MINING DEED

THIS INDENTURE AND ASSIGNMENT is made this 30th day of April, 1993, by and between AMERICAN STANDARD INC., a Delaware corporation, hereinafter referred to as Grantor, and VICEROY GOLD CORPORATION, a Delaware corporation, hereinafter referred to as Grantee. The Grantor, for and in consideration of the sum of TEN DOLLARS (\$10.00) lawful money of the United States of America, the receipt of which is hereby acknowledged, together with other good and valuable consideration, has, subject to the exceptions and reservations set forth below, remised, released, sold, transferred, conveyed and quitclaimed, and by these presents does remise, release, sell, transfer, convey and forever quitclaim unto the Grantee, all of its right, title and interest now owned or hereafter acquired but not reacquired in and to the Reserved Mineral Interest more particularly described in Exhibit A attached hereto and incorporated by this reference.

The Grantor excepts and reserves from the foregoing conveyance to the Grantee the following:

1. Production Royalty. A royalty on production equal to two percent (2%) of net smelter returns on all ores and minerals produced from the "Property" as defined in Exhibit A.

1.1 Net Smelter Returns. The term "Net Smelter Returns" as used herein shall mean the gross value of ores and minerals produced from the Property, as the case may be, or the beneficiated products thereof, sold or otherwise disposed of by Grantee or other operator of the Property (the "Operator") less the following expenses actually incurred and borne by the Operator:

(1) All taxes payable with respect to the extraction, sale or disposition of the ores and minerals from the Property;

(2) Charges and costs, if any, for transportation from the mine or mill to places where the ores, minerals, or the beneficiated products thereof are smelted, refined and/or sold; and

(3) Charges, costs, including assaying and sampling costs specifically related to smelting and/or refining, and all penalties, if any, for smelting and/or refining.

In the event smelting or refining are carried out in facilities owned or controlled, in whole or in part, by the Operator, then charges, costs and penalties for such operations

shall mean the amount the Operator would have incurred if such operations were carried out at facilities not owned or controlled by the Operator then offering comparable services for comparable products on prevailing terms, but in no event greater than actual costs incurred.

1.2 Time and Manner of Payment. Operator shall make all payments due Grantor under this Agreement by check which shall be made payable to Grantor and shall be transmitted to Grantor within ten (10) days of Operator's receipt of any Net Smelter Returns. All payments shall be accompanied by a detailed statement explaining the manner in which the payment was calculated, together with the settlement sheet from the smelter. Such payments and statements shall be deemed conclusively to be correct unless Grantor objects to them in writing within ninety (90) days of receipt. The foregoing payment provisions shall be operative in the following manner:

1.2.1 Calculation of Royalty Payments. Royalty Payments shall be calculated as follows: Two percent (2%) of the Net Smelter Returns multiplied by the monthly average of the London Final Gold Price (afternoon fix, London Bullion Market in United States Dollars) as published in Metals Week for the preceding month less any unrecovered Advance Royalty payment as provided in paragraph 2. below.

1.3 Inspection. To secure the accurate payment of the production royalties excepted and reserved by this Deed, the Operator shall keep accurate books of account reflecting the mining operations on the Property, and Grantor shall have the right, either personally or through a qualified accountant of its choice and at its cost, to examine and inspect the books and records of the Operator pertaining to the mining, milling and shipping operations of the Operator from the Property. The Operator shall deliver to Grantor on or before January 1 of each year an estimate of the ensuing year's production and an estimate of the remaining ore reserves. Grantor, or its authorized agents or representatives shall be permitted to enter upon the Property at all reasonable times for the purpose of inspecting the Property and copying records pertaining to all operations on or with respect to the Property. However, Grantor shall enter the Property at its own risk and may not hinder operations on the Property unreasonably. Grantor shall indemnify and hold Grantee harmless from any damage, claim or demand by reason of injury to Grantor or its agents or representatives on the Property or the approaches thereto.

1.4 Confidentiality. Grantor shall not, without the prior written consent and approval of the Operator, knowingly disclose to any third party any such information or data which is not generally available to the public; provided, however, Grantor may disclose information or data pertaining to the Property: (i) if required for compliance with applicable laws, rules, regulations or orders for a governmental agency or stock exchange having jurisdiction; (ii) to any third party to whom Grantor, in good faith, anticipates selling or assigning Grantor's interest hereunder, or (iii) to a prospective lender to whom an interest in

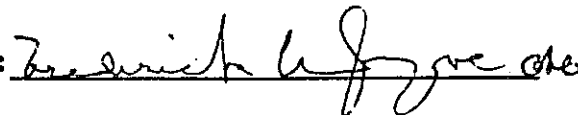

payments to be made to Grantor hereunder has been granted as security, provided that the Grantor shall have been provided with a confidentiality agreement executed by such third party or lender, which agreement shall include the confidentiality provisions of this Paragraph. Grantor shall not issue any press releases or similar public disclosures except upon giving Operator ten (10) days advance written notice of the contents thereof; this provision shall not be applicable to press releases or public disclosures by Grantor of information otherwise generally available to the public.

1.5 Commingling. Before any ore or minerals from the Property are commingled with ore or minerals from other properties, the ore and minerals from the Property (the "Property Ore") shall be measured and sampled in accordance with sound mining and metallurgical practice for moisture and metal content. Representative samples of the Property Ore shall be retained by the Operator and assays (including penalty substances) of these samples shall be made before commingling to determine metal content. Detailed records shall be kept by the Operator showing measures, moisture, assays of metal content and penalty substances, and gross metal content of the Property Ore. From this information, the Operator shall determine the amount of production royalties due and payable to Grantor from Property Ore commingled with ore and minerals from other properties.

2. Advance Royalty. Upon execution of this Deed, Grantee shall pay Grantor the sum of Twenty-Five Thousand Dollars (\$25,000.00) (the "Advance Royalty"). The term Advance Royalty shall mean that Grantor will receive no production royalties until the Operator has recovered from production royalties payable to Grantor under this Deed.

TO HAVE AND TO HOLD the same together with the ores, minerals, dips, spurs, angles thereof, extralateral rights, and all singular the tenements, hereditaments and appurtenances thereunto belonging, or in anywise appertaining, the reversion and reversions, remainder and remainders, rents, issues, profits thereof, all water rights, geothermal resources, petroleum, natural gas, other hydrocarbons, if any, and any and all other minerals and mineral and surface rights to the Grantee and its successors and assigns forever.
