City right-of-way

Project Description: *(please use a separate page if necessary)*

The proposed E Street Complete Streets, Cesar Chavez to El Dorado Project (Project) includes the construction of various roadway improvements along an approximately 1.3-mile segment of E Street between Cesar Chavez Boulevard (also known as Ventura Avenue) and El Dorado Street, including rehabilitation of existing pavement in some areas, complete street reconstruction in other areas, reduction of the number of travel lanes from four lanes to two lanes between Tulare Street and El Dorado Street, installation of buffered class II bicycle lanes and sidewalks, and installation of Americans with Disabilities Act (ADA)-compliant curb ramps. The Project includes installation of two new streetlights—one at the southwest corner of Cesar Chavez Boulevard and E Street and one on the western frontage about 160 feet north of the Cesar Chavez Boulevard and E Street intersection. The Project includes installation of eight traffic signal poles. Four large signal poles with arms would be installed at all corners of Fresno and E Streets, and four smaller poles would be installed at all corners of Tulare and E Streets. The Project would require nine partial right-of-way (ROW) acquisitions. The Project would not require demolition of existing buildings or structures from parcels proposed for partial ROW acquisition.

Note: The State Clearinghouse will assign identification numbers for all new projects. If a SCH number already exists for a project (e.g. Notice of Preparation or previous draft document) please fill in.

Reviewing Agencies Checklist

Lead Agencies may recommend State Clearinghouse distribution by marking agencies below with and "**X**".
If you have already sent your document to the agency please denote that with an "**S**".
