County: Trinity County

Project Description: The Department of Cannabis Control, pursuant to authority granted under Business and Profession Code, Division 10, Chapter 2, Section 26012, approved a Small Outdoor commercial cannabis license.

Project Activities: The applicant proposes 10,000 sf of mixed-light cannabis cultivation on a 13.84-acre site zoned as Rural Residential. Water for the project would be provided from an existing onsite well. An existing onsite septic system would serve the project's wastewater needs. Access to the site would be via a private driveway. No tree removal, grading, or disturbance of native shrub will occur as a result of this project. The site has one non-cultivation residential dwelling. A total of 70,000 gallons of water is stored in existing tanks on site. A 150 sf designated composting area is on site for all cannabis waste. Surrounding land uses are primarily undeveloped.
