Project Title: 753585_Macpherson_UIC
Project Applicant: Macpherson Oil Company (Macpherson)
Project Location: Kern County, Round Mountain; Sec. 19, Twn. 28S, Rng. 29E, Base MD; Latitude: 35.4821586, Longitude: -118.8895416
Project Description: The proposed project will result in a modification of an existing well, consistent with CCR 1684.1. In addition, because the project will be a minor alteration of an existing well, there will be a negligible effect on the environment, consistent with CCR 1684.2. There will be no expansion of the previously approved use of the wells or deepening of wells. The project will utilize a workover rig, and various temporary support equipment that include delivery trucks, backhoes, and pickup trucks. The well pad will be able to accommodate all associated equipment and operations, including personnel parking. The rig will then conduct day-light operations until work is completed. The rig operations and equipment will then be demobilized and removed from the site. No production facilities and no new ground surface disturbance will be associated with the rework. The total project footprint for each well in this project is estimated to be less than 0.5 acres. The majority of this project is in areas of existing disturbance. The proposed project consists of the California Department of Conservation, Geologic Energy Management Division (CalGEM) approving 1 permit(s) for Macpherson Oil Company to rework the well(s) listed below, in the Round Mountain Oil Field.

API #	Well Name
0403042206	Jewett 3 949

Exempt Status: As the Lead Agency, CalGEM has determined that the proposed project is exempt from full environmental review requirements of the California Environmental Quality Act (CEQA), pursuant to the specified exemptions marked in the section below. CalGEM further finds that the proposed project would not result in a significant adverse impact to the environment, or that any of the exceptions to the application of the exemptions apply (14 CCR § 15300.2).

Exemption Type		Statute (PRC)	Regulation (14 CCR)	
☐	**Statutory Exemption:**			
	☐ Ongoing Project (*pre-CEQA approval on April 5, 1973*)	21169	15261 (b)	
	☐ Ministerial	21080 (b)(1)	15268	
	☐ Declared Emergency	21080 (b)(3)	15269 (a)	
	☐ Emergency Projects	21080 (b)(4)	15269 (b) or (c)	
☑	**Categorical Exemption:**	21084		
	☑ **Class 1**: Existing Facilities		15301	1684.1
	☑ **Class 2**: Replacement or Reconstruction		15302	
	☐ **Class 3**: New Construction/Conversion of Small Structures		15303	
	☑ **Class 4:** Minor Alterations to Land		15304	1684.2
	☐ **Class 7**: Protection of Natural Resources		15307	
	☐ **Class 8**: Protection of the Environment		15308	
	☐ **Class 11:** Accessory Structures		15311	
	☐ **Class 21**: Enforcement Actions to revoke a permit		15321	
	☐ **Class 30**: Minor Actions to Prevent, Minimize, Stabilize, Mitigate, or Eliminate a Release (Actual or Threat) of Hazardous Substances (Waste or Material)		15330	
	☐ **Class 33**: Small Habitat Restoration Projects		15333	
☐	**General Exemption** ("common sense")		15061 (b)(3)	
☐	**Not a "Project" subject to CEQA**		15378 (b)(2)	

CEQA Exceptions to the Exemptions (14 CCR § 15300.2): where project is located (e.g., sensitive environment); Cumulative Impact; Significant Effect due to Unusual Circumstances; Scenic Highways; Hazardous Waste Sites; Historical Resources.

Reasons Why Project is Exempt: The basis for CalGEM's determination that the project is exempt from the requirements of CEQA is provided in the brief explanation below.

Class 1, Existing Facility (14 CCR §§ 15301, 1684.1): The "Class 1" (14 CCR §15301) exemption is applicable per the CEQA Guidelines and CalGEM's regulations (14 CCR §1684.1) because the proposed work consists of repair, maintenance, or minor alteration of an existing previously permitted well involving no expansion of former use. The Class includes, but is not limited to: remedial, maintenance, conversion, and abandonment work on oil, gas, injection, and geothermal wells. The well would maintain its existing well type and the use of the well would remain the same as before.

Class 2, Replacement or Reconstruction (14 CCR §15302): Class 2 applies because it consists of "replacement or reconstruction of existing structures and facilities where the new structure will be located on the same site as the structure replaced and will have substantially

Docusign Envelope ID: 13361D65-FACE-4619-AE61-978CA180271A

the same purpose and capacity as the structure replaced[.]" Examples of Class 2 include, but are not limited to, "Replacement or reconstruction of existing utility systems and/or facilities involving negligible or no expansion of capacity." The proposed Project is the sidetrack, or replacement, of the existing wellbore which is needed to restore the wells to their original functionality. The sidetracked will be the same site and would have substantially the same purpose and capacity as the well did before the sidetrack. Additionally, no additional construction will occur.

Class 4, Minor Alterations to Land (14 CCR §§ 15304, 1684.2): Class 4 exemption applies. The proposed project would be conducted entirely on an existing pad with enough space to contain all equipment. The project would not disturb any undisturbed areas. The proposed project is located within an industrial area. Therefore, the proposed project "consists of drilling operations that result in only minor alterations with negligible or no permanent effects to the existing condition of the land, water, air, and/or vegetation." The sidetrack would not expand the facility.

Exceptions to Exemptions: CalGEM further finds that there are no exceptions to the application of the categorical exemptions (PRC § 21084; 14 CCR § 15300.2) referenced above. For example, there is no substantial evidence that there are any "unusual circumstances" associated with the proposed project that create a reasonable possibility that the activity will have a significant effect on the environment, and that there are no significant "cumulative impacts" resulting from successive projects of the same type in the same place. Therefore, reliance on the exemptions is appropriate.

A copy of this NOE (as required by 14 CCR § 15062(a)) and all other related materials are available for public inspection at CalGEM Central District office, located at 11000 River Run BLVD, Bakersfield CA 93311; or an electronic copy of these documents may also be accessed online at the State Clearinghouse: https://ceqanet.opr.ca.gov.
