RE: Will Serve Letter for 8550 Warner Project in Fountain Valley

To whom it may concern,

We have reviewed the proposed plan for the layout of commercial bin service located at 8550 Warner Ave in Fountain Valley, CA. We have found the proposed plan to meet our requirements for providing trash, recycling and organics service.

Please be aware that the state passed SB 1383 which went into effect on January 1, 2022 requiring all businesses and residents to source separate trash, recycling and organics. More information can be found here: <https://www.calrecycle.ca.gov/>

Sincerely,

Gus Sanchez
