NOTICE OF EXEMPTION

Project Title:

Mansoury Cargo Container

Control Number:

PLNP2025-00080

Project Location:

The project is located at 4929 Crestview Drive, at the southwest corner of the intersection of Crestview Drive and Saint James Drive, in the Carmichael Community of unincorporated Sacramento County.

APN:

236-0246-003-0000

Description of Project:

The project consists of a request for a Minor Use Permit to allow a proposed cargo container to be placed in the rear yard of an existing property for personal storage in the Residential Density 5 (RD-5) zoning district.

Name of Public Agency Approving Project:

Sacramento County – ceqa@saccounty.gov

Person or Agency Carrying out Project:

Ashkon Mansoury
4929 Crestview Drive
Carmichael, CA 95608
(916) 417-8252
Ashkon_m@yahoo.com

Exempt Status:

Categorical Exemption (PRC Section 21084; CEQA Guidelines Sections 15300-15333):

- CEQA Guidelines Section 15303 – New Construction or Conversion of Small Structures

Reasons Why Project is Exempt:

Class 3 consists of construction and location of limited numbers of new, small structures, including accessory (appurtenant) structures. The project will allow a cargo container to be placed at the rear yard of an existing property for personal storage. The container meets the definition of a small structure pursuant to CEQA Guidelines section 15303 and is therefore exempt from the provisions of CEQA.

Section 15300.2-Exceptions

Section 15300.2 of the CEQA Guidelines, Exceptions, provides conditions under which categorical exemptions are inapplicable. Review of the Project indicates that it will not violate any of the exceptions, as described in the following section.

1. *For Classes 3, 4, 5, 6, and 11, will the project have an impact on an environmental resource of hazardous or critical concern where designated, precisely mapped, and officially adopted pursuant to law by federal, state, or local agencies?*

The project site is located within an established residential neighborhood and there are no mapped sensitive environments or locations within the project area. Therefore, construction of the project will not result in impacts on an environmental resource of hazardous or critical concern.

2. *Will cumulative impacts be considerable because successive projects of the same type will occur at the same place over time?*

As it stands, the project will not result in potentially significant impacts. Therefore, no cumulative impacts will result from the project and successive projects of the same type and at the same place over time.

3. *Is there a reasonable possibility that the activity will have a significant effect on the environment due to unusual circumstances?*

There are no known unusual circumstances that will have a significant effect on the environment.

4. *Will the project result in damage to scenic resources, including but not limited to trees, historic buildings, rock outcroppings, or similar resources within a highway officially designated as a scenic highway?*

River Road/ Highway 160 (from the Sacramento City Limits at the northern edge of Freeport to the southern tip of the Delta at Antioch Bridge) is a designated State Scenic Highway. The Project is not located within the vicinity of this scenic highway. Therefore, the project will not result in damage to scenic resources or similar resources within a highway that is officially designated as a scenic highway.

5. *Is the project located on a site which is included on any list compiled pursuant to Section 65962.5 of the Government Code?*

The project site is not included on any list compiled pursuant to Section 65962.5 of the Government Code. Therefore, implementation of the project will not have an impact related to being located on a hazardous waste site.

6. *Will the project cause a substantial adverse change in the significance of a historic resource?*

The project site does not contain any historical resources.
