NOTICE OF EXEMPTION

TO: Ventura County Clerk
800 South Victoria Avenue
Ventura, CA 93009-1260

CA Office of Planning and Research
P.O. Box 3044, Room 113
Sacramento, CA 95812-3044

FROM: Ventura County Public Works
Agency-Watershed Protection District
800 South Victora Avenue / #1600
Ventura, CA 93009-1600

Project Title: New Installation and Upgrades of Streamgaging Systems Project (CalSIP)
Project Location: Santa Clara River, Hopper Creek, Arroyo Tapo, Lake Casitas Dam
Description of Nature, Purpose and Beneficiaries of the Project: The purpose of the project is to upgrade existing stream gaging infrastructure at three sites and install one new gaging station which will contribute to important flow data as a part of the California stream gage network. Watershed Protection District (WPD) has been awarded grant funding through the Stream Gage Improvement Program (CalSIP) to conduct the improvements. Work involves no new maintenance in the streams, less than 10 square feet of concrete footing and bollards installed in previously disturbed areas, little to no vegetation removal or trimming, and no damage to scenic resources. No substantive increase in maintenance or site visits would occur for the existing stations; monthly to quarterly gage visits for data collection and gage maintenance would occur for the new site at Santa Clara River.
Name of Public Agency Approving Project: Ventura County Watershed Protection District
Name of Person or Agency Carrying Out Project: Earthea Nance, PhD, PE, CFM, Director, Watershed Protection District

Exempt Status:
☒ Categorical Exemption. State Type and section number:
Article 19, Section 15301, Class 1 and Section 15304, Class 4

Reasons why project is exempt: The project falls under Class 1 Section 15301-Existing Facilities for the upgrades to three existing gage systems because it comprises operation, maintenance, and minor alteration of existing facilities involving negligible or no expansion of use. This includes alterations for the Lake Casitas, and Hopper Creek, and Arroyo Tapo station upgrades. The new Santa Clara River station at either proposed location would be affixed to an existing bridge or culvert, therefore is also considered minor alteration of an existing facility (bridge). This work will not impact the surrounding habitat or cause ground disturbance. Class 4 Section 15304- Minor Alterations to Land applies to the proposed new installation of the camera at Hopper Creek. Minor new concrete placement to support the camera pole in previously disturbed area would occur. Exceptions to the exemptions do not apply.

California Stream Gage Improvement Program

County Of Ventura-Watershed Protection District
Agreement Number 4600016258

Scope of Work

COUNTY OF VENTURA-NEW INSTALLATION AND UPGRADATION OF STREAMGAGING STATIONS PROJECT (CALSIP)

Project Description

The purpose of this project is to upgrade the existing stream gaging infrastructure, new installation of stream gaging station and to contribute to data availability as part of the Stream Gage Improvement Program (CalSIP). Through the CalSIP program, DWR is actively improving California's stream gage network by funding public agencies to upgrade existing gages, reactivate historical gages, or install new gages on natural waterways across the state.

The County of Ventura- Watershed Protection District has been awarded a total funding of $62,000.00 to install a new stream gaging station and to upgrade three existing stations. The following stations will be installed/upgraded under this project:

- **Santa Clara River at RR Bridge above I5** ***(Likely to move to Torrey Road)***
  - New stream monitoring gage installation
  - 34°25'33.34"N 118°34'44.24"W (Site ID 2719-01)
    - *(Torrey Rd Location 34°23'41.0"N 118°47'55.4"W)*
- **Hopper Creek near Piru CA**
  - Stream gage upgrade and camera install
  - 34°24'02.50"N 118°49'36.30"W (Site ID 2722-01)
- **Arroyo Tapo at Walnut**
  - Stream gage upgrade
  - 34°17'49.70"N 118°43'15.60"W (Site ID 2724-01)
- **Lake Casitas at Dam**
  - Lake level monitoring equipment upgrade
  - 34°22'23.00"N 119°19'59.60"W (Site ID 2728-01)

Santa Clara River

The location for this new stream gaging installation is at Torrey Road Bridge near Piru. The new gage will be a radar unit which would clamp on the bridge rail if possible. No construction of any kind to the bridge and no disturbance to the ground to install. *(If the clamp design does not work a probably four small anchor holes will be drilled in the bridge to mount the box).* This is a non-contact gage. The channel at this location stays very clean of plant growth so do not anticipate there being any need for disturbance of the channel bottom or plant growth as part of the maintenance at this location. There would be stream flow measuring that would happen on a weekly to quarterly schedule depending on flow conditions and accuracy of developed rating curve. Below is a photo of a similar install to show what this site might look like.

