Project Description: (please use a separate page if necessary)

EMWD proposes to decommission/demolish the existing Cawston LS (located on the east side of Cawston Avenue approximately 515 feet north of the proposed LS location) and construct a new LS on the northwest corner (NWC) of the intersection of Cawston Avenue and Stetson Avenue. Pipeline improvements would be made to extend a gravity and force main connection from the location of the existing LS site to the new LS site.

Note: The State Clearinghouse will assign identification numbers for all new projects. If a SCH number already exists for a project (e.g. Notice of Preparation or previous draft document) please fill in.

Reviewing Agencies Checklist

Lead Agencies may recommend State Clearinghouse distribution by marking agencies below with and "X".
If you have already sent your document to the agency please denote that with an "S".
