Sacramento, CA 95814

**PROJECT TITLE:** Approval of the Fiscal Year (FY) 2026 project list and seven (7) slurry seal contracts for Slurry Seal Groups 2621, 2622, 2623, 2624, 2625, 2626 and 2627 to be funded by FY 2026 Road Maintenance and Rehabilitation Account (RMRA) Funds

**PROJECT LOCATION-SPECIFIC:** The FY 2026 RMRA-funded projects will occur on approximately 241 lane miles within the Balboa Park, Barrio Logan, Carmel Valley, City Heights, Clairemont Mesa, College Area, Downtown, Eastern Area, Encanto, Greater Golden Hill, Kearny Mesa, Kensington-Talmadge, La Jolla, Linda Vista, Midway-Pacific Highway, Military Facilities, Mira Mesa, Miramar Ranch North, Navajo, Normal Heights, North Park, Ocean Beach, Otay Mesa, Otay Mesa-Nestor, Pacific Beach, Pacific Highlands Ranch, Peninsula, Rancho Bernardo, Rancho Encantada, Sabre Springs, San Ysidro, Scripps Miramar Ranch, Serra Mesa, Skyline-Paradise Hills, Southeastern San Diego, Tierrasanta, Torrey Highlands, Torrey Pines, University, and Uptown Community Plan Areas. The FY 2026 RMRA-funded projects are located in Council Districts 1 through 9. See Exhibit A for the FY 2026 RMRA Project List.

**PROJECT LOCATION-CITY/COUNTY:** San Diego/San Diego

**DESCRIPTION OF NATURE AND PURPOSE OF THE PROJECT:** The proposed action involves City Council approval of the list of FY 2026 projects to be funded by RMRA funds and the approval of seven (7) slurry seal contracts for Slurry Seal Groups 2621, 2622, 2623, 2624, 2625, 2626 and 2627 which will be funded by RMRA funds.

The Street Maintenance Program plans to cape seal or slurry seal approximately 241 lane miles of streets with this year's FY 2026 RMRA funding. Slurry Seal Group 2621 involves the application of a slurry seal or cape seal on approximately 35.2 lane miles of streets. Slurry Seal Group 2622 involves the application of a slurry seal or cape seal on approximately 32.4 lane miles of streets. Slurry Seal Group 2623 involves the application of a slurry seal or cape seal on approximately 42.7 lane miles of streets. Slurry Seal Group 2624 involves the application of a slurry seal or cape seal on approximately 35.7 lane miles of streets. Slurry Seal Group 2625 involves the application of a slurry seal or cape seal on approximately 32.1 lane miles of streets. Slurry Seal Group 2626 involves the application of a slurry seal or cape seal on approximately 30.8 lane miles of streets. Slurry Seal Group 2627 involves the application of a slurry seal or cape seal on approximately 32.4 lane miles of streets. The preliminary list of streets to be slurry sealed or cape sealed with RMRA funding is in the attached Exhibit A; however, to avoid any construction conflicts, the State funding source allows the City to modify the final list of streets.

A cape seal is an application that includes the use of brooms to guide asphalt emulsion into pavement distresses to ensure sealing of the road. This is then followed by the placement of crushed rock then one or two layers of slurry seal treatment for a smooth surface. The use of this type of treatment can help address

minor cracks, including low severity alligator cracking, and can be used when a stand-alone slurry seal does not adequately address the distresses found on the roadway.

Slurry seal is an asphalt street surface treatment which consists of sand, emulsion, and water applied as a thin layer up to 3/8-inch thick. Slurry seal is used on streets which are generally in good condition to protect them from deterioration. Minor surface repairs are completed by the pavement specialists prior to the application of the slurry or cape seal. Additionally, any failed areas of the pavement are removed and repaired prior to a seal application.

Bicycle striping and safety improvements could be implemented as part of the slurry seal projects. As part of the bicycle network improvements, select crossings within the project limits could be evaluated for an upgrade to high-visibility continental crosswalk striping. These upgrades would be implemented following the application of a cape seal, scrub seal, or slurry seal to enhance safety at pedestrian crossings.

**NAME OF PUBLIC AGENCY APPROVING PROJECT:** City of San Diego

**NAME OF PERSON OR AGENCY CARRYING OUT PROJECT:** Maggie McCormick, Deputy Director, City of San Diego Transportation Department, 8575 Gibbs Dr., MS 608, San Diego, CA 92123. Telephone: (619) 527-8031. E-mail: [MMcCormick@sandiego.gov](mailto:MMcCormick@sandiego.gov).

**EXEMPT STATUS:**

- MINISTERIAL
- DECLARED EMERGENCY
- EMERGENCY PROJECT
- CATEGORICAL EXEMPTION: CEQA Guidelines Sections 15301(c) (Existing Facilities), 15302 (Replacement or Reconstruction), and 15304 (Minor Alterations to Land)
- STATUTORY EXEMPTIONS

**REASONS WHY PROJECT IS EXEMPT:** The proposed action approving the FY 2026 RMRA project list and approving the execution of seven (7) slurry seal construction contracts for Slurry Seal Groups 2621, 2622, 2623, 2624, 2625, 2626 and 2627 is categorically exempt from CEQA pursuant to CEQA Guidelines Section 15301(c)(Existing Facilities) which exempts the operation, repair, maintenance, permitting, leasing, licensing, or minor alteration of existing public or private structures, facilities, mechanical equipment, or topographical features, involving negligible or no expansion of existing or former use, including existing highways and streets, sidewalks, gutters, bicycle and pedestrian trails, and similar facilities (this includes road grading for the purpose of public safety), and other alterations such as the addition of bicycle facilities, including but not limited to bicycle parking, bicycle-share facilities and bicycle lanes, transit improvements such as bus lanes, pedestrian crossings, street trees, and other similar alterations that do not create additional automobile lanes; Section 15302 (Replacement or Reconstruction) which exempts the replacement or reconstruction of existing structures and facilities where the new structure will be located on the same site as the structure replaced and will have substantially the same purpose and capacity as the structure replaced; and Section 15304 (Minor Alterations to Land) which exempts minor public or private alterations in the condition of land, water, and/or vegetation which do not involve removal of healthy, mature, scenic trees except for forestry or agricultural purposes. The exceptions to the exemptions listed in CEQA Guidelines Section 15300.2 would not apply in that no cumulative impacts were identified, no significant effects on the environment were identified, the projects would not result in damages to an officially designated state scenic highway, and no historical resources would be affected by the action. As to the exception for hazardous materials, the proposed projects would only involve the repair, maintenance, and/or rehabilitation of existing City streets and would not involve any excavation into previously

undisturbed soils which would expose potentially hazardous materials. Therefore, the proposed project would not preclude the use of a CEQA exemption pursuant to Section 65962.5 of the Government Code. R-316217

**LEAD AGENCY CONTACT PERSON:** Elena Pascual, Senior Planner. City of San Diego City Planning Department, 202 C Street, Floor 5, MS 413, San Diego, CA 92101. Telephone: (619) 533-5928. E-mail: [EPascual@sandiego.gov](mailto:EPascual@sandiego.gov).

**IF FILED BY APPLICANT:**

1. ATTACH CERTIFIED DOCUMENT OF EXEMPTION FINDING.
2. HAS A NOTICE OF EXEMPTION BEEN FILED BY THE PUBLIC AGENCY APPROVING THE PROJECT?  
(X) YES      ( ) NO

IT IS HEREBY CERTIFIED THAT THE CITY OF SAN DIEGO HAS DETERMINED THE ABOVE ACTIVITY TO BE EXEMPT FROM CEQA.
