Newport Beach, CA 92660

Re: Phase I Environmental Site Assessment
Industrial Property and Undeveloped Parcel of Land
280 West Valley Boulevard
Rialto, California

Dear Mr. Bargemann:

Following is the Environmental Site Assessment report on the industrial property and undeveloped parcel of land at 280 West Valley Boulevard in the City of Rialto in San Bernardino County, California. All of the agencies responded to our requests for information, with the exception of the City of Rialto Building Department and the San Bernardino County Fire Department. Information obtained in the process of completing this assessment does not indicate the presence of recognized environmental conditions. A 10,000 gallon gasoline underground storage tank (UST) was removed from the Subject Property in 2005. Soil samples were obtained from beneath the UST, the piping system and the fuel pumps. The samples were tested for the possible presence of gasoline, components of gasoline and gasoline oxygenates. The tests results showed that no unauthorized releases had occurred. A letter was issued by the San Bernardino County Fire Department confirming that further investigation was not warranted.

HEI Corporation appreciates this opportunity to be of service to you and to Investment Building Group. If you have any questions regarding this report, please contact me at chayden@heicorporation.com or 714-875-1362.

Sincerely,

Christopher M. Hayden
President

PROFESSIONAL CERTIFICATION

This Phase 1 Environmental Site Assessment (ESA) was conducted consistent with generally accepted environmental consulting practices within the limitations included as Appendix A. The site visits and records reviews were performed by Chris Hayden, EP, consistent with the proposal submitted to Investment Building Group (Client). The information contained in this ESA was obtained from personal inspection, from sources deemed to be reliable, and from various government agencies.

PHASE 1
ENVIRONMENTAL SITE ASSESSMENT

Industrial Property and Undeveloped Parcel of Land
280 West Valley Boulevard
Rialto, California

Project 21-862

I declare that, to the best of my professional knowledge and belief, I meet the definition of **Environmental Professional** (EP) as defined in Section 40 C.F.R. § 312.10(b).

I have the specific qualifications based on education, training and experience to assess a property of the nature, history, and setting of the Subject Property. I have developed and performed the all appropriate inquiries in conformance with the standards and practices set forth in Section 40 C.F.R. § 312.10(b).

Christopher M. Hayden
Environmental Professional

1 EXECUTIVE SUMMARY

This ESA was performed on the industrial property and undeveloped parcel of land located at 280 West Valley Boulevard in the City of Rialto in San Bernardino County, California (hereinafter referred to as the "Subject Property").

After inspecting the Subject Property; observing surrounding properties; searching through Federal, State of California, Tribal, San Bernardino County environmental agency lists; inspecting records at the City of Rialto, reviewing a previously conducted Phase 1 Environmental Site Assessment and questioning individuals for information regarding the current and past uses of the Subject Property, it can be concluded that there is no evidence of "recognized environmental conditions", as defined by the ASTM, in connection with the Subject Property. One item of historical note (referred to as an historic recognized environmental condition of HREC) was found in the process of conducting this ESA:

- The Subject Property was formerly occupied by FedEx. A 10,000 gallon gasoline UST was removed from the eastern side of the site in 2005. A report, dated October 26, 2005 and titled Underground Fuel Tank Closure Report, was prepared by Groundwater & Environmental Services, Inc. for Federal Express Corporation. The report states that the UST was removed on August 23, 2005. After the UST was removed, soil samples were obtained from beneath the UST, the piping system and the fuel pumps. Samples were also taken from the stockpile of soil removed in the process of exposing the UST. The samples were tested for the possible presence of total petroleum hydrocarbons (TPH); benzene, toluene, ethylbenzene and xylene (BTEX); and fuel oxygenates (MTBE). The report states, in the Conclusion section "No petroleum impacted soil was encountered in any of the samples taken below the UST, dispensers, product piping or tank pit excavation stockpile. Additionally, no impacted soil was observed during the uncovering process or removal process. GES recommends no further remediation activities be considered for the subject site." A letter, dated November 17, 2005, was sent from the SBCFD to Federal Express Corporation regarding the removal of one underground storage tank. The letter states "The Department has reviewed the closure report submitted by Groundwater and Environmental Services, Inc. dated October 26, 2005. The results of the soil sampling activity conducted on August 24, 2005 indicate that further investigation is <u>not</u> warranted at this time."

The UST has been removed, and no soil impacts were revealed. A letter from the San Bernardino County Fire Department confirmed that further investigation was not warranted. No further action is required at this time.

2 INTRODUCTION

2.1 Purpose

The purpose of this Environmental Site Assessment is to identify "recognized environmental conditions" in connection with the Subject Property. The ASTM Standard Practice for Environmental Site Assessments E 1527-13 defines "recognized environmental condition" as "the presence or likely presence of any hazardous substances or petroleum products in, on or at a property: (1) due to any release to the environmental; (2) under conditions indicative of a release to the environment; or (3) under conditions that pose a material threat of a future release to the environment."

2.2 Scope of Work

As agreed between Hayden Environmental, and Investment Building Group, the scope of work for this ESA included the following:

- Site Inspection
- Surrounding Property Observation
- Interviews With Individuals Having Knowledge of the Operations on the Subject Property
- Inspect and Photocopy City or County Building Permits
- Inspect and Photocopy County Health Care Agency Files
- State and Federal Regulatory Agency Database Search For Posted Properties Within ASTM Designated Radii of the Subject Property
- Inspect and Photocopy City or County Fire Department Records
- Search for Records of Permits for Underground or Aboveground Storage Tanks
- Inspection of Owner/Operator's Books and Records

- Evaluate the Likelihood of Vapor Encroachment Onto the Subject Property or Vapor Intrusion Into Structures on the Subject Property

- Examine Historic Aerial Photographs, Archive Cross Directories and/or Sanborn Map Company Maps

- Preparation and Presentation of One pdf Report

2.3 Limitations and Exceptions of Assessments

This ESA is based upon the information available from a variety of sources and on the inspection of the Subject Property. The ESA was performed in accordance with industry standards and using appropriate methods. It is intended to allow a party to make an informed decision regarding the Subject Property.

Hayden Environmental, is not responsible or liable for the accuracy of the information provided by others. This ESA is not a guaranty that there is no subsurface contamination, nor can it be warranted that those areas of environmental concern herein noted are the only areas of potential contamination at the Subject Property.

There was no sampling or testing for the possible presence or absence, nor is any statement made in the ESA regarding the possible presence or absence of any of the following:

1) Asbestos Containing Materials

2) Radon

3) Lead Based Paints

4) Lead in the Drinking Water

2.4 Limiting Conditions

There were no limiting conditions with regard to the ability of Hayden Environmental to conduct the property inspection portion of this ESA. Access was made available to all parts of the Subject Property.

2.5 Previous Environmental Site Assessments/Investigations

The Subject Property was formerly occupied by FedEx. A 10,000 gallon gasoline UST was removed from the eastern side of the site in 2005. A report, dated October 26, 2005 and titled Underground Fuel Tank Closure Report, was prepared by Groundwater & Environmental Services, Inc. for Federal Express Corporation. The report states that the UST was removed on August 23,

2005. After the UST was removed, soil samples were obtained from beneath the UST, the piping system and the fuel pumps. Samples were also taken from the stockpile of soil removed in the process of exposing the UST. The samples were tested for the possible presence of total petroleum hydrocarbons (TPH); benzene, toluene, ethylbenzene and xylene (BTEX); and fuel oxygenates (MTBE). The report states, in the Conclusion section "No petroleum impacted soil was encountered in any of the samples taken below the UST, dispensers, product piping or tank pit excavation stockpile. Additionally, no impacted soil was observed during the uncovering process or removal process. GES recommends no further remediation activities be considered for the subject site" A letter, dated November 17, 2005, was sent from the SBCFD to Federal Express Corporation regarding the removal of one underground storage tank. The letter states "The Department has reviewed the closure report submitted by Groundwater and Environmental Services, Inc. dated October 26, 2005. The results of the soil sampling activity conducted on August 24, 2005 indicate that further investigation is not warranted at this time."

A Phase I Environmental Site Assessment, dated December 11, 2012, was prepared by HEI Corporation for Goodfellow Corp. (2012 HEI ESA). The 2012 HEI ESA concluded that "The UST has been removed, and no soil impacts were revealed. No closure letter from the San Bernardino County Fire Department has been provided or obtained. No further action is required at this time."

2.6 Data Gaps

Data gaps occur in two areas in this ESA. In the records search section, the files for the County of San Bernardino Fire Department have not been reviewed. In the interviews section, the past occupant was not interviewed. These data gaps do not hinder the ability of HEI Corporation to form an opinion or arrive at a conclusion as to the environmental condition of the Subject Property.

3 SUBJECT PROPERTY DESCRIPTION

3.1 Site and Improvement Description

The Subject Property consists of a more or less rectangularly shaped, approximately 262,231 square foot (6.02 acre), parcel of land. It is located at the northeast corner of Valley Boulevard and Willow Avenue. Riverside Avenue is located to the east and Lilac Avenue is to the west. San Bernardino Avenue is to the north and Slover Avenue is to the south. Bloomington Avenue is to the northwest. It is located to the north of the San Bernardino Freeway (Interstate 10). The address is 280 West Valley Boulevard. The assessor's parcel numbers are 0132-182-08 (2.96 acres), 0132-182-09 (1.01 acres) and 132-202-04 (2.04 acres).

The topography for the general area of the Subject Property slopes to the south. The elevation is approximately 1,060 feet above sea level. Slover Mountain is located to the southeast and the Jurupa Mountains are located to the southwest. The Lytle Creek Wash is to the northeast and the Santa Ana River is to the southeast. The soil beneath the Subject Property consists of alluvium, comprised of clay, silt, sand and gravel. Information regarding depth to groundwater was obtained from a document found on the California State Water Resources Control Board's GeoTracker database. A leaking underground storage tank (LUST) Case Closure Summary, dated June 22, 2004, was prepared by the County of San Bernardino Fire Department for a site 0.09 miles to the southeast at 213 West Valley Boulevard. The summary states that the depth to groundwater in the area of this site ranged from 200 to 225 feet below ground surface (bgs). The direction of groundwater flow was not given in the summary. A groundwater monitoring report for a site more than a mile to the southeast, at 2051 East Slover Avenue, stated that groundwater in this area flowed to the west.

Structure The structure on the Subject Property is of concrete panel construction. The roof is flat and the slab is on grade. There is a canopy attached to the eastern side of the warehouse.

Interior The interior of the office on the Subject Property consists of carpeted, laminate and tile flooring. The walls appear to be frame and sheetrock. The ceilings are suspended acoustic tile and finished sheetrock.

Parking and Landscaping The parking area on the Subject Property is an asphalt surface, and no unusual staining was observed. The landscaping consists of trees, shrubs and groundcover. The plants were in good condition, and no signs of stressed vegetation were observed. No stained soil was observed on the site.

Utilities The utility services to the Subject Property are provided by a variety of vendors. Gas is provided by Southern California Gas Corp.; electricity by Southern California Edison; water and sewage treatment by the City of Rialto; and trash removal by Burrtec Waste Industries.

3.2 Subject Property Use History

The Subject Property is a currently occupied by Goodfellow Corporation. The company sells and rents crushers and conveyor equipment, primarily for the aggregate industry. The company also services the equipment and sells replacement parts. There is also an undeveloped parcel of land to the north of the structure that is also part of the Subject Property.

3.2.1 Past Site Uses

Past uses for the Subject Property were determined by examining aerial photographs dating back to 1938 which were obtained from the NETR Online; and by reviewing permit records obtained from the City of Rialto Building & Safety Division's online database.

The aerial photographs from 1938 to 1980 showed the Subject Property to be undeveloped with no activity observed on the site. The 1994 and subsequent aerial photographs showed the industrial building on the Subject Property.

