Project Location: Taft

City

Kern

County

Project Description (Proposed actions, location, and/or consequences).

Berry Petroleum Company, LLC proposes to drill six oil and gas wells within the Midway-Sunset Oil Field- Pike Lease in Kern County. The proposed project involves pre-construction clearing and grading, expansion of three existing well pads, connect to existing electrical lines, and installation of above ground piping to connect to existing infrastructure. The project would take place on BLM administered mineral estate and surface land ownership, with ground disturbance of approximately 0.4 acres.

Identify the project's significant or potentially significant effects and briefly describe any proposed mitigation measures that would reduce or avoid that effect.

The document discusses impacts to Air Quality, Biological Resources, Greenhouse Gas Emission, Water Quality, Water Supply/ Groundwater, Tribal Cultural Resources. Compliance with Local, State Regulations, and the project design features would reduce these effects to less than significant.

If applicable, describe any of the project's areas of controversy known to the Lead Agency, including issues raised by agencies and the public.

Areas of controversy include impacts to Air Quality, Biological Resources, Greenhouse Gas Emissions, Water Quality, Water Supply/Groundwater, and Tribal Cultural Resources.

Provide a list of the responsible or trustee agencies for the project.

U.S. Department of the Interior, Bureau of Land Management, Bakersfield Office
United States Fish and Wildlife Service, Region 8
California Department of Fish and Wildlife, Region 4
Kern County Planning and Natural Resources Department
San Joaquin Valley Air Pollution Control District
Central Valley Regional Water Quality Control Board