Photo from Ridgeview gaging location to show example of radar installation. The smaller box in front left is not part of the radar box.

Hopper Creek near Piru CA

There are funding to upgrade the stream gage equipment and add a camera to this site. The upgrade to the stream monitoring gage would happen all within the current gaging station. The camera installation may be installed upstream within the walls of the County property (See photo). The camera pole requires a concrete base be put in. It would be similar to the one a Arundell pictured below. It is about a 2' by 3' concrete base. All work would be done with hand tools. The maintenance at the stream gaging site does not change from what it is now. Currently monthly site visits but this depends on flow conditions. The camera site would be annual unless maintenance of any kind was needed.

Photo shows two possible locations for the camera installation within the walls on the County property.

Photo from Arundell Camera location to show example of camera installation & concrete base.

Arroyo Tapo at Walnut

The gaging equipment at this location will be upgraded. No changes to the channel will be made. Maintenance will increase slightly at this site from current just in order to make sure the site is as accurate as possible due to the grant requirements. This just means more site visits to make sure functioning properly and in contact.

Photo of current Arroyo Tapo at Walnut stream gage.

Lake Casitas at Dam

The bubbler stream gaging equipment at this location will be upgraded. The bubbler is located within the concrete dam house on the wall. The new bubbler system will mount on the same wall with no disturbances outside of the structure. This will station would be visited annually by VCWPD but is checked daily by CMWD and they would let us know if there was an issue requiring a site visit.

Photo of the concrete dam house which houses the lake level system.

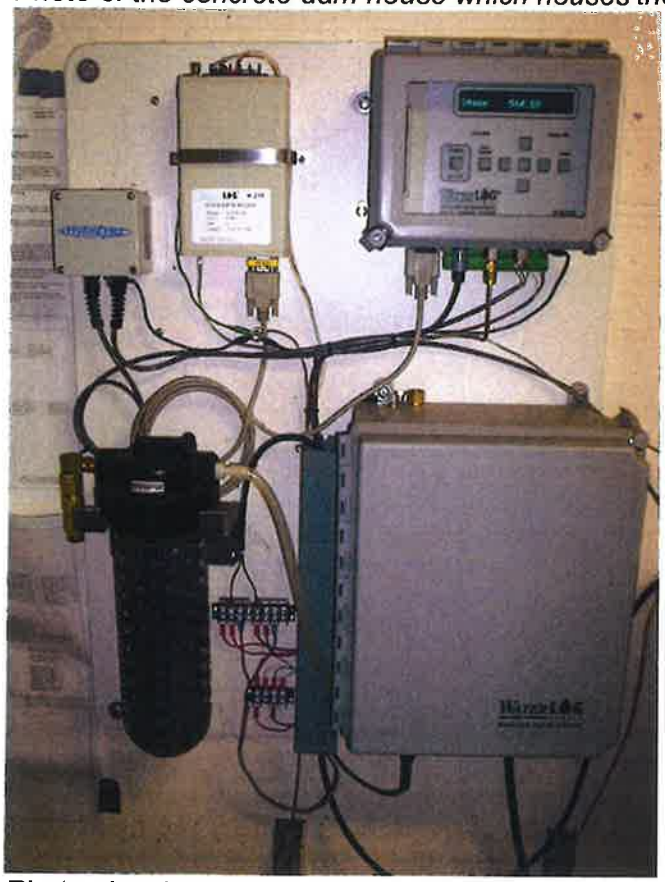

Photo showing current system at Lake Casitas which is inside the dam house mounted on the wall.