The earliest document found on the City of Rialto Building & Safety Division's online database was dated June 4, 1986. It was a building permit which was issued to Wayne Dev. Co. to construct a 42,447 square foot shop and office building, along with a fuel island canopy, for Federal Express. A letter, dated May 2, 2002, was sent from Peterson Hydraulics to the City of Rialto-Planning Dept. which stated that five (5) tanks were to be installed in the Rialto FedEx facility. The tanks, presumably above ground storage tanks (ASTs), were to automatic transmission fluid (ATF), motor oil, waste oil, antifreeze, and used antifreeze. A permit, dated November 25, 2002, was issued to Peterson Hydraulics to install five (5) motor vehicle fluid tanks. An Application for Certificate of Occupancy, dated July 24, 2006, was submitted by FedEx Express to operate an interstate transportation company. The application stated that the company was using 280 gallons of motor oil per month, 85 gallons of antifreeze per month and 85 gallons of ATF per month. A Certificate of Occupancy Application, dated December 7, 2012, was submitted by Goodfellow CA Corporation to operate a machinery sales, and parts sales and shipping business. The application states that service technicians would also be replacing parts off-site. A sign permit, dated February 6, 2013, was issued to K&L Dirt Company LC [sic] to install a sign to read Goodfellow Crushers.

3.3 Adjoining Properties - Site Use History

A number of properties adjoin the Subject Property. The current uses are as follows:

North To the north of the Subject Property is an undeveloped parcel of land and a cellular communications site.

East To the east is flood control channel. Also to the east, at 220 West Valley Boulevard, is A-American Self Storage.

South To the south, across Valley Boulevard at 243 West Valley Boulevard, is a trucking operation.

West To the west, across Willow Avenue at 350 West Valley Boulevard, is Commercial Protective Services, Inc. and EZE Trucking LLC, dba, Rig Runner.

Nothing was observed on any of the adjoining properties that appeared to be of environmental concern to the Subject Property.

3.3.1 Adjoining Properties - Past Uses

Prior uses for the properties discussed above were determined by examining aerial photographs dating back to 1938 and by examining the San Bernardino South, California USGS Topographic Map. Both the photos and map are discussed in Section 3.4 below.

3.4 Historical Aerial Photograph and USGS Map Analysis

Historic aerial photographs are examined in order to determine what have existed on various sites in the past. The aerial photographs for the area of Subject Property dating back to 1938 were obtained from NETR Online.

- An aerial photograph taken in **1938** showed the Subject Property and the adjoining properties to the east, south and west to be undeveloped, with no evidence of activity observed. What appeared to be a water tank was shown in the adjoining area to the north. Railroad tracks were shown to the south. Orchards and vineyards were observed throughout the area. Smaller structures that appeared to be residences, garages and storage buildings were shown in the area. A copy of this aerial photograph can be seen as Figure C-1 in Appendix C.

- An aerial photograph taken in **1948** showed the Subject Property and the adjoining property to the east to be undeveloped, with no evidence of activity observed. Activity and what appeared to be a water tank was shown in the adjoining area to the north. Activity was observed in the adjoining area to the south, across Valley Boulevard. In the adjoining area to the west, across Willow Avenue, was what appeared to include equipment or vehicle storage, and row crop production. Railroad tracks were shown to the south. Orchards and vineyards were observed throughout the area. Smaller structures that appeared to be residences, garages and storage buildings were shown in the area. A copy of this aerial photograph can be seen as Figure C-2 in Appendix C.

- An aerial photograph taken in **1959** showed the Subject Property to be undeveloped, with no evidence of activity observed. Activity and what appeared to be a water tank was shown in the adjoining area to the north. Newer industrial buildings were shown in the adjoining area to the east. Small structures and activity were observed in the adjoining area to the south,

across Valley Boulevard. In the adjoining area to the west, across Willow Avenue, were newer structures, and vehicles and equipment were also observed. A newer tract of single family residences was shown to the west. Orchards were shown to the west, northwest and south. Interstate 10 and railroad tracks were shown to the south. Smaller structures that appeared to be residences, garages and storage buildings were shown in the area. A copy of this aerial photograph can be seen as Figure C-3 in Appendix C.

- An aerial photograph taken in **1968** showed the Subject Property to be undeveloped, with no evidence of activity observed. Activity and what appeared to be a water tank was shown in the adjoining area to the north. Industrial buildings were shown in the adjoining area to the east. Small structures and activity were observed in the adjoining area to the south, across Valley Boulevard. In the adjoining area to the west, across Willow Avenue, were structures, vehicles and equipment. A larger industrial facility was shown to the north. Industrial buildings were shown to the south, southwest and east. What appeared to be gasoline stations were shown at the corners of Valley Boulevard and Riverside Avenue. A tract of single family residences was shown to the west. Orchards were shown to the west, northwest and south. Interstate 10 and railroad tracks were shown to the south. Smaller structures that appeared to be residences, garages and storage buildings were shown in the area. A copy of this aerial photograph can be seen as Figure C-4 in Appendix C.

- An aerial photograph taken in **1980** showed the Subject Property to be undeveloped, with no evidence of activity observed. Activity and what appeared to be a water tank was shown in the adjoining area to the north. Industrial buildings were shown in the adjoining area to the east. Small structures and activity were observed in the adjoining area to the south, across Valley Boulevard. In the adjoining area to the west, across Willow Avenue, were structures, vehicles and equipment. A larger industrial facility was shown to the north. Industrial buildings were shown to the west, southwest, south- and southeast east. What appeared to be gasoline stations were shown at the corners of Valley Boulevard and Riverside Avenue. A tract of single family residences was shown to the west. Orchards were shown to the west and northwest and south. Interstate 10 and a large railroad switching yard were shown to the south. A copy of this aerial photograph can be seen as Figure C-5 in Appendix C.

- An aerial photograph taken in **1994** showed the southern portion of the Subject Property to be developed with an industrial building; and the northern portion was shown to be undeveloped. A small structure or a truck was shown on the adjoining property to the north. A newer flood control channel and a self-storage facility were shown in the adjoining area to the east. Structures and activity were observed in the adjoining area to the south, across Valley Boulevard. In the adjoining area to the west, across Willow Avenue, were structures, vehicles equipment and mobile home storage. A larger industrial facility was shown to the north. Industrial buildings were shown to the west, southwest, south, southeast and east. A newer retail center were shown to the east. The aerial photograph was cut off and did not show the corners of Valley Boulevard and Riverside Avenue. A tract of single family residences was shown to the west. No orchards were shown in the area. A newer hotel was shown to the southwest. Interstate 10 and a large railroad switching yard were shown to the south. A copy of this aerial photograph can be seen as Figure C-6 in Appendix C.

- An aerial photograph taken in **2005** showed the southern portion of the Subject Property to be developed with an industrial building; and the northern portion was shown to be undeveloped. A small structure or a truck was shown on the adjoining property to the north. A newer flood control channel and a self-storage facility were shown in the adjoining area to the east. Structures and activity were observed in the adjoining area to the south, across Valley Boulevard. In the adjoining area to the west, across Willow Avenue, were structures, vehicles equipment and mobile home storage. A larger industrial facility was shown to the north. Newer and existing industrial buildings were shown to the north, south and west. What appeared to be a gasoline station was shown at the southwest corner of Valley Boulevard and Riverside Avenue. A retail center were shown to the east. A tract of single family residences was shown to the west. A hotel was shown to the southwest. Interstate 10 and a large railroad switching yard were shown to the south. A copy of this aerial photograph can be seen as Figure C-7 in Appendix C.

- An aerial photograph taken in **2014** showed the southern portion of the Subject Property to be developed with an industrial building; and the northern portion was shown to be undeveloped. A small structure or a truck was shown on the adjoining property to the north. A newer flood control channel and a self-storage facility were shown in the adjoining area to the east. Structures and activity were observed in the adjoining area to the south, across Valley Boulevard. In the adjoining area to the west, across Willow Avenue, were structures, vehicles equipment and mobile home storage. A larger industrial facility was shown to the north. Newer and existing industrial buildings were shown to the north, south and west. What appeared to be a gasoline station was shown at the southwest corner of Valley Boulevard and Riverside Avenue. A retail center were shown to the east. A tract of single family residences was shown to the west. A hotel was shown to the southwest. Interstate 10 and a large railroad switching yard were shown to the south. A copy of this aerial photograph can be seen as Figure C-8 in Appendix C.

USGS Map Analysis The 7.5 Minute Series United States Geological Survey topographic maps for the Subject Property are named the Fontana and the San Bernardino South, California maps. A 1965 USGS Map which included portions of both maps was obtained from NETR Online. This combined map showed no structures on the Subject Property. Adjoining to the north was a small structure and what appeared to be a water tank. This combined map did not include the flood control channel. A small structure was shown in the southern portion of the adjoining area to the east. Smaller structures were shown in the adjoining area to the south, across Valley Boulevard. In the adjoining area to the west, across Willow Avenue, were three smaller structrures. To the northwest building and area which were labeled "Sewage Disposal". The combined map showed smaller structures and orchards in the area. A small air field was shown to the east. A copy of the combined 1965 Fontana and San Bernardino South USGS Maps can be seen as Figure B-1 in Appendix B.

4 RECORDS SEARCH

4.1 Regulatory Agencies Database Search

The following Federal, State of California, Tribal and local government agency databases and sources were searched for postings within designated radii of the Subject Property:

FEDERAL SOURCES

- National Priority List (NPL) Within 1.0 Mile
- Proposed National Priority List (PNPL) Within 1.0 Mile
- Superfund Enterprise Management System (SEMS) Within 0.50 Miles
- Federal Facility (Fed Fac) Within 0.50 Miles
- SEMS Archive Site (SEMS-Archive) Within 0.50 Miles
- RCRA Corrective Action (CORRACTS) Within 1.0 Mile
- RCRA Treatment Storage and Disposal Facilities (RCRA-TSDF) Within 0.50 Miles
- RCRA Hazardous Waste Generator (RCRA-LQG; RCRA-SQG; RCRA-CESQG) Within 0.25 Miles
- Federal EPA Institutional Controls/ Engineering Controls (US Inst Control/US Eng Control) Within 0.50 Miles
- Emergency Response Notification System for Spills (ERNS), Target Property Only
- US Brownfields Within 0.50 Miles

STATE OF CALIFORNIA AND LOCAL GOVERERNMENT SOURCES

- Response Within 1.0 Mile
- EnviroStor Within 1.0 Mile

- California/Tribal Landfills and/or Solid Waste (SWF/LF) Within 0.50 Miles
- California/Tribal Spills, Leaks, Investigations and Cleanups (SLIC) Within 0.50 Miles
- California/Tribal Leaking Underground Storage Tanks (LUST) Within 0.50 Miles
- California/Tribal Hazardous Substance Storage Containers (UST/AST) Within 0.25 Miles
- California/Tribal EPA Voluntary Cleanup Program (VCP) Within 0.50 Miles
- Local Landfill and Solid Waste Disposal Sites (Debris Region 9, ODI, WMUDS/SWAT, SWRCY) Within 0.50 Miles
- Local Hazardous Waste and Contaminated Sites (US CDL, Historic Cal-Sites, SCH, Toxic Pts, CDL, US Historic CDL) Within Various Radii
- Local Underground Storage Tanks (CA FID UST, Historic UST, SWEEPS UST) Within 0.25 Miles
- Environmental Liens (LIENS) for Subject Property Only
- Deed Restricted Sites (DEED) Within 0.50 Miles
- Emergency Release Reports (HMIRS, CHMIRS, LDS, MCS) for Subject Property Only

The environmental database report is included in Appendix D.

SUBJECT PROPERTY The Subject Property addresses is posted onto eight (8) of the databases.

