Project Title: Zero Emissions Port Electrification of Operations and Grid Reliability Project

Project Applicant: Los Angeles Department of Water and Power

Project Location (include county): City of Los Angeles, Los Angeles County

Project Description:

The Los Angeles Department of Water and Power (LADWP) proposes to increase the capacity of electricity distribution within the POLA by installing sixteen (16) new 34.5 kilovolt (kV) underground distribution circuits. To accommodate the estimated increase in load, LADWP is proposing to expand the capacity of RS-Q and RS-C, install three new switching stations, and construct a wet cooling tower within HGS to maintain existing generation capacity to ensure the reliability and resilience of the City grid.

This is to advise that the Los Angeles Department of Water and Power has approved the above (Lead Agency or Responsible Agency)

described project on 3/24/2026 and has made the following determinations regarding the above described project.

- 1. The project will not have a significant effect on the environment.
2. An Environmental Impact Report was prepared for this project pursuant to the provisions of CEQA. A Negative Declaration was prepared for this project pursuant to the provisions of CEQA.
3. Mitigation measures were made a condition of the approval of the project.
4. A mitigation reporting or monitoring plan was adopted for this project.
5. A statement of Overriding Considerations was adopted for this project.
6. Findings were made pursuant to the provisions of CEQA.

This is to certify that the final EIR with comments and responses and record of project approval, or the negative Declaration, is available to the General Public at:

Los Angeles Department of Water and Power, 111 N Hope Street, Rm 1044, Los Angeles, CA 90012
