

Memorandum

Nov. 4, 2025

To: Land Use & Climate Innovation State Clearinghouse
From: Scott Donnell, Senior Planner
Re: **SCH Number 2025100839 - City of Carlsbad Avenida Encinas Coastal Rail Trail and Pedestrian Improvements Project, CDP2024-0010/HMP2024-0009**

Included with this memo are the appendices to the Initial Study/Mitigated Negative Declaration for the above project. Please add these to the documents currently posted on CEQAnet for this project.

The city proposes no extension of the review period for or recirculation of the IS/MND. This is because the city's website has had a complete IS/MND for public review since October 17, the start of the project's public review period. Any inquiry the city has received in response to the project posting on CEQAnet has been referred to the city's website.

Additionally, the notice of intent posted on the city's website and CEQAnet, published in the newspaper, and mailed to various agencies, tribes and organizations includes a city website link, <https://www.carlsbadca.gov/departments/community-development/planning/agendas-minutes-notice>, to the complete IS/MND.

If any questions, you may reach me at scott.donnell@carlsbadca.gov.

Thank you.