- The Subject Property address, 280 West Valley Boulevard, is posted onto the HAZNET, CIWQS, RCRA NonGen, WDS, SWEEPS UST, HMIRS, San Bernardino County Permit (Permit) and FINDS lists. The occupants are shown to be Federal Express Corp. and Goodfellow Corp CA. The first HAZNET posting states that Federal Express Corp. was a generator of hazardous wastes, shown to include organic solids, aqueous solutions with total organic residue less than 10%, waste oil, waste mixed oils, unspecified oil-containing wastes, hydrocarbon solvent wastes, unspecified solvent wastes and waste liquids with halogenated organic compounds being greater than or equal to 1,000 mg/L. The second HAZNET posting states that Goodfellow Corp CA was a generator of hazardous wastes, shown to include organic solids, latex wastes, unspecified oil-containing wastes, waste oil and mixed oil. The CIWQS (California Integrated Water Quality System) posting states that the occupants were required to monitor stormwater run-off. The RCRA NonGen posting states that Goodfellow Corp CA is no longer a generator of hazardous wastes at this site. The WDS posting indicates that wastewater was of potential concern for Federal Express Corp. The SWEEPS UST posting states that one (1) UST has been located on this site. The first HMIRS postings state that a small leak occurred which was contained by the box in which the container was located. The second HMIRS posting states

that ammunition was being shipped without proper labelling. The third HMIRS posting states that dry chemical fire extinguisher accidentally discharged. The fourth HMIRS posting states that a lead-acid battery was being shipped. The fifth HMIRS posting states that cleaning materials and bleach leaked. The Permit posting states that Federal Express Corp. was required to obtain permits from the San Bernardino County Fire Department (SBCFD) as a generator of hazardous wastes, as a handler of hazardous materials and as the owner/operator of a UST. The FINDS posting states that Goodfellow Corp CA was included onto a hazardous waste generator database. The postings do not indicate that any spills, leaks or unauthorized releases have occurred, and the San Bernardino County Fire Department issued a closure letter for the UST in 2005.

ADJOINING PROPERTIES One of the adjoining properties is posted onto databases.

- The adjoining property to the west, at 350 West Valley Boulevard, is posted onto the Permit, RCRA NonGen, Ind Haz Waste and SWEEPS UST lists. The occupants are shown to be Square Transportation Inc., Belco Transport Inc., RRL Diesel Repair Shop Inc., Douglas Trucking and FAT Equipment Rental Inc. The Permit posting states that Square Transportation Inc. is required to obtain permits from the SBCFD as a hazardous materials handler and as a generator of hazardous wastes. The RCRA NonGen postings state that Square Transportation Inc., Belco Transport Inc., RRL Diesel Repair Shop Inc. are no longer generators of hazardous wastes on this site. The Ind Haz Waste posting states that Douglas Trucking was a generator of hazardous wastes. The SWEEPS UST posting states that eight (8) USTs were located on this site. In that the postings do not indicate that any spills, leaks or unauthorized releases have occurred, it is not likely that the activities or USTs on this site would have affected the environmental condition of the Subject Property.

NEARBY PROPERTIES Four sites within 0.125 miles of the Subject Property are posted onto databases.

- A site 0.06 miles to the south, at 285 Valley Boulevard, is posted onto the UST list. The occupant is shown to be Ability Heavy Movers Inc. The UST posting states that one (1) UST was located on this site. In that the posting does not indicate that any unauthorized releases have occurred, it is not likely that the USTs on this site would have affected the environmental condition of the Subject Property.

- A site 0.09 miles to the southeast, at 213 West Valley Boulevard, is posted onto the LUST list. The occupant is shown to be Clem-Trans Inc. The LUST posting states that only the soil was affected by an unauthorized release of diesel. The Status is given as "Complete - Case Closed" as of August 26, 2004. In that the LUST case has been closed, it is not likely that the unauthorized release on this site would have affected the environmental condition of the Subject Property.

- A site 0.11 miles to the southeast, at 195 East Valley Boulevard, is posted onto the LUST list. The occupant is shown to be I-10 Truck Stop. The LUST posting states that only the soil was affected by an unauthorized release of gasoline and diesel fuel. The Status is given as "Completed - Case Closed" as of June 1, 2007. In that the LUST case has been closed, it is

not likely that the unauthorized release on this site would have affected the environmental condition of the Subject Property.

- A site 0.11 miles to the southwest, at 311 West Valley Boulevard, is posted onto the is posted onto the RCRA-SQG and Permit lists. The occupant is shown to be Whiting Door Mfg Corp. The RCRA-SQG posting states that the occupant was a generator of small quantities of hazardous wastes. The Permit posting states that the occupant is required to obtain permits from the SBCFD as a hazardous materials handler and as a generator of hazardous wastes. In that the postings do not indicate that any spills or leaks occurred, it is not likely that the activities on this site would have affected the environmental condition of the Subject Property.

OTHER PROPERTIES The Subject Property is located in an area of retail, commercial and residential properties. It is not unusual for a few sites within ASTM designated radii to be posted onto the environmental databases. Posted sites of note include:

- A site 0.14 miles to the south, at 1743 South Willow Avenue, is posted onto the SWEEPS UST list. The occupant is shown to be R Thompson Trucking. The SWEEPS UST posting states that one (1) UST was located on this site. In that the posting does not indicate that any unauthorized releases occurred, it is not likely that the USTs on this site would have affected the environmental condition of the Subject Property.

- A site 0.14 miles to the southeast, at 140 West Valley Boulevard, is posted onto the SWEEPS UST list. The occupant is shown to be Paul Hubbs Construction Co. The SWEEPS UST posting states that five (5) USTs were located on this site. In that the posting does not indicate that any unauthorized releases occurred, it is not likely that the USTs on this site would have affected the environmental condition of the Subject Property.

- A site 0.19 miles to the southeast, at 111 West Valley Boulevard, is posted onto the LUST, SWEEPS UST and RCRA-SQG lists. The occupants are shown to be Thrifty Oil #323 and Arco #9695. The LUST posting states that only the soil was affected by an unauthorized release of gasoline. The Status is given as "Completed - Case Closed" as of September 17, 2008. The SWEEPS UST posting states that five (5) USTs were located on this site. The RCRA-SQG posting states that the occupant was a generator of small quantities of hazardous wastes, shown to include ignitable wastes and waste benzene. In that the LUST case has been closed, it is not likely that the unauthorized release on this site would have affected the environmental condition of the Subject Property.

- A site 0.19 miles to the southeast, at 120 West Valley Boulevard, is posted onto the LUST list. The occupant is shown to be Texaco Service Station. The LUST posting states that only the soil was affected by an unauthorized release of waste oil. The Status is given as "Completed - Case Closed" as of March 5, 1997. In that the LUST case has been closed, it is not likely that the unauthorized release of this site would have affected the environmental condition of the Subject Property.

- A site 0.20 miles to the east, at 1610 South Riverside Avenue, is posted onto the RCRA-LQG list. The occupant is shown to be Wal-Mart #1862. The RCRA-LQG posting states the occupant is a generator of large quantities of hazardous wastes, shown to include ignitable wastes, corrosive wastes, metal wastes, waste benzene and waste methyl ethyl ketone. In that the posting does not indicate that any spills or leaks have occurred, it is not likely that the activities on this site would have affected the environmental condition of the Subject Property.

- A site 0.21 miles to the southwest, at 452 West Valley Boulevard, is posted onto the RCRA-LQG list. The occupant is shown to be Steel Unlimited Inc. The RCRA-LQG posting states that the occupant was a generator of large quantities of hazardous wastes, shown to include ignitable wastes and non-halogenated solvent wastes. In that the posting does not indicate that any spills or leaks occurred, it is not likely that the activities on this site would have affected the environmental condition of the Subject Property.

- A site 0.22 miles to the southeast, at 101 East Valley Boulevard, is posted onto the LUST list. The occupant is shown to be Chevron #9-6969. The LUST posting states that groundwater was affected by an unauthorized release of gasoline. The Status is given as "Completed - Case Closed" as of April 28, 2000. In that the LUST case has been closed, it is not likely that the unauthorized release of this site would have affected the environmental condition of the Subject Property.

- A site 0.22 miles to the southeast, at 102 East Valley Boulevard, is posted onto the LUST list. The occupant is shown to be City of Rialto (Texaco). The LUST posting states that only the soil was affected by an unauthorized release of gasoline. The Status is given as "Completed - Case Closed" as of August 25, 1992. In that the LUST case has been closed, it is not likely that the unauthorized release of this site would have affected the environmental condition of the Subject Property.

- A site 0.23 miles to the north, at 1485 South Willow Avenue, is posted onto the EnviroStor, SWEEPS UST and CPS-SLIC lists. The occupants are shown to be WDLJ South Property and Halsey Machinery. The EnviroStor posting states that past use as a sewage treatment plant resulted in impacts to the soil and soil vapor by lead, tetrachloroethylene (PCE), polychlorinated biphenyls (PCBs) and cadmium. The Status is given as No Action Required as of September 23, 2013. The SWEEPS UST posting states that one (1) UST is or was on this site. The CPS-SLIC posting states that spills and/or leaks of solvent or non-petroleum hydrocarbons occurred. The Status is given as "Complete - Case Closed" as of August 21, 2013. In that the CPS-SLIC case has been closed and no action was required for the EnviroStor, it is not likely that the spills and/or leaks on this site would have affected the environmental condition of the Subject Property.

- A site 0.23 miles to the northwest, at 1591 South Lilac Avenue, is posted onto the SWEEPS UST list. The occupant is shown to be Door Company of San Bernardino. The SWEEPS UST posting states that one (1) UST was located on this site. In that the posting does not indicate that any unauthorized releases occurred, it is not likely that the UST on this site would have affected the environmental condition of the Subject Property.

- A site 0.24 miles to the west, at 484 West Valley Boulevard, is posted onto the RCRA-VSQG list. The occupant is shown to be Pep Boys #1669. The RCRA-VSQG posting states that the occupant was a generator of very small quantities of hazardous wastes, shown to include ignitable wastes. In that the posting does not indicate that any spills or leaks occurred, it is not likely that the activities on this site would have affected the environmental condition of the Subject Property.

Several additional sites more than 0.25 miles from the Subject Property are posted onto one or more of the databases. There is no indication that the posted site has affected the environmental condition of the Subject Property. There is no known regional groundwater impact in the area.

4.1.2 State of California Division of Oil, Gas and Geothermal Resources (DOGGR)

The State of California Department of Conservation Division of Oil, Gas and Geothermal Resources (DOGGR) maintains maps that show the exact location of oil wells located in the state. The DOGGR Well Finder online mapping service was searched for oil wells in the immediate area of the Subject Property. No oil wells were shown on, near or within one mile the Subject Property.

4.1.3 State of California Department of Toxic Substance Control (DTSC)

The State of California Department of Toxic Substance Control (DTSC) is the agency that tracks sites on which there have been placed deed restrictions and land use restrictions. The DTSC web site for deed restricted sites and for land use restriction sites was searched. Neither the Subject Property nor any of the adjoining properties were included on these lists.

4.2 Regional Sources

4.2.1 Regional Water Quality Control Board

The Regional Water Quality Control Board, Santa Ana Region (SARWQCB), maintains the lists of sites with leaking underground storage tanks (LUST), sites on which there have been spills, leaks, investigations and cleanups (SLIC). The SARWQCB GeoTracker database was searched, and the Subject Property was not posted on the LUST list or the SLIC list.

4.2.2 South Coast Air Quality Management District

The South Coast Air Quality Management District (AQMD) is a regional agency that regulates air emissions in the area of the Subject Property. The Facility Information Detail (FIND) database on the AQMD website was searched. The FIND database includes any site that generates vapors or emissions from any source, including USTs, paint spray booths, boilers, broilers, restaurants and so on. The Subject Property address was included on the FIND database. Permits, dated January 27, 1988 and January 18, 2020, were issued to Federal Express to operate one (1) gasoline storage tank and four (4) gasoline dispensing nozzles. The permit document was not included on the FIND database.

