Project Description

Caltrans proposes a project at the northbound side of Route 805 just south of Imperial Avenue off-ramp at post mile 12.23 to reset the lifecycle of the CMS sign, relocate the controller cabinet 100' south of the CMS sign and install a surveillance camera for TMC's traffic operation. The surveillance camera is used to monitor the operation of the CMS and surrounding traffic. Project work consists of using a crane to install the post, a bucket truck to install the camera and a trencher to install conduits. There will be a ground/vegetation disturbance of 6"(width) X 110'(length) X 30" (depth) for trenching, 2'-6" (diameter) X 7'(depth) for camera post foundation, and 3'-2" (width) X 2'-8" (length) X 1'-4"(depth) for the controller cabinet foundation. All environmental commitments are included in the Environmental Commitments Record (ECR).