Board of Supervisors
Ventura County Watershed Protection District

Subject: Approve the Ventura County Watershed Protection District's the Installation and Upgrading of Streamgages at Different Locations in the County Pursuant to the California Department of Water Resources' Streamgaging Improvement Program (Project); Find the Project is Exempt from the California Environmental Quality Act. Watershed Protect District Zones 1, 2 and 3; Supervisorial Districts 1, 2, 3 and 4.

Recommendations:

1. Approve the Ventura County Watershed Protection District's (District) installation and upgrading of streamgages at different locations in the County pursuant to the California Department of Water Resources (DWR) Streamgaging Improvement Program (CalSIP) (collectively, the Project).

2. Find that the Project is exempt from the California Environmental Quality Act (CEQA).

Fiscal Impact:

There are no additional costs associated with this Board action.

Discussion:

On November 20, 2024, the District received notice that DWR had set aside $62,000 from CalSIP to fund certain improvements to the Ventura County Flood Warning System. (Exhibit 1.) On May 20, 2025, your Board adopted a resolution authorizing the District to request, accept, and execute a CalSIP grant agreement with DWR, in the amount of $62,000, for the improvements to the Ventura County Flood Warning System. (Exhibit 2.) Following your Board's adoption of the resolution, DWR notified the District that CalSIP also required the District to file a CEQA Notice of Exemption before construction activities can begin.

The Project includes the installation and/or upgrade of streamgage improvements at four sites of the Ventura County Flood Warning System, which are located at the Lake Casitas

Dam, Arroyo Tapo at Walnut Ave., Hopper Creek near Piru, and Santa Clara River at Torrey Rd. (See Exhibits 3-7.) The streamgages at both Lake Casitas and Arroyo Tapo will be upgraded. The streamgage at Hopper Creek will be upgraded to have a camera, and a new streamgage will be installed at the Upper Santa Clara River location. No or negligible impacts are anticipated with the Project, as project work involves no new maintenance in the streams, less than 10 square feet of concrete footing and bollard installation to previously disturbed areas, little to no vegetation removal nor damage to scenic resources, and no substantive increase in maintenance or site visits for the existing stations, with only quarterly to monthly visits to the new site at Santa Clara River.

The Project is categorically exempt from CEQA. First, the Project is exempt pursuant to CEQA Guidelines, Section 15301, Class 1: Existing Facilities as a project involving the operation, maintenance, and/or minor alteration of existing public facilities with no or negligible impacts to the environment in the areas at and/or surrounding the identified streamgaging stations. Second, the Project is exempt from CEQA pursuant to CEQA Guidelines, Section 15303, Class 2: New Construction/Conversion of Small Structures as a project involving the construction and location of one new, small facility (i.e., the new streamgage to be installed at the New Santa Clara River Station, Exhibit 7) and the installation of new equipment in existing small facilities/structures. Finally, the Project is exempt from CEQA pursuant to CEQA Guidelines, Section 15304, Class 4: Minor Alterations to Land as a project involving minor alterations in the conditions of land, water, and/or vegetation.

Strategic Plan:

This item contributes to the Board of Supervisors (Board's) 2024-2027 strategic priority to provide:

I. Healthy, safe, and resilient communities through
   1. Maintaining high-performing public safety services.

In light of the above, it is recommended that your Board (i) approve the Project and (ii) find the Project categorically exempt from CEQA. Upon your Board's approval of the Project and finding that the Project is exempt from CEQA, staff will prepare and file a Notice of Exemption pursuant to applicable CEQA requirements.

This letter has been reviewed by the County Executive Office, the Auditor-Controller's Office, and County Counsel.

If you have any questions regarding this item, please contact the undersigned at (805) 654-2040.

Sincerely,

Earthea Nance, Ph.D., P.E., C.F.M.
Director, Watershed Protection District

APPROVAL OF FUNDING FROM CALIFORNIA STREAM GAGE IMPROVEMENT PROGRAM – COUNTY OF VENTURA NEW STREAM GAGE PROJECT

Congratulations. Your request for funding from the Department of Water Resources' California Stream Gage Improvement Program for the County of Ventura – Water Protection District's New Stream Gage Project (Project) has been approved. The tentative level of funding is $62,000 and will be confirmed during the agreement process, which is the next step. Additionally, the term of funding will be from the time of agreement execution through March 2027.