4.3 County Sources

4.3.1 San Bernardino County Fire Department

The San Bernardino County Fire Department (SBCFD) is the agency responsible for issuing industrial wastewater discharge permits, and it is the local agency charged with supervising the remediation of soils on sites impacted by hazardous materials or hazardous wastes. A 10,000 gallon gasoline UST was removed from the eastern side of the site in 2005. A report, dated October 26, 2005 and titled Underground Fuel Tank Closure Report, was prepared by Groundwater & Environmental Services, Inc. for Federal Express Corporation. The report states that the UST was removed on August 23, 2005. After the UST was removed, soil samples were obtained from beneath the UST, the piping system and the fuel pumps. Samples were also taken from the stockpile of soil removed in the process of exposing the UST. The samples were tested for the possible presence of total petroleum hydrocarbons (TPH); benzene, toluene, ethylbenzene and xylene (BTEX); and fuel oxygenates (MTBE). The report states, in the Conclusion section "No petroleum impacted soil was encountered in any of the samples taken below the UST, dispensers, product piping or tank pit excavation stockpile. Additionally, no impacted soil was observed during the uncovering process or removal process. GES recommends no further remediation activities be considered for the subject site" A letter, dated November 17, 2005, was sent from the SBCFD to Federal Express Corporation regarding the removal of one underground storage tank. The letter states "The Department has reviewed the closure report submitted by Groundwater and Environmental Services, Inc. dated October 26, 2005. The results of the soil sampling activity conducted on August 24, 2005 indicate that further investigation is not warranted at this time." A copy of the Underground Fuel Tank Closure Report and the SBCFD letter can be seen in Appendix F.

4.3.2 San Bernardino County Department of Public Works

The San Bernardino County Department of Public Works (SBCDPW) operates the landfills in the county. The SBCDPW website included a map of all active landfills in the county. None of the active landfills are within one mile of the Subject Property. The closest is the Mid-Valley Landfill, located more than a mile to the northwest on Alder Avenue in Rialto.

4.3 Municipal Sources

4.3.3 City of Rialto Building & Safety Division

The City of Rialto Building & Safety Division is the repository for all building permits taken out in the city. Its files are examined as part of an ESA to determine the age of buildings and to obtain additional information of environmental significance. The permit files for 280 West Valley Boulevard obtained on the Building & Safety Division's online database. The earliest document found database was dated June 4, 1986. It was a building permit which was issued to Wayne Dev. Co. to construct a 42,447 square foot shop and office building, along with a fuel island canopy, for Federal Express. A letter, dated May 2, 2002, was sent from Peterson Hydraulics to the City of Rialto-Planning Dept. which stated that five (5) tanks were to be installed in the Rialto FedEx

facility. The tanks, presumably above ground storage tanks (ASTs), were to automatic transmission fluid (ATF), motor oil, waste oil, antifreeze, and used antifreeze. A permit, dated November 25, 2002, was issued to Peterson Hydraulics to install five (5) motor vehicle fluid tanks. An Application for Certificate of Occupancy, dated July 24, 2006, was submitted by FedEx Express to operate an interstate transportation company. The application stated that the company was using 280 gallons of motor oil per month, 85 gallons of antifreeze per month and 85 gallons of ATF per month. A Certificate of Occupancy Application, dated December 7, 2012, was submitted by Goodfellow CA Corporation to operate a machinery sales, and parts sales and shipping business. The application states that service technicians would also be replacing parts off-site. A sign permit, dated February 6, 2013, was issued to K&L Dirt Company LC [sic] to install a sign to read Goodfellow Crushers. Copies of the documents discussed above can be seen in Appendix E.

5 SUBJECT PROPERTY INSPECTION

The Subject Property was inspected on July 1, 2021, by Chris Hayden, EP. The purpose of the site visit was to seek out and to report on visible environmental concerns, or to note use and storage of hazardous materials which could affect the environment condition of the Subject Property.

5.1 Use and Storage of Hazardous Materials on the Subject Property

The Subject Property is a currently occupied by Goodfellow Corporation. The company sells and rents crushers and conveyor equipment, primarily for the aggregate industry. The company also services the equipment and sells replacement parts. There is also an undeveloped parcel of land to the north of the structure that is also part of the Subject Property, as can be seen in Photographs 9 and 10 in Appendix C. Use and storage of hazardous materials and storage of hazardous wastes were observed on the day of the inspection. A 10,000 gallon gasoline UST, the product lines and fuel pumps were removed from the an area to the east of the building, as can be seen in Photograph 1. In the southern portion of the warehouse, several five gallon containers, including hydraulic oil, lithium complex synthetic grease, motor oil and gear oil were observed, as can be seen in Photograph 3. These five gallon containers are for sale to customers of Goodfellow Corporation. In the northeastern portion of the warehouse, above ground storage tanks (ASTs) of motor oil and hydraulic oil were observed, as can be seen in Photograph 4. In the northern portion of the warehouse, a parts washer and an AST of gear oil were observed, as can be seen in Photograph 5. In the northwestern portion of the warehouse, a drum of gear oil, three (3) drums of red diesel fuel, a drum of lacquer thinner, four (4) drums for waste oil, a drum of waste oil filters, a drum or hydraulic oil and five gallon containers of hydraulic oil, gear oil and lubricants were observed, as can be seen in Photograph 6. Also observed in the northwestern portion of the warehouse were gallon containers of specialty oils, motor oil and an above ground hydraulic lift. In the western portion of the warehouse, containers of fuel, gallon containers of oil and paint stripper and spray cans of paint, cleaners and lubricants were observed within a self-closing cabinet, as can be seen in Photograph 7. In the yard area to the west of the warehouse, conveyor equipment was observed, as can be seen in Photograph 8. None of the ASTs, drums or five gallon containers were leaking, and no evidence of significant past leaks were observed.

5.2 Indications of PCBs

There is no indication that polychlorinated biphenyls (PCBs) were used or stored at the Subject Property. A pad-mounted transformer was observed in the southeastern portion of the site. Three pole-mounted transformers were observed on the western side of the site. None of the transformers

were leaking, and no evidence of past leaks were observed. These transformers would be the property of Southern California Edison.

5.3 Indications of Solid Waste Disposal

Solid wastes currently generated on the Subject Property are placed into a dumpster provided and serviced by Burrtec Waste Industries. On the day of the inspection, the dumpster had recently been emptied.

5.4 Indications of Hazardous Waste Disposal

Hazardous wastes were observed on the Subject Property. The hazardous wastes are transported off site by Safety-Kleen Systems, Inc. On June 14, 2021, one drum of waste oil filters and one drum of hazardous wastes were removed. On April 21, 2021, the past washer cleaning fluid was replaced. On March 1, 2021, two drums of waste oil filters, one drum of used absorbent were removed.

5.5 Indications of Asbestos Containing Materials

Given the age of the building, aerial photographs show that it was built in 1986, it is not likely that asbestos containing materials (ACMs) were used in the construction. The manufacture of ACMs was phased out in the late 1970s, and halted altogether in 1979. Should a remodel or demolition be planned, the materials to be removed would not need to be tested.

5.6 Indications of Vapor Intrusion/Vapor Encroachment

Impacted soil or impacted groundwater on a site may result in vapor intrusion. Impacted groundwater migrating toward a site may result in vapor encroachment. There is no indication that the soil or groundwater on the Subject Property has been impacted. One UST were removed from the Subject Property in 2005. Soil sampling an testing showed that an unauthorized release had not occurred. The San Bernardino County Fire Department issued a letter, dated November 17, 2005, which stated "The Department has reviewed the closure report submitted by Groundwater and Environmental Services, Inc. dated October 26, 2005. The results of the soil sampling activity conducted on August 24, 2005 indicate that further investigation is not warranted at this time." There are six (6) leaking underground storage tank (LUST) sites and one (1) CPS-SLIC site within 0.25 miles of the Subject Property. All of the LUST cases and the CPS-SLIC case have been closed. Therefore, it is unlikely that vapor intrusion or vapor encroachment would be of concern for the Subject Property.

6 INTERVIEW

An important part of any Phase 1 is interviews with individuals having knowledge of the facilities and the operations at the property being assessed. For this ESA, Mel Sotelo, the General Manager for Goodfellow Corporation, was questioned. Mr. Sotelo conducted a tour of the improved portion of the Subject Property and answered questions about the operation. He stated that Goodfellow Corporation sells and rents crushers and conveyors, primarily for the aggregate industry. The company also sells parts, oil and lubricants for the equipment. Mr. Sotelo stated that the equipment services are conducted off-site, at the customers location.

7 FINDINGS, OPINIONS AND CONCLUSIONS

Prior to arriving at these conclusions, the following tasks were completed:

- The Subject Property was inspected.
- The surrounding properties were observed.
- Historic aerial photographs were examined.
- Information was requested from various governmental and regulatory agencies for environmental information pertaining to the Subject Property.
- The databases from state and federal regulatory agencies were examined.
- Mel Sotelo, the General Manager for Goodfellow Corporation, was questioned

Findings included the following:

- The aerial photographs from 1938 to 1980 showed the Subject Property to be undeveloped with no activity observed on the site.
- A building permit, dated June 4, 1986, was issued to Wayne Dev. Co. to construct a 42,447 square foot shop and office building, along with a fuel island canopy, for Federal Express.
- A 10,000 gallon gasoline UST was removed from the eastern side of the site in 2005. A report, dated October 26, 2005 and titled Underground Fuel Tank Closure Report, was prepared by Groundwater & Environmental Services, Inc. for Federal Express Corporation. The report states that the UST was removed on August 23, 2005. After the UST was removed, soil samples were obtained from beneath the UST, the piping system and the fuel pumps. Samples were also taken from the stockpile of soil removed in the process of exposing the UST. The samples were tested for the possible presence of total petroleum hydrocarbons (TPH); benzene, toluene, ethylbenzene and xylene (BTEX); and fuel oxygenates (MTBE). The report states, in the Conclusion section, "No petroleum impacted soil was encountered in any of the samples taken below the UST, dispensers, product piping or tank pit excavation stockpile. Additionally, no

impacted soil was observed during the uncovering process or removal process. GES recommends no further remediation activities be considered for the subject site."

- A letter, dated November 17, 2005, was sent from the San Bernardino County Fire Department to Federal Express Corporation regarding the removal of one underground storage tank. The letter states "The Department has reviewed the closure report submitted by Groundwater and Environmental Services, Inc. dated October 26, 2005. The results of the soil sampling activity conducted on August 24, 2005 indicate that further investigation is not warranted at this time."

- The Subject Property is a currently occupied by Goodfellow Corporation. The company sells and rents crushers and conveyor equipment, primarily for the aggregate industry. The company also services the equipment and sells replacement parts. There is also an undeveloped parcel of land to the north of the structure that is also part of the Subject Property.

