Project Title: Joint Water Pollution Control Plant Effluent Outfall Tunnel Western Avenue Boring

Project Location: The project is located along the tunnel alignment in Western Avenue, approximately 600 feet south of Weymouth Place in the City of Los Angeles.

Project Description: The project consists of emergency boring/drilling along Western Avenue of up to fourteen exploratory boreholes for the Joint Water Pollution Control Plant Effluent Outfall Tunnel Project to aid in the investigation of a partial tunnel breach that took place on July 9, 2025. Access into the breached tunnel is currently prohibited by CalOSHA and boring/drilling effort down to the tunnel elevation (up to 365 feet below ground surface) is the only method to investigate the current tunnel condition. A potential void was found over the tunnel breach and emergency investigation and repair will be required to prevent potential additional settlement of the surrounding areas. After the boring/drilling campaign is completed, the boreholes will be abandoned in accordance with the Los Angeles County and California Well Standards.

Public Agency Approving Project: Sanitation District No. 2 of Los Angeles County
