Subject: Filing of Notice of Determination in compliance with §21152 of the Public Resources Code

State Clearinghouse Number: SCH 2025120793

Project Title: **East Weaver Water Treatment Plant Improvements Project**

Project Applicant: **Weaverville Community Services District**

Project Location:

The project is located in the unincorporated community of Weaverville in Trinity County on WCSD owned land, National Forest land, and in public road rights-of-way and utility easements. The project area roughly parallels East Weaver Creek Road from Highway 3 to about 2.5 miles north.

Project Description:

The project includes improvements to the WCSD water system, including constructing a new water treatment building and a new 1-million-gallon (MG) concrete water storage tank, and installing new waterlines and power/communications conduit.

The existing earthen backwash ponds would be enlarged and the concrete sedimentation basin and adjoining chemical room would be demolished. Aggregate base would be installed on new access roads, around the water treatment building, and on unpaved portions of East Weaver Creek Road. Several power poles along East Weaver Creek Road would be replaced by the Trinity Public Utilities District. A new pressure reducing valve station would be constructed northwest of the intersection of East Weaver Creek Road and Highway 3. Work on National Forest lands would include demolishing an existing 0.4 MG water tank and the existing water treatment facilities adjacent to the East Weaver Campground site, installing underground power/communications conduit, and upgrading overhead power lines. The demolished tank site would be graded, and aggregate base would be installed to provide for a parking area near the East Weaver Creek Trailhead.

This is to advise that the Weaverville Community Services District (Lead Agency) approved the above-described project on January 28, 2026, and made the following determinations:

1. The project **will not** have a significant effect on the environment.
2. A **Negative Declaration** was prepared for this project pursuant to the provisions of CEQA.
3. Mitigation measures **were** made a condition of the approval of the project.
4. A mitigation reporting or monitoring plan **was** adopted for this project.
5. A Statement of Overriding Considerations **was not** adopted for this project.
6. Findings **were** made pursuant to the provisions of CEQA.

This is to certify that the Mitigated Negative Declaration and record of project approval are available to the General Public at:

Weaverville Community Services District
716 Main St.
Weaverville, CA 96093