- The Subject Property is posted onto eight of the environmental databases searched in Section 4.1.: the HAZNET, CIWQS, RCRA NonGen, WDS, SWEEPS UST, HMIRS, San Bernardino County Permit (Permit) and FINDS lists. The occupants are shown to be Federal Express Corp. and Goodfellow Corp CA. The first HAZNET posting states that Federal Express Corp. was a generator of hazardous wastes, shown to include organic solids, aqueous solutions with total organic residue less than 10%, waste oil, waste mixed oils, unspecified oil-containing wastes, hydrocarbon solvent wastes, unspecified solvent wastes and waste liquids with halogenated organic compounds being greater than or equal to 1,000 mg/L. The second HAZNET posting states that Goodfellow Corp CA was a generator of hazardous wastes, shown to include organic solids, latex wastes, unspecified oil-containing wastes, waste oil and mixed oil. The CIWQS (California Integrated Water Quality System) posting states that the occupants were required to monitor stormwater run-off. The RCRA NonGen posting states that Goodfellow Corp CA is no longer a generator of hazardous wastes at this site. The WDS posting indicates that wastewater was of potential concern for Federal Express Corp. The SWEEPS UST posting states that one (1) UST has been located on this site. The first HMIRS postings state that a small leak occurred which was contained by the box in which the container was located. The second HMIRS posting states that ammunition was being shipped without proper labelling. The third HMIRS posting states that dry chemical fire extinguisher accidentally discharged. The fourth HMIRS posting states that a lead-acid battery was being shipped. The fifth HMIRS posting states that cleaning materials and bleach leaked. The Permit posting states that Federal Express Corp. was required to obtain permits from the San Bernardino County Fire Department (SBCFD) as a generator of hazardous wastes, as a handler of hazardous materials and as the owner/operator of a UST. The FINDS posting states that Goodfellow Corp CA was included onto a hazardous waste generator database.

- Use and storage of hazardous materials were observed on the Subject Property on the day of the inspection.

- Storage of hazardous wastes were observed on the Subject Property on the day of the inspection.

HEI Corporation has performed a Phase 1 Environmental Site Assessment in conformance with the scope and limitations of ASTM Practice E 1527-13 (and Final Rule 40 CFR Part 312 et seq.) on the on the industrial property and undeveloped parcel of land at 280 West Valley Boulevard in the City of Rialto in San Bernardino County. Any exceptions to, or deletions from, this practice are discussed in Section 2.6 of this report. This assessment has revealed no evidence of recognized environmental conditions in connection with the Subject Property. No further action is required at this time.

LIMITATIONS

The services described in this report were performed consistent with generally accepted consulting principles and practices. No other warranty, expressed or implied, is made. These services were performed consistent with our agreement with the Client. This report is solely for the use and information of the Client unless otherwise noted. Any reliance on this report by a third party is at such party's sole risk.

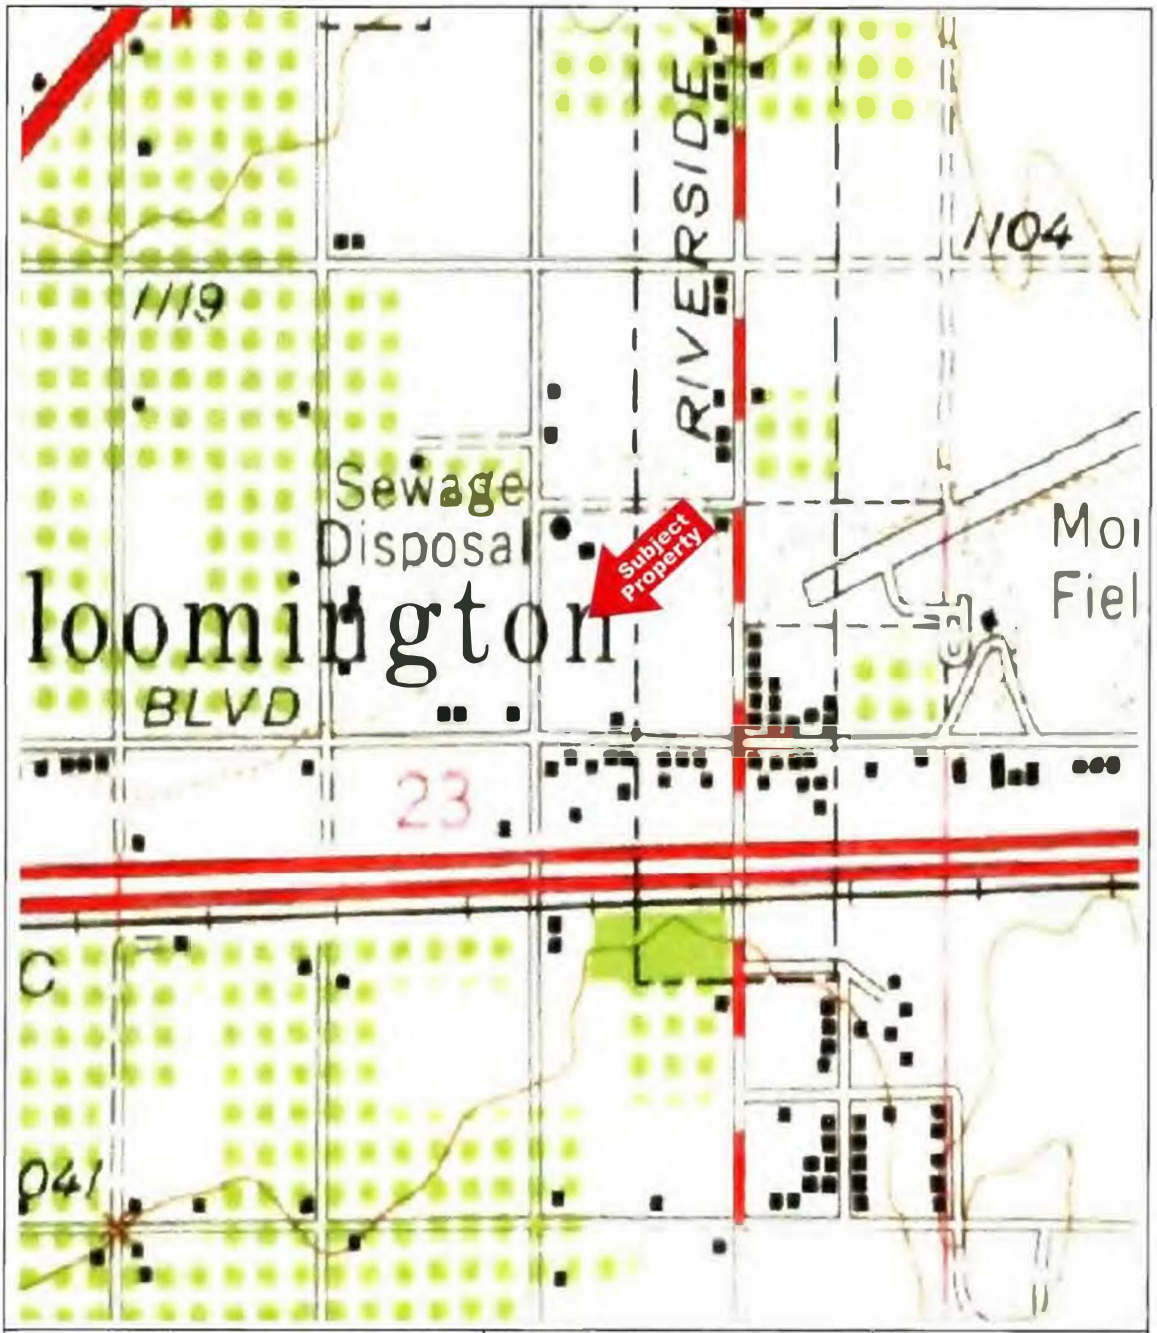

Opinions and recommendations contained in this report apply to conditions existing when services were performed and are intended only for the Client, purposes, locations, time frames, and project parameters indicated. We are not responsible for the impacts of any changes in environmental standards, practices, or regulations subsequent to the performance of services. We do not warrant the accuracy of information supplied by others.

The purpose of an environmental assessment is to reasonable evaluate the potential for or actual impact of past and current practices on the Subject Property. In performing an environmental assessment, it is understood that a balance must be struck between a reasonable inquiry into the environmental issues and an exhaustive analysis of each conceivable issue of potential concern. The following paragraph discuss the assumptions and parameters under which such an opinion is rendered.

No investigation is thorough enough to exclude the presence of hazardous materials at a given site. If hazardous conditions have not been identified during the assessment, such a finding should not therefore be construed as a guarantee of the absence of such materials on the site, but rather as the services performed within the scope, limitations, and cost of the work performed. Environmental conditions may exist on the Subject Property that cannot be identified by visual observation.

Remarks:
THIS FEDEX BOX WAS BEING LOADED BY COURIER AMBER BUFKIN INTO A TRUCK, WHEN THE PACKAGE
CAME OPEN SPILLING NUMEROUS 38MM AMMUNITION CARTRIDGES. SHE REPORTED THIS TO HER
MANAGER AND THE SPILL CLEANUP AGENT, WHO NOTIFIED ME. THE PACKAGE HAD BEEN
TRANSPORTED APPARENTLY WITHOUT THE PROPER PACKAGING MARKINGS, LABELING, OR
DANGEROUS GOODS DECLARATION PAPERWORK. SHIPMENT WAS BELIEVED TO BE AN UNDECLARED
SHIPMENT OF EXPLOSIVES. THE FAA WAS CONTACTED TO INVESTIGATE THIS INCIDENT, AND IT WAS
REPORTED THAT JUDY ANN REGAN CAME TO INVESTIGATE. THE PACKAGE WAS LATER PICKED UP BY
THE CONSIGNEE AFTER THE FAA WAS THOUGH WITH THERE INVESTIGATION. BOX WAS REPORTED
TO HAVE CONTAINED 40 CARTRIDGES, BUT ONLY 32 WERE FOUND. OTHER WERE NEVER REPORTED
AS BEING FOUND.

Environmental Interest/Information System:
RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Remarks:
THIS SPILL OCCURRED DURING THE MORNING PACKAGE SORT OPERATION AT THE RIVA
FEDEX STATION. WHEN THE SPILL CLEANUP SPECIALIST OPENED THE BOX TO INVESTIGATE THE INNER CONTAINERS DURING HIS SPILL CLEANUP, THE PACKAGE WAS
FOUND TO CONTAIN THE 3 INNER BOTTLES OF BLEACH/SODIUM HYPOCHLORITE AND 3
AEROSOL CANS OF A TUB/TILE CLEANER. AFTER THE SPILL WAS CLEANED UP PER
FEDEX POLICY, THE SHIPPER WAS CONTACTED FOR AN MSDS. SINCE THE BLEACH WAS
5.25% CONCENTRATION AND THERE WERE AEROSOL CANS IN THE PACKAGE THE FAA WAS
NOTIFIED ABOUT THIS HIDDEN DANGEROUS GOODS SHIPMENT. ANOTHER PACKAGE IN
THIS 7 PIECE SHIPMENT LEAKED A PINE SCENTED CLEANER AND WAS HELD WITH THIS
PIECE AT THE RIVA STATION. THE OTHER 5 PIECES WERE DELIVERED TO THE CONSIGNEE ON THE SATURDAY PRIOR TO THIS SPILL ON MONDAY SINCE THEY WERE
SATURDAY DELIVERY SERVICE PACKAGES. THIS SHIPMENT WILL BE HELD AT THE RIVA
STATION PENDING AN INVESTIGATION BY THE AUTHORITIES WITH THE FAA OR THE
FEDERAL HIGHWAY ADMINISTRATION(THIS WAS AN INTRASTATE SHIPMENT).

