**Re: Koko Nor Corporation – Amendment to Petition for Change – Napa County
License 5300 (Application 13711)**

Dear Mr. Brown:

On behalf of Koko Nor Corporation, we are requesting an amendment to the petition for change filed on August 17, 2012. The purpose of this amendment is to add industrial use as a purpose of use under the License and to change and ultimately reduce the requested place of use. The place of use is being reduced from 218 acres down to 212 acres, as shown on the attached maps.

The new owner has identified the need to use the water stored in Catacula Lake for winery operations. They have also had the property surveyed for soil type and slope and have more accurately identified the areas they intend to develop. This amendment does not change the request to add frost protection as purposes of use as identified in the November 1, 2013 email to you.

The requested amendments are set forth on the following page:
