Present Land Use/Zoning/General Plan Designation:

Residential Single Family, Tax Exempt, Single Residential, Multiple Residential

Project Description: (please use a separate page if necessary)

Marin Water proposes to replace two seismically unsound San Geronimo Creek pipeline crossings of the North Marin Line (NML) with seismically resistant crossings. Marin Water would replace one pipeline crossing with approximately 1,700 feet of new pipeline within Sir Francis Drake Boulevard. The other pipeline crossing would be replaced with a 36-inch pipeline installed within a single span steel truss supported on drilled piers. The pipeline would emerge from the ground approximately 20-feet back of the creek's top-of-bank and rise approximately 2 to 3-feet above the adjacent ground surface before crossing the creek. The Project also includes cutting and removing the existing pipeline and existing piles in San Geronimo Creek. Dewatering would occur upstream and downstream to 'dry' out work area in order to construct and remove components and provide safe access to work areas. The Project would be constructed between August and November 2026. No construction activities would occur during the February 1 to July 31 nesting season. Construction and material staging would occur at the crossing sites within Marin Water's 20-foot-wide pipeline easement, at Kent Lake adjacent to Peter's Dam, and/or at Leo T. Cronin parking lot adjacent to Sir Francis Drake Boulevard. The new pipeline segments would operate as the current NML does, providing water to Marin Water customers.

Note: The State Clearinghouse will assign identification numbers for all new projects. If a SCH number already exists for a project (e.g. Notice of Preparation or previous draft document) please fill in.

Reviewing Agencies Checklist

Lead Agencies may recommend State Clearinghouse distribution by marking agencies below with an "X".
If you have already sent your document to the agency please denote that with an "S".

☐ Air Resources Board	☒ Office of Historic Preservation
