Project Description (Proposed actions, location, and/or consequences).

The proposed project includes recreational enhancements associated with the main lake of Ellis Lake. The existing concrete paths on the north and east sides of the main lake would be replaced with new, wider concrete paths or concrete boardwalks to create a shared bicycle/pedestrian pathway from 14th Street to 9th Street. A staircase would be installed in the northwestern corner of the lake. Also included is replacement of the existing access paths between the existing crosswalks at 10th and B Street and 12th and B Street. Play equipment and an accessible picnic table would be added to the west side of Ellis Lake just east of 11th Street. Improvements to the existing event island would include a new accessible bridge, accessible pathways, utility upgrades, and reseeding the lawn. Other features include new signage, benches, fishing pads, disposal receptacles, and public art.

Identify the project's significant or potentially significant effects and briefly describe any proposed mitigation measures that would reduce or avoid that effect.

Impacts of the proposed project on the following resource areas would be less than significant with the incorporation of mitigation measures: Air Quality, Biological Resources, Cultural Resources, Geology and Soils, Hydrology and Water Quality, Tribal Cultural Resources, Mandatory Findings of Significance. Mitigation measures include implementing relevant FRAQMD Standard Mitigation Measures during construction, protecting nesting birds during construction, permitting should in-water work occur, cultural resource awareness and response training, and protocols regarding inadvertent discoveries of cultural resources/human remains/paleontological resources/tribal cultural resources.

If applicable, describe any of the project's areas of controversy known to the Lead Agency, including issues raised by agencies and the public.
