Summary Form for Electronic Document Submittal

Form F

Lead agencies may include 15 hardcopies of this document when submitting electronic copies of Environmental Impact Reports, Negative Declarations, Mitigated Negative Declarations, or Notices of Preparation to the State Clearinghouse (SCH). The SCH also accepts other summaries, such as EIR Executive Summaries prepared pursuant to CEQA Guidelines Section 15123. Please include one copy of the Notice of Completion Form (NOC) with your submission and attach the summary to each electronic copy of the document.

SCH #: _____

Project Title: Martha McLean Anza Narrows and Jurupa Ave Trailhead Park Master Plan, Riverside Gateway Parks

Lead Agency: City of Riverside Parks, Recreation and Community Services Department

Contact Name: Alisa Sramala

Email: asramala@riversideca.gov Phone Number: 951-826-2021

Project Location: Riverside (*City*) Riverside (*County*)

Project Description (Proposed actions, location, and/or consequences).

The proposed project at the existing Martha McLean Anza Narrows Park would develop additional passive and active recreational amenities such as a direct connection to the Santa Ana River with terraced steps, a decomposed granite pedestrian trail, play areas, outlooks, seating, gardens, restrooms, parking, bike racks/stops, and landscaping. The proposed project for the Jurupa Ave Trailhead would develop a public park and trailhead to provide a variety of passive recreational opportunities including paths and trails, native planting and pollinator gardens, seating, shade structures, educational signage, and overlooks. Active park elements include bike paths and music and nature play areas.

Identify the project's significant or potentially significant effects and briefly describe any proposed mitigation measures that would reduce or avoid that effect.

The project's potentially significant effects are related to biological resources, cultural resources, construction impacts on air quality, and construction noise. Mitigation measures focus on timing construction work to avoid bird nesting season or having biological monitoring, and following City Municipal Code regulations for noise generating activities. Mitigation measures also outline procedures if cultural resources are discovered during the course of work.

If applicable, describe any of the project's areas of controversy known to the Lead Agency, including issues raised by agencies and the public.

Provide a list of the responsible or trustee agencies for the project.

California Department of Fish and Wildlife
