**Re: Waste Management Service Provider**

Dear Ms. Webb:

Waste Management (WM) is pleased to provide solid waste collection to your project located in unincorporated Riverside County.

The residential development project referenced as TTM 39011 represents 73 single-family residential units projected to be completed by Q4 2024.

All single-family residential units will require trash, recycling and organics collection service to comply with SB 1383 state recycling mandates. Per our discussion, the waste carts will be curbside service, and the waste collection trucks will be able to operate with no space constraints.

Once the single-family residential units become occupied, WM representative will ensure that the individual residential account is receiving recycling services, along with providing assistance with any recycling education per SB 1383 guidelines.

Should you need additional information or have any further questions, please contact me at 951-609·6341 or email at lquiroa@wm.com.

WM looks forward to servicing future Riverside County residents.

Sincerely,

Lily V. Quiroa
Public Sector Services Area Manager