Potential Media Affected: Not reported
Potential Contaminants of Concern: Other Solvent or Non-Petroleum Hydrocarbon, Other Metal, Other Petroleum
Site History: The City of Rialto (City) Redevelopment Agency is applying for a $200,000 EPA Brownfield Cleanup Grant to mitigate contamination at a 4.76-acre site located at 1485 S. Willow Avenue, Rialto, California within the Rialto Redevelopment Agencys Gateway Redevelopment Project Area. The City acquired the property on September 15, 2008 after completing Phase I and Phase II Environmental Site Assessments on the property. The Citys goal is to remediate and prepare the Site for a redevelopment project that will involve the consolidation of the Site with the adjacent 13.5 acres of land, which is also under City ownership. The Phase I identified 11 Areas of Concern. The Phase II investigated these 11 areas and identified 3 areas that will require the removal of contaminated soils, additional remedial excavation of buried materials, and removal and disposal of asbestos construction materials and lead based paint. The Regional Water Quality Control Board encourages the City in its efforts to identify and remediate contaminated properties within redevelopment areas of the City. We also recognize the value of mitigating contamination to allow for redevelopment of blighted areas. Therefore, we support your EPA Brownfield Cleanup Grant application and will cooperate with the City to resolve potential contamination issues in order to facilitate the incorporation of the 4.76-acre site into the Rialto Gateway Redevelopment Project. The City of Rialto (City) Redevelopment Agency is applying for a $400,000 EPA Brownfield Assessment Grant to assist in the investigation of various brownfield sites that exist within

the community. The City will use the grant funds to inventory, characterize, assess, and conduct cleanup planning on targeted brownfield sites that are located within the historic rail transport center and the older downtown central business district, along Foothill Boulevard (Historic Route 66), as well as other sites in the community that may be identified and selected as a result of the community outreach and participation process. If the grant is awarded, the City will use the grant funds to hire certified environmental professionals to prepare Phase I and Phase II site investigations on previously developed brownfield sites within the community. Based upon the size of the grant, the City anticipates that it will be able to investigate between 10 to 20 brownfield sites in the community depending upon the size and scope of the investigations. The Regional Water Quality Control Board recognizes the need to identify historical sources of contamination in our Region that may have contributed to groundwater contamination. The Regional Water Quality Control Board encourages the City in its efforts to identify and remediate contaminated properties within redevelopment areas of the City. We, therefore, support your EPA Brownfield Assessment Grant application and will cooperate with the City to resolve potential contamination issues. In this manner, the City will be able to facilitate redevelopment of various sites in the community, including sites along historic Route 66.

Database Descriptions

NPL: NPL National Priorities List (Superfund). The NPL is a subset of CERCLIS and identifies over 1,200 sites for priority cleanup under the Superfund Program. NPL sites may encompass relatively large areas. As such, EDR provides polygon coverage for over 1,000 NPL site boundaries produced by EPA's Environmental Photographic Interpretation Center (EPIC) and regional EPA offices. NPL - National Priority List Proposed NPL - Proposed National Priority List Sites.

NPL Delisted: Delisted NPL The National Oil and Hazardous Substances Pollution Contingency Plan (NCP) establishes the criteria that the EPA uses to delete sites from the NPL. In accordance with 40 CFR 300.425.(e), sites may be deleted from the NPL where no further response is appropriate. Delisted NPL - National Priority List Deletions

CERCLIS: SEMS SEMS (Superfund Enterprise Management System) tracks hazardous waste sites, potentially hazardous waste sites, and remedial activities performed in support of EPA's Superfund Program across the United States. The list was formerly know as CERCLIS, renamed to SEMS by the EPA in 2015. The list contains data on potentially hazardous waste sites that have been reported to the USEPA by states, municipalities, private companies and private persons, pursuant to Section 103 of the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA). This dataset also contains sites which are either proposed to or on the National Priorities List (NPL) and the sites which are in the screening and assessment phase for possible inclusion on the NPL. SEMS - Superfund Enterprise Management System

NFRAP: SEMS-ARCHIVE SEMS-ARCHIVE (Superfund Enterprise Management System Archive) tracks sites that have no further interest under the Federal Superfund Program based on available information. The list was formerly known as the CERCLIS-NFRAP, renamed to SEMS ARCHIVE by the EPA in 2015. EPA may perform a minimal level of assessment work at a site while it is archived if site conditions change and/or new information becomes available. Archived sites have been removed and archived from the inventory of SEMS sites. Archived status indicates that, to the best of EPA's knowledge, assessment at a site has been completed and that EPA has determined no further steps will be taken to list the site on the National Priorities List (NPL), unless information indicates this decision was not appropriate or other considerations require a recommendation for listing at a later time. The decision does not necessarily mean that there is no hazard associated with a given site; it only means that. based upon available information, the location is not judged to be potential NPL site. SEMS-ARCHIVE - Superfund Enterprise Management System Archive

RCRA COR ACT: CORRACTS CORRACTS identifies hazardous waste handlers with RCRA corrective action activity. CORRACTS - Corrective Action Report

RCRA TSD: RCRA-TSDF RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Transporters are individuals or entities that move hazardous waste from the generator offsite to a facility that can recycle, treat, store, or dispose of the waste. TSDFs treat, store, or dispose of the waste. RCRA-TSDF - RCRA - Treatment, Storage and Disposal

RCRA GEN: RCRA-LQG RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Large quantity generators (LQGs) generate over 1,000 kilograms (kg) of hazardous waste, or over 1 kg of acutely hazardous waste per month. RCRA-LQG - RCRA - Large Quantity Generators RCRA-SQG - RCRA - Small Quantity Generators. RCRA-VSQG - RCRA - Very Small Quantity Generators (Formerly Conditionally Exempt Small Quantity Generators).

Federal IC / EC: US ENG CONTROLS A listing of sites with engineering controls in place. Engineering controls include various forms of caps, building foundations, liners, and treatment methods to create pathway elimination for regulated substances to enter environmental media or effect human health. US ENG CONTROLS - Engineering Controls Sites List US INST CONTROLS - Institutional Controls Sites List.

Database Descriptions

ERNS: ERNS Emergency Response Notification System. ERNS records and stores information on reported releases of oil and hazardous substances. ERNS - Emergency Response Notification System

State/Tribal NPL: RESPONSE Identifies confirmed release sites where DTSC is involved in remediation, either in a lead or oversight capacity. These confirmed release sites are generally high-priority and high potential risk. RESPONSE - State Response Sites

State/Tribal CERCLIS: ENVIROSTOR The Department of Toxic Substances Control's (DTSC's) Site Mitigation and Brownfields Reuse Program's (SMBRP's) EnviroStor database identifes sites that have known contamination or sites for which there may be reasons to investigate further. The database includes the following site types: Federal Superfund sites (National Priorities List (NPL)); State Response, including Military Facilities and State Superfund; Voluntary Cleanup; and School sites. EnviroStor provides similar information to the information that was available in CalSites, and provides additional site information, including, but not limited to, identification of formerly-contaminated properties that have been released for reuse, properties where environmental deed restrictions have been recorded to prevent inappropriate land uses, and risk characterization information that is used to assess potential impacts to public health and the environment at contaminated sites. ENVIROSTOR - EnviroStor Database

State/Tribal SWL: SWF/LF (SWIS) Active, Closed and Inactive Landfills. SWF/LF records typically contain an inve ntory of solid waste disposal facilities or landfills. These may be active or i nactive facilities or open dumps that failed to meet RCRA Section 4004 criteria for solid waste landfills or disposal sites. SWF/LF (SWIS) - Solid Waste Information System

INDIAN UST R6 - Underground Storage Tanks on Indian Land.

Database Descriptions

State/Tribal VCP: VCP Contains low threat level properties with either confirmed or unconfirmed releases and the project proponents have request that DTSC oversee investigation and/or cleanup activities and have agreed to provide coverage for DTSC's costs. VCP - Voluntary Cleanup Program Properties

US Brownfields: US BROWNFIELDS Brownfields are real property, the expansion, redevelopment, or reuse of which may be complicated by the presence or potential presence of a hazardous substance, pollutant, or contaminant. Cleaning up and reinvesting in these properties takes development pressures off of undeveloped, open land, and both improves and protects the environment. Assessment, Cleanup and Redevelopment Exchange System (ACRES) stores information reported by EPA Brownfields grant recipients on brownfields properties assessed or cleaned up with grant funding as well as information on Targeted Brownfields Assessments performed by EPA Regions. A listing of ACRES Brownfield sites is obtained from Cleanups in My Community. Cleanups in My Community provides information on Brownfields properties for which information is reported back to EPA, as well as areas served by Brownfields grant programs. US BROWNFIELDS - A Listing of Brownfields Sites

Other SWF: LOS ANGELES CO. LF VENTURA CO. LF - Inventory of Illegal Abandoned and Inactive Sites. WMUDS/SWAT - Waste Management Unit Database. SAN DIEGO CO. LF - Solid Waste Facilities. CA LA LF - City of Los Angeles Landfills. Ventura County Inventory of Closed, Illegal Abandoned, and Inactive Sites. CA LA LF - Inventory of Illegal Abandoned and Inactive Sites

Other Haz Sites: SCH This category contains proposed and existing school sites that are being evaluated by DTSC for possible hazardous materials contamination. In some cases, these properties may be listed in the CalSites category depending on the level of threat to public health and safety or the environment they pose. SCH - School Property Evaluation Program SAN DIEGO CO. HMMD - Hazardous Materials Management Division Database. CERS HAZ WASTE - CERS HAZ WASTE. US CDL - Clandestine Drug Labs. PFAS - PFAS Contamination Site Location Listing.

Other Tanks: SWEEPS UST Statewide Environmental Evaluation and Planning System. This underground storage tank listing was updated and maintained by a company contacted by the SWRCB in the early 1990's. The listing is no longer updated or maintained. The local agency is the contact for more information on a site on the SWEEPS list. SWEEPS UST - SWEEPS UST Listing ALAMEDA CO. UST - Underground Tanks. KERN CO. UST - Underground Storage Tank Sites & Tank Listing. MARIN CO. UST - Underground Storage Tank Sites. NAPA CO. UST - Closed and Operating Underground Storage Tank Sites. ORANGE CO. UST MENDOCINO - Mendocino County UST Database. SAN FRANCISCO AST - Aboveground Storage Tank Site Listing. LOS ANGELES AST - Active & Inactive AST Inventory. CERS TANKS - California Environmental Reporting System (CERS) Tanks.

Local Land Records: DEED Site Mitigation and Brownfields Reuse Program Facility Sites with Deed Restrictions & Hazardous Waste Management Program Facility Sites with Deed / Land Use Restriction. The DTSC Site Mitigation and Brownfields Reuse Program (SMBRP) list includes sites cleaned up under the program's oversight and generally does not include current or former hazardous waste facilities that required a hazardous waste facility permit. The list represents deed restrictions that are active. Some sites have multiple deed restrictions. The DTSC Hazardous Waste Management Program (HWMP) has developed a list of current or former hazardous waste facilities that have a recorded land use restriction at the local county recorder's office. The land use restrictions on this list were required by the DTSC HWMP as a result of the presence of hazardous substances that remain on site after the facility (or part of the facility) has been closed or cleaned up. The types of land use restriction include deed notice, deed restriction, or a land use restriction that binds current and future owners. DEED - Deed Restriction Listing

Database Descriptions

Spills: HMIRS Hazardous Materials Incident Report System. HMIRS contains hazardous material spill incidents reported to DOT. HMIRS - Hazardous Materials Information Reporting System CHMIRS - California Hazardous Material Incident Report System. Orange Co. Industrial Site - List of Industrial Site Cleanups.

Other: RCRA NonGen / NLR RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). CITY OF RIALTO BUILDING & SAFETY DIVISION DOCUMENTS

FIRE DEPARTMENT OF THE CITY OF RIALTO - BUILDING AND SAFETY SECTION

131 SOUTH WILLOW [redacted] RIALTO, CALIFORNIA 92376 [redacted] (714) 820-2505

This permit becomes void if work not commenced within 180 days from date of issuance, OR, if work has been suspended or abandoned for a period of 180 days.

☑ LICENSED CONTRACTORS DECLARATION. I hereby affirm that I am licensed under provisions of Chapter 9 (commencing with Section 7000) of Division 3 of the Business and Professions Code, and my license is in full force and effect.

