Project Description (Proposed actions, location, and/or consequences).

The proposed park will be developed along the west bank of the Santa Ana River and its adjacent Santa Ana River Trail (SART). The park is designed as an interface between park goers and bikers passing by on the SART. The park will provide a combination of educational or passive uses with proposed amenities that include furnishings integrated into the landscape, educational/interpretative signage, and public art on display. Planned amenities will include a monument sign, trash cans, tables and benches, drinking fountains and water bottle stations, shade canopies, a fitness area, and a skate plaza. No onsite parking will be provided so users would mainly be pedestrians and bicyclists using the SART.