This letter serves to inform you of this award and is a reminder that a resolution from your agency's governing body is needed before the agreement can be executed. To confirm you received this approval notification and to confirm your agency is intending on completing the agreement process, we request that you acknowledge receipt of this letter by signing and returning to Jessica Boyt by email at Jessica.Boyt@water.ca.gov.

The Stream Gage Improvement Program (Program) is funded by the Budget Act of 2023 (Stats. 2023, Ch. 189, Section 43). The intent of the Program is to improve the stream gaging network statewide following the recommendations in the SB19 recommendations (SB19 2022 Technical Report).

The funding award for this project is consistent with these recommendations and includes implementing the following items:

- A new stream gage on Santa Clara River, Hopper Creek, Arroyo Tapo, and Lake Casitas.

A draft funding agreement is being developed and will be sent to you for review and ultimately your agency's execution. You may begin incurring costs once the agreement is fully executed. No reimbursement of Eligible Project Costs will be issued until after the funding agreement is executed. Any costs incurred are at your own risk and liability until the funding agreement is executed. For guidance as to what are Eligible Project Costs and what type of documentation is required for reimbursement, please see the *Guidelines for Funding Public Agencies under the California Stream Gage Improvement Program* which may be found at: Stream Gage Improvement Program (ca.gov).

The Department is grateful for your participation in improving the stream gaging network and are hopeful this program helps inform your agency in surface water matters. If you have any questions or

Docusign Envelope ID: 4A251E21-E0C6-4A8B-9378-39AC31EFE0F7

need additional information regarding the agreement, please contact Radley Ott by email at radley.ott@water.ca.gov or by phone at (530) 945-0985.

Sincerely,

Teresa Connor
Manager, Northern Region Office
Department of Water Resources

Dated: May 23, 2025

By: _____
Deputy Clerk of the Board

Item #25
5/20/25

RESOLUTION NO. 25-047

A RESOLUTION OF THE VENTURA COUNTY WATERSHED PROTECTION DISTRICT BOARD OF SUPERVISORS AUTHORIZING THE FUNDING REQUEST, ACCEPTANCE, AND EXECUTION OF A DEPARTMENT OF WATER RESOURCES CALIFORNIA STREAM GAGE IMPROVEMENT PROGRAM GRANT AGREEMENT

WHEREAS, the Ventura County Watershed Protection District (District) proposes to implement the Department of Water Resources' (DWR) California Stream Gage Improvement Program (CalSIP); and

WHEREAS, CalSIP is being implemented to support and improve the stream gage network within the State of California and is intended to: (1) provide publicly available data on natural surface waters; and (2) provide sound data that accurately informs water management decisions; and

WHEREAS, the District has the legal authority and is authorized to enter into a funding agreement with the State of California to request, accept, and execute a SGIP grant agreement; and

WHEREAS, the District intends to apply for funding from DWR for CalSIP grant funds.

NOW, THEREFORE, BE IT RESOLVED, by the Ventura County Watershed Protection District Board of Supervisors as follows:

1. Pursuant and subject to all of the terms and provisions of Budget Act of 2023, as amended (Stats. 2022, ch. 44, § 25), the Ventura County Watershed Protection District (District) Director, or designee, is hereby authorized and directed to prepare and file a questionnaire for funding with the Department of Water Resources (DWR) and take such other actions as necessary or appropriate to obtain California Stream Gage Improvement (CalSIP) funding.

2. The District Director, or designee, is hereby authorized and directed to execute a CalSIP funding agreement with DWR and any amendments thereto.

3. The District Director, or designee, is hereby authorized to utilize electronic signatures to execute CalSIP agreements with the DWR and any amendments thereto.

4. The District Director, or designee, is hereby authorized and directed to submit to DWR any required documents, invoices, and reports required to obtain CalSIP funding.

Upon motion of Supervisors Lopez, seconded by Supervisor Gorell, and duly carried, the Ventura County Watershed Protection District Board of Supervisors hereby approves and adopts this resolution on May 20, 2025.

Janice S. Parvin, Chair