☐ OWNER-BUILDER DECLARATION. I hereby affirm that I am exempt from the Contractor's License Law for the following reason (Sec. 7031.5, Business and Professions Code: Any city or county which requires a permit to construct, alter, improve, demolish, or repair any structure, prior to its issuance, also requires the applicant for such permit to file a signed statement that he is licensed pursuant to the provisions of the Contractor's License Law (Chapter 9 (commencing with Section 7000) of Division 3 of the Business and Professions Code) or that he is exempt therefrom and the basis for the alleged exemption. Any violation of Section 7031.5 by any applicant for a permit subjects the applicant to a civil penalty of not more than five hundred dollars ($500).):

☐ I, as owner of the property, or my employees with wages as their sole compensation, will do the work, and the structure is not intended or offered for sale (Sec. 7044, Business and Professions Code: The Contractor's License Law does not apply to an owner of property who builds or improves thereon, and who does such work himself or through his own employees, provided that such improvements are not intended or offered for sale. If, however, the building or improvement is sold within one year of completion, the owner-builder will have the burden of proving that he did not build or improve for the purpose of sale.).

☐ I, as owner of the property, am exclusively contracting with licensed contractors to construct the project (Sec. 7044, Business and Professions Code: The Contractor's License Law does not apply to an owner of property who builds or improves thereon, and who contracts for such projects with a contractor(s) licensed pursuant to the Contractor's License Law.)

☐ I am exempt under Sec. _____ B. & P.C. (Attach Certificate)

Date _____ Owner _____

WORKERS' COMPENSATION DECLARATION. I hereby affirm that I have a certificate of consent to self-insure, or a certificate of Workers' Compensation Insurance, or a certified copy thereof (Sec. 3800, Lab. C.).

☐ Certified copy is hereby furnished.

☐ Certified copy is filed with the Building Inspection Department or _____ Department.

CERTIFICATE OF EXEMPTION FROM WORKERS' COMPENSATION INSURANCE: This section need not be completed if the permit is for one hundred ($100) or less. I certify that in the performance of the work for which this permit is issued, I shall not employ any person in any manner so as to become subject to the Workers' Compensation Laws of California.

Date _____ Applicant _____

NOTICE TO APPLICANT: If, after making this Certificate of Exemption, you should become subject to the Workers' Compensation provisions of the Labor Code, you must forthwith comply with such provisions or this permit shall be deemed revoked.

DIVISION OF INDUSTRIAL SAFETY PERMIT CERTIFICATION

☐ I hereby certify that no excavation five (5) or more feet in depth into which a person is required to descend, will be made in connection with work authorized by this permit, and that no building structure, scaffolding, falsework, or demolition or dismantling thereof, will be more than thirty-six (36) feet high. (Chap. 3.2, Grp 2, Art 2, Sec 341, Title 8, C.A.C.).

☐ As owner-builder, I will not employ anyone to do work which would require a permit from the Division of Industrial Safety, as noted above, unless such person has a permit to do such work from the division.

☐ Division of Industrial Safety Permit No. _____

CONSTRUCTION LENDING AGENCY: I hereby affirm that there is a construction lending agency for the performance of the work for which this permit is issued (Sec. 3097, Civ. C.).

Lender's Name _____

Lender's Address _____

CERTIFICATE OF COMPLIANCE AND AUTHORIZATION OF ENTRY: I certify I have read this application and state that the information given is correct. I agree to comply with all state laws and city ordinances relating to building construction, and authorize a representative of the Department of Building and Safety to enter upon the property for which I have applied for this permit for the purpose of making inspections.

Buffalo Grove, Illinois 60099

RE: **Underground Fuel Tank Closure Report**
Federal Express RIV Facility
280 W. Valley Boulevard, Rialto, California

Dear Mr. Zebovitz:

Groundwater & Environmental Services, Inc. (GES) is pleased to provide Federal Express (FedEx) with this underground storage tank (UST) closure report for the UST located at 280 W. Valley Boulevard in Rialto, California (Figure 1). The tank closure was performed under permit from the San Bernardino County Fire Department (SBCFD) and the City of Rialto. No evidence of a release of fuel from the UST or fuel system was found, and all laboratory results were reported as none detected

BACKGROUND

GES was contracted by FedEx to oversee the removal of the UST and associated piping. The 10,000-gallon UST was used to store unleaded gasoline for the fueling of company vehicles. GES subcontracted Jenal Engineering (Jenal), a licensed petroleum contractor to remove the UST.

TANK REMOVAL ACTIVITIES

On August 23, 2005, Jenal exposed the UST and product lines and prepared them for removal. A copy of the San Bernardino County application for removal of underground storage tank, and City of Rialto Fire Department permit is presented in Appendix A. The UST monitoring console and card reader were left on site to be salvaged by FedEx. The UST was observed to be in good condition, and no signs of previous repair or damage were observed. Nieto & Sons Trucking, Inc. was contracted to clean the tanks and the rinsate was transported to DeMenno Kerdoon. The hazardous waste manifest #24386564 is included in Appendix B. The inspection with the City of Rialto Fire Department and SBCFD was scheduled for the morning of August 24, 2005. Upon arrival of the City of Rialto Fire Department Inspector Ms. Kerri Vansickle, 150 pounds of dry ice were placed into the UST as directed by Inspector Vansickle. The purchase receipt for the 450 pound shipment that the 150 pounds of dry ice originated from is provided in Appendix C, as specifically requested by Ms. Catherine Richards of the Hazardous Materials Division of the SBCFD. The UST was removed from the tankpit and loaded onto a trailer and transported by Nieto & Sons Trucking to Ecology located in Santa Fe Springs, California, for disposal. The dispensers and double-walled fiberglass product lines were also removed. Product piping and under dispenser pans were observed to be in good condition, with no indication of leaking connections or damage. The tank disposal form is also included in Appendix B.

HYDROLOGIC CONDITIONS

The subject site is located within the California Regional Water Quality Control Board (RWQCB) Santa Ana Region (8). The Basin Plan for this region indicates the subject site is located in the Colton Hydrologic Subarea (801.44), of the Colton-Rialto Hydrologic Area within the Santa Ana River Hydrologic Unit. The Colton Hydrologic Subarea has beneficial uses for municipal and domestic supply, agricultural supply, industrial service supply and industrial process supply. GES attempted to identify depth to groundwater at the site, however the GeoTracker website, a state maintained database, did not have depth to water information for any of the LUFT cases in the area of the site.

GEOLOGIC CONDITIONS

According to the Geologic Map of California, 1977, (Map No. 2), the subject site is underlain by alluvium, lake, playa, and terrace deposits, unconsolidated and semi-consolidated, deposited during the Quaternary Age. These deposits are composed of light brown to brown, poorly sorted, subangular to well rounded, sand, silt, gravel and cobbles. Artificial fill material (sand and gravel) was encountered around and under the UST to a depth of approximately 14 feet below ground surface (bgs). Native materials exposed on the sidewalls of the excavation and trenches, consisted of sand and gravel.

FIELD SAMPLING ACTIVITIES

Under the direction of the Environmental Health Specialist, seven soil samples were collected by Mr. Sean Roy of GES under the supervision of Mr. John Royal, a California Professional Geologist. Two samples were collected from below the north (T1N) and south (T1S) end of the UST in the tank pit. The tank pit samples were collected from the bucket of the backhoe used during the excavation of the UST at depths of thirteen feet and fourteen feet, respectively. Soil samples were collected from below the north (D1) and south (D2) dispensers at a depth of approximately 2.5 feet bgs. GES also collected a soil sample from below the product piping (P1) between the dispensers and the tank pit, at a depth of three feet. The dispenser and piping samples were collected with a hand auger. At the request of Catherine Richards the pea gravel removed from the UST excavation was sampled for petroleum hydrocarbons (SP1 and SP2). The locations of the fuel system components and the sample locations are presented on Figure 2. Photographs taken during the removal process are provided in Appendix B.

LABORATORY RESULTS

The soil samples were transported to Advanced Technology Laboratory in Signal Hill, California, under standard chain-of-custody procedures. The soil samples were analyzed for total petroleum hydrocarbons (TPHg) by EPA method 8015 Modified for carbon range C_6-C_{12}. The samples were also analyzed for benzene, toluene, ethylbenzene, and xylene (BTEX) and the fuel oxygenates Methyl-tert-butyl Ether (MTBE), Di-isopropyl Ether (DIPE), Ethyl tert-Butyl Ether (ETBE), tert-Amyl Methyl Ether (TAME), and tert-Butanol (TBA) by EPA 8260B.

Laboratory results for all soil samples from the UST, fuel system and the stockpiled soil were below the respective laboratory detection limits. The laboratory reports with chain-of-custody forms are presented in Appendix D. Analytical results are presented in Table 1. Results for TPHg are presented in mg/kg. Results for BTEX and fuel oxygenates are presented in µg/kg.

TABLE 1: Analytical Results for TPHg, BTEX, and Oxygenates in Soil

Sample ID	Date Sampled	EPA Method 8015m (mg/kg) TPHg	EPA Method 8260B (µg/kg)								
			Benzene	Ethyl-benzene	Toluene	Xylenes	MTBE	DIPE	ETBE	TAME	TBA
T1N	8/24/05	<1.0	<5.0	<5.0	<5.0	<10	<5.0	<5.0	<5.0	<5.0	<100
T1S	8/24/05	<1.0	<5.0	<5.0	<5.0	<10	<5.0	<5.0	<5.0	<5.0	<100
D1	8/24/05	<1.0	<5.0	<5.0	<5.0	<10	<5.0	<5.0	<5.0	<5.0	<100
D2	8/24/05	<1.0	<5.0	<5.0	<5.0	<10	<5.0	<5.0	<5.0	<5.0	<100
P1	8/24/05	<1.0	<5.0	<5.0	<5.0	<10	<5.0	<5.0	<5.0	<5.0	<100
SP1	8/24/05	<1.0	<5.0	<5.0	<5.0	<10	<5.0	<5.0	<5.0	<5.0	<100
SP2	8/24/05	<1.0	<5.0	<5.0	<5.0	<10	<5.0	<5.0	<5.0	<5.0	<100

Bold = Laboratory result above detection limit.

DISCUSSION

During the UST and fuel system removal, no indications of a release of fuel such as odor or soil discoloration were noted. All laboratory results for soil samples from the UST fuel system and stockpiled soil were below detection limits for all samples.

CONCLUSION

No petroleum impacted soil was encountered in any of the samples taken below the UST, dispensers, product piping or tank pit excavation stock pile. Additionally no impacted soil was observed during the uncovering, excavation or removal process. GRS recommends no further remediation activities be considered for the subject site.

If you have any questions or concerns regarding this report, please contact the undersigned at your convenience at (619) 299-0033.

Sincerely,
Groundwater & Environmental Services, Inc.

SUBJECT: REMOVAL OF ONE UNDERGROUND STORAGE TANK AT THE FEDERAL EXPRESS CORPORATION, LOCATED AT 280 W. VALLEY BLVD, RIALTO, CALIFORNIA

The Department has reviewed the closure report submitted by Groundwater and Environmental Services, Inc. dated October 26, 2005. The results of the soil sampling activity conducted on August 24, 2005 indicate that further investigation is not warranted at this time.

It is important to note that this letter cannot be construed as a release of liability for the site or declaration that the site is free of contamination. Should further projects or environmental investigations reveal additional contaminants on site you will be responsible and held liable for the investigation and remedial actions.

If you have any questions, please call me at (909) 386-8419.

Equipment Description:

Fuel Storage and Dispensing Facility Consisting of:

1) 4 - GASOLINE DISPENSING NOZZLES, EQUIPPED WITH PHASE II VAPOR RECOVERY SYSTEM, BALANCE RETRACTOR (G-70-52-AM).

2) 1 - GASOLINE UNDERGROUND STORAGE TANK, 10,000-GALLON CAPACITY, EQUIPPED WITH PHASE I VAPOR RECOVERY SYSTEM (G-70-97-A), NOT METHANOL COMPATIBLE.

