Re: Records Search Results for the Ace Mission Studios Project

The South Central Coastal Information Center received your records search request for the project area referenced above, located on the Los Angeles, CA USGS 7.5' quadrangle. The following summary reflects the results of the records search for the project area and a ½-mile radius. The search includes a review of all recorded archaeological and built-environment resources as well as a review of cultural resource reports on file. In addition, the California Points of Historical Interest (SPHI), the California Historical Landmarks (SHL), the California Register of Historical Resources (CAL REG), the National Register of Historic Places (NRHP), the California State Built Environment Resources Directory (BERD), and the City of Los Angeles Historic-Cultural Monuments (LAHCM) listings were reviewed for the above referenced project site and a ¼-mile radius. Due to the sensitive nature of cultural resources, archaeological site locations are not released.

RECORDS SEARCH RESULTS SUMMARY

Archaeological Resources* (*see Recommendations section)	Within project area: 0 Within project radius: 10
Built-Environment Resources	Within project area: 3 Within project radius: 56
Reports and Studies	Within project area: 10 Within project radius: 45
OHP Built Environment Resources Directory (BERD) 2022	Within project area: 0 Within ¼-mile radius: 7
California Points of Historical Interest (SPHI) 2022	Within project area: 0 Within ¼-mile radius: 0
California Historical Landmarks (SHL) 2022	Within project area: 0 Within ¼-mile radius: 0
California Register of Historical Resources (CAL REG) 2022	Within project area: 0 Within ¼-mile radius: 1
National Register of Historic Places (NRHP) 2022	Within project area: 0 Within ¼-mile radius: 0

Archaeological Determinations of Eligibility (ADOE): 2022	Within project area: 0 Within project radius: 0
City of Los Angeles Historic-Cultural Monuments (LAHCM)	Within project area: 0 Within ½-mile radius: 11

HISTORIC MAP REVIEW - Pasadena, CA (1900) historic USGS 15' Quadrangle maps indicated that in 1900 there as already a lot of development in the area with grids of roads and buildings present. There were several railroad tracks running through the search radius. They are labeled as Los Angeles Terminal (San Pedro Div), Atchison Topeka and Santa Fe (Redondo Branch), and AT&SF (San Diego Branch). The Los Angeles River ran through the radius as well as two streams. One ran through the project area and another into a lake located in present day Hollenbeck Park. Historic place names in the area include Los Angeles, Brooklyn Heights, and Boyle Heights.

RECOMMENDATIONS

**When we report that no archaeological resources are recorded in your project area or within a specified radius around the project area; that does not necessarily mean that nothing is there. It may simply mean that the area has not been studied and/or that no information regarding the archaeological sensitivity of the property has been filed at this office. The reported records search result does not preclude the possibility that surface or buried artifacts might be found during a survey of the property or ground-disturbing activities.*

The project area is potentially sensitive for archaeological resources. Because most of the project area is obscured by urban development, an archaeological survey is not likely to result in the observation of surface artifacts. Buried remains of the Zanja Madre (historical water conveyance system) are potentially within the project boundaries. Only small portions of this historic archaeological resource have been officially recorded. However, maps of the resource's vast network show that there is a strong potential for this resource to be within or adjacent to the project site. Therefore, it is recommended that a qualified archaeologist be retained to monitor all ground-disturbing activities. In the event that cultural resources are observed, all work within the vicinity of the find should be diverted until the archaeologist can assess and record the find and make recommendations. Excavation or removal of potential cultural resources should not be attempted by project personnel.

It is also recommended that any structures (45 years and older) be identified, recorded, and evaluated for local, state, or national significance prior to the approval of project plans as may be required by the lead agency.

Finally, it is also recommended that the Native American Heritage Commission (NAHC) should be consulted to identify if any additional traditional cultural properties or other sacred sites are known to be in the area. The NAHC may also refer you to local tribes with particular knowledge of potential sensitivity. The NAHC and local tribes may offer additional recommendations to what is provided here and may request an archaeological monitor.

For your convenience, you may find a professional consultant**at www.chrisinfo.org. Any resulting reports by the qualified consultant should be submitted to the South Central Coastal Information Center as soon as possible.

**The SCCIC does not endorse any particular consultant and makes no claims about the qualifications of any person listed. Each consultant on this list self-reports that they meet current professional standards.

If you have any questions regarding the results presented herein, please contact the office at 657.278.5395 Monday through Thursday 9:00 am to 3:30 pm. Should you require any additional information for the above referenced project, reference the SCCIC number listed above when making inquiries. Requests made after initial invoicing will result in the preparation of a separate invoice.

Thank you for using the California Historical Resources Information System,

Michelle Galaz Cornforth
Assistant Coordinator

Enclosures:

(X) Invoice #24624.10733

Due to processing delays and other factors, not all of the historical resource reports and resource records that have been submitted to the Office of Historic Preservation are available via this records search. Additional information may be available through the federal, state, and local agencies that produced or paid for historical resource management work in the search area. Additionally, Native American tribes have historical resource information not in the California Historical Resources Information System (CHRIS) Inventory, and you should contact the California Native American Heritage Commission for information on local/regional tribal contacts.

The California Office of Historic Preservation (OHP) contracts with the California Historical Resources Information System's (CHRIS) regional Information Centers (ICs) to maintain information in the CHRIS inventory and make it available to local, state, and federal agencies, cultural resource professionals, Native American tribes, researchers, and the public. Recommendations made by IC coordinators or their staff regarding the interpretation and application of this information are advisory only. Such recommendations do not necessarily represent the evaluation or opinion of the State Historic Preservation Officer in carrying out the OHP's regulatory authority under federal and state law.
