church, Hollywood
- Castle & Cooke, Lake Elsinore Outlet Mall, Lake Elsinore
- Covina Transit Plaza, Foothill Transit, Covina
- First Street Bridge Widening, Los Angeles County
- Overland Street Bridge Improvements, Los Angeles County
- 801 Office Tower, Mani Brothers, Los Angeles
- Harmony Grove Site Acquisition, New Urban West, San Diego County
- Site Acquisitions, County of Los Angeles Office of Education, Los Angeles
- Eleven Projects, City of Mission Viejo, Mission Viejo
- Site Acquisitions, Paramount USD, Paramount
- Site Acquisitions, Santa Ana USD, Santa Ana
- Site Acquisition, Nevis Construction, Chino Hills
- Site Acquisitions, Moreno Valley USD, Moreno Valley
- Corona Farms, Confidential Client, Corona
- Amusement Park, Confidential Client, Orange County
- Nursery Site, Confidential Client, Sylmar