Conditions:

1. OPERATION OF THIS EQUIPMENT SHALL BE IN COMPLIANCE WITH ALL DATA AND SPECIFICATIONS SUBMITTED WITH THE APPLICATION UNDER WHICH THIS PERMIT WAS ISSUED, UNLESS OTHERWISE NOTED BELOW.

2. THIS EQUIPMENT SHALL BE PROPERLY MAINTAINED AND KEPT IN GOOD OPERATING CONDITION AT ALL TIMES.

3. EXCEPT FOR DIESEL TRANSFERS, PHASE I VAPOR RECOVERY SYSTEMS SHALL BE IN FULL OPERATION WHENEVER FUEL IS BEING TRANSFERRED INTO STORAGE TANKS.

4. EXCEPT FOR DIESEL TRANSFERS, PHASE II VAPOR RECOVERY SYSTEMS SHALL BE IN FULL OPERATION WHENEVER FUEL IS BEING TRANSFERRED INTO MOTOR VEHICLES, AS DEFINED IN RULE 461.

5. ALL PHASE I AND PHASE II VAPOR RECOVERY EQUIPMENT AT THIS FACILITY SHALL BE INSTALLED, OPERATED AND MAINTAINED TO MEET ALL CALIFORNIA AIR RESOURCES BOARD CERTIFICATION REQUIREMENTS.

6. PHASE II VAPOR RECOVERY SYSTEMS SHALL BE INSTALLED, OPERATED, AND MAINTAINED SUCH THAT THE MAXIMUM ALLOWABLE PRESSURE DROP THROUGH THE SYSTEM INCLUDING NOZZLE, VAPOR HOSE, SWIVELS, AND UNDERGROUND PIPING DOES NOT EXCEED THE DYNAMIC BACK PRESSURE RATES DESCRIBED BY THE CALIFORNIA AIR RESOURCES BOARD EXECUTIVE ORDER BY WHICH THE SYSTEM WAS CERTIFIED:

AQMD

South Coast Air Quality Management District
Certified Copy
FILE COPY

CONTINUATION OF PERMIT TO OPERATE

NITROGEN FLOWRATES (CFH)	DYNAMIC BACK PRESSURE (INCHES OF WATER)
20	0.15
60	0.45
100	0.95

BY DECEMBER 31, 1998, AND AT LEAST ONCE EVERY FIVE CALENDAR YEARS THEREAFTER, DYNAMIC BACK PRESSURE TESTS SHALL BE CONDUCTED TO DETERMINE THE PHASE II SYSTEM VAPOR RECOVERY BACK PRESSURE RATES. THE TESTS SHALL BE CONDUCTED IN ACCORDANCE WITH CARB TEST PROCEDURE METHOD TP-201.4. RESULTS SHALL BE SUBMITTED TO THE DISTRICT, OFFICE OF ENGINEERING AND COMPLIANCE, WITHIN THIRTY (30) DAYS OF TESTS.

THE AQMD SHALL BE NOTIFIED AT TELEPHONE NUMBER (909) 396-3886 AT LEAST TWENTY-FOUR HOURS PRIOR TO TESTING. SUCH NOTIFICATION SHALL INCLUDE THE NAME OF THE OWNER OR OPERATOR; THE NAME OF THE CONTRACTORS; THE LOCATION OF THE FACILITY; AND THE SCHEDULED START AND COMPLETION DATES OF THE DYNAMIC BACK PRESSURE TEST.

7. BY DECEMBER 31, 1998, AND AT LEAST ONCE EVERY FIVE CALENDAR YEARS THEREAFTER, A STATIC PRESSURE LEAK DECAY TEST SHALL BE CONDUCTED TO DEMONSTRATE THAT THE STORAGE TANKS, THE REMOTE AND/OR NOZZLE VAPOR RECOVERY CHECK VALVES, ASSOCIATED VAPOR RETURN PIPING AND FITTINGS ARE FREE FROM VAPOR LEAKS. THE TEST SHALL BE CONDUCTED IN ACCORDANCE WITH CARB TEST PROCEDURE METHOD TP-201.3. RESULTS SHALL BE SUBMITTED TO THE AQMD, OFFICE OF ENGINEERING AND COMPLIANCE, WITHIN THIRTY (30) DAYS OF TEST.

   THE AQMD SHALL BE NOTIFIED AT TELEPHONE NUMBER (909) 396-3886 AT LEAST TWENTY-FOUR HOURS PRIOR TO TESTING. SUCH NOTIFICATION SHALL INCLUDE THE NAME OF THE OWNER OR OPERATOR; THE NAME OF THE CONTRACTORS; THE LOCATION OF THE FACILITY; AND THE SCHEDULED START AND COMPLETION DATES OF THE STATIC PRESSURE LEAK DECAY TEST.

8. IF THE CARB EXECUTIVE ORDER REQUIRES THE INSTALLATION OF A LIQUID REMOVAL DEVICE, A LIQUID REMOVAL RATE TEST SHALL BE CONDUCTED TO DEMONSTRATE THE REMOVAL OF GASOLINE FROM THE VAPOR PASSAGE OF THE COAXIAL HOSE. THE TEST SHALL BE CONDUCTED WITHIN THIRTY DAYS OF INITIAL INSTALLATION AND IN ACCORDANCE WITH CARB TEST PROCEDURE METHOD TP-201.6. RESULTS SHALL BE SUBMITTED TO THE AQMD, OFFICE OF ENGINEERING AND COMPLIANCE, WITHIN THIRTY (30) DAYS OF TEST.

   THE SCAQMD SHALL BE NOTIFIED AT TELEPHONE NUMBER (909) 396-3886 AT LEAST TWENTY-FOUR HOURS PRIOR TO TESTING. SUCH NOTIFICATION SHALL INCLUDE THE NAME OF THE OWNER OR OPERATOR; THE NAME OF THE CONTRACTORS; THE LOCATION OF THE FACILITY; AND THE SCHEDULED START AND COMPLETION DATES OF THE LIQUID REMOVAL RATE TEST.

9. ALL RECORDS AND TEST RESULTS THAT ARE REQUIRED TO BE MAINTAINED BY RULE 461 SHALL BE KEPT ON SITE AND MADE AVAILABLE TO DISTRICT REPRESENTATIVES UPON REQUEST.

South Coast Air Quality Management District
Certified Copy
FILE COPY

CONTINUATION OF PERMIT TO OPERATE

10. THE MAXIMUM QUANTITY OF GASOLINE DISPENSED FROM THE STORAGE TANKS AT THIS FACILITY SHALL NOT EXCEED 300000 GALLONS IN ANY ONE CALENDAR MONTH NOR 3600000 GALLONS IN ANY ONE CALENDAR YEAR.

11. RECORDS OF MONTHLY AND ANNUAL FUEL DISPENSED SHALL BE PREPARED, SHALL BE RETAINED ON SITE FOR TWO YEARS, AND SHALL BE MADE AVAILABLE TO DISTRICT REPRESENTATIVES UPON REQUEST.

NOTICE

IN ACCORDANCE WITH RULE 206, THIS PERMIT TO OPERATE OR COPY SHALL BE POSTED ON OR WITHIN 8 METERS OF THE EQUIPMENT.

THIS PERMIT DOES NOT AUTHORIZE THE EMISSION OF AIR CONTAMINANTS IN EXCESS OF THOSE ALLOWED BY DIVISION 26 OF THE HEALTH AND SAFETY CODE OF THE STATE OF CALIFORNIA OR THE RULES OF THE AIR QUALITY MANAGEMENT DISTRICT. THIS PERMIT CANNOT BE CONSIDERED AS PERMISSION TO VIOLATE EXISTING LAWS, ORDINANCES, REGULATIONS OR STATUTES OF OTHER GOVERNMENT AGENCIES.

STATEMENT OF QUALIFICATIONS FOR HEI CORPORATION

HEI CORPORATION

HEI Corporation was established in 1994 to respond to a need that exists in the environmental industry. There were many outstanding "full service" environmental firms in Southern California. Very few, however, specialized in performing Phase I Environmental Site Assessments (ESA's). For many firms, the ESA was and is approached as a way of positioning themselves to get any additional work recommended therein. This had led many to recognize the inherent conflict of interest that this represents. HEI Corporation eliminates this potential conflict in that no other environmental services are offered.

HEI Corporation, which also does business as Hayden Environmental, recognizes the importance of an ESA. The company was formed with the expressed purpose of providing the best, most complete, most thoroughly researched report available. At HEI Corporation, our fees are always competitive. Also, because we are not in the business of conducting Site Investigations (phase II's) there is no undue incentive to recommend them.

Our assessments are grounded in a solid understanding of the primary function of an ESA. Liability for environmental contamination can be expensive and time consuming in the extreme. While there is no guarantee that it will, an ESA is designed to allow a party coming into possession of real property, either as a tenant, buyer or lender forced to foreclose, to avail themselves of the "innocent landowner" defense. ESA's can also be a very valuable tool for an owner or tenant to establish a baseline condition of a property proper to the commencement of a lease.

Hayden Environmental has researched the law and adheres to the standards for environmental assessments promulgated by the ASTM Designation E 1527-13.

All Hayden Environmental Phase I assessments will include these five basic components:

- Subject property inspection and surrounding property observation
- Federal, state, tribal and local agency environmental database review
- County and /or municipal government record review
- Historical use review using aerial photographs, Sanborn maps and/or archive city directories
- Interviews with the current and former owners and occupants of the subject property

Hayden Environmental is fully insured, with policy coverage of $2,000,000 for Professional Liability and $1,000,000 for General Liability.

CHRISTOPHER M. HAYDEN

Chris Hayden, EP, has been in the environmental field since 1991. He began with a large multinational firm as the regional sales and marketing representative for Western U.S. He dealt primarily with firms in the energy, mining and real estate development fields. Seeking to broaden his "hands on" experience, he began working with a local firm in 1992. While there, he had the opportunity to work on a variety of projects, including environmental site assessments and site investigations. Seeing the need for a firm that specialized in conducting reliable, thorough and reasonably priced environmental site assessments while avoiding potential conflicts of interest, he formed Hayden Environmental in 1994. Hayden, through his years of experience, has earned the designation of Environmental Professional (EP) as defined in Section 40 C.F.R. § 312.10(b).

Mr. Hayden also serves on the ASTM E50 Committee which reviews, revises and enforces the standards for environmental assessments currently promulgated by the ASTM Designation E 1527-13.

Prior to 1991 Hayden had been in the real estate industry for twelve years. He last worked as an industrial real estate broker with Grubb & Ellis in Newport Beach, CA.

Hayden has a Bachelor of Arts Degree in Biology from Humboldt State University in Arcata, California. He has taken several classes in the Environmental Site Investigation and Remediation Certificated program at the University of California at Irvine.

CERTIFICATE OF LIABILITY INSURANCE

DATE (MM/DD/YYYY): 10/9/2020

THIS CERTIFICATE IS ISSUED AS A MATTER OF INFORMATION ONLY AND CONFERS NO RIGHTS UPON THE CERTIFICATE HOLDER. THIS CERTIFICATE DOES NOT AFFIRMATIVELY OR NEGATIVELY AMEND, EXTEND OR ALTER THE COVERAGE AFFORDED BY THE POLICIES BELOW. THIS CERTIFICATE OF INSURANCE DOES NOT CONSTITUTE A CONTRACT BETWEEN THE ISSUING INSURER(S), AUTHORIZED REPRESENTATIVE OR PRODUCER, AND THE CERTIFICATE HOLDER.

IMPORTANT: If the certificate holder is an ADDITIONAL INSURED, the policy(ies) must be endorsed. If SUBROGATION IS WAIVED, subject to the terms and conditions of the policy, certain policies may require an endorsement. A statement on this certificate does not confer rights to the certificate holder in lieu of such endorsement(s).
