Project Title: Alta Arden Expressway Phase I

Lead Agency: Sacramento County

Contact Name: Julie Newton

Email: newtonj@saccounty.gov Phone Number: 916-876-8502

Project Location: Arden Arcade Community (Unincorporated Sacramento County)
City County

Project Description (Proposed actions, location, and/or consequences).

Sacramento County Department of Transportation (SacDOT) is proposing to improve the pedestrian and bike facilities along Alta Arden Expressway in the Arden-Arcade community in unincorporated Sacramento County. Improvements will include installing sidewalk where it is missing, installing buffered bike lanes, installing new streetlamps, restriping roadways, modifying traffic signals, rehabilitating pavement, and resurfacing (project). The project will be implemented along approximately 0.9 miles on Alta Arden Expressway, approximately 390 feet west of Howe Avenue to Fulton Avenue. Additionally, gas, electric, water, sewer, and telecommunication facilities within the project area may require adjustments or relocations to facilitate pedestrian and bicycle improvements.

Identify the project's significant or potentially significant effects and briefly describe any proposed mitigation measures that would reduce or avoid that effect.

AQ: Due to non-attainment status of the Sacramento Valley Air Basin for PM2.5 and PM10, construction emissions would be potentially significant. Implementation of the Sacramento Metropolitan AQMD Basic Construction Emission Control Practices reduces this impact to less than significant.
BIO: Potential impacts to migratory birds and non-native tree canopy. Implementation of pre-construction surveys and compensatory mitigation reduces these impacts to less than significant.
CR: Unanticipated discovery of human remains. Implementation of stop work in case of unanticipated discovery.
GEO: Paleontological Resources. Implementation of stop work in case of inadvertent discovery.
HAZ: Aerially deposited lead. Implementation of practices associated with the disposal and stockpiling of exposed soil.

If applicable, describe any of the project's areas of controversy known to the Lead Agency, including issues raised by agencies and the public.

The project does not have any area's of controversy known to the Lead Agency at this time.

Provide a list of the responsible or trustee agencies for the project.
