Present Land Use/Zoning/General Plan Designation:

Vacant

Project Description: (please use a separate page if necessary)

The Department of Toxic Substances Control is considering approval of an Interim Remedial Action Plan for the remediation of contaminants of concern in soil and soil vapor at the former Sargent Industries site. The interim remedial action would consist of the excavation and off-site disposal of contaminated soil in combination with installation and operation of a soil vapor extraction system, and installation of a vapor intrusion mitigation system under the new building. The existing Land Use Covenants would be modified to encompass the entire Project site.

Note: The State Clearinghouse will assign identification numbers for all new projects. If a SCH number already exists for a project (e.g. Notice of Preparation or previous draft document) please fill in.

Reviewing Agencies Checklist

Lead Agencies may recommend State Clearinghouse distribution by marking agencies below with an "X".
If you have already sent your document to the agency please denote that with an "S".
