Summary Form for Electronic Document Submittal

Form F

Lead agencies may include 15 hardcopies of this document when submitting electronic copies of Environmental Impact Reports, Negative Declarations, Mitigated Negative Declarations, or Notices of Preparation to the State Clearinghouse (SCH). The SCH also accepts other summaries, such as EIR Executive Summaries prepared pursuant to CEQA Guidelines Section 15123. Please include one copy of the Notice of Completion Form (NOC) with your submission and attach the summary to each electronic copy of the document.

Project Title: North 5th Street Complete Streets and Connectivity Project

Lead Agency: City of West Sacramento

Contact Name: Christian Asuncion

Email: christianas@cityofwestsacramento.org Phone Number: (916) 617-4667

Project Location: West Sacramento, Yolo County
City *County*

Project Description (Proposed actions, location, and/or consequences).

The City of West Sacramento (City) is proposing to implement roadway improvements along 5th Street/Lighthouse Drive from C Street to Fountain Drive; A Street between 5th Street and 4th Street/Riverwalk Trail; and C Street from 3rd Street to 6th Street in West Sacramento, California. Roadway improvements include a road diet along 5th Street from four lanes down to two, installation of 2,000 linear feet of Class IV buffered bicycle lanes, pavement rehabilitation, installation of 2,000 linear feet of Class IV buffered bicycle lanes, intersection enhancements, and installation of an ADA-compliant ramp connection from 5th Street/A Street to the Riverwalk Trail. Intersection enhancements include curb ramp reconstruction and additional pedestrian crossings via restriping traversing Marina Way at Lighthouse Drive, both sides of A Street at 5th Street, 5th Street at A Street, and both sides of B Street at 5th Street. Lighting infrastructure is proposed along the ADA-compliant ramp, in accordance with West Sacramento design guidelines. Lastly, guardrail is proposed along a section of 4th Street, across from the Broderick Boat Ramp exit. The project is determined to result in potentially significant impacts to Biological Resources. However, with the incorporation of project-specific mitigation measures, any potentially significant impacts resulting from the project would be reduced to a less than significant level.

Identify the project's significant or potentially significant effects and briefly describe any proposed mitigation measures that would reduce or avoid that effect.

The project is anticipated to have a less than significant impacts on biological resources with mitigation measures incorporated. Mitigation measures below were incorporated into the 2026 ISMND and are still applicable to the Supplemental ISMND:
BIO-1: Preconstruction nesting bird survey
BIO-2: Yolo HCP/NCCP Swainson's Hawk and White-Tailed Kite Covered Species AMMs
BIO-3: Tree removal replacement requirements

One additional mitigation measure was incorporated into the project for the Supplemental ISMND:
BIO-4: Schedule tree-trimming outside of the bat maternity season, and two-step tree removal processes

If applicable, describe any of the project's areas of controversy known to the Lead Agency, including issues raised by agencies and the public.

Not Applicable.

Provide a list of the responsible or trustee agencies for the project.

None.
