**Project Title: Department of Water Resources Prop 1 Round 2 Project 3 Post-Fire Headwaters Restoration — Big Dry Creek and Jose Creek Watersheds of the Upper San Joaquin River**

Dear State Clearinghouse Staff,

On behalf of the Sierra Resource Conservation District, I am requesting that the Notice of Exemption (NOE) associated with the above-referenced project (SCH No. 2025100919) be withdrawn from the State Clearinghouse database. During our review, we discovered that the incorrect document was inadvertently attached to the submittal.

We respectfully request the withdrawal of the currently filed NOE since the correct version was submitted and posted to ensure the public record accurately reflects the project details. Please confirm once the document has been withdrawn or if any additional information is needed to complete this request.

Thank you for your time and assistance in this matter.

Sincerely,

Kelly Kucharski
District Manager
Sierra Resource Conservation District
