

Summary Form for Electronic Document Submittal

Form F

Lead agencies may include 15 hardcopies of this document when submitting electronic copies of Environmental Impact Reports, Negative Declarations, Mitigated Negative Declarations, or Notices of Preparation to the State Clearinghouse (SCH). The SCH also accepts other summaries, such as EIR Executive Summaries prepared pursuant to CEQA Guidelines Section 15123. Please include one copy of the Notice of Completion Form (NOC) with your submission and attach the summary to each electronic copy of the document.

SCH #: TBD

Project Title: Marathon Los Angeles Refinery Modernization Projects

Lead Agency: South Coast Air Quality Management District (South Coast AQMD)

Contact Name: Farzaneh Khalaj

Email: fkhalaj@aqmd.gov Phone Number: 909.396.3022

Project Location: Please see Attachment 1 for the project location.
City

Los Angeles
County

Project Description (Proposed actions, location, and/or consequences).

Please see Attachment 1 for the project description.

Identify the project's significant or potentially significant effects and briefly describe any proposed mitigation measures that would reduce or avoid that effect.

To be determined in the Draft EIR.

If applicable, describe any of the project's areas of controversy known to the Lead Agency, including issues raised by agencies and the public.

To be determined during review of the NOP/IS and the Draft EIR.

Provide a list of the responsible or trustee agencies for the project.

The California Environmental Protection Agency, Department of Toxic Substances Control (DTSC), also has discretionary approval over some activities in the Refinery, and has been identified as a responsible agency under CEQA for any of their required permits and/or approvals.

There are no trustee agencies for this proposed project.

Attachment 1

Project Location:

Tesoro Los Angeles Refinery - Carson Operations (Facility ID 174655)
2350 East 223rd Street, (nearest intersection: Marathon Way and East 223rd Street)
Carson, CA, 90810, Los Angeles County

Tesoro Los Angeles Refinery - Wilmington Operations (Facility ID 800436)
2101 East Pacific Coast Highway (nearest intersection: Alameda Street and East Pacific Coast Highway)
Wilmington, CA, 90744, in the City of Los Angeles, Los Angeles County

Both of these facilities are located in the AB 617 Wilmington, Carson, and West Long Beach community.

Description of Nature, Purpose, and Beneficiaries of Project: Tesoro Refining & Marketing Company, LLC doing business as Marathon Los Angeles Refinery, proposes to modernize its Marathon Los Angeles Refinery (Refinery), which is comprised of its Carson Operations and Wilmington Operations, for the purpose of: replacing equipment that is at the end of its useful life; providing asphalt binder to meet market demand; enabling flexibility by making modifications to specific processing units to adjust product yields between transportation fuel products (i.e., gasoline, diesel fuel, and jet fuel), depending on market demand; and more efficiently producing octane-blending components needed for gasoline supply. Specifically, Tesoro is proposing modifications to: 1) replace aging coke drums; 2) produce asphalt binder; 3) improve operational performance of the Fluid Feed Hydrodesulfurization Unit which removes sulfur from the gas oil feed before it goes to the Fluidized Catalytic Cracking Unit (FCCU), and 4) improve efficiency to make more high-octane, low vapor pressure clean-gasoline blendstocks by modifying the: a. FCCU which converts heavy hydrocarbons into gasoline and other lighter hydrocarbons, b. alkylation units which convert lighter hydrocarbons into blendstocks for gasoline, and c. the C3 Splitter Unit which separates propane and propylene (compounds containing three carbon molecules) for further processing elsewhere or sold as product. Each of these proposed projects are designed to ensure continued safe operations and provide a reliable and affordable supply of transportation fuels to meet the market shift during California's transition to a zero-emission transportation system. The four proposed projects fulfill different needs at the Refinery, such that any single project can occur without any of the other three projects and have independent utility. However, because each project will have an overlapping construction schedule, the projects are evaluated altogether. The NOP/IS identifies potentially significant adverse impacts to the environmental topics of air quality and greenhouse gas emissions, hazards and hazardous materials, hydrology and water quality related to water demand during operations, noise during construction, and transportation during construction. This facility is identified on lists compiled by the California Department of Toxics Substances Control per Government Code Section 65962.5.

Attachment 2

The following table summarizes the requested information on the schools located within two miles of the project site:

Schools Within Two Miles of the Proposed Projects at Marathon Los Angeles Refinery

School Name	Address	City	Zip Code	Phone	Distance (mi.)
Preschool or Kindergarten (P/K) - 8 Schools					
Holy Family-Wilmington	1122 E Robidoux St	Wilmington	90744	310-518-1440	0.6
Sts. Peter and Paul School	706 Bay View Ave	Wilmington	90744	310-834-5574	1.9
Scholarship Prep – south Bay	24910 S Avalon Blvd	Wilmington	90744	310-834-1448	1.4
Hudson K-8	2335 Webster Ave	Long Beach	90810	562-426-0470	0.35
Muir K-8	3038 Delta Ave	Long Beach	90810	562-426-5571	1.1
St. Lucy Catholic School	2320 Cota Ave	Long Beach	90810	562-424-9062	0.7
P/K - 12 Schools					
Bethel Baptist School	1361 E Carson S.	Carson	90725	310-522-4450	0.6
Pacific Harbor Christian School	1530 N Wilmington Blvd	Wilmington	90744	310-835-5665	2.0
