Project Title: San Francisco Airport DCFC Charging Hub

Project Applicant: SkyChargers, LLC

Project Location - Specific: San Francisco Internation Airport (SFO). 50 Old Bayshore Hwy

Project Location - City: Millbrae

Project Location - County: San Mateo

Description of Nature, Purpose and Beneficiaries of Project:

Skychargers, LLC. will install at least 24 direct current fast charger charging ports for electric vehicles at the San Francisco International Airport's EV Hub.

Name of Public Agency Approving Project: California Energy Commission

Name of Person or Agency Carrying Out Project: Skychargers, LLC

Exempt Status: (check one)

- ☐ Ministerial (Sec. 21080(b)(1); 15268);
- ☐ Declared Emergency (Sec. 21080(b)(3); 15269(a));
- ☐ Emergency Project (Sec. 21080(b)(4); 15269(b)(c));
- ☒ Categorical Exemption. State type and section number: Cal. Code Regs., tit. 14, sec. §15301 and §15303
- ☐ Statutory Exemptions. State code number:

Reasons why project is exempt:

CCR section number: Cal. Code Regs., tit. 14, sec. 15301 Existing Facilities, 15303 New Construction or Conversion of Small Structures

Section 15301 provides that projects which consist of the operation, repair, maintenance, permitting, leasing, licensing, or minor alteration of existing public or private structures, facilities, mechanical equipment, or topographical features, and which involve negligible or no expansion of use beyond that existing at the time of the lead agency's determination, are categorically exempt from the provisions of the California Environmental Quality Act (CEQA). This project will involve the installation of electric vehicle charging stations, each within a 1 ft3 space, at the San Francisco International Airport. This installation will be a minor alteration to existing facilities with no expansion beyond the existing use of the facility and will not have a significant effect on the environment. This project therefore falls under categorical exemption listed in CEQA Guidelines Section 15301.

Notice of Exemption

Section 15303 provides that projects which consist of construction and location of limited numbers of new, small facilities or structures; installation of small new equipment and facilities in small structures; and the conversion of existing small structures from one use to another where only minor modifications are made in the exterior of the structure, are categorically exempt from the provisions of CEQA. This project consists of the installation of new charging stations, each within a 1 ft3 space, to existing sites. The current site was previously developed as a CNG refueling station. The equipment will be installed in an existing, paved parking lot. Therefore, the project falls within section 15303 and will not have a significant effect on the environment.

This project does not involve impacts on any particularly sensitive environment; does not involve any cumulative impacts of successive projects of the same type in the same place that might be considered significant; does not involve unusual circumstances that might have a significant effect on the environment; will not result in damage to scenic resources within a highway officially designated as a state scenic highway; the project site is not included on any list compiled pursuant to Government Code section 65962.5; and the project will not cause a substantial adverse change in the significance of a historical resource. Therefore, none of the exceptions to categorical exemptions listed in CEQA Guidelines section 15300.2 apply to this project, and this project will not have a significant effect on the environment.
