Project Description (Proposed actions, location, and/or consequences).

The City is proposing to update its existing Safety Element of the General Plan. The Safety Element Update, as part of the Walnut Creek General Plan, would establish goals, policies, and actions that are intended to guide City decision-making related to safety and climate adaptation and resilience strategies. The purpose of the Safety Element goals, policies, and actions is to increase the city's adaptive capacity to respond to hazards and climate change-related impacts to meet the current and future needs of people living and working in Walnut Creek.

Identify the project's significant or potentially significant effects and briefly describe any proposed mitigation measures that would reduce or avoid that effect.

No significant or potentially significant effects were found.

If applicable, describe any of the project's areas of controversy known to the Lead Agency, including issues raised by agencies and the public.

None.

Provide a list of the responsible or trustee agencies for the project.

City of Walnut Creek.
